GAVE HER STRENGTH

Mrs. Miller Says That is What Lydia E. Pinkham's Vegetable Compound Did For Her—Read Her Letter—

Minneapolis, Minn.—"I was run down and nervous, could not rest at night and was more tired in the morning than when I went to bed. I have two children, the youngest three months old, and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from my milk so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."—Mrs. A. L. Miller, 2033 E. 24th St., Minneapolis, Minn.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help this woman it will help any other woman who is suffering in a like manner.

DOUGLAS FAIRBANKS AT BIJOU THEATRE

If even the thought of an opal ring caused the cold shivers to dance from one end of your spine to the other and the sister of one of the rainbow colored gems developed an immediate desire in your make-up to run a mile, and you suddenly discovered that the girl you hoped to marry just adored opals and insisted on that character of a stone as an engagement present, what would you do?

Douglas Fairbanks has found the solution in his latest United Artists production, "When the Clouds Roll By," which will be shown at the Bijou theatre, Monday, Tuesday, Wednesday and Thursday, because it is one of the big obstacles in his path to happiness, just the same as a score of other superstitions which follow him from one end of the picture to the other.

NEWSPRINT TO GO TO 15c A POUND

CINCINNATI, O., April 10.—Bryant Venable, vice president of the White Sled Paper Company, having vast paper warehouses and stocks in all the principal cities of the United States, in an address before the Advertisers Club of this city predicted a further marked rise in the price of newsprint throughout America by June 15 to 15 cents per pound.

Mr. Venable stated further that "the price of news print and paper in general will never return to the pre-war basis because general conditions will never return."

Printing ink and paper must carry the burden of salesmanship until normal conditions are restored. Since 1914 the price of news print, according to Mr. Venable, has risen from 2 cents to 12 cents per pound, and will continue to rise, regardless of efforts otherwise.
