The News Condenser.

The opponents of the high protective tariff, which passed the House last July, have shown that it has frequently occurred that when the duty was high the price of the domestic article was lower than when the duty was low. Hence they argue that low duties give high prices for the domestic article.

The *Clarion*, the official paper of Mississippi, states that there are no laws in force in that State which prohibit freedmen from acquiring real estate; but, on the contrary, they purchase, and the courts decide the purchases valid; nor are they prevented bearing arms, no license being required.

A mysterious and diabolical affair has just come to light in Boston. On Friday last a box was shipped as merchandise at Philadelphia for this port, on the steamer Saxon, and marked "Edward Mason, Portland, Maine." The shipper said it would be claimed at Boston. The box was accidentally broken open here, and on examination found to contain three dead bodies, two men and a woman, apparently aged about thirty-five years. The throats of the woman and one of the men had been cut, but no mark of violence was discovered on the other. The police believe they were all murdered.

The opposition to the re-election of Judge Trumbull to the United States Senatorship from Illinois, is endeavoring to have the secret ballot system adopted in caucus, hoping thus to secure enough votes of those pledged to support the Judge, to insure its defeat.

The Washington correspondent of the Cincinnati *Enquirer* says: Hon. Joseph Segur, Senator elect from Virginia, has written a letter to the Baltimore *Sun*, in which he substantially confirms what I stated in my dispatch of the 24th instant, relative to the adoption of the constitutional amendment by the Virginia Legislature. I learn from a well posted politician in Richmond that Mr. Segur's statement is well founded; but, on the other hand, we have received several letters from prominent citizens of Virginia, asserting positively that Mr. Segur had no assurance from members of the Legislature, as he claims to have had.

A large fire occurred at Richmond, Indiana, on the morning of the first, causing the destruction of a large amount of property. The pork house of Vanneman, Reed, & Co. was destroyed, whose loss is about $150,000 with light insurance. Two years ago the same firm suffered a similar loss.

Judge Magruder, of Maryland, has been arrested, and held to bail for $2,000 to appear before the spring term of the United States District Court, for resisting the civil rights bill, for refusing to receive negro testimony, and for selling colored persons into slavery as punishment for crime.

General Grant has ordered the Tenth and Eleventh Regiments—all the military about Richmond—to some other point. The General asks that one regiment may be retained there.

The great suspension bridge at Cincinnati was finally opened for the passage of trains yesterday, the 10th inst. The vehicles of the Adams, American and Merchants Union Express Companies and General Strader's omnibus, were the first to cross. The ceremony was witnessed by an immense crowd.

General S. C. Robinson, now in temporary command of the Department of the South, in a general order, dated December 22, announces that the President has ordered the revocation of the second paragraph, given below, of Gen. Sickles' order of October 1, 1866. These are the paragraphs about which so much has been said pro and con, in the newspapers, and for the revocation of which the President has been so fiercely assailed in some journals: 1. Corporal punishment upon any person other than to the minor, and these only, by the parent, guardian, teacher or one to whom said minor is bound by indenture of apprenticeship, nor shall any person be sold to service as a punishment for crime, or other cause, by any authority whatever. 2. The laws of the State respectively in this department defining and punishing vagrancy applicable to white persons; nevertheless no one who shall have reasonable diligence to obtain employment, or shall be unable to work by reason of infirmity, shall be deemed a vagrant.

A case involving the constitutionality of the civil rights bill will be brought before the Supreme Court this term, on an appeal from the Court of Appeals of Maryland.

The newspapers in Chicago suspended publication Tuesday, in honor of the New Year.

The Congressional party arrived at Grand Junction, Mississippi, safely on the morning of the 31st of December, on the trip from New Orleans. Citizens along the route called on the party. A general exchange of opinions occurred. The best classes of Southern people called on the party. All seemed devoted to the work of reconstruction, and all express themselves ready to do anything consistent with honor to obtain representation in the National Congress.

A monument is to be erected in Louisville in memory of President Lincoln. Governors Oglesby, of Illinois, Cox, of Ohio, Bramlette, of Kentucky, and Morton, of Indiana, have been invited to participate in the inaugurating ceremonies.

ALL SORTS OF PARAGRAPHS.

Four thousand houses have been built in Cleveland, Ohio, this year, and yet they need more.

Kentucky owes between $5,000,000 and $6,000,000, and will have funds to pay over $4,000,000 of the debt by the first of the new year.

Gossip reports the speedy return of General McClellan from the continent, and that he will reside at his country seat in Orange, New Jersey.

A pastor of one of the Methodist churches in Brooklyn was presented on Christmas day with a baked potato, in which was enclosed a $500 greenback.

Miss Sallie A. Stockwell, a Mississippi lady, was literally "taken by surprise" one day last week. The way of it was this: She married a man by the name of John B. Surprise.

General Butler writes to a man at Detroit to say that "the annexation or absorption of the Canadas is both necessary and inevitable to the future welfare of the United States Government."

The old Catholic cathedral in San Antonia, Texas, which has "braved the battle and the breeze" for over two hundred years, is to be torn down and a new one erected in its stead.

Mr. Alexander, the horseman of Kentucky, is winning about all the stakes on the Metaire course in New Orleans. His Lexington "gets" outrun all competitors.

A Scotch Earl, Lord Fife, gave Madame Vestris a thousand guineas to allow a cast to be taken of her leg. The Earl died, and this cherished leg was sold recently for half a crown.

One year from marriage makes a paper wedding; five years make a wooden wedding; ten years a tin wedding; twenty-five years a silver wedding; fifty years a gold wedding, and seventy-five years a diamond wedding.

The Pope has written an autograph letter to the King of Prussia, thanking him for his kind exertions in the interest of the *protesta temporale*, and also for the handsome present of five hundred needle guns just received from Berlin.

It is reported that a certain radical Senator appears in the Senate chamber under his usual excitement. It might be added that he has no patent on his excitement. It can be obtained at any respectable barkeeper's for twenty cents a glass.

The largest piece of plate glass in the country has been placed in the window of one of the alcoves in the Massachusetts State House, containing the State battle flags. It measures twelve feet four inches by seven feet seven inches.

Brown, Darcy McGee's literary adversary in Canada, says: "If McGee don't sympathise with Fenianism, he is the only Irishman in the Province that is so destitute of all home feeling as not to be;" in reply to which McGee calls Brown a villian.

Josh Billings says of owls: "The owl is a game burd; he can whip anything that wears feathers—after dark. He is a sollem burd, a cross between a justice of the peace and a county supervisor. He is an attentive burd, and durin' the day can alwuz be found in."

It is stated that in Vermont one couple out of every eleven that are married subsequently gets a divorce. When it is known that there are many more applications for divorces than are granted, the amount of matrimonial felicity in that State can not be regarded as extraordinarily great.

Twenty-five farms have been sold in one section of Alabama for the low price of $1 per acre. A failure of crops caused creditors to force sales. One of the sales thus made was a plantation of six hundred acres for $600. Before the war its owner had three hundred and fifty slaves and forty horses.

The Fenian Colonel Lynch is cursed by the Irish of Buffalo for his letter refusing the Christmas contributions. They say he is "a blower," was acting in a servant's capacity when captured, and that the story of his being a reporter was trumped up.

The proprietor of a mammoth distillery at Pittsburg has just made a return for the closing year, from which it appears that the amount of whisky shipped by him in bond amounts to 262,076 gallons. The United States revenue tax on this, at $3 per gallon, amounts to $5,214,158, and city tax amounts to $160,765, making a total in the way of taxes of $684,923. It is probable that these figures can be exceeded by very few persons in the United States.

All the water used by the inhabitants of Massays—a town of 2,000—in Nicaragua, is brought from a lake in the mountains some two miles distant. It has been the custom for the past three hundred years to convey the water to the town in five gallon earthen jars, which are carried on the heads of women, about six hundred being thus employed. A company is forming in New York to supply the town and erect water works.

The services of able and experienced instructors have been secured for the occasion, and teachers may be assured that every effort will be made to render the time spent here by them both pleasant and profitable. Those expecting to attend will please send in their names to me at once in order that suitable boarding places may be secured. The teachers of colleges and high schools in the county are especially invited to attend and assist in conducting the Institute.

I now have blanks which comply strictly with the new regulations. They are already filled out from the facts on the first applications, and are now in my office, only waiting the necessary signatures.

Those who have not yet made application for this bounty, will now find it to their interest to do so immediately, as the Pay Department has directed all such claims to be filed within a limited time.

BIBLE HOUSE, ASTOR PLACE, N. Y.—In the early part of February, 1865, I was suffering from a violent cough, for which I had been treated during six months previously without benefit. I had Night-Sweats which completely prostrated me. In the evening, hoarseness would come on, which would prevent me from speaking above a whisper. I had then had two attacks of bleeding from the lungs. My family Physician assured me that he could do no more for me. I was growing rapidly worse, and had been compelled to leave business for nearly two months. All my symptoms indicated, unmistakably the presence of CONSUMPTION. In the beginning of February, Mr. Henry Fisher, Treasurer of the American Bible Society, presented me with a bottle of the PREPARED PRESCRIPTION. In a few days, my appetite, (which I had entirely lost,) returned; within a week, my cough had almost left me; and in less than two weeks, the Night-Sweats were broken up. Thenceforward I regained strength rapidly, and am now regularly attending to my duties as clerk to the American Bible Society, in whose employment I have been nine years. I am now enjoying good health. Your PRESCRIPTION effected a CURE, when my friends despaired of my recovery.

THOS. J. CONGER.

"I have had Nervous or Spasmodic Asthma for eleven years. During the last six years I have never had an uninterrupted night's rest. It often seemed to me that I would die before I could get air into my lungs. I suffered so greatly from 'shortness of breath,' that I was compelled to take frequent rests in walking from my residence to my place of business.

"The night before I obtained the 'Prepared Prescription,' was the worst I ever passed. On obtaining the remedy, I took a teaspoonful at noon and again at night, and slept all night without waking. I have not had a broken night's rest since. * * * I have now completely recovered my strength and spirits, and am not at all afflicted with 'shortness of breath.' I shall be glad to have any one afflicted with Asthma, call and see me.—EZRA C. LANGDON, No. 334 Fourth st., N. Y."

The "PREPARED PRESCRIPTION" is put up in a $1 bottle, and is sold by Druggists generally, or orders may be addressed to the sole proprietors, OSCAR G. MOSES & co., 27 Courtlandt St., N. Y. MAGNETISM is the vital principal of life. When by transgressing the laws of nature we impair the workings of that beautiful mechanism which God made perfect, nature, through her great Electrical Battery, makes a powerful effort to remove the impediment which clogs the circulation of the magnetic forces. To assist Nature, use the "Electro Magnetic Fluid," prepared by the Swain Manufacturing Company, which is nothing less than Electricity in liquid form, and is undoubtedly the most wonderful as well as most useful chemical discovery of this age of fruitful research. It is composed of the most powerful ingredients known to chemistry, and when combined by this, the only known process, and applied to the human form, it supplies the deficiency of magnetic power, needed to banish disease.

Palsy of long standing, Scrofula, and Epileptic fits have been cured in a few minutes, while Rheumatism and Neuralgia, those giant diseases which have for ages baffled medical skill, and caused untold suffering, yield at once to the healing influence of this powerful fluid. It is warranted to heal the following diseases when used according to directions *as a bathing lotion*: Rheumatism, Neuralgia, Palsy, Fits, Swelled Joints, Scrofula, Stiff Limbs, Spasms, Deafness, Cancer, White Swelling, Salt Rheum, Sore Eyes, Female Weak Back, Spinal Affections, Prolapsus, and other Female Diseases.

Remember that its use involves no long tedious, uncertain, and costly experiment, but its good effects will be seen almost instantly while in no case can it possibly do harm.

Send to the proprietors for circular containing certificates from well known citizens of remarkable cures, effected by this medicine after all other remedies had failed to relieve.

One bottle will be sent to any part of the United States on receipt of one dollar.

TESTIMONY OF MEDICAL MEN

STONEY POINT, WHITE CO., ARK., May 23, 1866.

DR. JOHN BULL—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, had been down with rheumatism for some time. I commenced on the Bitters, and soon found his general health improved.

Dr. Gist, who had been in bad health, tried them, and he also improved.

Dr. Coffee, who had been in bad health for several years—STOMACH AND LIVER affected—he improved very much by the use of your Bitters. Indeed the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall—especially of your Cedron Bitters and Sarsaparilla. Ship me, via Memphis, care Rickett & Neely.

Respectfully,
C. B. WALKER.

MIDDLETOWN, IND., April 26, 1866.

MR. M. L. DUPLAN writes: I do not know that Bull's Worm Destroyer needs any more recommendations than it has already attained by its own merits, but will state that my little son, aged about three years, was severely attacked last fall and winter with light chills, followed by very high fever, throwing him into spasms, or perhaps more properly FITS, lasting from half an hour to one and a half hours; at the same time the child had very strong symptoms of worms. My physician—one of the best in this part of the country—exhausted all his skill and the Materia Medica to expel the worms, and entirely failed to bring any. I thought "John Bull" could do it, and give the child the contents of three boxes, in triple doses, night and morning, with happy results. The child has not had a spasm for over three months, and instead of the bloated mass that he was, he is now well and hearty. "John Bull did it."

Yours, truly,
M. L. DUPLAN.

A CALL FROM DISTANT MINNESOTA.

KINGSTON P. O., MEEKIS CO., MIN., April 7, 1866.

MR. JOHN BULL—Dear Sir: I moved from Kentucky to this place. The stores have none of your Worm Destroyer for sale. They are greatly needed here in Minnesota. A trial is all that is needed to give them a reputation. We can't do without them. Do send some on this way.

Yours, sincerely,
D. G. ARROWOOD.

A Good Reason for the Captain's Faith.

READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER.

BENTON BARRACKS, MO., April 30, 1866.

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case:

I was wounded about two years ago; was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not sat up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in any thing else. I wish that that is genuine. Please express me half dozen bottles, and oblige

CAPT. C. P. JOHNSON,
St. Louis, Mo.

P. S.—The following was written April 30, 1865, by Mrs. Jennie Johnson, mother of Capt. Johnson:

DR. BULL—Dear Sir: My husband, Dr. C. S. Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhea and scrofula, for which I gave him your Sarsaparilla. IT CURED HIM. I have for ten years recommended it to many in New York, Ohio, and Iowa, for scrofula, fever sores, and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing it. Hito you for wounds were terrible, but I believe he will recover.

Respectfully,
JENNIE JOHNSON.

SMITH'S TONIC SYRUP!

FOR THE CURE OF

AGUE AND FEVER

OR

CHILLS & FEVER.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies offered to the public, for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and South-western country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.
