By DON SIEBERT

Last night's top scorer was C. Markey, kegler with the Beanblossom Mortuary quintet, who grooved a 676 and Bonnie Snyder was the only local woman to top 600.

Markey built his high game at the Pritchett lanes with a 226-206-244 combination. Henry Starks was runner-up with a 664 made with tallies of 243-231-190 for the White Collars at the West Side slides.

Rusty Buhening laid down a 657 at Pritchett's in the Recreation League and Fred Vehling snagged a 652 for the St. John's Evangelical squad at the Sport Bowl. Oscar Behrens constructed a 650 rolling with the Marrott Shoe Store five at Pritchett's.

Bonnie got her 606 bowling with the Interclub League, also at Pritchett's. At the Pennsylvania drives, Marion White built a 571 for the Eli Lilly Ladies League and at Fox-Hunt Clara Fon had a 564 and Billie Rice made a 552.

High team score went to the Marott Shoe Store quintet who built a 3095 with tallies of 1019-1006-1070. The Delaware Bowling Center team had a 3018 and the Kay Jewelry five came in third with a 2990.

Mize 'Satisfied' With '49 Contract

Penn-Cornell Holds Holiday Spotlight

Missouri Favored To Win

By OSCAR FRALEY
United Press Sports Writer

NEW YORK, Nov. 25 (UP)—The Penn-Cornell battle for Ivy League honors today featured a slim turkey day football program with most of the action delayed until Saturday when the annual Army-Navy classic draws the year's largest galley to headline a tough card.

Penn was a 7½-point favorite to win over Cornell on Thursday with Brown picked by 13 over Colgate and St. Bonaventure an eastern choice over San Francisco.

In the Midwest, Missouri ruled by 19 over Kansas for the runner-up spot in the Big Seven while Missouri Valley risked its record of 41 straight against McMurry. Nevada battled Wichita and Kansas State played St. Louis University.

The South's top Thursday game made Wake Forest an eight-point choice over South Carolina as VMI played VPI, W&L engaged Richmond and Furman clashed with Davidson.

Texas Favorite

Texas, needing an SMU defeat Saturday for a Southwest Conference deadlock, was a 15-point choice to down the Texas Aggies while Utah went out in the Rockies to clinch the Big Six crown against Utah State while Wyoming met Denver.

The bowl parade starts on Thanksgiving, oddly enough, with Appalachian vs. West Chester in the Burley Bowl, Johnson City, Tenn.; San Diego NAS vs. Great Lakes in the Navy Bowl, Chicago; Weber vs. Mesa in the Peach Bowl, Grand Junction, Colo.; Eastern Illinois Teachers vs. Illinois Wesleyan in the Corn Bowl, Bloomington, Ill., and Southern Oregon vs. Idaho in the Pear Bowl, Medford, Ore.

In Saturday's contests, unbeaten Army was a 20½-point choice over Navy in a game expected to draw 102,000 at Philadelphia. Notre Dame and Clemson, also with perfect records, were picked by 34 and 21 points respectively over Washington and Auburn.

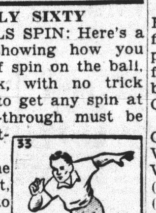
Better Bowling

By BILLY SIXTY

LIFT EQUALS SPIN: Here's a good picture showing how you can get a lot of spin on the ball, or a big hook, with no trick twists. In fact to get any spin at all, the follow-through must be completed naturally.



"Playing the alleys" is next, but I want to emphasize today that when you're using the fingers to get hook-spin, the spin must be applied naturally and with a complete follow-through.

You can see in the sketch based on a picture of Junie McMahon, an American Bowling Congress champion, where he gets the terrific spin for his hook, one of the most powerful in the game today. You can see that his entire action is smooth, without any little "spin twitches."

The spin comes from the third and little finger as the ball is released, and it is the follow-through that gives the arm this necessary lift. McMahon's full cycle really provides lift and, consequently, spin.

# # #

NOTICE THAT his arm swings through to the right of center, and his follow-through is straight for direction. According to our rules, the ball would miss to the right where he aimed it. But, because of his very wide-breaking hook, he has to start the ball to the right of the headpin . . . approximately at No. 3 pin.

If he had made an effort to apply added "stuff," his arm would finish off-angle, to the left, and the ball would end up too high on the headpin. Try a more complete follow-through if you want to use finger spin for your hook. That's what provides the arm lift as the ball is released, and this off-center lift is translated into a spin.
