He also stated that the Government had no reason to be dissatisfied Count Orloff's mission to Austria. He said he wanted to secure the neutrality of Austria in case of a war, but he had failed.

Details of the engagement at Gargive show that the Turks were defeated. Eight hundred Turkish horses, with eight guns and four sailing vessels, crossed the Danube early in the morning and landed near the quarantine building, arranging themselves in line of battle. Two battalions of Russians opened a murderous fire upon them, which lasted three hours, forcing the Turks to retreat to Rutschuck. The Russians also suffered severely.

☞ The death of the temporial Emperor of Japan is reported to have taken place lately, the news having been brought to Shanghai by the Russian fleet which was visiting Japan. It can hardly be looked upon as of much consequence, except by those people who desire to attach undue importance to every paltry event in the present state of affairs in China, and in regard to the proceedings of the American squadron. Not being very well versed in the more than doubtful history of Japan, we cannot speak with certainty but, if our recollection serves us, the temporal emperor is a mere puppet, the real power in all things vesting with the spiritual sovereign.—*Bell. Sun.*

SINGULAR STOCK.—Robert Scott, Esq., of Woodford county, in this State, who owns one of the splendid farms of that region, has a large pond of water upon his domain by which he has half domesticated a flock of geese. He had procured eleven and crippled their wings, which reclaimed them for a season. The flock now number two hundred and eighty, and increases annually. [*Louisville Democrat.*

☞ The Roman Catholics of Boston contemplate the erection of a Cathedral in the south part of that city, which shall equal in dimensions, costliness and splendor, all that this country has ever seen in the way of architectural splendor, and it is thought that they have sufficient resources at their command to carry out the scheme.

MAIL ROBBERY.—The Wheeling mail bag was stolen, on Tuesday night, at or near Zanesville, and robbed of its contents. The bag was found the next morning in the Muskingum river. No estimate of the loss can as yet be made, but there are usually large amounts sent by mail over that Route, and the loss in this case may be heavy.

SUICIDE.—On Thursday last, in Buckingham, Va., Miss Augusta Carter, only daughter of John Carter, Esq., committed suicide by hanging herself in her sleeping room. She was about 21 years, and a very amiable girl, but had been in bad health for some years, and was in a melancholy state of mind.

☞ That terrible malady, the hydrophobia, prevails to an alarming extent, on the Indian reservation at Cattaraugus Creek.—Several of the family of Blue-sky, one of the chiefs of the tribe, have died within a few days from eating the flesh of a cow, which was bitten by a mad dog, and Blue-sky himself is thought to be beyond medical aid.

☞ A dispatch from Washington states that the British and French Ministers, on Thursday, called upon Secretary Marcy for the purpose of protesting against the intended of Russian privateers in this country. It is also understood that they informed the Secretary that such vessels would be treated as pirates by their respective Governments.

SHOW BREAD.—"Why is show bread, Aunt?" asked the, who was reading the Bible consecutively, and leaning on the leaves as he went along, so as not to lose the place. "What is show bread?" "Why Isaac," said Mrs. Partington, "shoe bread is that which the people earn by making shoes." There is plenty of it in Lynn.—*Post.*

☞ In New Hampshire seventy churches are not supplied with pastors, while twice that number of clergymen have no parishes. There are 550 ministers in the state.

Twelfth year of the LOUISVILLE WEEKLY COURIER,

THE LARGEST, BEST AND CHEAPEST **PAPER IN THE WEST!**

HANDSOME PREMIUMS.

In issuing the Prospectus for the twelfth year of the WEEKLY COURIER, we feel that it is only necessary to offer the past as an earnest of what we will do in the future. Our circulation is now larger by thousands than that of any other paper in the State, and our readers may be assured that the COURIER will, by the energy and industry of its management, fully maintain its position as its high character as a reliable and valuable newspaper.

Its NEWS, LITERARY, COMMERCIAL, MISCELLANEOUS and AGRICULTURAL Departments are in the hands of the editors, who have secured the services of competant assistants, and will receive all requisite attention.

We have in preparation several attractive novelties for the new volume, one of which is

A POPULAR PRIZE STORY,

WRITTEN BY MISS MATTIE GRIFFITH, expressly for the Louisville Courier. We do not hesitate to promise that it will be one of the most successful efforts of this popular writer. Miss Griffith is now busily engaged in writing the story and its publication will be commenced early in January. It will be followed by several other original stories from well-known writers.

Politics will not occupy our columns to the exclusion of news and miscellaneous matter; and no pains or expense will be spared to make the Courier an acceptable visitor to the fireside, and an indispensable aid to the men of business.

Notwithstanding the great increase in the price of the paper upon which the Courier is printed, and the large addition to our expenses generally, THE PRICE OF SUBSCRIPTION WILL REMAIN THE SAME! We expect to make up for all delinquencies by the increase of our list, and ask the aid of our friends to this end. We wish it distinctly understood, however, that we ask no undue patronage—we do not think the paper is lightly worth the very small price charged for it.

OUR TERMS,

We still adhere rigidly to the cash system, and never intend to deviate from it. At the following prices, the WEEKLY COURIER is sent, postage paid, to any address in the United States:

No. 1. GILLESPIE & GINNINGS.

THE KNICKERBOCKER MAGAZINE.

THE number for January, 1854, will be the 44th volume of the Knickerbocker Magazine.

Since the price of subscription has been reduced from $5 to $3 the circulation of the Knickerbocker has been increased nearly four fold. In many places ten are sold where three was sold before, and through the post it has been equally increasing. It is now offered as cheap as any other of the Magazines, all things considered. Instead of adding new and expensive pictures, we shall, a few months, form a series of late numbers, which we might extend to a number of years.

"Those familiar with the Editor's monthly "Gossip with the readers," have doubtless, with ourselves, admitted the personal nature of its pleasantry and good humor. In this number "The Cocoon" holds up the mirror to some individuals in the shape of a May morning. We need to wonder how Mr. Clark is to come, and speculate in some outlandish manner, how he is to be "taken down this time." Mr. Clark is a man, and consequently is more outlandish than a woman, in the shape you may see this summer give vent to her wrath." Nail and hammer, Woodbridge, &c.

The Knickerbocker Gallery will be enriched with two engravings, in every number, to make the Knickerbocker more than ever deserving of the new position among Established American Magazines.

TERMS.—Three dollars a year, strictly in advance.—There will be no deviation from this, on all hands. Five copies for $12 for copies sent upwards $2 for each. Postmasters and Postmasters are requested to act as agents. Those who will undertake to procure subscribers will receive the liberal terms.
