Trushop-up-on-the-thomas, as seen in the managerie, last Saturday, was a pretty bird, but the keeper said he couldn't near sell fine Watches and Diamonds at the prices asked for them by John P. Smith. He, John, exclaims as a skillful repairer of time-keepers, having "ministered to their works diseased," (not from Shakespeare) to these many years. John keeps the latest styles of Jewelry in his store, which are very attractive to the Ladies. So is John. West side of the public square.

NOT IN THE BILLS.—One of the most laughable features of the Circus performance, on Saturday night, was the bona fide "punch in the snout," given the ring-master, Libby, by Maginley, the fat Clown. Maginley called the man of the whip to look at a piece of newspaper, torn from one of the hoops, intending to make the usual feint to strike the latter, but his fist passed through the paper and gave Libby a staggerer, which made him as suddenly as a hyena during the balance of the performance.

Barrett's a great success.

THEFT.—On Saturday afternoon, while Josh. Howe was sitting some twenty feet from his jewelry store door, a fellow stepped in, and finding no one present, appropriated three silver watches, which were lying in the show case. He was discovered to come out of the door, and walk rapidly to the alley next to the frame building in which the shop is located, and Josh., discovering his loss at once gave chase, overtaking the thief near Seward's foundry. Finding himself cornered, the thief remarked, "I have some of your property here, and would like to compromise." He was brought back to the store, delivered up the watches, and was allowed to escape. He claimed to belong to the Circus. Possibly a brother to the Hippopotamus, as he was a dead beat.

Everybody uses Barrett's.

THE September "Riverside" is introduced by a fresh frontispiece from an artist better known by his paintings than by engravings from his design, Mr. George C. Lambdin. The picture is called "Town and Country," and is a good natural characterization of city and country children, who brought face to face. Two old favorites reappear, Pate Croxon, with his picture and stories of Virginia life, and Abby Sage, with a new story from the old English poets, the sully sweet "Patient Griselda." The Editor has given also on the last page of the Magazine, a piece of music of the seventeenth century, a lullaby sung by Griselda. Dr. Abbott describes "Sauring Shanks;" Miss Bishop publishes another of her pretty fairy poems and pictures; the Editor's "Story of a Book" describes stereotyping and electrotyping, and John Radcliffe, aided by Gaston Fay, gives an attractive account of "Woodcock shooting." The number is particularly noticeable for its show of illustrations, twenty-five in all, many of them being large and striking. Published by Harl and Houghton, New York. \$2 50 a year.

MULTUM IN PARVO.—There is contained in Dr. Morse's Pills the principle of health. We have many thousands of testimonials of their having restored the sick to health; which can be seen in our office. Use Dr. Morse's Indian Root Pills, and you will find them not only a cure of disease but also a preventative. They should be used in all cases of Biliousness, Headaches, Liver Complaints, Female Irregularities, &c. We make no secret of our formula from which this medicine is prepared. Ask your druggist for the Great Almanac, read it carefully. Use Morse's Pills. Sold by all dealers. Sep.

To save your hair use Barrett's.

Dr. Wm. Daily, of New Orleans, formerly of Indiana State University, had his ministerial parchments restored to him by Indiana Conference, on favorable recommendations from Louisiana. The Doctor's "little tricks," are evidently considered the proper thing in the latitude of New Orleans.

Indiana Conference, of M. E. Church, will be held at Bloomington, next year.

The Northwestern Conference, in session at Lafayette, voted against Lay Delegation, 50 to 28. How is this to be reconciled with popular suffrage.

MURDER.—The Indianapolis which the crime of murder is regarded, has caused no small degree of discussion in the leading newspapers of the country. A man is killed, the murderer, if he can command five hundred to one thousand dollars, secures an attorney, who by a change of venue, continues packing the jury, or by straw bail, procures the release of his client. While this state of affairs exists, no man's life is safe. If a man, who has murdered in his heart, hates his enemy \$500 or \$1,000 worth, he has only to take his life and pay the expenses of litigation. Fifteen or twenty murders have been committed in the counties of Monroe, Lawrence, Orange and Washington, within the past six years, and not one of the guilty parties have been punished. Even the bloody handed Sanders, of Orange county, who butchered the Woodward family of four persons, in cold blood, was allowed to give straw-bail, and escape. Some prominent citizen may yet be murdered in this portion of the State, and then the only known corrector of a corrupt judiciary—lynch-law—will step in and establish order. Seymour, a town whose very name carried with it visions of robbery and murder, has been transformed into one of the most orderly places in the State. Was it because of a full supply of attorneys, judges, and the general composition of criminal courts? Not at all. The people of the county became a court of justice, punished known criminals surely and speedily, and order was established. There is no lack of laws to enforce order, and protect life and property—there is no scarcity of officers—but every one must admit that the machinery of Courts is such that the moneyed criminal can always escape.

OUR So the past week we have placed upon our books, the names of seven new subscribers, for papers to be sent abroad. No one can write a letter that will prove as satisfactory to friends at a distance, as the weekly visits of the county paper. To one who has lived in a town long enough to be well acquainted, it is a source of satisfaction if they but see the names of those who do business, occasionally. Your friends who have removed to Iowa, Missouri, and Illinois, will esteem it as a valuable gift, should you send them the Progress for a year. \$2.00 pays the bill.

HOOF FATTING.—Benj. F. Darn had two Chester White Pigs on exhibition at the County Fair, which he has been fattening, and counting gain. The Pigs were weighed on the 2d day of August, and were, male, 126 lbs; female, 190 lbs. On the 4th of September they were again weighed, scaling 150 lbs. for the male and 172 for the female—a gain of 56 lbs. The pigs, at the second weighing, were five months old, and from the 2d of August till Sept. 4th, consumed 200 lbs. of food.

Chips and Splinters.

Did you hear the fine hippopotamus grind his teeth and growl, on Saturday? Blood-encinding, was n't it?—Fever and chills are prevalent in this vicinity, at present—the infernal mean weather last week did it.—Persons bringing wood to the editorial woodhouse, must report to these headquarters, that they may receive credit. Who brought it at last on Tuesday a week. But one man can get credit for it, mind. A few more loads wanted, while the roads are good.—Andy McIntosh, long time a conductor on the L. N. A. & C. Railroad, has passed in his checks, and is about to become a merchant, at Salem, Indiana. The mule trade is looking up. The best cotton crop had in the South during the past ten years, will take the demand for mules good, and the prices tend upward.—Visitors to the Morgan County Fair, say that in the matter of farm products, it was not quite equal to ours.—Every second man you meet, is sure to remark, apologetically, "I've got an 'orrible gold'—ave to blow a dozen all the dibe"—Corporation tax, this year, is 5 cents less on each hundred dollars, than for the year 1868. The new levy is 20 cts. on each \$100.—It was observed that two-thirds of the scrupulously people who attended the show last Saturday night, "just to see the

animals," hurried on in search of seats, without bestowing even a single glance upon the "living curiosities." We have nothing to say against the attendance of church members upon the circus—not near so much harm in it as in the petty bickerings or church trials which originate in the filthy conduct of some of these professed Christians—but we do object to hearing them abuse the circus, after sitting quietly in the tent until the elephant played the last tune. If the non-professor of religion is in danger of endless punishment, what reward should the individual receive, who, while wearing the cloak of piety, is celebrated for his dishonorable practices in social life, as well as in his business transactions? This is not a conundrum.—Amos Keeter, but recently located here, died last week, from the effects of a blow from the hand of a sick man, with whom he was staying over night.—The city papers are busy discussing the Byron scandal. The details of the scandal, as hatched out in the fertile brain of Mrs. Stowe, are too disgusting for publication, but we doubt if Byron cares what is said of him—now.—Some graceless scamp appropriated a suit of clothes, the property of James Walker, on Saturday night.—The wife of W. H. Harris, died on Sunday night, of fever. Mr. Harris has four children, all of whom are dangerously sick.

OWING to circumstances over which Mr. S. T. MONTGOMERY, Grand Worthy Chief Templar of the I. O. G. T. of the State of Indiana, had no control, he was unable to fulfill his engagement to lecture at this place on Sunday last. He will positively be here on Sunday, September 26th, and will lecture in the Court House yard.

NEW MARSHAL.—OSCAR E. SORPHER, presented his resignation to the Town Council, on Monday night, and that body appointed JAMES B. CLARK in his stead. Mr. CLARK is an estimable citizen, and wonderful to relate, is not a whisky man. We predict that he will make a good officer.

The White River Valley Times has been removed from Bloomfield to Worthington, Greene county, and is a wide-awake little paper.—Indianapolis Journal.

As the Times was removed from Bloomfield over a year ago, it may be proper to remark that the Indianapolis Journal is not "a wide-awake little paper."

ON Saturday, the proposition for the introduction of Lay Delegation into the General Conference, failed to pass the Indiana Conference, in session at Evansville. By a rule of the Church, no fundamental change in policy can be effected without the concurrence of the Ministers in a majority of the Conferences. The vote stood ayes 61; nays 33.

BURGERS ABOUT.—The Deputy County Treasurer, I. Milt. Rogers, closed his office at 5 o'clock, on Saturday evening, and on Monday morning found the door of the office unlocked. Upon going into the vault, he discovered that the dial plate of the safe had been removed, and was not to be found, so that the combination lock could not be successfully operated. As the safe has not yet been opened, it is not known whether the burglar got into it or not. There were but fifty dollars of currency and a quantity of canceled county orders, in the safe, when it was locked, on Saturday.

BOOKS.—Monday, 20th, is the day upon which the children will go grumbling to school—some of them. Those that got the choicest seats, who are patted on the cheek if they don't get their lessons, or are allowed to eat apples and "stick pins" during study hours, without reproof, will rather like to hear the bell ring. That's the way things worked in our school-boy days, and human nature is pretty much the same yet.

ON A TOUR.—The Bloomington Base Ball Club go to Bedford, to-day, on a "whitewashing expedition." They play the return game, with the Bedford Club, this afternoon. Our boys never play unless challenged—keep in practice by defeating other Clubs, you know.

LICENSE to sell liquor was granted to Jacob Young and A. J. Hite. License was refused to Jno. T. Mullis.

Burger & McKinley.

Of Gosport, Ind very highly complimented with the 2d premium on Cook Stove and Trimmings, which they received at the Fair of the Monroe County Agricultural Society, knowing "such is life," but we congratulate ourselves in announcing to the numerous friends of our Stove and Out-fitt, and particularly to our competitors of Bloomington, that we exhibited the same Stove at Martinsville, last week, against about the same opposition, and took the first premium, not only by nine tenths of the lookers on, but by all friendship.

CHALLENGE.

Any competition that Bloomington can furnish at our Fair next week, to be held near Gosport, commencing Tuesday, 21st inst. We do most respectfully invite our friends in the trade, to come. You shall have a fair show, and a committee of judges that does not know any of us.

Hoping to see you, and extending the invitation to everybody to attend our Fair, we are

Most Respectfully,

Yours,

BUNGER & MCKINLEY.

SPECIAL NOTICES.

To Consumptives.

The Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years from a severe lung affection, and that dread disease Consumption, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription, free of charge, with the directions for preparing and using the same, which will yield a cure of Cough, Consumption, Asthma, Bronchitis, &c. The object of the advertiser in sending the prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription will please address, Rev. EDWARD A. WILSON, Williamsburg, Kings County, New York May 26—17.

Errors of Youth.

A GENTLEMAN who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will for the sake of suffering humanity, send free to all who need it, the receipt and directions for making the simple remedy, by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing, in perfect confidence, JOHN B. OGDEN, No. 42 Cedar street, N. Y. May 26—17.

SCIENCE ADVANCES.—As soon as an article purporting to be of utility has been tested, and its merits endorsed by public opinion, unscrupulous parties endeavor to reproduce their depleted purses by counterfeiting, and substituting a spurious for the genuine article. Some time since, mercury, in the disguise of pills, powder, &c., was given for all diseases of the stomach and liver, while quinine was freely administered for the chills. At length HOSTETTER'S STOMACH BITTERS made its advent, and an entire new system of healing was inaugurated. The beneficial effects of this valuable preparation were at once acknowledged, and mineral poisons suffered to sink into that obscurity to which an enlightened age has assigned them. There have been many spurious Bitters polished upon the community, which, after trial have been found perfectly worthless, while Hostetter's has proved a blessing to thousands, who owe to it their restoration to health.

For many years we have watched the steady progress of Hostetter's Stomach Bitters in public estimation, and its beneficial effects as a cure for all complaints arising from the stomach, of a morbid nature, and we are free to say that it can be relied upon as a certain relief of all morbidly. Its proprietors have made the above preparation after years of careful study and sitting, and are now reaping the reward claimed by this valuable specific, and which they so richly merit. It is the only preparation of the kind that is reliable in all cases, and it therefore demands the attention of the afflicted. Sep.

To Owners of Horses and Cattle.

—Tobias Derby Condition Powder, is warranted superior to any others, or no pay, for the cure of Distemper, Worms, Bots, Coughs, Hile-bound, Colds, &c., in Horses; and Colds, Coughs, Loss of Milk, Black Tongue, Horn Distemper, &c., in Cattle. They are perfectly safe and innocent; no need of stopping the working of your animals. They increase the appetite, give a fine coat, cleanse the stomach and urinary organs; also increase the milk of cows. Try them, and you will never be without them. The late Hiram Woodruff, celebrated trainer of trotting horses, used them for years. Col. Philip P. Bush of the famous Race Course, Kentucky, N. Y. would not use them until he was told of what they are composed, since which he is never without them. He has over twenty running horses in his charge, and for the last three years has used no other medicine for them. He has kindly permitted me to refer any one to him. Over 1,000 other references can be seen at the Depot. Sold by Druggists and Saddlers. Price, 25 cents per box. Depot, 10 Park Place, New York. Sep.

PECULIAR ADAPTABILITY.—BRANDY'S PILLS.—Their peculiar adaptability to all constitutions as cleansers of the bowels and the blood has established their great merit. They restore the liver, the spleen and even the heart to healthy action, when other remedies have been used without producing any benefit. They do not expose those who use them to any danger, being as salutary.

Extract from Letter to Dr. Bromfield from C. J. Fay, Esq., P. M., Hammonds, N. J. "In 1838 I was in poor health, and my friends as well as myself supposed that my earthly voyage would be terminated. But after taking one box of Brand's Pills, I began to feel better. Well, when I had used up twelve boxes I was a well, healthy man—my weight having gone from 131 pounds up to 172 pounds. I then ordered a supply, and between that time and the present I have retained three thousand dollars' worth of these invaluable pills, and am quite sure that I have thereby been instrumental in saving thousands of lives."
