There is danger that before we get through with the proposed changes in taxes every thing we have and have will be taxed except our complaints.

Some of the people can fool you all the time and all of the people can fool you some of the time, but the most of the time we have to fool ourselves.

The courts have granted permission for the Wabash Railroad Company to borrow eighteen million dollars. Now all they have to do is to find some one with the money.

We can't be blamed for wondering what its all about when we read in the same newspaper on the same day that "America's fastest battleship is to be scrapped" and that "congress is asked for $700,000,000 for new warships."

While it is probably necessary to reduce salaries and wages it should be a matter of absolute fairness and good judgment. In other words capital ought to be as square now as they expect labor to be in normal times.

Its funny the United States always has to do business at a loss. It has just been reported that the U. S. shipping board lost over eight million dollars in its recent sales of United States shipping lines to a syndicate. No wonder we are all hard up.

If the kidnapers really get hold of Charley Dawes they will hear some language that will make them think that wise stuff they crack is just baby talk. While we doubt if they ever seriously considered the plan, its alright to make the federal law as to such a crime as severe as permissable.

Attorney General Ogden has ruled that county school superintendents do not have the power to approve state aid claims except in an advisory capacity. One by one the powers of local officials are being taken away and one of these days we won't have any. And that's going to be a sorry era for the Hoosiers.

Won't you please renew your subscription to the Daily Democrat? We will continue to make every effort to furnish you with all the local news as well as the most important happenings in the state, nation and the world. We are charging you less than the cost of the material and postage and we want you to continue as a reader and supporter of the home paper.

There is one thing about all these plans that are being made to loan money to the farmers, railroads, insurance companies, banks and others that should be kept in mind and that is that sooner or later we must pay. A lot of folks see it serious difficulties now because they used credit. Hold the loans down to the lowest point possible, no difference how easy it is to get them.

Senator [illegible] Chambers is moaning [illegible] got a [illegible]. He claims New Castle [illegible] better in 1931 than in 1930. It was they were probably pretty low two years ago. He winds up his editorial however with the statement that any way we are two years nearer the end of the panic than we were two years ago and that those who hold out a little while longer will reap the profits.

It is well to remember that this is about the best time to buy you have had in two decades and that prices on every commodity, on real estate, on stocks and investments are at the low ebb, which makes this the ideal time to buy. If you have money, choose well and invest it and in a short time you will more than double your money. If you need merchandise, you can save money by buying now before the rise starts.

This, the new fourth district, will evidently have plenty of candidates for the democratic nomination for congress. Mr. Farley of Auburn, Mr. Morley of Angola and Mr. Riddle of Ray have made formal announcement of their candidacies while Mr. Adams of Columbia City has told friends that in due time he will toss in his derby. That ought to make an interesting contest and then you can't tell, there may be some other dark horses in the stable. The water is fine so come in folks.

Governor Franklin D. Roosevelt, of New York, is now an avowed candidate for the democratic nomination for President, having granted permission for the use of his name in the North Dakota primaries March 15th. That he is in the lead is admitted and unless a lot of favorite sons are put in from various states, he will probably have the nomination practically sewed up by convention time. However he will have some opposition and its far too early to predict the results. The Governor has a splendid record and is of presidential size in every way.

Coat Lining

If the lining of the coat is worn at the cuffs, buy ribbon in the same color, or in a contrasting shade, and stitch over the worn part. The cost and labor will be small.

Liquid Shampoo

A good liquid shampoo can be made by shaving a bar of castile soap in one pint of water. Allow it to simmer over fire until the soap is entirely dissolved.

Cake Baking

When the oven is getting too hot while baking a cake, place a vessel of cold water on the shelf beneath the cake. This will reduce the heat.

Q. How long may guests remain after a luncheon?

A. If they are invited for cards they may remain for the entire afternoon, or until the game is over. If there is no entertainment, guests may leave in twenty minutes.

Q. Is it good form for the bride to go with the groom when he buys the wedding ring?

A. Yes, so as to express her preference as to weight, width, and size.

Q. When is a debutant free to join the dancers at her coming-out party?

A. After the last guest has arrived.

CHURCH REVIVALS

Evangelical

The revival meeting at the First Evangelical church continues with increased interest. There will be services each night at 7 o'clock and each afternoon at 2 o'clock except Monday.

No services on Monday afternoon or night.

The pastor, Rev. M. W. Sundermann, is his own evangelist. Rev. Sundermann left for Indianapolis this afternoon where he will attend the annual meeting of the board of trustees of the Anti-Saloon League, of which he is a member, on Tuesday forenoon. He will return in time for the services on Tuesday night.

Methodist

(By C. L. Walters)

The auditorium and lecture room were both crowded to capacity at last night's service. This is the record crowd of the series. We had visitors from Muncie, Markle, Liberty Center, Portland, Montpelier, Fort Wayne, and other places.

The large crowd gave closest attention while Dr. Bulgin talked for over an hour on the text "If a man die, shall he live again?" Job 14-14.

This sermon in our judgment was the masterpiece of a series of great sermons. Dr. Bulgin is a logician. He develops his theme through a course of argument which is so all embracing and so well illustrated by story and quotation that when he quits there is nothing further to be said on the subject.

The beauty of his language was as attractive as the logic of his argument. Dr. Bulgin is a man who knows what he believes and why he believes it and has an inimitable knack of telling it.

Dr. Bulgin spoke of the mysteries in science and the world of nature all around us. The body is under physical law, the mind is under mental law and the soul is under spiritual law.

The evidence must be in the realm of proof.

Burbank looked for God in potatoes and cactus but of course did not find him. Edison looked for God in electricity and did not find Him.

The speaker said he had read some 68 books on what is life and at the end of it all about as good an answer to the question is, "It is what goes out of a man when he is dead."

What is mystery? It is unfinished knowledge. "It is the thing you don't know about a thing you know a lot about."

Genesis 1-1 is the last word. God created life each after its own kind. There is no life that does not come from antecedent life of its own kind.

If we go back to protoplasm the first cell it is as far from solution as ever. The prior history of the first cell is a mystery.

The first argument used was the unproven negative. No man can say there is no God unless he has been everywhere and knows everything.

The second argument is the universal demonstration of God's integrity.

There is light for the eye, hearing for the ear, so there must be an answer to the eternal desire in the human breast for an after life.

Science proceeds in its proofs through possibilities to probabilities and through them to certainties.

It is probable, it is possible, and by the testimony of spiritualized lives it becomes a certainty.

The third argument was that of natural law.

If man is built for two worlds then he is a fool to prepare for only one. The indestructibility of matter is another argument.

A man is born once, he may die once or twice at his own choice.

The ego, the immortality and the justice of the world and scientology were other arguments adduced by Dr. Bulgin in support of his thesis.

The morning sermon was devoted to the subject of Prayer and answered the question "Does Prayer Pay?"

The Good Words of Augustine. The soul was made to God, the soul longs for God and will never be satisfied until it rests in God.

The third argument was that of natural law.

If man is built for two worlds then he is a fool to prepare for only one. The indestructibility of matter is another argument.

A man is born once, he may die once or twice at his own choice.

The ego, the immortality and the justice of the world and scientology were other arguments adduced by Dr. Bulgin in support of his thesis.

The morning sermon was devoted to the subject of Prayer and answered the question "Does Prayer Pay?"

The afternoon service was a great service.

A number have indicated aim for prayer and the [illegible] have developed a great awakening among the people. [illegible] every church is our country's bulwark. It is [illegible] must be the great [illegible] Dr. Bulgin, the evangelist, [illegible] his leadership and [illegible] heartily.
