Solon Chase Under Ban.

[Washington Star.]

Solon Chase publishes a letter from O. S. Gounant demanding his retirement from the editorship of the Portland (Me.) Enquirer if he (Chase) proposes to advocate a straight greenback ticket. In his reply Chase surrenders charge of the paper, and says this dark night of fusion will soon pass away, and sunlight and common sense again have sway, when there will be work for him. He says he thinks the greenback cause can never die, and anticipates victory in the near future for the greenback party. Mothers north and south are teaching their sons that the greenback road, like the road to heaven, is straight ahead.

Indications.

WASHINGTON, September 27.—For Tennessee and the Ohio valley—cooler northwest to southwest winds, rising barometer and partly cloudy weather, with local rains.

The Dulcigno Demonstration.

RAGUSA, September 27.—The Albanians are encamped on the summit of Mount Mazura, where they have formed five lines of entrenchments, connected by covered ways. It is rumored that Moukhtar Pasha has arrived in the vicinity of Scutari. Only one vessel of each nationality will probably go to Dulcigno. A trust-worthy report is just received that in consequence of the arrival of a French courier the fleet will not start for Dulcigno for 48 hours.

THE SULTAN'S INDIGNATION.

LONDON, September 27.—A Constantinople correspondent of the Times telegraphs as follows: The spirit of reckless defiance is becoming more and more intense at the palace. For several days past the sultan has refused to listen to any objections made by his ministers to the policy which he has adopted, and has issued an order that any official who shall be heard expressing a contrary opinion shall be dismissed and exiled. Never before, since the time of Mahomet the Terrible, has such an order been issued.

A DECLARATION OF WAR AGAINST EUROPE.

GRAVOSA, September 27.—Yesterday the prince of Montenego received official information that the advance to Dulcigno would be regarded as a declaration of war. The prince of Montenegro consequently has telegraphed Admiral Seymour that he is not prepared, without the aid of the land troops of the powers to attack the Albanians, reinforced as they are by Turkish regulars and artillery. This step of the porte must be regarded as tantamount to a declaration of war against Europe.

The Pan-Presbyterian Council.

PHILADELPHIA, September 27.—Rev. Dr. Brown, of Fredericksburg, Va., presided at the morning session of the Pan-Presbyterian council. After prayer the business committee reported a resolution in which it was declared inadvisable for the alliance to appoint delegates to represent it at the Methodist council, to be held at London next year, as requested, as the constitution of the alliance does not provide for the reciprocation of such correspondence. The resolution gave rise to an extended and spirited discussion, participated in by Rev. Drs. Nelson, of Geneva, and Cairns and Mitchell, of Scotland, the tenor of the arguments being that the alliance should encourage such overtures, and extend the hand of fellowship to all who were engaged in the spread of the gospel and the development of christianity. On motion of Dr. Prime the whole subject was recommitted to the business committee. The same committee suggested the appointment of a committee to collect information concerning the election and ordination of visiting elders. The recommendation was adopted, and Rev. Dr. Knox made chairman of the committee. The business committee also recommended that the next council of the alliance be held in 1880, and that the invitation of the Irish delegates to have the council meetings held in Belfast be accepted. The resolution was adopted by a rising vote.

A dispatch from Candahar says General Phayre has been ordered to increase his force to 10,000, which points to the probability of the garrison remaining there for the next few months.

Plymouth Rock Intact Again.

PLYMOUTH, September 27.—The upper portion of Plymouth rock, that has lain for 46 years in front of Pilgrim wall, and had been separated from the original piece for 106 years, was to-day reunited with the main part of the rock. The removal took place quietly, with no public demonstration, and the separated pieces lies under a canopy in its original position.
