FLAYS ATTITUDE OF WHITE LEAGUE

Whites' Protective League Hold Meetings Weekly Throughout City

White bigots seething [illegible] putrescent and morbid hatred, conceived in envy, jealousy, and fear, servant of race purity and white supremacy.

White People's Protective League hold meetings throughout the city of Indianapolis. One of the chief leaders, it is said, uses the organization to promote political ambitions. The Publicity Committee of the organization recently printed in a North Side Community paper somewhat as follows:

The White People's Protective League stands for segregation of the races, a thing that is achieving the nation. Promiscuous intermingling of the races has always been detrimental to any white people for some unknown reason. Intermingling of the races has invariably resulted in a degrading, rather than a lasting union, and our state carries laws to prohibit such by law. In Indianapolis we seek to keep the white race pure, promiscuous mingling leads to social equality and tends toward social equality.

Our supreme court has said the constitution does not guarantee "social Equality" and has even gone so far as to say such a thing is impossible.

Naturally, the colored preachers, teachers, and politicians demand "social equality" because they [illegible] have everything to gain and nothing to lose.

The White People's Protective League, would protect the white race here in Indianapolis at the same time assisting the Negroes to accomplish their best interests in their own sphere. Separate churches, [illegible] parlors, theatres, hotels [illegible] ally separate residential [illegible] will promote the best interests [illegible] Equal accommodations, but [illegible] identical; keep the races apart. [illegible] familiarity breeds contempt, is [illegible] the races, especially of the colored race, and the more familiar the [illegible] person becomes with the white [illegible] less his respect. If you want to become "poor white trash" just [illegible] yourself on a level with the [illegible]

The previous three paragraphs are requoted from a community [illegible] the Northwest section of the [illegible] Indianapolis. The articles were [illegible] ed "The White People's League."

They started by an appeal to the envy and jealousy of a poor [illegible] ant white man and they appeal to the "fear complex," and menace [illegible] ual "superiority pretence" of the [illegible] man, with more or less [illegible] ability. In this way such an [illegible] nation sets the minds of the [illegible] in a state of commotion.

The articles state "promiscuous intermingling is detrimental to the white man." It is also detrimental to the Negro, if they speak of that that has gone on for three hundred years in the Southland mixing the blood of whites with that of Negroes. And in all this time and every [illegible] under all conditions the white individual has been the leader, and sponsorer of the mixing of the [illegible] of his race with that of other [illegible] from pole to pole, and East to [illegible]

They say intermingling leads to "social equality," (this phrase itself, is a much used and abused expression,) and Negro preachers, teachers and politicians want social equality. When they mean the Negro desires, and will have eventually [illegible] cally the same accomodation [illegible] possibilities as any man whose ancestor have run [illegible] the American school [illegible] are right. If the [illegible] ty produced by inter [illegible] mediate blood relation [illegible] wrong,—the white man think [illegible] better than the Negro. Some [illegible] have begun to think [illegible] gain the constitution does not guarantee anything. However, the constitution declares for all citizens the same basic rights at the bar of justice.

The Protective League would help the Negro to accomplish his best interests in his own sphere. The Negro has no particular sphere. His activities and pursuits extend over the identical field of activity of the white man. The only aid the white man might give the Negro is the establishment of a Negro Ideal. The big question is will he accept ——?

The Negro is constantly proving that he will not accept a reserved area for his activity, no more so than any other citizen. The white man has preached Negro inferiority for (5) fivehundred year; not the intelligent white man believe the same. At this time thinking Negro regardless of status or class, does not believe it. One of the chief aids that the white man can give the Negro is to stop the propaganda of Ne-

ROOSEVELT PLEADS FOR U. S. NEGRO

CHICAGO, Ill., July 2nd.—(Special)—Declaring that any state which prevents its Negro citizens from exercising their privileges of voting because they are colored, is subverting the constitution of the United States, Col. Theodore Roosevelt in an address last night before the National Association for the Advancement of Colored People called upon every American to see that the civic rights of the Negro are maintained. He spoke at a mass meeting at the Pilgrim Baptist Church, Indiana Avenue and 33rd St.

South Unjust, He Says

Col. Roosevelt called the attitude of many southern states in not providing opportunities for the education of the Negro a "rank injustice," and decried their reasoning that the colored race is not sufficiently educated to exercise their right of franchise.

"I have heard time and again short-sighted Southerners maintain that Negroes are not educated enough to vote intelligently and in the same breath state that they did not believe in spending money on schools for colored people," Col. Roosevelt said, "they were perfectly willing to see the Negro called upon to pay taxes and defend the country in time of war but they denied them the vote and schools."

Denounces Race Distinctions

"All colored Americans must have full governmental rights. There must be no distinctions made by law either covertly or openly, against any of our citizens. In certain states by subterfuges as to registration or simply by force, colored citizens are denied the vote.

"Any man or group who attempts to deny full civic rights to any citizen on account of race, creed or color is committing a thoroughly un-American act, one that is subversive to the ideals of the country."

Col. Roosevelt urged that the work of such men as Booker T. Washington and [illegible] be broadened so as to produce able leadership for the colored race by colored people.

PRINCE WHO VISITED U.S. ARRESTED

PARIS, JULY 2nd.—"Prince" Kojo Tovalou-Houenou of Dahomey, Africa, who recently stirred comment when he left New York City for his native land in company with a white woman, was arrested and imprisoned soon after he reached Dahomey, according to Le Matin.

Not only was the "Prince" arrested on charges of swindling various persons, but police assert he had been identified as Kodjo Quenum, son of an honest native but with nothing of the prince about him and bearing no relationship to the King of Dahomey.

Le Matin says the "Prince" was arrested on a warrant issued by the public prosecutor of Cotonou in Dahomey. Among those listed as complainants is a Mrs. Moody, an American out of $350. Other complaints add up to a total of $12,350.

"Prince Tovalou" once was expelled from a Montmartre cabaret in Paris because Americans present objected to a Negro being admitted. The affair reached the police courts and the manager of the cabaret was fined.

The "Prince" was awarded damages and became well known in Paris as a defender of the black race.

Later the Prince, who termed himself "President of the Universal League for the Defense of the Black Race," went to the United States where he placed himself at the disposal of Marcus Garvey, the self-styled Negro emperor, who is now in Atlanta Penitentiary on a conviction of fraud.

"Prince Tovalou" got into trouble in Chicago while he was in the United States last year. He was arrested on a charge of passing a bogus check, but pleaded that he had anticipated receiving funds to cover the amount—$118—which was his bill for a hat, cloak and long lingerie bought for a woman companion. The "Prince," who was received as a distinguished visitor in Chicago, was ejected from [illegible] during [illegible]

STATE OFFICERS ELECTED BY ELKS

NO HOPE FOR NEGRO IN PARTY POLITICS SAYS SPEAKERS

CHICAGO, June 29th.—Speaking last night before a mass meeting of the National Association for the Advancement of Colored People in 17th Annual Conference here, William English Walling, writer and lecturer, declared that the Negro must look for salvation elsewhere than in party politics. Mr. Walling urged that Negroes throughout the United States vote independently of established political parties.

"As a persecuted minority the colored people must vote for their friends absolutely regardless of party," declared Mr. Walling. "And that is exactly what they are doing in every Northern State. When there is no friend to be voted for and no enemy to be voted against, a colored citizen now vote for 'his' party. But even then he knows it is only 'his' party for that one election and in that one State. ... [illegible]

[illegible] ... political democracy itself. When the ballot is threatened or weakened or made ineffective, the foundation of all political action is undermined. And that is precisely the issue between the progressive and the reactionary.

"The colored people can and should be non-partisan to every other issue. They cannot be non-partisan to the issue of popular government."

Pastor Accepts Call

Says "Educations Ruins Negros"

WASHINGTON, D. C.—The members of the United States Senate were afforded quite a bit of amusement Wednesday when Cole Blease, "the gentleman from South Carolina," delivered one of his typical tirades against educating the Negro. Annually the August body is treated to this sort of stuff by the "learned and progressive" Senator from South Carolina whose prejudice blinds him as to the progress that Negroes have made through education and to the efforts being put forth by the Department of Education of the State he represents.

The gentleman from South Carolina opined that "education ruins a Negro. When he gets a so-called education, he won't work," he asserted. "I have seen old mothers bending over the washtub to send their sons off to college and when they get out of school they are too good to ... work on the farm; they have got to be chicken-eating preachers with longtail coats and beaver hats, or doctors."

RACIAL BARRIER MAKES PROBLEM

SOLUTION IS SOUGHT

SAN FRANCISCO, June 29.— ... has been brought about in California ... welfare workers, by ... and racial barriers affecting Chinese and Negroes ... and to a lesser extent Japanese.

Investigation in hopes of finding a solution has been undertaken by welfare agencies following a meeting of the State Social Workers conference in Los Angeles.

California has an anti-slum law designed to prevent the creation of congested tenement districts with unsalutary health conditions and it has been effective to the extent that poorer white people are not pressed together in their dwellings as are those of some large cities. But it does not cope with problems presented because of racial or social distinctions.

Nobody seems to know exactly how many inhabitants San Francisco's Chinatown has. Chinese leaders say the colony is badly over-crowded and that their people are prohibited from overflowing into surrounding districts. It is hemmed in either by fashionable residential sections or by wholesale or retail business property, except to the North, where the Italian colony has evidenced on intention of giving way to an expansion of Chinese residential territory.

While some of the wealthier Chinese are scattered over the city, the thousands who are poor live crowded into apartments houses and many of them underground.

The Negro situation is not so serious as the city's Negro population is small, but they too, declare the welfare agencies, are barred from expansion because of the effect on property values. In Los Angeles, the Negro's housing plight is said to be more critical.

The situation as it affects the Japanese is held to be less troublesome because the distinction is racial and not social. Japanese of the better class are not barred by social ...

White Race Excels Black and Yellow in Athletics

REPRINTED FROM THE CHICAGO TRIBUNE

The following study of the relative achievements of the white, black, brown and yellow races in athletic competition reveals these facts:

1. The white race excels in every sport.

2. The Negro is becoming a strong rival in boxing and on the track.

3. The yellow race has developed expert tennis players and is acquiring baseball skill.

4. The brown race has made rapid strides in boxing but lacks the staying quality necessary for success.

Athleticism is an elusive quality. It cannot be measured by the scale [illegible] through the ages all races have produced great champions. A study of the records shows that the white race has developed by far the largest number of outstanding athletes, but both the Negro and yellow races, who have been active in sport for a much shorter period of time, have become important factors in some branches of athletics.

From the days of George Dixon down to the present, with Harry Wills clamoring for a chance at the world's heavyweight championship, the Negro has ranked high in the boxing game. Six Negroes have attained the ring's highest honor, a world's championship, while a great array of lesser fighters have etched imposing records in the pages of boxing history. [illegible] George Godfrey, Harry Wills, and Tiger Flowers.

Boxing practically was unknown to the orient until introduced by Americans into Manila a few years ago, but in that brief period one champion and many great fighters have come out of the Philippines. By far the greatest of these little brown men was Pancho Villa, flyweight champion.

Pancho started his career in 1919 and in 1923 he ascended to the American flyweight throne by stopping Johnny Buff in eleven rounds. A year later he won the world's title from Jimmy Wilde, battering the same Englishman into submission in seven rounds in New York. His brilliant career was cut short last year when he succumbed to a throat infection aggravated by a ten round fight with Jimmy McLarnin at Oakland, Cal. Villa participated in 104 bouts, winning 66, 22 of them by knockouts. He fought 19 no decision bouts, battled to 3 draws, and was beaten 5 times. Elino Flores, Pancio Pete Sarmiento, and Clever Sencio are other Filipinos who won fame in the ring.

A strange thing about Filipino boxers is their inability to stand up under the strain of ring activity. [illegible] died from the effects of a fight with [illegible] and Sencio passed away as the result of a [illegible] following his recent fight with Bud Taylor. The Filipinos are game. The Japanese also are making rapid strides in baseball, as is evidenced by the play of Japanese College nines in games with American colleges. The sport is popular with the Negro [illegible] although there are no outstanding Negro stars.

He was an upright man, loved by everyone that knew him. He leaves two daughters, two sons, and a host of other relatives and friends to mourn his loss.

POLITICAL PATRONAGE

Hon. Ferdinand Morton was recently appointed as Civil Service Commissioner in the city of New York. Mr. Morton holds a civil position that pays a higher salary than any held by a Negro employed in civil administration in the whole country. He was appointed by a democratic Mayor Mr. Walker.

At this time the Civil Administration of National affairs is in the hands and good graces of the grand old Republican party, champion for the Negro and Negro cause. However there are Negroes in the country today fitted or qualified for almost any position available to the general citizenry and yet the Republican party has as yet failed to appoint any Negroes even to some of the old regular expected positions. The Coolidge regime has always been able to find places for white men of honor and dignity, and even for women since advent of the women voters,——when the Negro comes up no places are available.

Many there are, who will make excuses and allowances for the Republican party, they say the party has given all to date; we say they are still giving, but few and far between. The Coolidge regime has seen fit to give special recognition to women in the National Civil Administration at Washington, with favor of high positions; with more than a score of highly desirable places.

Negroes have even been dismissed from various places in Washington— the influence of prejudice, and the working out of segregation. The Republican party will have to make some overtures to the Negro voters on the eve of the next National Campaign. The Negro voter today is observing more, and has bgeun to weigh the considerations in the balance for the best of every issue or measure.

BOGUS ROYALTY

The savant, who declared the peoples' vanity must be gratified was all correct in this instance. It seems an inate tendency of human nature to aspire to, or be connected with the best. This in itself cannot be condemned, but the conceptions of some people concerning the best, or the lengths they go to satisfy certain vain inclinations is peculiar.

The American people have an unappeasable appetite for royalty. Every now and then, we get a glimpse of some individual of royal blood, but such a person is not to be seen everywhere among us at all times. So consequently they seem an appealing curiosity. We have royalty coming to America from all Europe, Asia, the country between and the islands of the seas. But this royalty is claimable only by the white people. So when the Negro must satisfy certain vanity, characteristic of human kind his only claims to royalty comes out of Africa. And many there is, who have come,—the white world that loves royalty is duped daily, by disciples of Barnum, who can claim the whole world, any part as a source of origin, but all Negro royalty must come out of Africa.

In any or every community in America we hear at intervals of a black Prince bobbing up now and then, the people receive them with open arms. Over a period of (4 or 5) four or five years we have had as visitors in our community here (4 or 5) four or five bogus princes. Just last week a local paper carried a front page article on, an individual styling himself Prince of Abyssinnia, who turned out to be a bogus prince, only bent on carrying out the philosophy of Barnum, who said, "get them."

And the most startling to date, is the announcement of a cosmopolitan press service—that a certain, Prince Kojo Tovalous Houenou, claiming to come from Dahoney in Africa is a fraud and faker. This said Prince Kojo was received in all the good style and grace due a prince by the black aristocracy of America, and now the marvelous adventure of the Prince and also the stimulated vanities of the people at the same time go to naught. So it seems the people's vanities must be gratified— and Barnum was right when he said, one was born ever so often, and it is up to someone to profit by the same.

YOUNG HARRY WILLS LOSES ON A FOUL

(By The Associated Negro Press)
LOS ANGELES, Cal., July 1st.—In what bid fair to be better than the main bout Wednesday night at the great Olympic Auditorium, Teddy Smith of San Diego, Cal., known as Young Harry Wills, fought Paul De Hate, the hardhitting white welter, from gong to gong in what all the big dailies called a hair-raising battle. DeHate has won all his fights quickly by a knockout but Wills surprised everybody by carrying the fight to him, jabbing him constantly and shaking him up with vicious uppercuts. In turn, DeHate fought back savagely and once in the third had Wills groggy from a hard smash on the jaw. At the bell in the fourth in a furious mixup, Wills accidently struck DeHate low and lost the decision. Gene Tunney, who is making a picture here at Metro-Goldwyn Mayer Studios, and Champion Jack Dempsey were to be presented to the 14,000 fans, but arrived tooo late.

CHICAGO, Ill.—The club owners of the Negro National League will meet in Chicago on June [illegible]th to work out the playing schedule for the second half of the 1926 season. At this time it is expected that several trades will be consummated in order to strengthen the clubs for the second leg of the pennant chase.

NASHVILLE DEFEATS MONTGOMERY 8 TO 2

NASHVILLE, Tenn., July 1st.—With Manager Maddex on the bench with an injured knee, the Montgomery Grey Sox went down in defeat to the tune of 8 to 2, in the opening game with the Elites Saturday. The Elites' victory resulted from batting rallies staged in the second and fourth innings.

PINCH HITTER IS MOST DIFFICULT OF All BASEBALL ROLES

(By A. D. Williams for the Associated Negro Press)

The [illegible] in baseball is not always at the time when the pitcher has the bases loaded with no outs. [illegible] the role of pitcher when there is a man on third in the late innings, [illegible] and a heavy hitter at bat and another one coming up [illegible] probably would appear that the pitcher has the hardest role in the nature of one of those critical [illegible] just how about the batter?

There really is no more difficult [illegible] in baseball than that of the pinch hitter. In these days of specialists it is the desire of every manager that he have a competent right and left-handed batter to use in the pinch.

Yanked suddenly from the bench with no opportunity to look over a few pitches, facing some star pitcher going at top speed, in a tense situation, the pinch hitting job is far from an enviable one.

Using a pinch hitter is a pure gamble. However, the success or failure of the pinch hitter can make the manager look like a wise guy or a dub. When [illegible] see a pinch hitter sent in to hit for someone [illegible] sympathize with him [illegible] he is facing the hardest [illegible] ever awarded a baseball player.

And when he delivers in the pinch—give him credit [illegible] for he has accomplished something under a great [illegible]

BIRMINGHAM WINS FIRST HALF OF RACE

(By The Associated Negro Press)
MEMPHIS, Tenn., July 1st.—[illegible] three weeks [illegible] the Birmingham Black Barons [illegible] the first half of the season in the lead of the other [illegible] teams of the Southern League with Albany and New Orleans in the [illegible]

[illegible] the lead in the third week of play, the Barons, under the leadership of Manager Smith, piled up a lead that could not be overcome by the other teams and set a pace that was too hot and too dizzy for the Southern Leaguers. Since stepping into the lead the Barons have lost only three games.

In discussing the achievement of the Barons, Manager Smith declared: "Good pitching and timely hitting are responsible for the success of the team. The boys struck their stride after the first week and came up to expectations of the management and the fans in every department of the game, and I cannot commend them too highly. During the second half we plan to do our best and barring injuries you can rest assured that we will be in the running and in the fighting for the championship."

Season Starts July 1st

The Southern League teams have "spoiled 'em all out and started all over again." The League moguls met in Montgomery Wednesday with President Bert M. Reddy in the saddle to arrange the second-half schedule.

The managers of the teams and the officers of the league were enthusiastic and elated over the success of the first half. The attendance in every city has been very good and the fans have supported the teams in an encouraging manner.

Hot Second Half Expected

The first half race was a three-cornered affair between Birmingham, Albany, and New Orleans, each having its fling at holding the lead. According to the team managers, the second half will witness a real eight team pennant race.

NEGRO AMERICA SEEKS PLACE IN POLITICAL SUN

[illegible]

Needed: Self Assertiveness, Unselfish Leadership

The President is cordial; he agrees with all Committee and leaders who call to lay complaint, that "something should be done," but nothing is done. He cautions "patience." Have ever people been more patient and trustful than Negro America.

There is Congress, both the House and the Senate. Their concern in Negro citizenship is shown in the voting down of their report on the Anti-Lynching Bill, cold turkey. They were four for it in the committee, 3 Republicans and a Democrat, two of the Republicans are candidates for re-election in states where Negro votes count. But Congress, and Republican Administration at large have their fingers crossed on Negro America. They are not going out of their way to exercise any lofty statesmanship regarding Human Rights and Citizenship—Negro America has neither the organization nor means to force the issue.
