LADIES' AND MISSES' COMBINATION.

Although this style of step-in combination seldom varies, there are many delightful ways of trimming it so that different effects can be obtained from the same pattern. The bodice of No. 9588 may be made with straps or in corset cover style.

The ladies' and misses' combination No. 9588 is cut in sizes 16 years and 36, 40 and 44 inches bust measure. Size 36 requires 1¾ yards 36-inch material and 2¼ yards ribbon at waist line. Price 13 cents.

Limited space prevents showing all the styles here. We will send you our 32-page fashion magazine, containing all the good, new styles, hints on dressmaking, &c., for 5c., or 3c. if ordered with a pattern.

British Coal Abundant.

For her size, Great Britain has more and better coal than any other country in the world. The coal seams, lying one below another to an unknown depth, not infrequently cropping out at the surface, are proof that tropical conditions once prevailed in the latitude of these islands. The district which is now Great Britain was connected in primeval times with the continent, and the coal of England doubtless runs under the channel and the southern part of the North sea, continuing in the coal fields of northern France, Belgium and Flanders.
