WOMAN DIES UNDER WHEELS OF TRAIN

STARVES TO DEATH

DID NOT SEE ENGINE COMING

Frightened as a watchman shouted "look out," Mrs. Malinda Fulton, colored, 52 years old, 2518 Columbia ave., stepped backward directly in front of a freight engine and was killed instantly yesterday afternoon at the 25th Street crossing of the Monon railroad. She was crushed to death under the wheels of the engine.

Chris Koismeir, 2814 North Gale St., the crossing watchman, said he shouted to Mrs. Fulton that she was in danger from a switch engine that was approaching. In confusion the woman jumped back to escape the one engine just as the freight engine reached the crossing on the second tracks. Her body was carried a few feet before the engine was brought to a halt.

The freight engine was No. 252, Train 97, Motor Policemen Everson and Lowe, who investigated, reported. Ray B. Tully, 1036 North Oakland avenue, was the engineer Grant Wilbanks 2960 Macpherson avenue, fireman and Charles E. Sands, 3412 College avenue, conductor.

Sent to Morgue

Dr. C. A. Toles, deputy coroner, ordered the body sent to the city morgue.

Mrs. Fulton came to this city from Easley City, Ala., about six months ago. She had been living with her sister, Mrs. William Jackson, 2518 Columbia Avenue since that time. Surviving are three brothers and four sisters Alonzia Baldwin Detroit, Mich., Thomas Baldwin, Gotham, Ala.; Mrs. Fannie King and Jerry Baldwin, Easley City, Ala.; Mrs. Nancy Jackson and Mrs. Julian Williams, Enterprise, Ala., and Mrs. William Jackson of this city. Funeral arrangements have not been made, but Mrs. Fulton's body will be sent South for burial.

NEGRO LAWYER LOSES HOPE OF SAVING BANDIT

U. S. SUPREME COURT JUDGE DENIES REPRIEVE FOR YEGG WHO MUST DIE TONIGHT.

BEVERL YARMS, Mass., Aug. 19th—United States Supreme Court Justice Oliver Wendell Holmes today denied the application for a writ of error made by Attorney G. L. Pendelton in behalf of Richard Reese Whittemore, under sentence of death in Baltimore.

Pendleton and Deputy District Attorney Rowland K. Adams, who appeared for the prosecution, were closeted with Justice Holmes here for more than an hour. Both of them came from Baltimore, last night. Adams making his decision after he had learned that the Negro attorney planned to carry his fight for the life of his client ot the highest court in the land.

Pendleton's petition was for a writ of error on a denial of a writ of habeas corpus by Baltimore courts.

Execution Will Take Place Tonight

BALTIMORE, Aug. 12th.—Richard Reese Whittemore's life, scheduled to end on the gallows a few minutes after midnight tonight, was suspended today on the slender thread that his Negro attorney could persuade a United States supreme court justice to waive aside the hangman.

Having failed in his attempt to obtain from Judge Robert F. Stanton, in city court either a writ of habeas corpus of writ of error to stay execution pending attempt to appeal to Supreme Court, G. L. Pendleton, Negro, lawyer, who espoused the bandit's cause at the eleventh hour left Baltimore last night for Massachusetts where he intended to place the case before Justice Olive Wendell Holmes at Beverly Farms, Justice Louis D. Bandeis at Chatham of Justice Edward Sanford at Nantucket.

Whittemore fatally wounded Robert H. Holtman, Maryland penitentiary guard, in escaping from the institution on Feb. 20th, 1924. Since his conviction of first degree murder on May 21st, his care has been marked by adverse court decisions for a new trial. Mrs. Margaret Whittemore, his wife, has refused, however, to relinquish hope.

"Reese will not hang," she said, "I have not made arrangements for a funeral or for mourning. I have implicit faith in our latest move."

Colored Boy Scouts Make Enviable Record At Scout Camp

The colored scouts at Camp Chank-tun-un-gi demonstrated to the satisfaction of the officials that if given the proper chance the colored boys take hold of the work as well and in some instances far better than the other groups that have used the camp. In one week's time a large group of boys were able to pass off many of the preliminary tests and were awarded the honors accordingly.

57 boys spent last week at the camp, these boys coming from the local colored troops and from the Y. M. C. A. One group was not old enough to join the Scouts and was trained as "Cubs."

The outstanding work of the camp was done by George Hayes, Guy Russell, and William Sweat. In recognition of this first prize was donated by Messr Chas E. Harry and Marimon Hansberry to George Hayes. The Y. M. C. A. Staff donated the second prize and Mr. Lionel F. Artis donated the third prize. At the present time George Hayes is the only registered First Class Scout among the colored boys of the city and is the second one to be registered in the history of scouting in Indianapolis. The Asst. Camp Director, Mr. Higgins, said the review presented by Hayes was one of the best ever made in the city.

The advancements made during the week were as follows:

Meriwether, who examined the boys and cared for them at various stages. Mr. Edward Gaillard provided a great treat by bringing one of his vaudeville acts out to the camp for the merriment of the boys. The success was also due in great measure to the Mme Walker Company for letting the boys sell soap to earn their camp fees and to the Y. M. C. A. Staff for its cooperation and to Mrs. F. B. NEGRO, HERO OF ATTEMPT DELIVERY

CHICAGO, Aug. 20th.—Courage of Harry Brown, a guard at the Cook County jail, who pretended he had a pistol in his pocket, prevented the possible escape of three white desperadoes early today.

The trio, one of whom is awaiting execution, had sawed their way out of their cells and overpowered another guard, before Brown forced them back into their cells.

Daniel McGeohegan, awaiting execution along with "Midget" Fernekes and his cell partner, Matthew Stewart, awaiting trial on three charges of robbery, were the first to saw out. A few minutes later Angelo Caggiano, utilizing the two bars sawed by McGeohegan and Stewart, and one he sawed himself, managed to crawl out of his cell.

Caggiano is awaiting trial for robbery. His cell mate, Gus Peterson, also awaiting trial on a robbery charge did not leave the cell.

Sheriff Peter Hoffman immediately ordered an investigation. An inspection of the cell block revealed that a bar on another cell confining three prisoners had been sawed, but the space was too small and the first prisoner who attempted to crawl thru was held fast.

Brown has received praise of all city officials because of his daring act. Had he faltered, the desperate bandits would have slain him.

SHERIFF OUTWITS MOB

McCOMB, Miss., Aug. 21st.—Despite the fact that a jury was unable to fix the blame because circumstances pointed towardds accidental shooting, a mob attempted to take Willie Martin, 17-year-old Negro from the Sheriff with the avowed intention of lynching Sandy Simmons, the sheriff, succeeded in placing the prisoner in a safe place in a distant jail.

Finley Wilson Makes Statement For Elks Of W.

WASHINGTON, D. C., Aug. 21—In a statement issued today by J. Finley Wilson, the Grand Exalted Ruler of the I. B. P. O. E. W., who is a candidate to succeed himself, Mr. Wilson had the following to say:

"Yes, I am a candidate to succeed myself and my candidacy is based on my record. Never since the Elks have been organized have they been in as prosperous a condition as they are today. When I was elected in 1922, we had about 30,000 members and $13,186.58 in the treasury. Today we have more than 100,000 members with more than $100,000 in treasury. In 1922 we had 255 lodges as against 708 today.

"That the fraternity appreciates this work is evidenced by the hearty support that has been extended to me from all parts of the world. Pledges of support have come to me from sources that have heretofore been opposed to me, and these pledges have come without solicitation on my part. My election will be on the first ballot as the personal pledges of more than 800 of the possible 1,500 delegates who will be at the convention, will indicate. As a matter of fact, at no precious Grand Lodge convention have I been in as fortunate a position. There has not been any bitterness nor rancor in the present contest, and unless some developes at Cleveland, it will be the most harmonious convention we have ever held. In a few days the convention will have done its work and immediately after election I shall get busy building up the order by the creation of new lodges, and building up oil ones. I hope within the next year to establish an Elk Shrine that will serve as a national headquarters; continue the drive against ignorance through our department of education. I favor the creation of the Fidelity fund which will give the order money with which to help the lodges buy their homes, and serve as a general financial help to our growing order. As in the past, no place will be too remote for me to go to build up Elkdom."

ORGANIZE NATIONAL BAR ASSN.

KANSAS City, Aug. 21st—(Special)—Not content with stirring race hatred in Kansas City to a riot pitch certain white people, some of whom have been active in improvement associations seeking to bar Negro families from this and that neighborhood have organized a national association whose purpose is to foster segregation of races and nationalities.

The National Protective Association is the name of the body which applied Tuesday to the circuit court for a 20-year pro-forma decree of incorporation.

Mrs. Murray is Treasurer

Two names among the officers listed in the articles of agreement are those who have been identified as haters and fighters of Negroes in Kansas City. They are Mrs. Lula K. Murray, 2107 Park Avenue, who even now is seeking by means of a "spite" suit, to have a colored family, the J. S. Whitneys, removed from their home at 2131 Park Ave. The neighborhood is entirely colored except for four white families including Mrs. Murray. Mrs. Murray is the treasurer of the new organization.

Listed as the secretary is A. E. Gallagher, 219 Benton Boulevard, who will be remembered by the colored people as a pioneer in the improvement association dirt some some years ago on the East side. It was directly after his activity that bombing starting of the former home of the Rev. S. W. Bacote. All the bombing on Park, Montgall and other Eastern sts., is a "child" of this parent activity of the associations in which Gallagher was a pioneer.

To Regulate Race Question

Other officers listed are Stanley Byrd, president. Mr. Byrd is cashier of the Kansas City Southern railway company. He lives at 2406 Myrtle. Other names are L. V. Wells and R. Durant. Durant is an attorney. Gallapher operates an insurance company with his son, J. Burns Gallagher.

According to the agreement, the association will conduct a national movement to regulate the race question, as it relates to residential restrictions, "thereby creating a fraternal and beneficial relationship between the nationalities or races and alleviating the strife and turmoil, hatred and ill-relieved feeling that now is prevalent."

And yet it is a "protective" association!

OFFERS SLAYER REWARD

CAMBRIDGE, Mass., Aug. 13th.—(Special)—Another victory, and citizenship recognition for the race was won when the City Council at its regular meeting on Tuesday night voted, at the request of Mayor Edward Quinn to offer a reward of $500.00 for the detection of one George Farlye, who on June 26th shot and fatally wounded a fellow workman in the Atwood Box Factory and made his escape.

Farley is white, a native of North Carolina, who ever objected to working near Crawford, Colored, out of Southern race prejudice. He deliberately shot Crawford a half hour after he had been given work in another part of the shop following a row between the two.

The day before the Council meeting, pursuant to a motion made by delegate Trotter at the public meeting where he reported the League's White House audience in the Anti-Segregation petition, Rev. R. E. Thompson had conducted an audience with Mayor Quinn as president of the Boston Branch of the National Equal Rights League, requesting the Mayor to uphold the honor of the city and state and the traditoinal opposition to Southern race persecution by offer- be present.

CRAPS BRING NO JAIL IF NEGRO IS WORKING

BIRMINGHAM, Ala., Aug. 21st.—A working Negro caught shooting craps should not go to jail in the opinion of Judge B. B. Abernethy, Jefferson County court of misdemeanors. To that end, the court has adopted "anti-jail slips" which are proving very popular.

The slips read: "The bearer is working Negro, and will appear in court on his own bond, and I hereby authorize any officer of my court to let him sign his own bond."

Judge Abernethy said he had issued about 200 such slips and that so far his confidence has not been abused.

They think lots of that slip and never go to a crap game without one."

TWO PULLMAN MEN ELECTED INDUSTRIAL BOARD

(By The Associated Negro Press)

CHICAGO, Ill., Aug. 20th.—What is declared to be an innovation in labor relations in that two colored men have been electe dto "the supreme court" of its adjustment board was announced by the Pullman Company here this week. Porters and railway men generally have been speculative as to the effect which the new railway labor act would have upon employee representation and grievances, since the old railway Labor Board was abolished. The new act provides joint boards of adjustment and the Pullman Company obedient to its provisions has formed a two party board, composed of ten men, five representing the company and five representing the employees.

AGED NEGRO 65 STARVES BEAT CHAIR

Another Aged Man Offers To Trade Life For That of Condemned Son

LITTLE ROCK, Aug. 20th—An aged Arkansas Negro went to his grave today triumphant in a slow and stealthy race against death by electrocution.

While Governor Terral, campaigning for renomination, delayed fixing a date on which Tom Stribling, Crittenden county, should be executed for murder, Stribling for 65 days refused the meals that were given him and died yesterday from pneumonia, induced by starvation.

Several well known citizens were preparing to appeal to the governor for clemency. Stribling had always denied that he killed a youth, who had attacked his daughter some time before. A jury and the supreme court failed to accept his alibi.

His sentence was affirmed three months ago and he was placed in a cell with two other condemned men. On the day the other two were executed, Stribling began his fast.

Penitentiary authorities did not know of it until two weeks ago. He took the meals that were passed thru the bars. It was noted, however, that he spent most of his time lying on his cot, refusing to exercise. All the time Stribling was consigning his food to the drain pipe taking only an occasional swallow of milk.

After his removal to the hospital he abandoned his attempt at concealment and declared himself an a "hunger strike." Friends of th old man believe, however, that his purpose was not to bid for freedom or commutation but in his own words to "beat the electric chair" by starvation."

FIGHT WILL NOT BE HELD IN N.Y. CITY

NEW YORK, Aug. 21st—Jack Dempsey's application for a license to fight Gene Tunney here Sept. 16 today was denied by the state license committee until he has complied with the state athletic commission's order that he meet Harry Wills first.

The resolution of the license board recited that Dempsey must present articles for a bout with Wills to take place before he meets any other man in order to receive recognition in this state.

The decision followed receipt of an opinion from Attorney General Ottinger in Albany stating that the license body was not within its power in refusing a license ot the heavyweight champion after he had been declared eligible by the state athletic commission.

Here's the Board's Ruling

The license committee's resolution follows:

"The license committee will not further consider the application of Jack Dempsey for a license until he has complied with the resolution and orders of the New York State Athletic commission and license committee issued to him declaring Harry Wills his logical opponent.

"He, Jack Dempsey, must therefore enter into proper articles of agreement in accordance with printed rules and regulations of the New York State Athletic Commission and license committee and specify parrticularly in this agreement that Harry Wills will be his first opponent."

UNDERSTANDING WILL END RACE PROBLEM SAY WHITE MAN

WHITES MAKE GUN PLAY IN SEGRE- AGTION CASE

NEIGHBORHOOD SEGREGATION MOVEMNT BROUGHT TO DRAMATIC CLIMAX.

(Pacific Coast News Bureau)

LOS ANGELES, Calif., Aug. 21st.—The bitter relentless fight being waged by a neighborhood group known as the South-west Chamber of Commerce backed by its publicity sheet "South Park Bulletin" in their futile efforts to stay the Negro realty invasion from their district, was brought to a dramatic climax last week when a white champion of a colored property owner within the district made a play for public sympathy in behalf of his colored friend.

Refuses To Sell

This self styled restrictive organization headed by F. C. Finckle Z. Fitzgerald and Jerry Kern have endeavored through various mehtods of intimidation, threats and persuasions to induce Mentis Carrere, a colored shipping clerk who recently bought a home at 721 W. 55th St., to move or sell out. Carrere flatly refused to do either.

Acts As Champion

Harry E. Grund, a young white man foreman in the same place where Carrere is employed, heroically took upon himself the job of battering down the opposition to Carrere. He became almost a body guard for Carrere and his family.

Learning of the threatening attitude of the white agitators who it is said were planning to attack Carrere's home, and fearing for his friends safety, Grund to win sympathy for Carrere, got a revolver and fired several shots in front of Carrere's home, one of which went through a mail carriers window across the street. Grund was arrested and confined in jail. Jailed but undaunted, Grund still declares he is ready to champion the Negro's cause in his fight against segretion.

White Journal Agitates

The free publicity journal "South Park Bulletin" of the district is the chief agitator against the so called Negro invasion of their district, a section that lies directly in the path of the only logical expansion territory for the rapid increase of colored population. Through a series of weekly articles an attempt is being made to stop the Negro invasion at all cost. So far their efforts have been fruitless and the Negro is [illegible] in two sides as each week progresses [illegible] of the articles published [illegible] follows.

"C. of C. Welcome in South Park District"

"We cheerfully agree that the organization of the South Park Division may be the beginning of better conditions, especially business, in our district. We are more than pleased that these men have awakened to a civic duty for South Park. This is one of the things that has impelled the Home Protective League members to work so hard and sacrifice so much to make this district white and keep it white, that we do not build a prosperous commonwealth only to be [illegible] by Negroes and other races. Business men as well as property owners are vitally interested because white people will draw the color line in trade, especially refreshment parlors amusement places, restaurants, and all will lose heavily if catering to Negro trade in our district.

"What profit will it be to the white people in this district to have street lights, paved streets through to the harbor, better business storm drains, Chamber of Commerce and what [illegible] if the district is to be gobbled up by Negroes?"

MEDICS TO HAVE FULL WEEK, AUGUST 23 AND 27

PHILADELPHIA, Pa., Aug. 21st.—With the annual meeting of the National Medical Association in the offing, the local physicians, dentists and pharmacists are busily engaged putting the finishing touches on the arrangements.

According to the national program, beginning early Monday morning, Aug. 23rd, and continuing through Friday afternoon, the medics will have a full program, comprising executive sessions, clinics, and public meetings. Of special interest will be the clinics and the scientific discussions.

Ample clinical material has been secured and many interesting cases will be presented and studied. In this phase of the program, the local committee has received the co-operation of the local hospitals.

The "working program" will be relieved and spiced with various entertainment features, such as smokers and stags for the men, and teas and card parties for the ladies, finding their climax in the grand ball, Friday evening.

In order that the program might get under way at the appointed hour, Dr. W. G. Alexander, president of the association, is urging those planning to attend the convention to try to get to Philadelphia not later than Sunday night.

ILL—WILL—SEGREGATION—GOOD

MISTREATMENT

The question of social relations is the most important problem of life today. Self-preservation, progress, peace, happiness, are all intimately involved in this issue. These vital matters are directly determined by the manner in which men treat each other.

Mistreatment begins all family troubles. Mistreatment occasions all social, political, and labor troubles. Mistreatment causes all inter-racial troubles. War is the climax of man's mistreatment of his fellowman.

When men treat one another right, then human relations are just and congenial; peace is established; justice is enjoyed; all human needs are supplied; progress is stimulated; and the measure of "pleasure units" of life are multiplied for all.

Individual conduct expresses the inner mental attitude. Public opinion is the agreement in mental attitude of many minds and is expressed by means of public policies and actions. The public attitude, or the majority opinion, may be sympathetic or vicious just as the individual minds are animated by good or ill-will.

Mistreatment springs spontaneously from ill-will. Good will can do harm to no man either in thought or deed. Ill-will can treat no man right. Good-will treats all men right.

Social relations are problems of mental attitudes. Attitude and its expression, conduct, is an issue of human wills. Divorces, strikes, crimes, poverty, political malice, religious strife, the racial spirit, all display the hatefulness in the American mental attitude. The widespread prejudice against the Negro is an outstanding instance of an ill-feeling which seriously disturbs the tranquility of our social relations. The humiliation, the discrimination, the injustice, and the segregation suffered by our colored folk is a mistreatment which shows the enormity of the ill-will and dislike prompting it and, let us remember, it is no less wrong because it is the popular attitude. Misery, violence and vengeance will follow prejudice and bitterness so long as ill-will for a fellowman inspires dislike and ill-treatment.

Animosity in any degree, embitters the sweetness of human contacts.

Peace and happiness will become the natural and common lot of men when a virile good-will animates human sentiments and contacts.

An attitude and conduct, individual and collective, motivated by good-will, is possible, practical, wise, and best.

Segregation

I am a native-born white man.

As a citizen, I protest against any segregation of colored citizens.

As a tax-payer, I oppose any infringement of the rights of colored taxpayers.

As an American, I am against any abridgement of the privileges and liberties of colored Americans.

As a Christian, I disapprove of every manifestation of ill-will toward our colored folk, and I wholly commit myself to the practice of a Christ-like good-will.

I stand squarely opposed to any denial of the right of a Negro to buy and occupy property where he chooses. Segregation violates the natural rinht of residence of American citizens.

I am unalterably opposed to segregating the colored people because it establishes customs and precedents which places every minority at the mercy of the group in power at any given time. Different social conditions and a changing popular opinion may easily involve the Jew, the foreign born, the Catholic, the Socialist, or any other minority, incurring the displeasure of the ruling group. A threat against one group is a peril to every other group in the nation. The safety of one group involves the security of all.

I am against incurring needless litigation, costing the colored populace and the white taxpayer heavily in time, effort, and money. The U. S. Supreme Court has repeatedly declared segregation to be unconstitutional and it is both foolish and wasteful to attempt that which cannot be upheld.

I protest against segregation of the colored citizen because it is contrary to the traditional hospitality of the early pioneers. Segregation repudiates from communities infected with the mob spirit and the lynching mania.

I stand squarely against segregation because only a small group of our citizens actually demand it. A survey of our population shows one solid group, the colored folk, opposing it. The majority of Jews and foreign-born are against it because it indirectly threatens them. Many Catholic and Protestants are against it as a matter of common justice. There are thousands who do not disapprove of segregation, yet who do not assert their demand for such a measure. Hence the actual demand for segregation arises from the relatively small group, who happen to be in power.

I protest against the appeal to racial hatred; I am against arousing the race spirit; I am opposed to stumulating racial antagonism; for such are the outstanding results of all segregation measures.

I object to segregation because it implicates me, as a member of white society, in a social policy and attitude which I hold to be grossly unjust, un-American, and unnecessary.

I am against segregation because it increases the problem of the housing of our colored citizens. It makes the housing conditions for Negro families worse without offering a single hope of betterment.

I am against segregation because it has always failed every where it has been tried out. It has failed with every race in every land to promote social peace, common welfare or mutual respect and progress. Its unfailing effect has been to intensify racial bitterness, incite to violence and gross injustices, and perpetrate brutal atrocities.

I protest against segregation because it is undemocratic, unChristian, unnecessary, unsocial, unwise, unjust and harmful to social peace and common welfare.

Think Good-Will

I APPEAL TO YOUR REASON.

I do not appeal to your feelings, your prejudices, or your passions.

If you cannot reason it through, let me do your thinking for you.

I will guarantee that a sweet peacefulness with all men will settle and abide deep in your own soul. In the power of such a peace, living will be a grand experience, this earth a wonderful world, and the sacredness of human life will be reverently appreciated.

I think good-will and thoughts are things. They make life. Living is an opportunity for thinking; thinking is living. THOUGHTS ARE THINGS. They find being in attitudes, in conduct, in sentiments, and in kindred thoughts.

I think good-will. Like begets like. Good-will begets good-will. I meet the child and the aged, the ragged and the rich, the fool and the sage, the criminal and the saint, neighbor and stranger, white or black, in the positive mental attitude of a friend with the warmth of a frank and sincere good-will in my mind and soul and the open hand of a genuine and humble sympathy. It makes happy terms of human contacts.

I think good-will. It discovers merit, it appraises personality. It seeks the charm and finds the excellency of character. It senses the delights of personal contacts and makes the priceless treasurers of social relations my choice possession.

I think good-will. The world is my kin and every man is my brother. It takes criticism from my lips; it ends dislike; it stops prejudice; it banishes hate. It wholly delivers me from the spirit of strife.

I think good-will. It minimizes faults; it rights the wrongs; it atones for injustice; and makes it possible for men to treat each other right. Good-will in the heart takes mistreatment out of the conduct.

I think good-will because it is impossible to prove, by right thinking, that it is wise to dislike a person for any cause whatsoever. It cannot be established, by calm, sensible reasoning, that it is the course of wisdom to hold ill-will against any man because his opinion, habits, color, race, or creed do not please. Hatefulness cannot be supported by any method of sound reasoning. In any degree or form, hate shows the lack of right thinking and clear reasoning. It is thus I think, because good-will is the true course of wisdom.

NEW YORK, Aug. 20th.—According to an article in the August "Crisis," more than 8,600 Negro students were enrolled last year in American colleges and universities, over 7,000 of this number being in Negro colleges, and 1600 in white institutions. NEGRO HAILED AS WHEAT KING

(By The Associated Negro Press)

HUTCHINSON, Kans., Aug. 21st.—A few years ago, "Tom" King, as he was then called, became thoroughly disgusted with life in the city as a day laborer, with nothing on his side of the books after the week's toil. He took his family and moved to a farm near Plains. He claims he had nothing but his willingness to work on. He rented the land and underwent all the trials of a tenant farmer. Today he has one of the biggest bank accounts in Plains, owns his place and drives a fine car.

In Southwest Kansas, King is hailed as a wheat baron, claiming to be the only colored wheat king of the Southwest. He harvested a crop of 27,000 bushels of wheat from his 600 acres this year. Its worth is estimated at something like $28,000 today. In his front yard is piled up one heap containing almost 10,000 bushels.

ELK'S CONVENTION BIDS FAIR TO BE HARMONIOUS

(By The Associated Negro Press)

CHICAGO, Ill., Aug. 20th.—Harmony will prevail throughout the twenty-seventh annual convention of the Improved Benevolent and Protective Order of Elks of the World, which will be held in Cleveland, Ohio, Aug. 24th to 27th according to present indications.

The real fight will center around the election of the Grand Secretary, for which Harry Pace is running against Bates, the present encumbant. J. Finley Wilson, whose record organizing lodges has been outstanding is expected to be re-elected Grand Exalted Ruler, with little difficulty and opposition.

The Chicago contingent goes to the convention with the Fort Dearborn delegation, headed by J. C. Martin, exalted Ruler, supporting the administration and the Great Lakes representation "on the fences."

The New York delegates headed by Robert P. Braddicks, have only one goal and that is to bring the 28th convention to New York. All personal ambitions and petty grievances have submerged and a solid front will be presented in this fight for the 28th convention.

Present indications further point to a record breaking attendance and realizing this the Clevelanders have perfected arrangements to entertain the "greatest Elk Convention" ever to be held.

LEADERSHIP

Stability of mankind is as uncertain or impractical as the possibility of the Norse King stopping the ocean tide. Men are up and down therefore the tide of men's affairs rises and falls. As the men who play the big roles in shaping the same go up and down. The individual, who gathers in the most worthy returns on human activity is the individual who expends the most according to ability, over the longest period of time. The poet who said, "Give until the world the best of you have,—And the best will come back to you," spoke a simple eternal, unavoidable philosophy. It is not a matter to to be trusted to the other person,—it is every soul's work.

If you are vigilant in the strife, you will not find yourself, as you will, some other poor soul, down—, who has failed in the measure, value and cause of giving to the world—(service.)

These few wandering statements, are incidental to speaking of men and leaders. Leaders are souls, who know and fathom the deepths and functions of other human minds continiously. They have an inexhaustible capacity for co-operative work. They work for humanity's sake, you and me, more so than expectation of reward or hope of praise. True leaders early discover the virtue of service, they are tolerant of accepted predecessors, and hopeful of future successors. They know that others must come, and they work to build up ways and means for other souls to go up the heights of achievement. Their criticism of possible sucessors, on the scenes of time is of a kind that is neither crushing or distructive, but rather uplifting and constructive.

True leaders have a peculiar ability of reaching out, down, and all around, to feel, and hear the distressing cry of the human family. These things are near unto you and me notwithstanding the picture may seem at a distance. A new call for leaders is crying out around us,—we must have some individuals to act now, immediately and henceforth. We are behind in the grand march of Negro activity.

The commercial world is the big activity of the day. The Negro has a commercial world. At this time, and henceforth, he will need, and must have the same, to amount to anything in the scheme of things. It is every man's struggle, what are you and I going to do? The local Negro commercial activity is not within a visionary range of the already established standards.

We have resources and facilities more or less, all being manipulated by people other than Negroes. We have a wonderful field—no competition in one respect, men and women of ability,—and yet in the language of the street,—nothin' doin'.

What are the possibilities for young Negroes? Young Negroes with red blooded hopes, abilities and vision: You have no redress on any one, other than yourself and the other Negro, —if there is no place for them. You are your brother's keeper, other people will take care of their own,—what will we do? There is not a better time than the present to act. Geo. Washington said, "Prepare for war, in time of peace." Some one must prepare a place for the present Negro youth, a new Negro, a peculiar product of our present social renaissance. We are stressing a call for new leaders with new, real, and constructive ideals, backed by workable programs and policies.

There is at the same time, some room for some older individuals with new ideas, and a co-operative spirit anent the times.

MAYOR DUVALL

Mayor Duvall back in the days, when he was gunning for votes, was some how a party to the tolerating of committees with the names of Negro citizens on them. But as we remember at that time he was trying to be elected mayor, and since that time, he has been very successful in avoiding or evading Negro voters or citizens. In the beginning of the Honorable Mayor's administration, he pulled several bones in the manipulation of the plum tree and its fruit. These,—hit at,—miss,—run and hide, antics put him in a bad light for show with the first-class of citizens, since that time he has made every effort to cover up these mistakes. He has played a good fellow to the public, and he has tried almost everything but the stage and auctioneering.

He may yet win the City Councilmen over to his side.

Lately the Mayor has appointed many committees for all purposes, imaginable,—these committees include the names of most of the outstanding men of the community. And it has been reasoned by quite a few individuals that the mayor has had in mind chiefly the intentions of acquiring the good will of these individuals. Many citizens put their stamp of disapproval on the Mayor after the episodes of "Seclusions," in the beginning of the administration.

Our contention is, if the Mayor has in mind to appoint a committee for every day in the week, why not name some committees with Negro citizens on the list, such was the case in the old election days,—and election days may come again, remember Mr. Mayor.

"CONTEMPORARY"

A contemporary daily carries a press dispatch, lamenting, in a humorous and disparaging aspect the fact that the mortality rate among Negro babiees is high. The dispatch runs, —"Poor little Pickaninny, his chance for life isn't what anyone would call good,—etc." It further states, some statistics, somewhat perplexing if the impression is to convey that the Negro is fast dying out. But the fact that the contemporary white press jumps out every now and then to show that the Negro is dying away, draws this comment.

In any community the health of Negro babies can be no better than the average of general health. And two chances to one, it will be below the average, the majority of Negroes in any metropolitan community do no thave available to them the various possibilities for promoting good health. These possibilities include good housing conditions, public health service, and the enforcement of public health legal codes. In most places the Negro enjoys little, or the least of these facilities. But at the same time, there are white people who do not receive a proper share in these things.

So that it seems funny where the Negro as an individual is out-numbered (10) ten to (1) one, that the Negro will be a particularly peculiar victim of ill health to appease statisticians, and the minds of some, who have taken on a particular aspect detrimenatl to Negro health. And final, and in seriousness, where there is so much Negro ill health, there will eventually be ill health for all. So it seems that everyone interested in good health for any people at all should, go about working for good health for all the people,—including the poor little pickaniny.

Ask For Justice On Southern Rl.

Indianapolis, Ind.,
2531 Boulevard Place
Aug. 4th 1926

Mr. H. F. Cary, Gen. Pass Agt.
Southern Railroad Co.
Washington, D. C.
Dear Sir:—

Permit me to call your attention to the condition over your lines in which colored passengers have to contend with! We colored pay the same fare to travel over your lines as any other passenger do and yet we (colored) are not given the same accommodation as others are (white). I am sure you don't know how unpleasant it is the way the poor colored people have to travel over your lines. Since separating the whites and colored are the law of the Southern States, and your policy, I believe that we (colored) people should have a decent place to travel in as we pay the same as whites do. I do not protest the rules of the States or the Railroad Company in the South whatever but I must insist that we (colored) are not being dealt with fairly.

I travel over your lines quite often between Cincinnati, and Spartanburg, S. C., and between Washington, D. C., and Atlanta, Ga., and Washington, D. C., and my finding is that the condition as follow: July 3rd, 1926, I left Cincinnati, Ohio over your line going to Charlotte, N. C. "The little small end" that colored are hauled in, or have to travel in is very unsanitary, that is to say, the toilet is very very offensive by not being properly disinfected. You travel all night and all day in that condition. The cars are too small for the passengers. Some time some member of the train crew are smoking and spitting on the floor. Sometime we have to stand up for miles, no where to sit. Passing through tunnels the vents or windows are left open and we suffer all of that gas and smoke. Not a wash bowl, nor a mirror on the train or in the station for men. Oh, it's bad. I know you could not enjoy such condition. I was almost compelled to go and get under the care of "Doctor" when I reached Charlotte, N. C., on the 3rd of July. No colored porter between Oakdale and Knoxville, Tenn. I saw a poor colored woman at Hairman Jct. at 325 A. M. July 3rd trying to get on the train and no one to admit her. A colored passenger had to open the door and let her in. Our colored women have to get off and on the best they can, where there is no colored porter. Our ladies have been compell to travel in smokers, white men using the toilet and coming out not properly dress in the smoker where our ladies are compelled to travel because of overcrowded condition. The 10th of July between Charlotte, N. C., and Winston-Salem the water in the cooler was so bad with trash until the (Good Conductor) permitted me to go in the white car and get some water. Treat everybody as we would them to treat us.

I am sure your attention has never been called to this very important matter. I hate to have this to do because there is so much unrest going on in this world at this time. I wish it were better understanding between the two races. If there was we would be happier than we are all over the world. The poor colored people thinks they are treated like they are because they are powerless and are not able to help themselves and of course that within it self is enough to make him (colored) feel mistreated by the people who are in power. Now Mr. Cary I am calling your attention to this very imporant matter that you might have mercy on us God's poor among you all. If you will have mercy on us God will bless you, for your kindness to his poor. We will not always be in this condition and when our Father Blesses us we will remember you all as sure as there is a God and there is one. We wil remember your good deeds done to us. I am appealing to you out of the bottom of my heart.

I am very truly yours for a better world,

BISHOP, E. D. HADLEY.

P. S.—I will pray for you and ask God to bless you if you will only remember us poor in your land.

—E. D. Hadley

"NIGGER CAVE" TO BE A PART OF NATIONAL PARK

GLASGOW, Ky., July 24th.—When the United States government takes over Mammoth Cave as a national park, as already provided for, there will go with it another cave hardly known to tourists, but known around here today as "Nigger Cave," because before the Civil war a runaway slave made his home in it for two years.

"Nigger Cave," one of many in this region lies about six miles from the entrance to Mammoth Cave and its opening its on the West side of a mountain knob. Years ago the region abounded in deer and turkey and in the Sixties a hunter following a wild turkey came upon it and judging from the well beaten trail tha tled ot it decided that some large animal made its home there.

The hunter, whose name long has been forgotten, lay in wait and about dark saw a Negro man emerge from the entrance, get water from a nearby pond and pick up some brush and sticks and then return to his under-

The Negro, who was captured the following day, wore a quilt wrapped about his loins and had on a tattered coat, admitted he was a runaway slave on his way to Canada, but having found the cave decided to make his home there. He had built of stone a small furnace in the cave and this and kettle and an old bucket and a pile of straw completed his housekeeping equipment.

The runaway was sold to Bob Foster, a slave trader, who carried him to his plantation in Georgia instead of selling him again, and taking a fancy to him, gave him his freedom some years later.

"Nigger Cave" is among the four caves on a 1,000 acres owned by Mrs. Fannie A. Preston of the Preston Hotel, Glasgow, Ky., Junction.

Mrs. Preston, who is in her seventies, is the mother of Mrs. H. H. Abel, of Indianapolis.

IDLEWILD IS CONTROLLED BY NEGRO OFFICIALS

The other day, while out East, we came in contact with a very ponular invidual, Rev. F. A. Berry, 2362 Baltimore Ave., and in our conversation, we were speaking of the end of things particularly th vacation period. Rev. Berry is of the opinion that the season will close with an excursion running to Idlewild, Michigan, August 28th. Because of the fact that school will begin the first of September and the minds of the pugilc will be filled with the problems of winter which caused us to have a seriou sthought concerning Idlewild, Mich. And naturally Rev. Berry having been a visitor there on the last excursion, we ask his opinion concerning the growth of the place in every line of endeavor.

In the eleven years of Idlewild's existence I find racial progress second to none because I have viewed three and a half million dollars worth of buildings and conversed with representatives of the civic government of Idlewild who, by the way, happened to be colored and find their place progressive and strange to say [illegible] side with another. That holds good [illegible] all lines of endeavor because I find in that place, the thing we, as a race, have been speaking of all of our existence "Get together," is being put into practice because collective I found [illegible] on residing there with [illegible] the promotion of all industries, social activities and the [illegible] regardless of his or her personal feeling toward his brother.

And as far as the financial [illegible] concerned, I was fortunate enough to, on the last excursion, July [illegible] win a lot, and after having viewed this lot, I immediately purchased the surrounding lots and will in the near future probably, September make my residence there.

Then we immediately [illegible] and wondered if Rev. Berry, who has a church in this city [illegible] a Mission there and we find [illegible] as in all other things in Idlewild, the people there have a community tabernacle, where all of them attend worship regardless of denomination, the presiding pastor [illegible].

service free. So all of these [illegible] being true we say press forward [illegible] wild. We tender Idlewild our [illegible] co-operation for a greater [illegible]ty.

MONARCHS AND GIANTS FIGHT FOR LEADERSHIP

American Giants Leading League By Scant Margin—Monarchs Hanging On And Threatening To Displace the Fosterites.

(By The Associated Negro Press)

CHICAGO, Ill., August 21st—The Giants managed to hang onto the lead in the Foster loop the past week, but it was by work of the hardest kind. The Chicago pets journeyed to the lair of the Indianappolis A. B. C.'s and engaged the Bingoites in a five-game series. They managed to win the first four games and then in the rush to catch a train, dropped the fifth and final tilt, 5-3. By losing this last game the Giants slipped back just 40 points towards second place. Kansas City is close on the heels of the leaders with a percentage at this time of .895 while the locals have a percentage at the close of the week .917. The Giants have ben depending on th other clubs to take a few games from th Kaw Valley Champions, but to date there doesn't seem to be any such animal as a game being taken from the Monarchs—excepting the Cubans who always get away with a game from the champs.

Fight Now Between Giants And Manorchs

The fight for the supremacy of the league during the second half of the season will be between Kansas City and the Giants and bids fari to be one of the hottest races ever staged in the Western Circuit. Only a few points separate the two clubs now, and if the Giants are first to lose a game while the Monarchs are winning—it means second place for the Giants. The Giants left for Detroit last Friday morning determined to wipe the Motor City boys off the map in their drive for the flag. However, there is a rift in the lute for the Chicago team—Kansas City has open week this week and the Giants will draw away from them if they can beat Detroit. They beat Detroit five in a row the last time they met a few weeks ago and will perbably take at least three from the Detroiters in Detroit. It takes four this week to retain the lead.

St. Louis seems to be teh only other club in a threatening position at this time. They will have to be watched by both the Giants and Monarchs. They are always dangerous and may get going at any moment and upset the dope. They also have an open gapace in their schedule for the week.

Indianapolis and Detroit, both suffered defeats last week and apparantly are out of the race for the leadership unless they strike a winning stride immediately and hold it. Both are liable to do so—and then the race will really be interesting. Treadwell has been added to the pitching staff of the Detroit Stars and seems to be good, which should be bad news to opponents of the Stars.

Miller Joins Giants Hurling Staff

The Giants strengthened their pitching staff during the week by recalling pitcher Miller, who was sent to the A. B. C.'s at the start of the season. Miller will join the club in Detroit this week. With Miller to help out the Giants will have about the best pitching staff in sight just now. There is trouble in store for someone.

DETROIT STARS LOSE TO GIANTS

UNABLE TO CONNECT SAFELY AND DROP VERDICT, 6 TO 2

Detroit, Mich., Aug. 17th.—American Giants defeated the Detroit Stars in the third game of the series, 6 to 2, Monday afternoon at Mack Park. The pitching of Curry for the Giants was the main factor in the downfall of the Stars. Five hits were all that the Stars could glean from the offerings of the Chicago hurler and Kenyon, Star outfielderr, collected two of these.

WILL GREB BEAT 'TIGER' FOR TITLE?

Can Harry Greb, the "human windmill" from darkest Pittsburg, duplicate the feat of the immortal Stanley Ketchel, th greatest fighter for his weight and inches that ever crawld into a prize ring, and win back the world from the man who relieved him middleweight championship, of the of it?

Greb's chance to duplicate the fact of the Michigan assasain, will come Thursday night in New York when he will clash with Tiger Flowers, ebony hued boxer from Atlanta, for fifteen rounds to a decision. Last February the Negro took the championship crown from Greb in the same ring after fifteen sessions of torrid milling and the return engagement makes good a promise exacted from Flowers just prior to the former engagement when he said he would give the "windmill" a return engagement in the event he won the championship.

There have been a few others in the long history of the prize ring who have "come back," but there are very few. Whn Greb lost to Flowers his friends claimed that he was not in good condition—that he wasn't the Greb who had beaten every man he had met regardless to size and appeared to be in a class by himself as a middleweight. It is a fact that Greb likes th bright lights of Broadway. He has traveled the path where fighters have fallen by the wayside long before they would if they sought another way of spending their idle time. But it appeared that Greb was one of the very few who could do that and get away with it. Fistic experts predicted a long time ago that the time would come when Harry also would regret that he had not stuck to the straight and narrow while he remained in the boxing game.

Here are the measurements of the two men

DEMPSEY'S NEW CHAMPIONSHIP

By William Pickens

(By The Associated Negro Press)

Dempsey was Champion Boxer, then Champion Dodger, and now, according to Harry Wills, he has become the Champion Liar. Through all this rotten lying and dodging, on the part of the boxer and some members of the boxing commission, Wills has kept dignifiedly silent. But there comes a time when silence is a weakness, not a virtue.

It is time for all of us to speak plain language. Here goes: If Wills were Champion and Dempsey challenger, and the black champion had dodged the white challenger as much as Dempsey has dodged Wills, the Negro would have been uncrowned, not only by the New York Commission, but also by every other boxing authority in the Union, and there would not be a place left where he could box for an orphan's milk fund. Any such dodging black champion would have been called "yellow" in so many different dialects that he would stand as a disgrace to his entire race.

Harry Wills was not talking rashly when he questioned Dempsey's veracity. For example, Dempsey had the brazen face to say that for five years he has been trying to get Harry into the ring. We must at least compliment Dempsey's nerve: it certainly takes nerve to say publicly, boldly, and in big print something that everybody knows is untrue. Wills has been the one chasing Dempsey, since the memory of the fan runneth not to the contrary.

A few questions will make that clear? Has the boxing commission ever had to threaten Wills to try to make him contract with Dempsey? Has Wills ever forfeited $50,000 just to keep from meeting Dempsey? Has any promoter ever had to get an injunction against Wills to try to make him live up to contract to box Dempsey? Has Wills ever pretended, as Dempsey has pretended, that the lack of financial inducement stood in the way. Wills has been willing to leave all the money to Dempsey, if only Jack would fight. If money were the consideration to Harry, believe us, he could get more money by agreeing to "lie down" to Dempsey, or to sell out in some way, than he could ever get by licking Dempsey.

When we compare the character, cleanness and manhood of the two men today, we can say, sincerely, that we would rather be in the same race with a Harry Wills than to belong to anything that claimed Jack Dempsey as a member.

Now, if Dempsey does not trade off his title to Tunney, so as to get out of hot water by looting another white man in to keep up the dodging for another five years,—if Tunney should happen to be licked (by an accidental blow from Dempsey), what excuse will Dempsey next give to keep from making battle with his only rival, Harry Wills?

DEMPSEY BANKS ON TATE

(By The Associated Negro Press)

NEW YORK City, Aug. 21st— Jack Dempsey, champion heavyweight boxer of the world, is in this city awaiting the decision of the license committee relative to the prospective Dempsy-Tuney battle, here in September. While Dempsey is waiting, he is utilizing his spare time telling how anxious he is to fight Harry Wills and making preparations for training to fight Tunney.

According to the champion, the mainstay of his training force will be big Bill Tate, whom the champion says "gives me fine workouts. He has fought Wills and he shows me much."

In the meantime, Harry Wills is sitting on the side lines watching the chance at the title, which he has sought for a number of years, slip from his grasp through the double-crossing of the New York Boxing Commission that recently sanctioned the Dempsey-Tunney fight after issueing the edict that if Dempsey fought in the states of New York, Wills would be his opponent.

INDIANAPOLIS PAIR IN FINALS

LINCOLN TENNIS COURT, Detroit Mich., Aug. 14th —(Special to The Recorder)—The annual tennis tournament of Detroit, ended yesterday with Clarence Hunter the new champion by virtue of a victory over Wortham 6-1, 6-1, 6-0. In the doubles Alfred Grayson and Lee Johnson of Indianapolis went in to the finals when Lee and Richardson of Detroit defaulted in the Semi-Finals. Johnson-Grayson lost to Hunter and Wortham of Detroit 6-0, 6-1. The players were so exhausted that they agreed to stop the match at the best 2 out of 3 sets. Good sportsmanship was shown all the way through plus fight.

TED THOMPSON WINS MID WEST TENNIS TOURNAMENT

(By The Associated Negro Press)

CHICAGO, Ill. Ted Thompson added another sectional championship to his list here Saturday afternoon when he defeated Edgar Brown in the finals of the midwest championship tennis tournament, which has been in progress since Thursday afternoon.

Displaying the steadiness and stamina which has carried him to the national championship and the New York State championship, Thompson won the first, third, and fourth sets, with Brown winning the second. Each set was hotly contested and the playing of the contestants brought the stands to their feet frequently. The scores were as follows: 10-8, 3-6, 7-5, and 7-5.

In the finals of the women's singles, Mrs. Dorothy Ewell of Chicago triumphed over Miss Lillian Miles of North Carolina, 6-3, 2-6, and 6-4.

One of the features of the tournament was the match between Simmons of Dayton and Thompson in the semi-finals. Simmons playing a steady and brilliant game forced the champion to the limit and at one time the fans thought he would eliminate the champion but he failed at the crucial moment in the fifth set, which went to Thompson. The closeness of the match is indicated in the score of points which was Thompson, 32, Simmons, 31.

Brown easily defeated Dr. O. B. Williams and Richard Hudlin, St. Louis and won the right to oppose Thompson in the finals.

JACK DEMPSEY IS DISDAINFUL OF PANTHER'S CHALLENGE TO BATTLE

WILLS OFFERS TO FIGHT CHAMPION ANYWHERE; OFFERS USE OF SPARRING PARTNER.

CHAMP TO BEGIN WORK

SARATOGA SPRINGS, N. Y., Aug. 21st. "Hoodlums fight in the streets" was Jack Dempsey's answer today to the offer of Harry Wills and contender for the heavyweight title to knock the champion out any time he wants—for nothing. Dempsey remarked that he did not make his living fighting in the streets and has always tried to uphold the boxing game.

"If Wills is very anxious to fight" said Dempsey, "I suggest he come right up here and meet my chief sparring partner Big Bill Tate. The last time they met, at Portland, Oregon, Tate beat Wills decisively and we would like to get $10,000 that he can [illegible]."

The champion will begin road work tomorrow and intensive training Sunday.

CHIC SUGGS LOGICAL FEATHER CONTENDER

If any of the members of New York's joke Boxing Commission saw the masterly and easy manner that Chic Suggs disposed of Sarmiento at Madison Square Garden last Thursday night, we do not see how in the world they can continue to ignore that boy's claim to a place in the featherweight championship elimination which the commission is proposing.

The Filipino was courageous, but was simply outclassed in every possible manner by the New Englander who was at his best and performed so that many of the white sport writers were forced to comment on the commission's apparently deliberate passing of the colored boy's rightful chance at the title vacated by Kid Kaplan. If Suggs does not get his chance, it will be just one more black mark to be chalked up against a set of men who once did much to further boxing in New York State, but who are now seemingly trying to kill it.

"FOUR HORSEMEN" OF SOUTHERN LEAGUE IN CRUCIAL SERIES

(By The Associated Negro Press)

MEMPHIS, Tenn., Aug. 21st.—With about four more weeks to go, the teams of the Southern League, are entering upon the final stretch with zest and determination "to do their durndest" to improve their lot if not win the pennant.

The real race is between New Orleans, Memphis, Birmingham, and each team has a mighty good chance and further each one of this group is playing a winning brand of ball.

Memphis, however, seems to be the most formidable of the quartet. The Red Sox have been going at a rapid clip since the first week and have won 15 of the last 17 games played and even more significant is the fact tha tthose 15 victories were consecutive.

Charley Wesley, the Memphis pilot, declares that with Birmingham out of the way the Red Sox are pennant bound, but in spite of Wesley's optimism the road to the pennant is beset with many pitfalls and hazards, the chief of those being Canfield's New Orleans Ads, and Gatewood's Albany Giants.

The only change brought about by last week's play in the circuit was Memphis' move into second place, displaying Birmingham, and within two games of the league leading New Orleans Ads.

This week finds the "four horsemen" of the league battling among themselves. New Orleans is playing Memphis and Albany is the guest of Birmingham. The outcome of these series will do much toward deciding the winner of the second half.

The winner of the second half will have to meet Birmingham to decide the pennant winner and it is the hope of President R. M. Roddy to have his champions play the pennant winners of Rube Fosters' National Negro League.

ALABAMA NORMAL ANNOUNCES GRID SCHEDULE

(By The Associated Negro Press)

MONTGOMERY, Ala., Aug. 21st.—In anticipation of a schedule which is heavier than that of previous seasons owing to the addition of Atlanta University the members of the Alabama State Normal football squad are now answering the call for duty with the formal practice to begin on September 13th. With five conference games the Hornets are expecting to maintain the challenging position as contenders for the championship of the Southeastern conference. Through the achievements of the past two seasons in the heated contests with the championship Tuskegee Institute Tigers and the heavy squads from Talladega and Morehouse Colleges, the Hornets have become widely known as a squad to be feared on the gridiron. The record of 1925 when the Alabama Staters lost only to Morehouse and Tuskegee while tying the 24th Infantry Soldiers and defeating Birmingham High School, Selma, Talladega, Hiles, Alabama A. & M. and Florida A. & M. is in itself quite a challenge to the coming season for the Alabama youngsters.

The football schedule, as a result of the additional game, is representative of the full schedules provided by the Alabama State management for all the sports. The schedule is as follows:

October 1—24th Infantry at S. N. S.
October 8—Birmingham High at S. N. S.
October 16—S. N. S. at Atlanta University.
October 22—S. N. S. at Miles Memorial (Birmingham).
October 29—Selma at S. N. S.
November 6—Tuskegee at S. N. S. (Cramton Bowl-Home Coming)
November 12—Talledega at S. N. S.
November 19—Morehouse at S. N. S.
November 25—S. N. S. at Florida.

PHILADELPHIA—Mrs. Emma R. Oldham, who died in this city recently, directed in her will probated last week that $100 of her $6,000 estate be placed in trust as a flower fund.

CUBANS THE CLASS OF EASTERN LEAGUE

(By The Associated Negro Press)

PHILADELPHIA, Pa., Aug. 20th.—By getting the jump on the Lincoln Giants in their first games of the season between the two clubs, Senor Pompez' Cuban Starrs are still out in front in the Eastern Colored League race. The Islanders took the first two games from the New York team, both were hotly contested battles that were decided by a one run margin and played at the Bacharach's ball park in Atlantic City. Although the Cubans' have always been a traveling team without a home park, Jim Keenan, the boss of the Lincoln Giants outfit, would not agree to play the league leaders at his park in New York until the Cubans' first played host to them. After finishing the series in Atlantic City, the clubs will again meet, at Catholic Protectory, the home diamond of the Lincoln's, Sunday, August 15th, in a double-header. While the Cubans have not played as many games as some of the runners-up, Manager Pompez emphatically declare sthat none of the fault rests with his island invaders. "We have played all of the games that we have been scheduled for and have solicited other league games from various clubs. We have always abided by the league rulings and feel that the league is a benefit to us all. Being one of the initial members, we entered the league as a traveling club and since some of our clubs play at home every Saturday and other Sunday's no hardship was experienced. However, if the league decides that all clubs must have home grounds, then it is up to us to make a decision. However, until such law is passed it is a gross injustice to attempt to ostracize our club" is Alexander Pompez' version on the muddled schedule affair of the Eastern Colored League. Of the 27 games played by the Stars only one club, the Bacharach Giants, have bested them in a series; the Cubans have won 7 out of 9 from Hilldale, 4 out of 5 from Baltimore, won 2 and lost none to the Lincoln's and split even in two games with Harrisburg and Brooklyn respectively. While Dick Lundy and his Bacharach Giants who are resting comfortably in second place, have copped 4 out of 6 games from the present league leaders.

WILLS' MANAGER AND DEMPSEY IN HOT ENCOUNTER

CHAMPION IS DARED TO FIGHT WITH FISTS BOUT IS APPROVED

New York Urges That License Be Issued

NEW YORK, Aug. 18th.—Amid a barrage of insults, Paddy Mullins, manager of Harry Wills, heavyweight, today challenged Jack Dempsey to a battle removed from the canvas ring and hostilities were avoided only by the timely intervention of friends.

The heavyweight champion and the Negro's manager were standing outside the offices of the state athletic commission and had drawn back for a punch when the belligerents were led away.

Mullins' ire had just been aroused when the commission approved a bout between Dempsey and Gene Tunney, shoving Wills, previously recognized challenger, to one side.

Order License Granted

The commission notified its license committee that the heavyweight champion had complied with all rules and should be granted a license.

The action came on a record 2 to 1 vote, with Commissioners William Muldoon and George Brower favoring that bout and Chairman James A. Farley registering a protest.

The license committee, which Tuesday deferred action on Dempsey's application for a license, is scheduled to meet again Monday unless a special meeting is called beforehand so that the last remaining obstacle to the fight may be removed.

Mullins stopped Dempsey as the latter was leaving the offices with "Tex" Rickard, promoter of the Dempsey-Tunney go. "That's a fine trick you pulled on me. You're a big rat," Mullins said caustically to the champion.

"What do you mean by 'rat'?" asked Dempsey, flushing.

"Just what I said. You sent me a telegram last year saying that you would fight Wills."

Dempsey denied having done so, whereupon Mullins said, "I'll bet you $1,000 you did."

"That's a bet," said Dempsey.

Mullins then pulled a roll of bills from his pocket and counted out the money.

"I don't have that much with me," the champion put in.

"I thought not," observed Mullins. "That's the kind of a cheap guy you are. I've got a notion to take a crack at you and if you'll step into the next room I'll fight you even if you won't go up against my fighter."

"It's a good thing for you that you're an old man," Dempsey said.

Whereupon Mullins drew back his arm. So did Dempsey. Deputy Commissioner Eddie Curry threw himself against Mullins and Gene Normile, the champion's business manager, grabbed Dempsey, leading him to the elevator in the Flat Iron Building, where the commission's offices are located on the third floor.

"Here's something you may not know," he told newspaper men. "Tex" Rickard through an agent offered me $50,000 if I would withdraw the challenge of Harry Wills which had been accepted by the commission."

Mullins declined to name the agent but hinted that he might take the affair to court.

Wills' challenge long stood in the way of the Tunney fight. The commission decided today that the champion by signing three contracts, none of which was consummated, to fight Wills had signified his willingness to accept the big Negro's challenge.

The Week In The National League

ST. LOUIS LEADS IN TWO-PLY KILLINGS

(By A. D. Williams, Director of Records)

(By The Associated Negro Press)

The double play, always full of thrills to fans, and a source of joy to the pitcher, especially when he is in a tight place, and a joy-killer to the hopes of the team upon whom it is executed, is a valuable asset to all baseball clubs, and those who gain perfection in the execution of the play adds many games to the list of wins that otherwise would be numbered among the lost.

The double play usually comes up and is executed by the infield—seldom is a play of this kind completed from the outfield. However, there are instances where outfielders have figured in double plays and in these rare instances the out-fielder making the play is credited with possessing a wonderful throwing arm. The double play brings into play that fine mechanism of the infield which sets off a club's infield play and displays the uniformity of the club's inner offense along with the speed, accuracy and thinking faculty of the inner defense.

During the present season in the National League there has been many such plays completed with the St. Louis Stars leading the league, Kansas City second and Detroit third. The double plays of each of the league's six clubs to date are as follows:

Team	No.
St. Louis	65
Kansas City	45
Detroit	42
Chicago	38
Indianapolis	32
Cubans	25
