NEW IDEA AT THE SANITARIA

Maurice Tauber, the versatile tailoring genius, comes from New York with a new idea. That doesn't mean, however, that Maurice never had any new ideas, but it does mean, that the Sanitaria Cleaning and Tailoring Company is going to give the people something new and even better than they have enjoyed in the by-gone days at this institution.

The big idea with Maurice is to press your clothes while you wait—speed is the thing Maurice believes the people wants and he has it, he says, but not at the sacrifice of quality—"quality will be there too."

Now you do not have to bring a bar. rell with you while the suit is going through the process of cleaning. A better way has been provided.

Another idea is one day service in cleaning "and when one day is said one day is meant." Now if Maurice can carry out these ideas and we have no reason to doubt it, he ought to clean up Hammond in good shape.

JORDAN'S BUSINESS IS INCREASING

A year ago Thomas H. Jordan took over the Calumet Tire and Repair Shop at 118 Sibley street and today his shop has the reputation about Hammond of being one of the largest and most modern vulcanizing repair shops in this part of the county.

Jordan never forgets his patrons and recently when he had an opportunity of bringing to Hammond a service of the Pennsylvania Tire company, he meant mostly for larger cities, he succeeded in securing for Hammond motorists an offer that scores of them accepted. He has gone further and secured extension of time on this offer which will run for the balance of February. Any motorist purchasing a Pennsylvania Vacuum Cup Tire will receive free a Pennsylvania guaranteed inner tube.

UNCLE SAM IS AFTER BAND MEN

Boatswain's Mate J. H. Graves who is rounding up naval recruits in Hammond, has just received word from the Indianapolis station which should be of interest to young men of musical ability. Band Master C. R. Edison has been ordered to this state to sign up men for a thirty piece band for the U. S. S. Olympia which is now in dry dock at Charleston, S. C., preparing for a two year cruise in foreign waters.

The Olympia is to be Admiral Knapp's flagship on this cruise. All men who are musicians will be enlisted as apprentice seamen for musicians and rated as either second or first-class depending upon their professional ability. They will be sent direct to the Olympia without going through a course at a training station.

EMPLOYMENT OFFICE OPEN

After being closed since February 1, when the resignation of H. J. Berner, as examiner, became effective, the Hammond office of the U. S. Free Employment Service was open once more today. J. F. Weber is the new man in charge. Mr. Weber received his appointment last night, having had the sanction of the state headquarters of the service and the tentative approval of the Hammond city authorities. He is well known in Hammond having resided at 285 Truman avenue for some time. He was formerly employed with the General American Tank Corporation of East Chicago and with the ordnance department of the Standard Steel Car Co., of Hammond. His experience is such that he has a knowledge of both mechanical and clerical work which will be of a great assistance to him in his work of placing men satisfactorily in the industries of the region.

BOARDER SUSPECTED.

A former boarder is suspected to have been the man who, last night, entered the home of Miss Dabbitt, of 121 Hohman street and stole a gold watch. According to the police the man's name is Carl Wallar, 25 years old, employed at one time in the Traffic department of the Betz company plant. His sweet-heart's telephone number is said to have been 2711.

"SILENT COP" HURT

A horse being driven by William Silverman, 427 May street, slipped and fell against the "silent policeman" on duty at the corner of Calumet and Fayette street. The iron cop was snapped in two. Silverman says he will pay for the damages done.

AUTOS HAVE A NARROW ESCAPE

Because of the icy streets in Hammond, automobiles are having a hard time to keep from skidding and in spite of careful driving, many amusing incidents occur.

Last night a delivery truck, following a street car down Hohman street, when at Mason street the car stopped the truck driver attempted to stop when the car did and jammed on his breaks. The truck swung around facing the side-walk and slid sideways.

A touring car which was following the truck also attempted to stop but swung around facing the side-walk beside the truck. Both cars then slid sideways for about five feet and came to a stop about an inch apart but not touching each other.

No one said a word but each man started his engine, the truck turned out and went it's way and the touring car followed.

BOND ISSUE IS APPROVED

The State Tax commission, according to a telegram received by THE TIMES from Indianapolis this afternoon approved the Hammond bond issue of $20,000 for the purchase of fire equipment and also Winfield township's issue of $4,000 to pay a note.
