GREAT FAILURES.—A dispatch from New Orleans, dated the 27th ult., says:

Our city is much excited to-day, owing to the failure of several well-known leading houses. Among them is that of Wright, Williams & Co., cotton factors, whose liabilities are nearly $2,000,000. Another failure is that of Greenwood & Co., forwarding and commission merchants. It is reliably stated that other large cotton houses will follow.

☞ Herr Saerser, a Prussian, and the inventor of a new composing machine, which does the work of twelve men and three boys, has been rewarded by the king with the gold medal of merit. Three of his machines, which facilitate, as well as set type, have been ordered by the government. The inventor is a compositor himself, and has spent over eighteen years in perfecting his discovery.

SENATOR COPPERHEAD.—J. L. Brown was recently nominated for the Legislature in Pacific county, Washington territory, but died very suddenly the day before the election. Mr. Scudder was then elected, and he died suddenly a few days after. A special election was then ordered, and H. Foster chosen to fill the vacancy. He proceeded to take his seat of government, and on the next day fell dead in the House.

☞ Robert Scott, who was executed at Auburn, Spencer county, California, wrote a confession in which he gives accounts of seventeen murders which he had committed or been engaged in. He and special partners obtained $289,000 from their victims. He said his name was not Scott. He arrived in San Francisco in July, 1849.

☞ The largest pane of glass that has yet made its appearance in New York has taken its place in one of the windows of Taylor's celebrated restaurant establishment, on Broadway. Its dimensions are fifteen feet in height, six feet in breadth, three-quarters of an inch in thickness, and cost one thousand dollars.

☞ The English are running Uncle Tom into the ground. They have Uncle Tom dramas, Uncle Tom songs, and Uncle Tom dinner sets. The last notion rather "takes most at the knee joint," viz: Uncle Tom doughnuts. They are made of rye flour and varnished with stove blacking.

A large number of emigrants left Liverpool in April than has been known in any preceding month; the number reported for California, the United States and Australia, is 5,500. On a single day, 12,471 immigrants arrived at New York in 36 vessels, of whom 6,667 were from Liverpool.

☞ It has been found against all the persons put in the Martha Washington affair, and Kleinau and the others have been put under such heavy bonds that they will have to stay at Helena until October and stand their trial.

The editor of the Bath Mirror instituts upon that he has been in Bangor, within a year, in open grog shop with well filled decanters placed upon shelves, with a barkeeper in constant attendance, and the door wide open.

☞ The Washington Star says that immense bonds have been discovered in the Treasury office. Money fraudulently taken from the treasury, $15,000 was by parties in Lancaster, Pa.

In Mendhill, Mass., there are nearly 300,000 pairs of shoes manufactured annually, and the sales some days amount from $50,000 to $100,000.

☞ A memorial has been forwarded to the General Government, asking leave to establish a paper at Fort Leavenworth, Nebraska.

☞ The Wisconsin State Agricultural Society, which has been meeting the interests of sheep breeders only in that State, have instituted annual "sheep shearing festival."

☞ What does a young lady wist to wear more than seven hems at once? When she goes to *Jim hooks* (Jackson right).

An exchange pays: Use this advertisement, "Pain killers want washing." We hope they may get it.

☞ Why is a widower so much like a house in disagistation? Because he wants to be repaired.

New Hands at the Bellows!

HAVING purchased the entire Stock of Goods, and rented the store of Paul Fisher, and having added a large add'n to the Stock, we are now prepared to sell on our friends and all others generally who may be such establishments. We will be in receipt of goods every few weeks. All kinds of country produce will be taken in exchange and as it is our intention to sell everything low they will be great inducements to purchasers of us. Give us a call, friends.

apr25 S. & W. C. DUTTER.

N. B. It will be seen from the above that I have sold out in Moores, Lawrenceburg. I would continue them to my friends that of public patronage, as young man, who was educated to do what is right, and consequently deserved the same. I do not have the pleasure of knowing every person in and around Rising Sun, yet I have called on my books to collect accounts; some of them perhaps do not know it, but it is true, that I will be pleased to wait on them at my store at all, next three or four weeks, or the rates I can be found at my store and I can settle with them. I do not mean to pay any thing, but one thing is very certain, I never have a settlement or else I will be obliged to.

Now do not be saying to yourself, or to any other, "I don't owe him anything," for it is ten to one that you are mistaken. Mr. Hy embraces all ages, sexes, and colors, and very nearly all received the from the gentlemen who recollecting the depth of, dropped the cloud lines and the lawyer is hard age. DAVID FISHER.

"Man Know Thyself."
AN INVALUABLE LOOK FOR 25 CENTS.
Every Family Should Have a Copy!

1,000 copies sold in less than a year. A new edition revised and improved has issued.

Dr. Dunn's Medical Institute has been for the 20 Hybrid, combining an outline of the origin, progress, treatment and cure of every form of disease, exposed by prominent causes, and in terms, by a physician of experience, with full directions for their prevention, which is a faithful exposure of the evil effects of the practice of self-abuse, and every thing that would tend to deter any from the practice, or to relieve the victim of disease, which for the space of twenty years, has proved a blessing to thousands, and will prove a blessing to thousands yet to come.

Testimony of the Prof. of Chemistry in Penn. College, Philadelphia.—"Dr. Dunn's Medical Manual." The author of this work under the name of Dr. Dunn, advertises to cure the diseases of which it treats in a medical sense of the term, in the United States. I feel it my pleasure to recommend him to the unfortunate, to the victim of indiscretion, as a gentleman and an educated practitioner, in whose hands and integrity they may place the greatest confidence."

Joseph Leidenhart, M. D.

Prof. A. Woodward, M. D., of Penn. College, Philadelphia.—I have no pleasure to add my testimony to the professional ability of the author of Medical Manual. Numerous cases of diseases of the genital organs, some of them of long standing, have come under my observation, which, if the author shall have proved himself as skillful in the treatment of venereal vessels as he is in the treatment of the timidity as practiced by Quacks, I do not know of any one in the profession, I have been well acquainted with the Author some thirty years and I feel it to be a duty I owe to the profession, to the public, to recommend him to the Medical Office of every family, in the place of any other Pamphlet, which may be published, or any other Medical work published in the interest of quackery, which it treats. Nothing will be lost of my reputation, I feel to the truth of the above. I do not know of any one, in the country, or in the world, who is more competent to treat the diseases of which it treats.

Alvin Woodward, M. D.

To "Old Rakes" I would say that the use of the above Pamphlet, will be to them, a guide, and may be the means of saving them from premature decay, and the consequent miseries of old age. Young men, who have indulged in the practice of self-abuse, or been seduced by the vicious, or those who have contracted a disease, should not fail to read the Medical Manual, which is a faithful exposure of the evil effects of the practice of self-abuse
