Strike Ties Up Missouri Pacific

5000 Await Formal Walkout Order Today

ST. LOUIS, Sept. 9 (UP)—Trains chugged to a halt throughout the Missouri Pacific Railroad's 7000-mile system today in preparation for a strike this afternoon by 5000 engineers, firemen, trainmen and conductors.

Hundreds of communities in the Midwest and Southwest were left without rail transportation as four unions issued orders for the men to cease work at 3 p. m. (Indianapolis Time).

Freight service was cut by the railroad earlier this week and passenger trains were canceled at 11:45 p. m. Trains actually en route were allowed to proceed to their operating bases.

An additional 25,000 "non-operating" employees were notified that they will be laid off at the start of the strike.

In Washington, President Truman said he had not received a request by the St. Louis Chamber of Commerce that he intervene personally in the dispute. The President said that governmental efforts to bring about a settlement were continuing.

However, Frank Douglass, of the National Railway Mediation Board, said the group had "given up entirely" its efforts to avert the strike.

The brotherhoods called the strike to enforce demands for settlement of 282 grievances growing out of interpretations of operating rules. The union said about $3 million was involved in the differences.

Union Leader Spurns Dewey Bid

NIAGARA FALLS, N. Y., Sept. 9 (UP)—A union leader refused today to attend a peace conference called by Gov. Thomas E. Dewey to end violence in the strike at the Bell Aircraft Corp. plant.

Edward F. Gray, sub-regional director of the United Automobile Workers (CIO), rejected the request to join law enforcement officers of Erie and Niagara counties at the state capital in Albany today.

Police hoped that the conference with Gov. Dewey, along with arrests of some 25 other union leaders, would check violence between strikers and non-union workers.

Sheriff Henry E. Becker geared for possible conflict this morning by deputizing 100 volunteers to patrol around the strike-bound plant when non-strikers show up for work.

Air Force Posts Rule

WASHINGTON, Sept. 9 (UP)—The Air Force has announced that after Oct. 1 applicants for pilot and navigator training will be required to have two years of college and be single.
