MELANCHOLY ACCIDENT.—Edward Fitzgerald, a brakeman on the P., Ft. W. & C. Railway, met with a distressing accident last Friday which resulted in the loss of one of his legs below the knee. While the train was backing up at Summit switch he attempted to climb on the cars, and by some mishap missed his footing, and fell with one leg across the track, the wheels passing over his leg, crushing it from the ankle joint almost to the knee. Fitzgerald is a young man about 19 years old, a resident of Plymouth, and highly esteemed by his associates. He had but recently gone into the employ of the railroad company, and to be thus early made a cripple for life is indeed painfully discouraging to one so young. Dr. Bailey amputated the crushed limb, and the patient is doing much better than his physician at first anticipated.

SHOOTING MATCH.—A shooting match between M. B. Glick and Fred Erb, came off at Warsaw on yesterday.

The Indianapolis *Herald* has failed, from some cause, to announce the result of the election in Marshall county. Four or five years ago such an omission could have been easily accounted for, but under the editorial management of Lafe Develin, we had expected justice from the *Herald*.

Messrs. Ogleshee, Mattingly and Black are erecting a steam saw mill on the ground south of the Seminary. They have already quite a large number of logs on hands, and teams constantly engaged in hauling more.

The largest stock of goods in Plymouth, can be seen at S. & M. Becker's, and more constantly arriving. Go there, by all means, for your fall and winter clothing. They are selling at greatly reduced prices.

The potato trade monopolizes nearly every other branch of business in Plymouth, at the present time. Buyers are buying largely at 65 cents and shipping car loads of them daily to eastern markets. Judging from the quantity and quality in market, we are of the opinion that the season has been very favorable to the culture of this most useful species of vegitable food.

H. Woodbury, for several years past connected with the hardware trade in Plymouth, took his final leave of this place last week. He goes to New York to thoroughly acquaint himself with the wholesale hardware trade. Henry has grown up with the town of Plymouth, and by honest and strict application to business, has drawn around him many warm friends. He carries with him the best wishes of our citizens. We wish him an abundance of good luck in the great Metropolis.

REUB. WILLIAMS, editor of the Northern INDIANIAN, gave us a call last Tuesday morning. Reub. seems to have come out of the political fight in Kosciusko without a scratch, and bears the political honor conferred upon him by the rads, with the dignity of a Roman Senator.

REV. L. P. TSCHEFFELEY, formerly Rector of St. Thomas' (Episcopal) Church in this place, has, for a week past, been sojourning with his friends in Plymouth, and leaves on the first train this morning for his home in Wisconsin. On last Sunday morning he occupied the pulpit at the Episcopal Church, and delivered an eloquent sermon. In the evening he gave an interesting description of his observations in a trip from Omaha to the terminus of the Pacific Railroad, and a graphic picture of frontier life among the hostile Indians. The address was quite interesting and pleasing to those who heard it.

A couple of lads from the Emerald Isle exchanged a few clever strokes about the face and eyes on Michigan street, in the vicinity of Becker's grocery yesterday afternoon.—The young lad got his nasal organ considerably damaged, while Murphy got away without a scratch.

CATHOLIC CHURCH.—On Sunday next, the 27th inst., the opening of the Holy Mission, to be given by two Missionary Fathers of the order of St. Paul of the cross, commonly called Passionist Fathers coming from Pittsburgh, Pa., will take place at High mass, 10 o'clock a. m. This Mission will last one week, closing on Sunday, the 3d of November. Three sermons in both languages, English and German every day. The main sermon in the English language will be delivered in the evenings at 7½ o'clock. Everybody, without distinction of creed, is to an assiduous attendance of the Mission, hereby friendly invited, by the
REV. FRANCIS LEIGELACK, Pastor.

We are making arrangements to fit up one of the best Job offices in the State, and when fully completed, we can do work as cheap as it can be done in Chicago. We shall employ none but the very best workmen, and by this means will send out nothing but first class work.

Niggers, free Americans of African descent—or, more politetly speaking, Lincoln's "pet lambs"—are good enough in their place, but when they get out of their proper sphere, and mix in with the white citizens, as they do at one of the churches in this place, it is time they were made to understand what belongs to negro manners. The congregation of this church are opposed to making an African Synagogue of their temple of worship. There is a church in town where they preach nigger; perhaps the owners of these "slored Lambs" would save the reputation of that church by sending them there, in place of allowing them to mix in where the congregation have no taste for negroes or negro preaching.

We direct especial attention to the advertisement to be found in another column, of the New Illustrated Bible Dictionary, by Dr. Wm. Smith, Classical Examiner of the University of London. The work is highly recommended by the press of the country.

SLAUGHTERED! That is the word, it expresses it precisely. That's what has been done at Westervelt's. They have *slaughtered* prices again. They say money they must and *will have* if low prices on goods will bring it. Quantities of Dress Goods, Scotch Plaids Plaids, Poplins and Lustres at 30 cts per yd, worth from 40 to 60 cts. Double width English Merinos all shades at 35 cts, Imitation Empress cloths at 35 cts. Quite good yard wide Bleached Muslins at 16 and 18 cts per yard; Unbleached as low as 6 cts, (did you expect to live to see it at that price again?) better at ten cents, and very good at one shilling. Good Prints warranted fast colors at 10 cts.

ARE YOU SATISFIED—To pay for a pound of Saleratus and only get 14 or 15 ounces, if not, then buy best chemical saleratus.

DIED.—In Plymouth, on the morning of the 17th inst, George Franklin Johnston, only son of Ezra B. and Nancy E. Johnston, aged 2 years, 1 month and 13 days.

Our little Frank has gone to rest,
He sleeps beneath the churchyard sod;
Once sweet upon his mother's breast,
But now an angel, with his God.
'Twas only just one week ago
He played so pretty all day long,
Tossing his play toy, to and fro,
And humming forth his baby song.

O, how can parents help but weep
At losing such a darling child;
That now has gone to his last sleep,
In life so gentle, sweet and mild.
'Tis hard to give our baby up—
A father's pet, a mother's joy;
But we must drink from the bitter cup,
And give to God our darling boy.

We have a lock of our darling's hair,
Severed while in death's arms he lay
In death still beautiful and fair,
Though his little form was cold as clay.
We can only say, Thy will be done;
He has gone forever from our gaze;
It seems as though our hearts would break,
And a cloud hangs over our future days.

To be turned out of a home, improved by years of labor, would be a great hardship, yet there are hundreds of men in Marshall county at all times subject to this misfortune.

A very large number of titles to land in this County are perfectly worthless as they stand; but many of them can be corrected and perfected at a slight expense. Do you, know reader, that the title to *your* land is good? You may find too late that it is not.

By calling at our Abstract office you can satisfy beyond a doubt.

SCHENCK'S SEAWEED TONIC

This medicine, invented by Dr J. H. SCHENCK of Philadelphia, is intended to dissolve the food and make it into chime, the first process of digestion. By cleansing the stomach with Schenck's Mandrake Pills, the tonic soon restores the appetite, and food that could not be eaten before using it will be easily digested.

Consumption cannot be cured by Schenck's Pulmonic syrup unless the stomach and liver is made healthy and the appetite restored, hence the tonic and pills are required in nearly every case of consumption. A half dozen bottles of the SEAWEED TONIC and three or four boxes of the MANDRAKE PILLS will cure any ordinary case of dyspepsia.

Dr. Schenck makes professional visits in New York, Boston and at his principal Office in Philadelphia every week. See daily papers of each place, or his pamphlet on consumption for his days for visitation.

Please observe when purchasing, that the two likenesses of the Doctor, one when in the last stage of Consumption, and the other as he now is in perfect health, are on the Government stamp.

Sold by all Druggists and Dealers, price $1.50 per bottle, or $7.50 the half dozen. All letters for advice should be addressed to Dr. Schenck's Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

REWARD.

$500.00 will be paid if, upon analysis of Dr. HECKELL'S VEGETABLE AGUE CURE, it is found to contain any QUININE, ARSENIC, STRYCHNINE or POISON, or any ingredient but what is PURELY VEGERABLE, as its name indicates.

DR. HECKELL'S VEGETABLE AGUE CURE does not break down the system in one part to remove the disease in another. It has stood the test and performed cures when all other remedies had failed. IT CURES INSTANTLY, and in no instance will the person have more than one Chill after the first dose, and in the majority of cases not even that. It accomplishes its work by DESTROYING THE CAUSE of the disease. It contains no Quinine, no Arsenic, no mineral, no Poison.

Call for Dr. HECKELL'S VEGETABLE AGUE CURE and take no other. Do not be imposed upon by having your Druggist or tradesman tell you he has something else equally as good. For sale by Druggists and dealers generally.

F. E. SMITH'S PATENT CAST CAST STEEL
TURF & STUBBLE PLOWS
COLLINS & CO. HARTFORD

Advantages of this Plow.

It will last from three to six times longer than any other Steel Plow made anywhere by anybody. This has often been proved by actual use in "gritty" soils, occasionally to be found on the margins of streams in the West, in which Cast steel Plows have been habitually cast, though "in plowing eighty acres or less, it having already plowed over three hundred acres of the same soil without yet being half worn.

It will "scour" in the most difficult soils, where all other Plows have failed. If there is a rod of ground anywhere in which it will not scour, we have yet to find it.

It draws lighter than any other Plow while cutting the same width and depth.

The Share can be sharpened, or a Point welded on, as readily as on ordinary Plows, by any blacksmith who understands his trade, the steel is perfectly malleable, and works "kindly".

Any section can be replaced by a duplicate, to be had of any Agent in the Share, Landside and Mouldboard is are cast in moulds.

It is well stocked with New England second-growth timber, and the standard is wrought iron, with "slots" in the cap so as to give or take land at pleasure.

It plows at any depth, from three to twelve inches, works perfectly in either stubble or turf, leaves a clean furrow, and turns under stubble and foul trash completely

☞ It is the cheapest Plow in the world, just as sure as there is economy in paying six dollars once, rather than five dollars five or six times over; — in not losing time and your temper, because your Plow won't "scour;" — and in being a quarter or a fifth more work, with the same power. The quality and quantity of work it will endure to perform must be considered, as well as the first price in determining whether or not the Plow is cheap. Plows are used for profit, and *the one out of which the most dollars and cents can be made, in proportion to its cost, is the cheapest*, and we are confident a man gets more than a hundred dollars' worth of "Plow" every time he gets one of these.

These remarks are made after a familiarity with the merits of most of the good Plows in use in the West, many of which have justly earned a good reputation.

☞ Our new model "B" Plow is designed expressly for stubble and foul ground. Heretofore we have had only the "C" pattern designed for both, turf and stubble. The "B" and "C" patterns together will enable us, to meet the views of all as to shape, and give them either "bold" or "lean" plows as they prefer.

Call and see them.

DR. SWAIN'S VEGETABLE HAIR BALM invariably restores grey hair to its original color, without staining the skin or clothing. It leaves the most dry, dead and crisp hair, soft, moist and glossy; causes it to curl, and keeps it in its place, while it promotes its growth and prevents its falling off.

It contains neither oil or alcohol.

Numerous preparations of oil, alcohol and sulphur have been palmed upon the public, and having totally failed to give satisfaction, the manufacturers have deservedly come to grief.

Dr. Swain warrants his Vegetable Balm to accomplish all the claims for it, and authorizes his agent to refund the money wherever it fails to give satisfaction.

It is an entirely new and scientific preparation, produced by the distillation of rare and fragrant flowers, which renders it not only the best renefer in the world, but makes it particularly agreeable as a hair dressing to both old and young, while its liquid purity and floral odor are in striking contrast with the nasty mixtures usually sold.

The proprietor has letters from many of the most distinguished as well as fashionable people, judges, clergymen, lawyers, physicians, opera singers, actresses, &c., certifying to the remarkable virtues of the Balm.

Don't let any dealer urge upon you a different article, but if your tradesman does not keep this, send one dollar for a trial bottle to the nearest agent, or the proprietor.

If for hair dressing, send for No. 2.
