JOHN P. SMITH, the popular Jeweler and Repairer of Watches, finding that the room he had been occupying for several years past, was too small to meet the requirements of his rapidly increasing business, leased the room on the west side of the square, adjoining the auction store, and fitting it up in a manner both elegant and neat, removed to his present location early this Spring. With a commendable determination to excel, Mr. SMITH procured a large, choice and attractive stock of Goods, including fine Jewelry, Musical Instruments, Clocks, and an assortment of American and Foreign Watches, in silver, and gold cases, seldom equalled in this portion of the State. He also secured the latest and most approved machinery and tools, for the successful prosecution of the business of Watch Repairing, and now bids defiance to competition. Persons having anything in the line of Watch repairing to do, or desiring to supply themselves with the latest styles of Jewelry, or perfect time-keeping Watches, will consult their best interests by giving JOHN P. SMITH, the West side Jeweler, a call.

Feb. 1870.

While business is dull at almost every other establishment in the city, SMITH & CO. have all the work they can attend to. Their well-earned reputation as Jewellers, and Repairers of Watches, brings them an immense amount of business in the dullest seasons. If you desire a Gold Pen that will give satisfaction, remember that they keep none but the best brands. To those wishing silver spoons, casters, or plate, we would recommend the establishment of SMITH & CO., south side of the square.

TOBE SMITH has the first store room in Indiana, as well as the largest stock of Watches and Jewelry. He will sell a genuine American watch, in coin silver case, for \$15, and he sells other "makes" of watches for \$5 and upward. TOBE has also added new machinery to that with which his work shop was already supplied, which enables him to do all kinds of watch repairing for about half the price that others charge, and in a much better manner. He don't patch up your watch so that it will run for a few days, but he supplies new works, instead of the old, so that when it leaves his hands, your time-piece is as good as new. If you call upon him, he will give you his price list.

THE National Tableaux, late of the Academy of Music, New York City, was advertised for a performance at Town Hall, last night. As we go to press on Tuesday evening, we know nothing of the performance from observation. It has been highly recommended, however, by competent judges.

Did the ground-hog see his shadow?—Taylor has opened a quarry, on the northeast corner—found it while excavating for a cellar. By the way, we are informed that the town of Bloomington narrowly escaped being located some three miles south of this point, as it was feared that stone for building purposes could not be procured near its present location. In fact, the stone used in the court house foundations, was hauled several miles. It has since been demonstrated that rock is only two abundant here, for the convenience of those who desire to make excavations for cellars and cisterns.

The residence of Mr. Fogelman of this place, was burglariously entered by some one evidently well acquainted with the premises, one night several weeks ago, and twelve hundred dollars stolen. Mr. F. intended making a payment upon property recently purchased by him, which will account, we presume, for so large a sum of money being deposited in the house. Efforts have been made to detect the thief or thieves, but without success.

The County Treasurer sold more delinquent tax lands, on the 7th inst., than have been disposed of at these sales for several years. If

the purchasers undertake to perfect their titles, they will discover that it cannot be done. We've tried it. Every step must be in strict conformity with the requirements of law, from the Assessor's duties to the Treasurer's collections. Can't sell us any more land at tax sale, unless the owner is dead, has no heirs, and an assurance is given that we can hold it twenty years, which makes a good title.

Parents need have no fears of poisoning their children with the candy made by ROTT. He uses nothing but the best sugar—no terra alba in his n—Business is very dull, in Bloomington, just at present—in skates.

And now comes Wesley Robertson, with samples of maple sugar, manufactured at his farm—the fairest and best flavored sugar we have

samples this season. If anybody in this section believes himself to be superior to Mr. R. as a sugarist, the latch-string is out.

The Monroe county hens are doing a fine business, judging from the quantity of eggs brought in by the farmers at present. It would have paid them (the hens) much better, if they had given strict attention to laying, several weeks ago, when eggs were worth 30¢ per doz.—A number

of farmers in this vicinity, are plowing. They say the ground is in very favorable condition—Will ROTT fill his ice-houses?

Why did he not do so, when passing from one car to another, invariably slam the doors with a force almost sufficient to unhinge them? Answers to this conundrum must enclose two stamps.

The Catholics of this place now have a largely attended and well conducted school, in the new building south of their church.

Some of the principal men of the church contemplate the establishment of a Seminary for young ladies, at this place; many of the parents believing, and very properly, too, that their daughters would be benefited more by attending a home institution, than by being sent to Crawfordsville or Terre Haute.

Best N. O. Sugar, 19¢ per lb. at DUNN & CO.

A post-office petition has been favor-

ably considered, for the establishment of such an institution at Clear Creek Switch.

It will go into operation at the commencement of the next quarter—about the 31st of next March.

"Drunk in a saloon, boys,
Drunk in a saloon;
Picked up short cigars
Out of a spittoon."

More expressive than elegant—

An anxious Democrat approached a colored citizen, recently, with the suggestion that he ought to vote with his friends, the Democrats. Displaying a handsome set of teeth, the newly enfranchised remarked, "Guess not, Massa, I kin read de platform you gemmen made at Indianapolis!"—A Mr. Stockwell of Lafayette, has donated and paid to Asbury University, \$25,000 for the endowment fund. What wealthy citizen in this portion of the State will make a donation to Indiana University?

An interesting protracted meeting is in progress in the Baptist Church of Stanford, under the labors of the regular pastor, assisted by Rev. Mr. Burton, of this place.

—On Monday next, the Special Term of the Circuit Court

will convene at the court-house of this county, to try Rose and Barnes,

on change of venue from Owen county.

Two of the Rose boys

were to be tried, but one of them, John Rose, has been summoned to appear before a higher court—having received a mortal wound while resisting the officers sent to make his arrest.

Jas. S. Hester says

Just so, and perhaps you'll get it, Jeems.

The post-offices of Kokomo, Muncie, Green-

castle, and other towns, have recently

been robbed. The next raid will

doubtless be upon the Bloomington

office, though we've had no definite

information on the subject from the

robbers.—Printed programmes and

posters are torn from fences and

blank walls, in Bloomington, with a

systematic regularity that is rather

annoying, to say the least of it.

In almost every case, this is the work

of mischievous boys, and a whole-

some remonstrance in the shape of an

arrest and fine, must be resorted to,

before a change for the better will

be observed.

In a neighboring town, a husband playfully surprised his wife by "slipping up," while her face was averted, and throwing his arms about her.

The woman went into convulsions from the fright, and now strikes a golden harp, on the other shore.
