DR. JOHN BULL'S

Great Remedies.

DR. JOHN BULL,

Manufacturer and Vendor of the Celebrated

SMITH'S TONIC SYRUP!

FOR THE CURE OF

AGUE AND FEVER

OR

CHILLS AND FEVER.

THE proprietor of this celebrated medicine justly claims for it a superiority over all ever offered to the public for the safe certain speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern territory to bear his testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle with a perfect restoration of the general health. It is, however, prudent, and in every case, most certain to cure, if it is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine after having taken three or four doses of the Tonic, a single dose of Bull's Vegetable Purgative Pills will be sufficient.

BULL'S WORM DESTROYER.

To my United States and World-wide Read

ers.

I have received many testimonials from professional and medical men, as my almanac and various publications have shown, all of which I am glad to receive. The following is a highly educated and popular physician of Georgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of Bull's Worm Destroyer:

Vallonia, Walker Co., Ga. June 20th, 1868.

Dr. John Bull—Dear Sir: I have recently given your "Worm Destroyer" several trials and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line of M.D.s, but I see no just cause or good reason in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. I see no just cause or good reason in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge.
