Clipping Expense

THE National Cigar Stands have taken cigars out of the class of luxuries. They save smokers nearly *one-half* their cigar money. Yet give them better-made, better-kept and better-quality cigars than ever before.

Tobacco itself is not immoderately expensive. The great cost of cigars always has been in the wasteful way in which they were sold. No other class of such common use passed through so many hands and was loaded with so many profits between producer and consumer.

The National plan reduces cost, *not* by reducing quality, but by cutting off all the "lost motion" in handling and all unnecessary profits. National Stands' cigars come to you *straight from the producer*.

Just to see what this means in getting quality-for-price, try this
