

Everyday Cooking Miracles

BY FRANCES WEEDMAN
Director Hotpoint Electric Cookery Institute

The old cleaning ceremony of going after the grease-soaked, rusty grates of the cooking range with lye, boiling water and a knife has been an oft-repeated ritual with many homemakers. Every time something boils over on the range, every time grease pops out of the skillet, the old range needs to be literally taken apart, scrubbed, and Be it said that cooking alone is a big enough task as it is; but having to do with it the cleaning of a dingy, dirty-faced cooking range, at untimely moments, sometimes

The use of electricity as a fuel simplifies the care and cleaning of the electric range to a few simple steps.

proves to be the straw that breaks the camel's back.

The debut of the new modern Automatic Electric Range brings with it a gay, a permanent "coming out" season for homemakers! At last, here is a range which likes to keep clean. In fact, by only wiping its smooth, hard surfaces with a damp cloth, at opportune times, the universal Saturday range bath can be entirely eliminated.

Easy to Clean

The cooking surface of the Electric Range is as easy to clean as a china plate. When food is spilled on the sturdy calrod cooking units, the entire unit comes out to "shake off" the particles. What spillage doesn't shake off, incinerates off, in no time at all, leaving the rust-proof unit as good as new. Even the oven equipment units and all, gladly and easily come out to be exposed to the critical, spot-detecting glances of Mrs. Home-maker!

Agreed, then, that the new Miracle Range (another of its christened names) never has a dirty neck or

Oatmeal

1 cup oatmeal 2 to 3 cups cold water
1/2 teaspoon salt

Place cereal in saucepan and add water and salt. Cover with tight-fitting lid. Place on the surface unit. Cook on High Heat until boiling. Switch to Low Heat and continue cooking 25-45 minutes.

TOO PERFECT

"All the mechanical toys you make seem to be very successful," said the visitor.

"Yes," said the inventor. "I've had only one failure."

"What was the matter with it?" asked the visitor.

"Too lifelike. It was a toy tramp, and it wouldn't work!" came the reply.

LESS EXPENSIVE

Mabel—Doesn't that Scottish boy ever take you to the movies now?

Phyllis (bitterly)—No, I think he must have found a girl who can see pictures in the fire.

That old theory that poets are born still holds good. It's their best excuse.

Speed IN THE KITCHEN AS ON THE LIMITED

When you cook with

A NEW ROPER GAS RANGE

The verve of today, the true note of American life, is so lively that everything we do is done quickly.

In tune with it all is modern gas range cookery—an operation with simplicity and speed as its keynote.

Faster Cooking—At a turn of the gas valve, the heat is immediately highly adjustable from the lowest summer to a rushing speed in winter. See the modern Roper Gas Range now in use in thousands of homes. Kitchen treats and new savings.
