

WHITE's Newspaper Files are advertised in another column. Every one who takes a newspaper, should file it for future reference. Heretofore the difficulty has been to get a serviceable Newspaper File, and at the same time, a cheap one.

For sale at the Postoffice, at 50c. each.

I. SANDERS & SONS have a very large stock of the celebrated Seymour Woolen Goods at their farm house, which will exchange for Wool. They would call particular attention to an article of Overcoating, which they believe to be unsurpassed in this market. Also, to their Jeans and Flannels. These goods were awarded the first premium at the Monroe County Agricultural Fair. Sanders & Sons believe they can offer superior inducements to those holding Wool, and would at least solicit a call from the wool growers of the surrounding country, before they dispose of their clip.

WANTED—Fifty Young Men, at the Telegraph Institute, Indianapolis, Indiana, to become Operators. There are situations for all who qualify. Send for circular. 4w \$30 worth of scrip, for sale at this office.

WANTED.—The public to know that the Bryant & Stratton Business College, at Indianapolis, is the only institution of its grade in the State. Send for Circulars. 4w \$30 worth of scrip, for sale at this office.

MR. TOBE SMITH says he will sell a genuine American watch, in coin silver cases, for \$15, and other watches for \$6 and upwards. He has added new and improved machinery to his work shop, with which to do watch repairing, and he says he can now do it for one-half the amount charged by others—says he puts in new parts, instead of repairing the works, so that a watch is as good as new, when it passes through his shop.

FOR TOBACCO and CIGARS, remember to go to Shoemaker & Co's, on the south side of the public square. They have the largest and most varied stock of Wall Paper ever brought to Bloomington, and trial it for purchasers. Don't neglect to examine the Rustic Window Shade, sold by this firm—it is neat, substantial and pretty. Big stock of Drugs received last week.

"If the Court knows itself, and it thinks it do," the best place in the town to buy jewelry, gold pens, &c., is at John P. Smith's, west side of the square. John has just received new goods, his agents have ransacked the Indies, and searched the country from Greenland's icy mountains to Afric's golden strand, for the richest, rarest, and best goods. Go and see what he has added to his stock of jewels rare.

THEY are closing out a large stock of Boots and Shoes, at the New York Store, and sell them cheap, to effect that object. An intense degree of interest is manifested by the ladies, in the stock of rich Furs which has been received by Tuley & Co. All the choice Furs are represented in the Muffs, Victorines and Gloves they now have in store.

Go and examine the Buttons, Dress Trimmings, Collars, etc.

Clips and Splinters.

Now comes T. J. Sharpe of Ellettsville, with a gallon of Sorghum molasses, of his own manufacture, two shades lighter than any we have yet sampled. Mr. Sharpe runs his molasses off into wooden tanks, instead of pouring it into jars, as is practiced by the majority of molasses makers, and he says it spreads over the bottoms of the boxes, is rapidly cooled, and is invariably of a rich straw color. Out of the cane raise on a fraction less than one-third of an acre, Mr. Sharpe made one hundred and one and one-half gallons of molasses—or at the rate of 303 gallons to the acre. Who can make a better showing?

Bishop Simpson has been chosen to preside over the deliberations of Indiana Conference of the M. E. Church, which will meet in Bloomington, early in next September.

The "Stodar" company, which exhibited at City Hall, last week, stopped at Wabash, this State, not very long ago, and after inquiring for hall rent, license, printing, etc., expenses to the amount of \$71, they took in as door money, the unparalleled sum of two dollars and a half. As eight shows have been "swamped" at Wabash, and have their instruments and baggage in pawn for board, it may be considered a good town for those who are in "the profession" to keep away from.

Many papers in the State are hunting up their "old men," and making the most of them—some of them even putting on airs over men of 90 years. Now, there is a man living about four miles south of Bloomington, named William Ross, who was born May 1, 1759. This is not an empty assertion; the old gentleman referred to is healthy and active, and can be found at home, when not squirrel hunting, by those at all curious as to the statistics of longevity.

It is stated by some of the Indianapolis papers, that a law was enacted by the Legislature, last winter, prohibiting the use of spring balances. The laws should be published in at least two papers of each county, so that the people may know when they are violating them and making themselves liable to prosecution.

Villainous weather we have had during the past eight weeks—snow, ice and rain, when we should have had the balmy breezes and voluptuous haze of Indian summer—but there's one consolation, almost everybody knows when we had just "such another spell," or rather old Mr. Wintergreen does, and it was along in the Fall of eighteen hundred and twenty, or thirty, or forty, or something. It is truly wonderful how weather will develop the memory.

Our *** correspondent at Harrodsburg, is requested to let us have any well authenticated items of general interest that may come under his notice. These favors are appreciated.

We were somewhat hasty in moving Frank Braxton up into Richland township, some weeks ago, from Lawrence county, but he is there now, at least he has ordered the Progress sent to his address, which is pretty good evidence of his citizenship.

Congress will meet one week from next Monday, that being the 6th day of December.

Frank Fee sells a choice article of butter (when he has it,) at 35 cents for one pound, but when he sells over two pounds, 85 cents' worth, he don't get a cent. Ask Frank to tell the story—there's a moral connected with it.

The census taker will make his visit to the house of every farmer, manufacturer and mechanic, in 1870. This important individual calls upon the people but once in ten years, and endeavors to get a correct statement of the number of head of stock and value, the yield of different crops, number of acres cultivated, average yield per acre, etc.; and to the census reports, persons refer when endeavoring to ascertain the standing and resources of a county. If a well informed farmer of Ohio, sells his land for ten or fifteen thousand dollars and desires to re-invest in Indiana, at some point where he can buy all the land he may need for five thousand dollars, and still have a surplus to make him an income, he looks at the census report, and if Monroe county makes a favorable showing, we doubtless secure a good citizen, and he makes a satisfactory

investment. To the end then, that justice may be done our county, we suggest that our readers make notes of all the facts that will enhance the value of the land, and magnify the importance of this locality in the eyes of people at a distance—Ben. McGee tells a good story about how he "acted the —." We can't tell a story worth a pair of pants, but Ben can. Ask him—Hogs are in extraordinary demand in this market. Alex Sutherland is offering nine cents gross, with but few takers. John Blakely, who lives just south of town, has eight hundred head of hogs, for which we learn he refuses nine cents, believing the price will be higher still. As his hogs will average, we are told, about 250 lbs., a quarter of a cent rise or fall, will make a difference of about four hundred dollars in the price of his entire lot. But what will the masses of the working people do, with pork at such figures—for meat an out-door worker must have. Pork steak is now to be retailed, so a butcher tells us, at 20 cents—

J. L. Hughes, "Bock" for short, says he now has steady employment for an indefinite period of time; got a claim to collect. It will be "several lengths of period" before he succeeds in collecting it. Buy a P. O. money order, Bock—An individual waxed eloquent, in our hearing, yesterday, over a quarter section he had recently bought, out in "Miz-zoo-ree," and was counting sixty-five bushels of wheat to the acre, corn four barrels to the bushel, and so on. An old man who stood near, listened 'till the western fever had run its course, and then gave his acquaintance a chill, as follows:

"Oh, yes, you just wait 'till next February, when the wind is blowing across them prairies with a force of two hundred horse-power to the square inch, and the snow drifting forty feet deep, and you'll wish yourself in a patch of Indiana beech timber. I've been that!"

What should be done to a man who would hitch his horse out in a storm like that of Monday? "Cruel," is not sufficiently expressive to use as a term for such treatment.

The "sensation" of the past week, has been the announcement of a fashionable marriage, to take place to-morrow, at the First Presbyterian Church.

Monday was a busy day with our business men—those

that had bills to make out, or loafers to talk to. It rained, it snowed, it hailed, and by way of variety, we had thunder and lightning—it was a lovely day for business.

Go to the "Bloomington Mills," and get a barrel or sack of "The Ladies Favorite" White Wheat Flour. Their Flour took the First Premium at our County Fair, over all other Flour.

Real Estate Transfers.

For the week ending Nov. 20, reported by W. H. Jones, Recorder:

Phoebe Hardling to John Scott, ten acres of Land in Clear Creek township, \$200 00.

Anthony Singley to Ella A. Taylor and Caroline A. Broadbent, ninety acres of Land in Indian Creek township, \$300 00.

Peter Bolebracher to Sarah Jane Campbell, parts of "In-lots 66 and 67, in the Town of Bloomington, \$950 00.

Andrew A. Allson to Henry Henly, 40 acres of Land in Marion town-ship, \$800 00.

Lawson E. McKinney, Sheriff, to J. W. Archer, a small portion of Land in Bloomington township, \$90 00.

A. Ketcham sold a Chester White hog to Is. Adkins, on Tuesday last, which weighed seven hundred and forty-five pounds gross, at 9c. per pound—\$67.05.

TOBE SMITH has nice presents for every child in Monroe county.

Notice to Non-Residents.

The State of Indiana, Monroe Co., in the Circuit Court, May Term, 1870.

Alex. Nicholson vs. John Kerr, Mary Ann Kerr, Thomas Moore and Isaac Atkins.

Now comes the plaintiff by Hughes & Van Horn, Attorneys, and files his complaint herein together with an affidavit that said defendant, John Kerr, is not a resident of the State of Indiana.

Notice is therefore hereby given said defendant that unless he be and appear on the first day of the next term of the Circuit Court, to be held on the first Monday of May, A. D. 1870, at the Court House in Bloomington, in said county, and State, and answer or demur to said complaint, the same will be heard and determined in his absence.

Witness, my name, and the seal of said Court, affixed at Bloomington, this 23d day of November, A. D. 1869.

ROBERT C. FOSTER, Clerk, Bloomington, Ind., Nov 24w.

IF you have a discharge from the nose, offensive or otherwise, partial loss of the sense of smell, taste or hearing, eyes watering or weak, feel dull and stupid or debilitated, pain or pressure in the head, take cold easily, you may rest assured that you have the Catarrh. Thousands usually, without manifesting half of the above symptoms, terminate in consumption and end in the grave. No disease is so common, more deceptive or less understood by physicians. R. H. CAMPBELL is Agent for Seelye's Catarrh Remedy—a perfect Specific for Catarrh, "cold in the head," or catarrhal headache.
