GOINS TO PEN. FOR MURDER

SPEAKERS ATTACK PRINCIPLES OF DEMOCRATS AT STATE MEET

BIG LEADERS TRIUMPH ON REAL ISSUES

BY WM. A. CHAMBERS

Several thousands of enthusiastic Republicans gathered in Tomlinson Hall on Tuesday evening, Oct. 26 to participate in an old fashioned Republican Love Fest. The meeting was attended by citizens from all parts of the State. And the spirit and response manifested was like unto the warmth of, ye olden days of torchlight processions and log rolling reminiscence. John W. Burden of Marion, Ind., well-known in fraternal circles presided as temporary chairman. He commented briefly on the purpose of the meeting, the calibre, the vision, the integrity of the leaders and the salient points of the program.

The invocation was pronounced by Rev. Jackson of the Bethel A. M. E. Church of Marion, Ind. And next Mr. Ernest G. Tidrington of Evansville, chairman of Colored State Republican Voters Bureau was presented as permanent chairman. Mr. Tidrington explained in detail the purpose of the gathering. He congratulated the audience on assembling and demonstrating a proper interest in the tide of political affairs. Mr. Tidrington afterwards read a communication from Senator Watson, who is still confined to the Methodist Hospital on account of injuries received in an automobile accident a fortnight past.

Mr. Tidrington afterwards, praised the record of Senator Watson in public life, enumerating some striking and convincing details. In conclusion, he declared all Democratic congressman sent down to Washington, must be for or with the other Democrats. And in such an instance the Southern Democrat and Southern tradition rule the whole party.

Perry W. Howard

Mr. Tidrington next introduced Perry W. Howard the firey and eloquent stateman and leader. Mr. Howard is Republican National Committeeman from Miss. and assistant to the U. S. Attorney General.

Mr. Howard, who is nationally renown as a leader of high attainment and ideals stated his duties, carried him throughout the whole country. He said his duties brought him into contact with various governmental representatives and agencies, senators and congressmen. And he asserted he knew the characteristics of any or all national legislators, senators, or congressmen of any attainment.

Mr. Howard declared he gives as much of his spare time as he can afford to following up Senators and congressmen, with the intent of promoting legislation in behalf of his people. We are begging you to maintain what Republican representation you have in Washington. Democrats are Democrats and are subject to the influence and domination of the Democratic South. The Democratic party needless to say, is against the Negro people. We want a Republican majority in Congress to alleviate the suffrage status of our Negro brothers of the Southland, Mr. Howard proclaimed. James E. Watson is the most brilliant and able parlimentarian in the U. S. Senate, Mr. Howard said. I believe in the Republican Party Mr. Howard announced. I want the Democratic party to show something done for the Negro Democrat. The Democrats have not made five real major Negro appointments in history. In the National Republican Convention at Cleveland, we had two Negro National Committeemen, two National Committeewomen and various delegates—we had no representative in the Democratic convention.

The Republican party has established every uplifting and constructive measure benefiting the Negro in our history.

Mr. Howard said, in substance, the Negro people are a great people, ever rising to higher heights and aspiring to the best and most noble things.

The [illegible] of Northern Negroes to the whole Negro people, demands that the Negro people of the North vote for Republican principles. If you leave the Republican party you have no place to go, Mr. Howard asserted [illegible] brothers in the South, that you can never [illegible] a Negro Democrat.

Defeat Unconceivable

Geo. V. Coffin County Chairman was the next speaker introduced. Mr. Coffin congratulated and thanked the people for such a hearty demonstration. He asserted that there was hardly a possible chance of defeat of the Republican party in Indiana on Tuesday, Nov. 2nd. The Stephensonian propaganda has produced very little facts Mr. Coffin declared in substance. The next speaker was Jos. J. Wilson editor of a Washington paper and Supreme Grand Exalted Ruler of the I. B. P. O. Elks of the World. Mr. Wilson in a lengthy discourse proclaimed the part the Negro has played in the American scheme of things. He said the Negro was loyal and altruistic to his country and its cause. He declared in substance he was a Republican first, last and always, and could not conceive of a Negro Democrat.

Congressman Updike, spoke of the service he had given to his constituents. And pledged himself to give the same faithful service in the next two years. Chas. W. Jewett Ex-Mayor, and likely timber for a major role in the future political annals of Indiana also made a brief talk. Mr. Jewett lauded the Republican Party and cause, and declared for the integrity of various Republican candidates, national, State and County.

Gov. Jackson, State Administration

The Republican party of Indiana is exceedingly glad to embrace the opportunity afforded to give an accounting of its stewardship. Ours, has been an administration and porgram of debt paying and tax reduction, the Governor declared. In September, 1924, the State Tax rate was reduced from 30 to 27 cents on each $100 of taxable property in the State. This reduction applied to 1925 the first year of the administration. We collected in 1925, 1,054,000 less taxes than in 1924, and the same in 1926.

When this administration came into office, the State had an outstanding indebtedness of $3,240,000. The total of this indebtedness was discharged on the last day of June, 1926. On Sept. 22nd, this year, the State tax board, made a further reduction of 5 cents, reducing the rates from 28 cents to 23 cents. This will result in the tax payers, paying $1,[illegible] less in 1927, than in 1924. If the rate is no further reduced, Gov. Jackson declared, it will result in a saving for the people of Indiana of $7,528,000. Added to that amount the indebtedness of $3,240,000 paid off, it will result in a total saving of $12,768,000 during the 4 years of the administration. This makes Indiana an outstanding State of the forty-eight in her business and financial policy. Indiana is one of three States out of debt.

The meeting was attended by about 3,500 people, white and Negroes, it was declared a big success.

The meeting was sponsored by Mr. Ernest G. Tidrington, Henry Fleming, and an executive committee of well known citizens of political circles. Among these Wm. H. Jackson, Joseph Broyles, J. K. Brown, Hadley Fitz, John Bankett, R. B. Shelton, Harry Willett, Harry Jackson, George Robinson, Moses Washington, Mrs. Ida Liston, Mrs. Daneva Wines, and numerous others. The members of the First Voters League, under Wilbur Grant, Oscar Smith, and Beard Whiteside, served as ushers.

They Catch 'Em If Lynch Georgia White Men

DOUGLAS, Ga., Oct. 22nd.—Eight men were arrested here today in connection with the lynching several weeks ago of Dave Wright, a white man, and slayer of Mrs. Zelphie Rollins of Douglas. Seven others were indicted by a grand jury yesterday, and officers expected more arrests momentarily.

Major Brown, held on a charge of murder since last August for alleged participation in the lynching, goes to trial soon. A heavy guard was placed around the jail last night following an attempt by Mrs. Brown to liberate him. She was arrested on a charge of attempting a jail delivery after she ha dvisited the jail with a number of men and demanded the keys.

Mrs. Brown is a sister of Wright's victim.

It is evident now that lynchers can be brought to justice, although over 100 Negroes have been lynched, and juries always returned a stencilled verdict, crime committed by unknown parties.

MURDERER TO PRISON FOR LIFE

LEBANON, Ind., Oct. 24th.—Thomas Goins, brought here from Marion County on a change of venue, resulted in verdict of murder in the second degree, with a penalty of life imprisonment. Goins was convicted of killing his wife, the murder happened Sunday March 10th of this year in Indianapolis. Mrs. Goins was shot several times in the course of a party and drunken brawl in their home.

The jury was out all night. Goins was ushered into the court in chains to hear the verdict. He received the verdict calmly, making no demonstration.

In his testimony Goins alleged his wife attacked him, and both had hold of the revolver. In the confusion and struggle his wife was shot several times. The theory of self defense was contended by Goins' attorneys. He alleged his wife threatened to kill him upon several occasions.

SHEIK LOVER LOSES BRIDE IN FINALS

(By The Associated Negro Press)

CHICAGO, ILL., Oct. 30th.—Finis was written across the serrated pages of the romance of Richard L. "Dick" Jones, business manager of the Chicago Defender, and Miss Mary Shelton this week when that young lady assuming the traditional prerogative of women, changed her mind, returned the symbols of affection which her erstwhile lover had given her, and caused to be cancelled a wedding which was to have taken place Wednesday morning, amid circumstances and surroundings of highly significant import.

Nearly a truckload of valuable presents which had arrived were hastily repacked and returned, and the telephone was used to withdraw invitations which had been issued to persons high in local society.

Interviewed Tuesday, the day before the scheduled Wedding, Mr. Jones expressed doubt as to its occurence the following day and denied any knowledge of the cause of an action on Monday which had been the beginning of a turn in his affairs.

Local social circles have been completely upset by this sudden ending to Jones' engagement. Known in many cities of the country as "The Chocolate Soldier," and highly thot of here because of his meteoric rise with the Robert S. Abbott Publishing Co., he has achieved a distinction in society and business enjoyed by few young men. Possessed of grace and versatility, a resourceful conversationalist and talented entertainer, he made friends among both sexes and came to be regarded as "the perfect lover." His was a conquering role at whatever game he essayed. In four short years he rose from flunky to the titular position of the once-powerful Phil Jones, with a salary of more than $[illegible] a year.

YOUNG HARRY WILLS IS NABBED FOR MURDER

NEW YORK—After boasting thru Harlem that he would never be taken alive, James Mason, 291 Edgecombe Avenue near W. 146th St., 26-year-old prizefighter, known in the ring as "Young Harry Wills," was arrested Saturday by Detectives Bransfield, Boyden and Winterhalter of the W. 135th St., police station for the murder of another man on Aug. 18th.

He was held without bail for a hearing in homicide court by Magistrate Flood in Washington Heights Court. Mason pleaded not guilty to the charge and asked to have counsel assigned him.

Charged With Murder

According to Assistant District Attorney Ewald, Mason is charged with firing five shots at James Hiss, 48 W. 136th St., near Fifth Avenue, early in the morning of Aug. 18th, outside the Capitol Club, 139th St., and Lennox ave. Four of the bullets struck Hiss and he died before an ambulance surgeon arrived from Harlem hospital, without giving a description of his assailant to the police.

Through questioning of witnesses, the detectives connected Mason with the murder, and found that shortly after the shooting he fled to Boston, and later to Philadelphia. Police of those cities were unbale to capture him, although a complete description and fingerprints were forwarded.

Last wek Detective Bransfield received a "tip" that Mason had returned to Harlem and was showing himself at his former haunts on Lennox avenue. He boasted that the police were afraid to arrest him, according to Assistant District Attorney Ewald.

He was traced to the Lafayette theater, 132nd St., and 7th Avenue. When he came out after the performance, the three detectives arrested him without a struggle. When he was searched at the W. 135th St., police station he was found to be unarmed.

Denies Murder

Under questioning at the police station, Mason admitted he had been near the scene of the murder on Aug. 18th, but denied any connection with the shooting. He also denied that he had been attacked on the night previous to the murder by Hiss and that he had shot the man in revenge.

Mason's record shows that in 1922 he was convicted of petty larceny and served a term in the penitentiary, Assistant District Attorney Ewald told the court.

DIPHTHERIA SEASON—DANGER IS HERE—PARENTS WARNED

The State Health Department is anxious to have every parent in Marion County know that children can be protected against diphtheria and that diphtheria can be eliminated from the schools of the county. In order to have the parents of the State know about this it will be necessary that physicians, teachers, health officials and social welfare organizations join in a Statewide effort to tell the public the facts concerning this most important matter. The State Health Department is, therefore, appealing to physicians, teachers and to all others interested in preventing the tremendous and unnecessary loss because of diphtheria to join in a State-wide campaign of education to take the menace of diphtheria out of child life in Indiana.

The increased prevalence of diphtheria during the school months is easily accounted for because of more direct contact of children with each other and because of the fact that in every group of school children there are always to be found diphtheria carriers who are immune to the disease themselves but who carry the germs of the disease in the nose and throat and communicate these germs to others who are not immune. There is always a marked increase in diphtheria immediately following the opening of schools and this continues throughout the entire school year. If every child were protected against diphtheria by immunization this would not occur and we would be spared the loss of life, interference with school work and the tremendous cost of having diphtheria in the schools of Indiana.

The greatest number of deaths from diphtheria occurs between two and four years of age. Over a period of ten years, 1915 to 1924, inclusive, in the State of Indiana, the total number of deaths in the age period from two to three was 466, and in the age period from three to four the deaths numbered 472. The next largest number of deaths was in the age period five to nine, there being 261 deaths in the years 1915 to 1924, inclusive. This shows the necessity of beginning at the "beginning" in the protection of child life; in other words, if protection against diphtheria is to be effective in the highest degree children should be immunized as early as possible after six months of age. Because of the large number of deaths in the early years of school life it is highly important that every child should be protected against diphtheria before entering school. In fact, every child should come to the portals of the public schools not only in the best possible state of physical and mental development but should certainly come to the schools having the advantage of every protection and safeguard that science and experience has shown to be effective against the communicable disease of childhood that are so destructive of child life.

The prevalence of diphtheria at the present time in the State of Indiana is just on the turn of the tide, and with the opening of the schools will immediately show a rapid rise reaching its height in the ordinary course of events in December, after which it will gradually quiet down to reach its low point again next summer after school closes. There is no other one of the communicable diseases which shows such an intimate relationship between its prevalence and the bringing together in close contact of young children as occurs when school opens each fall term. In view of this fact all parents must realize that when they start their children back to school this year they are necessarily exposing each one of them to the danger of contracting diphtheria which if they take it, will mean from two weeks to a month of inconvenience to the family through quarantine, loss of time at school for the child as well as the pain and suffering, and along with this one chance in ten that the child will die of the disease. Should the child live he takes about three chances in ten of being left a chronic invalid, due to permanent damage to heart or nervous system. In the ordinary course of events, taking into consideration the records for the past fifteen years, between now and one year from today there will be from three to five thousand cases of diphtheria, out of which there will be from three to five hundred deaths, and practically everyone of these cases and deaths could have been prevented if they wer protectd against diphtheria now by means of toxin-antitoxin.

The prevention of diphtheria by treatment with toxin-antitoxin has been in use now for over twelve years and has been used all over the civilized world and has been proven to be painless, harmless and effectual against diphtheria. We stand in horror when we hear of the parents of India throwing thousands of children into the Ganges to propitiate some blood-thirsty deity, but on second thought we must realize that since we deliberately allow 400 of our own children to die yearly of a preventable disease when we could protect them from the danger of taking it by a painless, harmless, inexpensive and effectual treatment, that we still have a long way to go before we reach the ultimate in civilization.

COUNTEE CULLEN ON STAFF OF OPPORTUNITY

Countee Cullen, poet and author of COLOR, whose verse has charmed thousands and captured new friends for the race, has been added to the editorial staff of OPPORTUNITY: Journal of Negro Life, published by the National Urban League.

Mr. Cullen's position will be that of assistant to the editor, in that magazine's growing work and programs. He will select its poetry and counsel with the hundreds of young writers whose eager demands have long exceeded the magazine's means of attending them adequately. He will contribute occasional articles and conduct a monthly column of substantial discussion on books and personalities, social and literary trends significantly related to the Negro and race relations in general.

Aside from Mr. Cullen's extraordinary gifts which have carried him to the first ranks of American poets, he brings an unusual equipment for the deliberate programs of OPPORTUNITY. He is a graduate of New York University, a Phi Beta Kappa, a Master of Arts from Harvard University, brilliant and successful competitor in several Negro poetry contests; editor of the special issue of PALMS; one who, although young, has contributed to practically all of the major literary magazines in this country, and is, perhaps, the best known of the younger Negro poets in European literary circles. He is a fortunate addition to the staff of a journal which already includes Eric Walrond, author of TROPIC DEATH, the recently published volume of starkly realistic Caribbean stories, and Gwendolyn Bennett, whose EBONY FLUTE has drawn warm praise for its constant delights.

BLACK WIDOW OF WHITE SOUTHERNER MAY GET FORTUNE

CHICAGO, Ill.—Mrs. Terry Hansbough, of this city, colored widow of the late Harry Hansbough, a white Southerner who recently died here, is likely to inherit a large part of the half million dollar estate to which her husband was heir. The estate was left by a sister of Hansbough, who also died not long ago.

Mr. and Mrs. Hansbough, prior to their marriage, were residents in Carrollton, Miss. The white man loved the pretty colored girl, but as intermarriage between white and colored is not allowed in the South, and as the girl was unwilling to accept less than legal marriage, she left Mississippi and came to Chicago. Hansbough was so dead in love that he followed her to Chicago, where the couple were legally married about seven years ago.

When Hansbough died here Sept. 4, he was heir to a share in the half million dollar estate left by his dead sister. His remains were prepared for shipment by a leading colored undertaking firm of Chicago, and were taken back to Carrollton by his brother, Sept. 6th.

Mrs. Hansbough did not accompany the remains. Mrs. Hansbough's attorneys are confident she will receive her share of the fortune to which her husband was heir.

ANOTHER NEGRO HERO

NEW YORK, Oct. 28th.—By scooping away sand from the face of William Reinet, for half an hour, Benjamin Langford, a Negro laborer, recently saved his fellow-workman, who is white, from being smothered to death in a shifting 100 foot sand pile at West 19th St., and Coney Island Creek. The Negro himself was buried to the waist, and both were eventually rescued by Fire Rescue Squad No. 2, with a block and tackle. Reinet hadslipped from the crest of the pile formed by the sand and an adjoining mound of crushe dstone. No sooner had he come to rest at the bottom than the sand started to shift. Before he could regain his feet he was buried to the neck. Seeing the plight of his companion, Langford scrambled to his aid. The sand kept pouring in from above and Langford ha dto work like mad to keep Reint from going under, a sthe deluge increased in velocity and volume.

When the Fire Chief arrived, he saw the Negro, a puffing automaton, frantically brushing sand from Reint's head. A temporary scaffolding was rigged up and a rope lowered. The Negro was told to "grab the rope," but he refused and fastened it under the white man's arms. When Reint had been drawn to safety, Langford allowed himself to be hoisted from the death pit.

The biggest treat of the season will be to hear Marian Anderson, November 2nd, at Caleb Mills Hall.

HI-Y DEFEATS EVANSVILLE HIGH SCHOOL

In a game that was filled with thrills the local Hi-Y Football team defeated Douglas Hi School of Evansville, Ind., 14-7, Saturday Oct. 23rd at Pennsy Park. Football followers came out with the expectation of seeing the Capitol City team slaughtered by the State team; but before the game had hardly begun they were willing to acknowledge their mistake for the local team which is coached by our own Dr. A. H. Wilson, was more than holding its own. After winning the toss the Hi-Y elected to defend the North goal. Dawson kicked off for Evansville and the battle was on. Barnes ran it back about 15 yards and it was the Y's ball in mid-field. After a confusion of several signals Thad Reed, who was then playing quarterback, completed one which sent Pierce through the line for a one yard gain. Pierce then went around right end for three yards Reed was taken out and Capt. Barnes going in at quarter. He seemed to add pep to the team and after a combination of line plunges and end runs, the locals carried the ball down the field to the visitors ten yard line but failed to go over and lost the ball on downs. It was Evansville's ball on their own ten yard line. Johnson fails to gain. Ferguson was thrown for a loss. Dawson was down behind his own goal before he could kick out giving the locals a safety. The Hi-Y two Evansville, 0. Wilson kicked poorly to Ferguson, who skirted left end for 20 yards, afterwhich the teams battled evenly until Barnes raced 25 yards for the first touch down of the day. Wilson's try for the extra point went wide.

Score, Hi-Y 7; Evansville 0.

At the beginning of the 2nd quarter Morris half back of the local team thrilled the stands by racing 85 yards for a touch down. Only to be called back for holding by his mates. Neither team had much advantage. Wilson and Horn were playing a whale of a game in the line. Morris, Pierce and Barnes were outstanding in the back field for the locals, while Ferguson, Dawson and Landers were playing exceptionally for Evansville.

Barnes again after several successful line plunges thrilled the local rooters by racing 25 yards for another touch down, and the half ended Hi-Y 14; Evansville 0. First downs, Y. 3; Douglas H. 2.

The second half began with a rush. Evansville began throwing forward passes with great success and carried the ball over the line for their first score. A beautiful pass over the line was made for the point after touchdown. Score, Hi-Y, 14; Evansville, 7.

Local Rooters seemed nervous at the success of Evansville's passing [illegible] which was working so well that they seemed certain for victory. They played evenly again neither team having the advantage. Morris, who earlier had been taken out of the game was sent back to help stop Douglas. Yells could be heard from the side lines "break up that pass" The Hi-Y was playing a purely defensive game and seemed satisfied in keeping the ball in the visitors territory. First downs Y. 4; Douglas, 6.

As the sun was fastly sinking in the West, and the precious moments for Evansville, who were making every effort to overtake the locals, seemed to be flittering away, much too quickly. The teams were playing in mid-field when the timers' whistle was heard giving the victory to the Indianapolis Y Team. Final score 14-7. It was a great game. An enthusiastic crowd. A game that will long be remembered.

Big Leaguers Open on Coast Sunday For Winter Season

LOS ANGELES, Cal.—(Pacific Coast News Bureau): With sports in vogue in the East following the playing of world series and post season games, like other tourists, King baseball the monarch of all summer sport is moving to the warmer climes of California to continue his activities.

As in the past the city of Los Angeles will have its winter league of four teams one of which will be colored and managed by astute Lonnie Goodwin, who last year with his Philadelphia Royal Giants won the Winter league pennant.

Believing that he will have much stronger opposition this season than last, manager Goodwin is bringing to the coast a collection of Eastern and National league players that will be much stronger team than that of last year.

Rogan, of the Kansas City Monarchs, and Allen, of the same club, are on the list for this semester. Pullen, of Los Angeles, Mackey, of Hilldale; Holloway, of Baltimore, and Dixon, of Harrisburg have been asked to return and don winter league uniforms beginning this Sunday.

Although they did not play with Goodwin last winter the following players are great favorites on the coast and will be seen in action: Cooper and Stearns, of Detroit; Wells and Murray, of St. Louis, and John Donaldson, Settles, of St. Louis, Scales, an Eastern Leaguer and Harney, of the American Giants will complete the roster.

HOWARD "BISONS" DOWN WEST VA.

WASHINGTON, D. C., Oct. 23rd—The [illegible] West Va. "Yellow Jackets" from Institute, West Virginia, came to Washington and fought a desperate up-hill battle against the Howard University "Bisons" in the Howard Stadium this afternoon, Saturday, Oct. 23rd to be beaten by the score 14-6.

The first half was all Howard's, the "Bisons" romping away with thirteen first downs and two touchdowns to the visitors meagre two first downs. But in the second half the "Yellow Jackets" came back with blood in their eyes, held Howard to three first downs and opened an aerial attack which netted them the first touchdown that has been scored against Howard in two years.

Coles, the "Bisons" plunging quarterback, scored all of Howard's 14 points, while Hundley, West Virginia halfback, scored for the "Yellow Jackets" on a 75 yard run after catching a forward pass from Johnson, right half.

The First Half

After West Virginia had kicked off in the first quarter, Howard started from her 20 yard line and carried the ball straight down the field in five successive first downs. The "Yellow Jackets'" line seemed to be so much [illegible] and Young and C. Smith alternated in tearing off average 5 yards gains through right and left tackle. [illegible] carried the ball across the line through right tackle on a ten yard spurt and afterwards Coles kicked the extra point.

[illegible] to the "Bisons."

Young netted a first down in two off tackle plays and Coles and Smith followed one with another, but the "Mountaineers" held in mid-field Gaiters doing some excellent defensive work. Howard tried a forward pass which Hundley, West Virginia back, intercepted. Then the "Yellow Jackets" made their first first down on a 12 yard forward pass, and two 5 yard penalties for Howard gave the visitors another first down. But they could get no farther and the ball went to Howard on her forty yard line. Another march down the field with four first downs followed, Young, Coles and C. Smith doing most of the ground gaining. On their 3 yard line the visitor's braced and held Howard for three downs without gain. But on the fourth down Coles plunged over the extra point.

THE ELECTION ISSUE

NEXT TUESDAY, Nov. 2nd, is election day. The Negro voters all should vote. An individual who does not vote at all is about as condemable, as any so called wrong voter. It is becoming at this time, that we as sensible people, be not deceived in or with personal rivalries, hatreds, plots and schemes. Politics in our country can be improved immeasurably. This depends on all the people taking a full share and interest in political affairs at all time.

The election in the State of Indiana as elsewhere, has a national significance. The eyes of the country are turned on our State and politics. There is a time to refute alleged corruption, but it is bad logic to swap horses in the middle of the stream. The national issues are protective tariff and tax reduction. A protective tariff and prosperity are traditional with the Republican party. A low tariff and an upward move in the tax levy would follow Democratic control, economic chaos low wages no work and general confusion. These things are as sure under Democratic control of congress, as warm days are to come in July if the sun shines. It seems that Republicans will win both houses, however, there is a margin for a Democratic victory. If the Democrats should win in the election, along with the real depression, the Democrats would probably block progress to create issues for 1928. You Mr. Average Voter, would suffer in this case. So then it seems we must choose another time to clean house politically.

The Republican party under Coolidge has a progressive program for prosperity it is gradually taking shape. The world has never recovered from the effects of the late war. Our export trade and more or less general commercial relations with the outside world have never been stabilized wholly since the war. These things have a grave bearing on general prosperity, but the outlook is exceedingly promising looking under Republican rule. We have prosperity, to keep this prosperity, the Republican party must rule in national affairs. The immediate question is will you sustain and protect your own prosperity and progress?

The average man is the fellow that stands to either lose or gain the most providential bounty in this instance.

Pains disappeared

"SEVERAL years ago I was badly run-down," says Mrs. John Bunch, R. F. D. 3, Columbia, S. C. "I could not do any of my work. I was so weak I could not wash a dish. My back and sides hurt me at times dreadfully. I dragged around until I finally got down in bed."

Then, explains Mrs. Bunch, she happened to read about Cardui, the woman's tonic, and decided to give it a thorough trial, the results of which she describes below.

"It seemed to reach the cause of my trouble at once. I did not take it long before my appetite began to improve. I gained in weight from 114 pounds until now I weigh 126 pounds. I soon was able to be up around the house. I took up my household duties and was delighted with my returning strength.

"I now do all my own work. The pains in my sides and back have disappeared and I feel like a different person."

Cardui has been helping suffering women for nearly 50 years. Sold by all druggists.

Vote The Straight Republican Ticket November 2nd

CITIZENS' COMMITTEE—

Whereas the Honorable James E. Watson of Rushville, Ind., has all through his public career stood for square dealing, on any and all issues effecting the interests of American Citizens. And inasmuch as he has in matters of legislation been directly responsible for many measures instituted, accruing to the benefit of Negro Citizens as a whole.

And inasmuch as he is recognized in the United States Senate as a leader of the first rank, and a premier statesman.

It becomes us as citizens and voters interested in promoting the best interests of our country citizens and ourselves: too.—Resolve that we endorse James E. Watson as United States Senator. We endorse his running mate Mr. Arthur Robinson, and the entire state and county tickets. Said tickets being composed of citizens whose records are an open book examination, and we find the records beyond reproach.

ERNEST G. TIDRINGTON

I placed my stamp of approval on the Republican Candidates as men who possess high character and who will (for I have talked to them all), carry out religiously the principles of the party. From my observations, I predict a new day for the Negro of Marion County in politics. You will do the race an injustice if you fail to support the whole Republican Ticket.

CLARENCE STEWART

Whereas the Hon. James E. Watson has demonstrated himself as a leader pre-eminent and proven at every opportunity his sincerity in the interests of all citizens. Negroes alike. And in as much as he is nationally recognized as a Statesman and a leader abroad as well as at home. It behooves us to endorse Mr. Watson his running mate Mr. Robinson, and we particularly recommend the candidates on the Republican State and Marion County Tickets, whose records are open to examination and beyond reproach.

WILBUR GRANT

I heartily endorse the Republican party because it is making a way and encouraging the youths in politics.

The ticket is a splendid one, and deserves the support of the Colored Citizens of Indianapolis.

MRS. DANEVA WINES

Under the leadership of Geo. Coffin, the Colored Women's Republican Club is going down the line for the best group of men that has represented Marion County in years. A vote for the County Ticket is a vote for the policies of recognization of the party.

REPUBLICAN COUNTY TICKET

County Ticket Endorsed by Prominent Negroes.

SUMNER A FURNISS, M. D.

I have always believed in the principles of the Republican party as enunciated by Lincoln and Roosevelt. I certainly have no reason to stray away from those principles at this time,

I am a Republican.

WILLIAM A. CHAMBERS

We endorse James E. Watson as U. S. Senator. He has beyond any reasonable doubt proven himself a statesman of national worth. He has served commendably the interests of all citizens alike. We endorse his running mate, Mr. Arthur R. Robinson. We particularly recommend the Republican State and County Tickets, on the face of the records of the candidates, open to examination. On the face of these facts, and, an alleged crisis on the tide of political affairs, it becomes necessary for us to declare a stand.

JOHN BANKETT

I firmly believe that the Republican principles are in keeping with the ideals and with the ideals and aspirations of the Negro. The party is no longer appealing to us—on Lincoln, with due respect to Lincoln, but on issues of the day

HARRY WILLET

We should give the Republican party the biggest majority in the history of the State, by proving to the party that we are unquestionable in our loyalty. We can demand a square deal.

I heartily endorse the ticket.

ATTY. JOSEPH K. BROWN

As a member of the Executive Committee of the County and also of the Executive Committee of Colored workers of the State, and having practiced law in the State for twenty years, I am well acquainted with the various candidates on the Republican Ticket from Senator Watson, Senior Senator to the Justice of the Peace, Center Township. I can truthfully say that your Senator and Congressman Ralph E. Updike, your Judiciary Judges and other officials in this State and County, are fair in all their dealing pertaining to our group and are worthy of your support on the 2nd day of November, 1926.

HENRY FLEMING

I heartily endorse the Republican Ticket, because it is clean safe and dependable.

G. N. T. GRAY

The questions confronting the race at this time make it imperative that each and every voter use good judgment in the exercise of his franchise. No one must allow the issues to be clouded. We all are interested in defeating the efforts of the Klan to wreck the Republican Party in Indiana. Their attempt to discredit the party is born of their failure to use the present administration to put over their program. The so-called expose of Tom Adams has fallen flat and is really nothing more than "black dispatch." The segregation ordinance put over by the Klan influence is a dead letter and is sure to be declared invalid. If we hope for a continuance of the material prosperity of the country, we must have a Senate controlled by the Republican Party.

R. B. SHELTON

A splendid Republican Ticket that deserves the support of all citizens regardless of race, creed or color.

MRS. IDA LISTON

The Colored Women should not fail at this time to give their support to the Republican party. If politics are to be clean the women must be instrumental in cleaning it. The splendid County, State and national ticket deserves our support.

ATTY. R. L. BROKENBURR

The people should not vote against the candidates on the Republican ticket because of some greviance against the city administration. The present candidates are worthy of your support. The majority of them have served the public faithfully and efficiently for a long term of years. And should be rewarde dwith a vote of confidence. We should vote for protective tariff and pospserity.

In no country in the world has the average man or woman been able to eat the variety of wholesome food at all times, wear high grade clothing, own automobiles, purchase homes and enjoy the possibilities intellectual and cultural development as in the United States of America under Republican Administration. The Democratic party has always been a failure, from a view point of giving the people economic prosperity. It offers nothing different in this campaign. It is now controlled by enemies of the Negro Race.

I say with emphasis that the present candidates on the Republican ticket have never passed or endorsed legislation against the Negroes or against any class of American citizens.

The people, who nominated the candidates on the present Republican ticket had good reasons for their action. It would be cowardly to desert them, particularly when the reasons for voting for them now, are just as great as they were when they were voted for in the primary. In other words, is it right to chastise your friends and faithful public servants, for what your enemies and faithless public servants do.

ATTY. R. L. BAILEY

I am a Republican in politics and as such favor the election of the candidates of my chosen party.—Of course I reserve the right to vote my convictions at all times. These have at times steered me away from certain candidates. Fortunately, however, those standard bearers whom I would delight to oppose are not now up for election. With few exceptions the present Republican ticket is composed of old office holders, elected prior to the balmy days of Klan control, and, have deemed themselves free of its abominable influences. Thus they stand proven and tried in matters and affairs of State and deserve support on the basis of a duty well done and a trust well kept and performed. Perhaps others have kept questionable company but it is a well known fact, "Politics make strange bedfellows," and the company their opponent has kept is worth investigating before "flying to the evils that we know not of."

An Appeal To Colored Voters

As we approach the day for the election of the national and state officers it becomes our duty to call the attention of the colored voters of this state to the respective candidates and the claim which they set forth for the purpose of obtaining support. In the first place we prefer to suggest that we are Republicans on general principles. We believe in the general policy of the Republican Party because this country has been prosperous in proportion to the manner in which the principles of this party have triumphed. In addition to our regard for this general policy and and our admiration of the principles which it advocates there are triumphed. In addition to our regard for this general policy and true to this party. Whatever measures of freedom or privileges of citizenship we enjoy they have come to us largely by reason of the efforts of the GRAND OLD PARTY on our behalf. This party opposed the slavery of human beings. By showing opposition to this wicked institution it took the shackles and chains from the wrists of (4,000,000) FOUR MILLIONS of our people and permitted them to enjoy that freedom which the constitution vouchsafe to every American citizen. The Republican Party also Amended the constitution in such a manner as to give our people the right to vote and participate in the affairs of government. In the manner it gave us a substantial guarantee that our rights should never be abridged nor taken away from us. We are fully conscious of the fact that whatever guarantee we have of life, liberty and the pursuit of happiness is due in the largest possible measure to the activities of the Republican Party whose slogan is "ALL MEN UP AND NO MAN DOWN." We recognize and appreciate the significant fact that the Republican Party has been outspoken against all forms of lawlessness especially that form which affects and distresses our people more than any other. With reference to the infamous mob rule, which has shamefully out-raged this Republic, in the platform of the Republican Party, which was adopted by the National Republican Convention, in its last session in Cleveland, Ohio, may be found the following significant, hopeful and encouraging paragraph:

"We urge the Congress to enact at the earliest possible date a Federal anti-lynching law, so that the full influence of the Federal Government may be wielded to exterminate this outrageous crime.

We believe that much of the misunderstanding which now exists can be eliminated by humane and sympathetic study of its causes. The President has wisely recommended the creation of a commission for the investigation of social and economic conditions and the promotion of mutual understanding and confidence."

The Republican Party is also outspoken on the subject of law and order, as is shown by the following paragraph from its party platform:

"We must have respect for law. We must have observance of law. We must have enforcement of law. The very existence of the Government depends upon this. The substitution of private will for public law is only another name for oppression, disorder, anarchy and mob rule.

Every Government depends upon the loyalty and respect of its citizens. Violations of law weaken and threaten Government itself. No honest government can condone such actions on the part of its citizens. The Republican Party pledges the full strength of the Government for the maintenance of these principles by the enforcement of the Constitution and of all laws."

The Republican Party has never overlooked us when the time came to distribute the spoils.

Under the Republican administration, members of our race have been given full recognition in the way of employment in the federal government service. More than 50,000 Colored men and women are on the government pay roll, and they are part of an aggregate of more than $50,000,000 a year in salaries.

The largest representation of them in any branch of the federal government is in the postal service, where, according to the latest available figures, there are employed 20,391 men and women of our race. The Panama Canal office ranks second, employing 8,178 Negroes. Then follow the treasury, navy and war departments in order, each employing more than 5,200 of our race.

With such a record before it the duty of the colored voter is plain. He should support the party that is showing a friendly regard for him and giving him humane consideration. Colored voters should not be deceived and misleaf by gilbbery orators and mercenary tools of the Democratic Party. We should not allow ourselves to be persuaded to form new and untried political alliances. We know the Republican Party, its mission, its history, its traditions, its loyalty to the principle of justice and equality. For that reason, we should cling steadfastly to the GRAND OLD PARTY, support its candidates both state and national, and assist in bringing it into the largest and most pronounced victory that it has achieved since the day of its organization. On the 2nd day of November, we should do our duty!
