ADMIRAL HEADS GREECE AFTER MILITARY COUP

Pangalos Government Is Overthrown by General—Ex-Leader Held.

By United Press

ATHENS, Aug. 23.—Admiral Paul Coudouriotis has accepted the presidency of Greece after a successful revolution in which the Army and Navy, under the leadership of General Georges Condylis overthrew the Pangalos government.

Arriving in Athens Sunday night, Coudouriotis, ousted from the presidency in the revoit which raised Pangalos to power, received the following message from Condylis:

"I have the honor to inform you with emotion that the armed forces have abolished the evil tyranny which has been existing. I offer respect to the legitimate president of the republic and pray that you will assume the supreme magistracy which you held so worthily and so gloriously, for so long a time and by the will of the people."

Condylis announced that Salonika had recognized the new government.

Pangalos, who had controlled Greece for fifteen months, was taken prisoner and isolated in the military hospital at Athens.

He had been spending a vacation at the island of Spatsae, when Condylis, former minister of the interior, flew to the island to place him under arrest. Pangalos escaped, however, fleeing on a destroyer on which he had come to the island. He was pursued by another vessel, manned by revolutionary forces, and his ship surrendered.

DINNER FOR LADY ASTOR

By United Press

NEW YORK, Aug. 23.—Lady Nancy Astor, the first woman to be elected to parliament in England, will be given a dinner by the League of Women Voters here Sept. 9. She is in this country visting her old home.

Out-Talked Others; Awarded Medal

Farrington Bridwell, 15, of 1512 Spann Ave., won the Woman's Christian Temperance Union oratorical contest at Irvington M. E. Church, Wednesday night. The Technical High School sophomore received a silver medal for out-talking three opponents.

Business & Industrial NEWS

FIRM OPENS NEW STORE ON NORTH ILLINOIS STREET

Expansion of Capitol Auto Parts Company Calls for Other Quarters.

The new store of the Capitol Auto Parts and Tire Company, 821 N. Illinois St., equipped to handle a larger trade and an enlarged stock of automobile equipment, is attracting unusual business, according to Maurice Marcus, proprietor.

Demands for enlarged space some time ago made it necessary to build a large modern warehouse, and with the remodeling of the front of the store facilities are much improved in waiting on customers, Marcus said.

Special inducements are being made to customers and offers of free battery inspection, free air and water are attracting a larger number of customers, he declared.

"Our investment is large and we are handling a great deal more business this year than we did last," Marcus said.

"We are proud of the service we are giving our customers, and special offerings are being made on tires and auto parts. We have an enlarged stock of bumpers, tires, tubes, glass of all kinds, truck parts and accessories."

The company handles Capitol Special oil. It is prepared to do all kinds of battery repair work. The company handles a special Capitol batery, made by the company.

"Ten years of business, with thousands of satisfied customers has given us a reputation for fair dealings," Marcus said.

ROACHES CARRY CANCER GERMS, SAYS SCIENTIST

T. N. T. Exterminating Company Makes Specialty of Killing Pests.

A great deal of interest surrounds the results of the scientific investigations conducted by Dr. Louis W. Sambon in Italy and Iceland regarding the theory that cancer germs are being carried and spread by cockroaches, says J. V. McMillen, proprietor of the T. N. T. Exterminating Company, 905 City Trust Bldg.

"As an authority of the first rank in his field of activity, his proofs were conclusive of the malaria-mosquito theory, and it was Sambon who pointed out that the body louse is a carrier of typhus," said McMillen.

"Sambon now comes forth with a theory on cancers that he links up with his own experiments and investigations of Borrel, Fibiger and Wasskink," he said.

"Feeding rats on cockroaches infested with the worms, known as gongylonemata neoplastica, has caused the former to become afflicted with cancer.

"In Italian villages where the cancer is prevalent among animals as well as persons, it was found cockroaches abounded in great numbers in the dwellings. On the other hand, in Iceland where rats, mice and cockroaches are never seen, cancer is unknown.

"Such statements give plenty of food for thought. We ought to keep our homes and premises free from all types of germ-laden disease carriers," McMillen stated.

McMillen's company makes a specialty of exterminating all types of cockroaches, rats, mice, flies, insects and pests. He sells several types of powders and specializes in the use of hydrocyanic gas for exterminating vermin.

State Agent for Insurance Firm

Theodore Paine

Theodore Paine is now associated with H. A. Shane, State agent for the Bulldog Auto Fire Insurance Association of Chicago as a field representative of that company, and is located at 405-406 City Trust Bldg. Paine is an ex-service man, having served in the 69th Brigade during the World War. He is well-known among the insurance men of the city.

Prompt settlement of all claims has enabled the company to establish in Indiana a growing business, according to Paine. He has been associated with Shane since May.

TRI-STATE LABOR SERVICE SUCCESS DUE TO COURTESY

Employers and Applicants Well Treated by Bureau.

Courteous treatment of all applicants for positions and prompt attention to requests from employers for assistance in filling vacancies in their various departments have won success for the Tri-State Employment Service, 504-508 National City Bank Bldg. M. L. Sundt is proprietor of the concern.

Sundt explained that his employment agency insisted upon treating all applicants with the most friendly cordiality.

Courtesy Pays

"From the very moment that the applicant steps into our office we seek to give him or her our most cordial attention," he said.

"Courtesy pays well in business. People like to be received with a kindly interest in their wants. We make a careful investigation of every applicant, seeking to determine what type of work he or she is best fitted to fill. Personalized interest in every applicant has won for us a lot of friends since we began to do business.

Time Saver

"Employers have used our service and we have been able to save them lots of time and energy in interviewing applicants. We have found that employers appreciate our efforts to eliminate a lot of annoying telephone solicitation calls."

Carefully compiled lists of applicants are sent out to a large mailing list each week by the company, giving concise data on each applicant for a position.

"We've got to know who we are sending to you" is one of the planks of the service's business creed.
