Dunn & Company have received another large stock of Groceries, Stoneware and Willow-ware, and state the facts in to-day's paper. Among other items, they have received forty-five barrels of Sugar, from which fact an idea of the extensive business they do, may be gained.

Obituary.

Wm. C. MOORE was drowned in Shoal Creek, Caldwell county, Missouri, near Breckenridge, on May 1st, 1869, aged 25 years. Henry D. Shuttles, in company with Wm. C. Moore, left for Missouri, February 12, 1869, and pledged themselves to each other that should either of them get sick or die, the other should accompany his comrade to this county. This pledge was faithfully fulfilled by young Shuttles, and the remains of deceased was brought to Ellettsville, and interred on the 5th of May, 1869.

The funeral services of the deceased, will take place at the Methodist Church, in Ellettsville, on the 1st Sunday in July, by Cyrus Nutt, D. D. The public are respectfully invited to attend.

James L. Hughes will accompany Prof. Owen, on his European tour.

A Bargain.

A nice farm one mile and a half west of Bloomington, containing 93 1/2 acres, will be sold cheap, if application be made soon to J. T. Taylor.
The farm is all in grass, has a comfortable residence and a No. 1 barn on it together with a large orchard of choice fruit. If any one desires to buy a nice little farm, cheap, let him call at E. T. Taylor's Provision Store, soon.

AN OUTRAGE.—On last Monday evening, while an Indian warrior, a representative of the Sioux tribe, was standing in front of Shoemaker & Co.'s Drug Store, smoking his pipe, and dreamily gazing at the glittering display of glassware within, Capt. Shoemaker approached the Red Man from behind, and without the least provocation, or warning, so far as we could learn, picked him up bodily, carried him into the store room, and "slammed" him down on the floor. To say that the untutored savage was surprised, would scarce convey an idea of his emotions—he was disgusted, and hasn't spoken to Shoemaker or Arnold since. Shoemaker says the Indian threatened to tomahawk him, because he refused him credit for a pipeful of kilikinnick, so Cap. took the start of Mr. Indian, by "jayhawking" him. Go and see the "Big Injun!"

Smith & Cochran are the men who furnish these Brazilian Pebble Spectacles to persons who have weak eyes. These Spectacles are made by the same man who manufactures the Glasses sold by Moses, the Indianapolis Optician—the only difference is, that the Bloomington firm sell them for less money. Every Cicero in the University should get one of the famous Holland Gold Pens, with which to write the "best" Oration. With one of these pens, Latin can be "put in a row" without the aid of a Dictionary, 'tis said.

The Fourth of July, this year, falls on Sunday. It has not yet been decided, in this locality, which of the three days (Saturday, Sunday or Monday) will be observed as the National Anniversary.

"WELL, NOW! THAT IS HANDSOME!" exclaimed a young man who looked into the mirror, after placing one of Tuley & Co.'s Silk Hats upon his Websterian brow—for he was a handsome Senior. And well might he speak thus, for everything you get, in the New York Store, is surprisingly nice and cheap. This remark applies with particular force, to their stock of Boots and Shoes, Hats and Caps, Clothing, etc. The New York Store is on the south side of the public square, where the McAdamizing is being done.

By invitation of HOOVER & FISH, we visited their Carriage Warerooms, in the rear of W. O. Fee & Company's store, one day last week, and was much gratified to learn that our own mechanics were meeting with sufficient encouragement to induce them to build first class work. These gentlemen will finish, in the course of a few weeks, a number of buggies and carriages, any one of which will compare favorably with those turned out in the cities. In fact, their work is of a better class, because more strongly built, with none but the best selected timber. These gentlemen have made Carriages in Monroe county, during the past fifteen years, and know just the degree of strength required in a vehicle, to run on our roads. They do repairing promptly, cheaply and well, and persons owning carriages or buggies, ought to bring them in and have them repaired before they are unfit to repair—"a stitch in time," will frequently save fifty or one hundred dollars in the repairs of a carriage. Many of our farmers can afford a family carriage, and those who can, should call at the warerooms and examine those on exhibition.

Chips and Splinters.

Red Foxes have become alarmingly plentiful in this county, and it is said, kill the young lambs. The Red Fox, we are informed, will eventually drive away all the Gray Foxes, and as Reynard the Red, is more wary and difficult to catch than Reynard the Gray, the future of our young chickens and lambs, is not full of promise. Bring your hounds to Monroe county, hunters, if you desire sport.

The members of the M. E. Church in Bloomington, will, to-day (Wednesday,) vote on the question of "Lay Representation" in their Annual and Quadrennial Conferences. It is generally understood, we suppose, that at present, none but clerical delegates are recognized by the bodies named; but for some time the members have expressed a desire to be represented from their own numbers, and so strongly has this subject been agitated, that at the last General Conference it was determined that the question should be submitted to the membership throughout the United States—each charge and circuit to select its own time for holding an election. All members, male and female, twenty-one years of age and over, are to be allowed the privilege of voting at these elections—including of course, all races and colors—thus giving us the first practical illustration of universal suffrage.—The Strawberry Festival, on the 10th inst., under the management of the ladies of the 1st Presbyterian Church, was well attended. The gross receipts were one hundred dollars; the ladies intend to finish the basement of their church, with the money thus realized.—James M. Howe is preparing to McAdamize in front of his property, on College Avenue. He is breaking the necessary rock, and wants to go ahead. A survey has developed the fact that 6th street, in front of the Progress office, is eight feet higher than the crossing from Butler's corner to the Bank. Property owners are very naturally opposed to this "cut," and the work may be delayed in consequence. If this "cut" is insisted upon, to be consistent, a fill of sixteen feet must be made at the railroad crossing, as the street, at that point, is just that much lower than the Butler corner. The contest will be between science and the property owners. Unfortunately, like most newspaper men, poverty prevents us from being competent to take sides in the matter, as we would if we were able to own a five hundred dollar interest in some of the property affected.—Harding, of the Indianapolis Mirror, tells of a little disturbance at an African Picnic, near the capital, in which one of the originators of the row, a white man, was beset by a colored gentleman, who "batted" him, dashing his head clear through his antagonist's chest; and as it would be death to withdraw his head, because of the hemorrhage which might ensue, the individual of butting proclivities attends to his business of hair cutting, with the white man still chucked over his shoulders. That does sound somewhat improbable.—We learn that some of our most enterprising farmers are agitating the building of a turnpike, on the road running east from town. Aquila Rogers and Sheriff McKinney are taking an active interest in the matter, and we may hope for roads as

well as McAdamized streets. Keep the ball rolling. Send to Governor Baker for a copy of the Gravel Road Law.—It is said that a young merchant, living less than seventy-five miles from the public square, recently bought a bucket of honey, from an honest countryman—bought it low, too—and after taking it home, discovered that it consisted of a small quantity of comb, swimming in a considerable quantity of very poor sorghum molasses. Did he swear?—The Doctor of Divinity referred to last week, denies that he was endeavoring to convert the Theatre Manager—says the "sock and buskin" man endeavored to make him see that his was a highly moral entertainment, etc.—"the which" the Doctor of Divinity couldn't see.—The question that agitates the minds of outsiders, is, "Will any of the unmarried lady members of the M. E. Church, vote on the lay delegate question?" The "plan" requires them to be 21 years of age—and it is said that single ladies are seldom so old.—A general conspiracy among the counterfeiters, has been frustrated, to flood the country with bogus money, on the 5th of July. Would have made but little difference to us, if the rascals had succeeded, as we seldom receive more than five dollars in cash, per week, at present.—From Dr. Dodd, of Harrodsburg, we learn that during one of the thunder storms of week before last, a Miss Catharine Lowe, daughter of Wm. J. Lowe, living in Lawrence county, was struck by lightning. Miss Lowe was sitting on a lounge, in the second story of the house, with her left shoulder resting against the chimney. Lightning struck the chimney, passed down to the point where the girl was resting, traversed the whole of her left side, burning her severely, and tearing the lounge into fragments. The young woman was with difficulty resuscitated, but has now entirely recovered from the shock. This may be considered a very narrow escape, after seeing so much of the fire works.—Wool is not coming in as rapidly, as is usual at this time of the year, notwithstanding the fact that purchasers are plentiful; the farmers are inclined to the belief that the buyers do not offer as high a figure as they should, and hence are keeping back much of their clip for an advance. The prices paid, we learn, are 37 to 40c. tub-washed. Fleeces washed, 45c. per lb.—We are informed that a new and voracious potato bug, large, black and active, resembling a beetle in appearance, and countless in numbers, is "chawing" its way to town, from the western portion of the county. A skirmish line of potato raisers, it is said, will be thrown to the front, shortly, to oppose the march of this formidable army.—But one marriage license issued during the past week, and that was to James L. Dillman and Laura A. Roseberry.—All the property owners on College Avenue, from Sixth to Fifth streets, have signed the petition in favor of McAdamizing that side of the public square. The last signature was secured on Saturday night.—Robert Jennings of New Albany, has been appointed route agent on the L. N. A. & C. Railroad.—Ike Walker was recently on a visit to Vermont. During his absence, Fred. Harter's "Buppy" died—a much beloved dog. Thinking to "sell" Ike, Jack Mitchell telegraphed to Walker that the Dog was dead, and that the funeral would be deferred until his return. That day, Walker started home, and the dispatch was returned to Mitchell for a collection of \$2.20. Good joke on Walker(?), wasn't it?—Gen. Hunter, we learn, has received a very lucrative appointment under Gen. Fremont, on the line of the Southern Pacific Railroad, and started for California, on Monday last.—Did you ever experience such infernal weather?—Since our Sixth street grading item was put in type, it has been determined to grade Sixth street so that the water will be carried east and west, thus doing away with the extraordinary cutting at first contemplated. The Town Council, on Monday night, decided to advertise for proposals to grade and McAdamize the east, west and north sides of the square, after their next regular meeting. Light breaks through the clouds of old fogysm, and the prosperity of our town is now assured.

De Soto Mutual Life Ins. Co., OF ST. LOUIS, MISSOURI.

CASH CAPITAL. \$150,000 00
Stockholders' Responsibility to Assured. \$300,000 00

THE DE SOTO MUTUAL
Takes the position that money being worth more in the West than in the East enables a well managed Western company to declare a better dividend than any Eastern one can. Then why should our citizens send their money East to be loaned at 7 per cent. to build up rival interests, when our own people want the money at 10 per cent. interest, and will furnish just as good security? To concentrate capital at home, to develop the resources of OUR OWN COUNTRY is a matter in which every Western citizen has an interest.

THE DE SOTO MUTUAL
In maturing its plans and regular features, and in getting into the Policy the company issues, secured the aid of the highest mathematical ability they could obtain, and the experience and wisdom of those who have for years made Life Insurance a business and a study. No Life Insurance Company now before the public stands on a more solid and substantial basis than the De Soto Mutual. The company stands pledged to its policy holders for \$900,000—a sum double its cash capital. The stringent law under which it was organized makes each stockholder liable for double the amount of his stock. Every company organized under the new and rigid laws of Missouri have to make a deposit with the Treasurer of State of \$100,000, subject to the inspection and under the supervision of the Superintendent of Insurance, whose duty it is to make an annual report to the Legislature, showing the condition of all companies organized or doing business in said State.

The De Soto Mutual
We believe issues a BETTER POLICY than any company in the United States. It is a plain, simple, short, yet comprehensive contract, not liable to the doubtful construction which characterizes many Life Policies, and does not make the usual restrictions on travel. THE DE SOTO MUTUAL makes all policies non-forfeitable; divides surplus among policy holders; takes only first class risks. Rates as low as leading cash companies. No extra charge for insuring the lives of females.

To be awarded at the Monroe County Agricultural Society, for the best Reaper and Mower:
Best Mowing Machine. \$10 00
Second best. 6 00
Best Reaping Machine. 10 00
Second best. 6 00
Best Reaper and Mower combined. 10 00
Second best. 6 00
The trial of the Mowing Match will be under the control of the Monroe County Board of Agriculture.

RULES AND REGULATIONS.
Entries of Machines must be made on the morning of the trial, on the Secretary's book, and ten per cent of the premium will be charged on each entry. The Awarding Committee will appoint one of their number to take the draft of each Machine, and one to measure the length of stubble, all other notes shall be made by the chairman. A Dynamometer will be procured for the use of the committee, for the purpose of testing the relative consumption of power by the respective Machines.
The trials will commence at 9 o'clock, A. M., and continue until 6 P. M., with an intermission of one hour for dinner, and it is expected that every person attending the exhibition of the Machines, will bring their baskets well filled with dinner, so that we can have a Basket dinner on the field. Each competitor will furnish his own team and driver. It is important that each machine be put in complete running order, before coming on the ground.
The time and place will be given in next issue of this paper.
M. L. SNODGRASS, Secretary.

Meeting of Stockholders.
There will be a meeting of the Stockholders of the Monroe County Agricultural Society, on Saturday June 19th, 1869, commencing at 10 o'clock A. M., at the Court House, for the purpose of electing officers for the coming year. It is hoped and expected that there be a full turn out. Other important business will be brought before the Society.
M. L. SNODGRASS, Sec'y.

The Champion Mower was exhibited one day last week, in Mr. Wm. Millen's clover field. It was admitted by all who saw it, that it was the highest draft machine they had ever seen. The Champion has all the good points of other machines, and many, besides, that no other machine possesses. Machines for sale by SEWARD & Co.
