

BLOOMINGTON PROGRESS.

ISSUED EVERY WEDNESDAY, at \$3 per year.

WILLIAM A. GAGE, Editor and Proprietor.

Republican State Ticket.

For Secretary of State—MAX. F. A. HOFFMAN.
For Auditor of State—JNO. D. EVANS.
For Treasurer of State—ROBERT H. MILROY.
For Superintendent of Public Instruction—BARNABAS C. HOBBS.
For Attorney General—NELSON TRUSLER.
For Judges of the Supreme Court:
1st District—J. H. ELLIOTT.
2d "—CHARLES A. RAY.
3d "—ROBERT C. GREGORY.
4th "—ANDREW L. OSBORNE.

Indiana—Her Growing Trade.

Continued.

Robinson Machine Works—Yeo & Shumaker—Richmond.

While nearly every State from Maine to California, is endeavoring to impress upon the country the superiority of its own agricultural implements, it is with a feeling akin to pride that we refer to our own achievements in this direction. Not because we live in Indiana, but from the facts in the case do we believe, that Yeo & Shumaker are making one of the best Steam Threshers manufactured in the world.

They have been building this class of machinery for many years, and their work has a reputation second to none in America. Their machine is the Pitts with Robinson's patent improvements. When it is remembered that they have been in competition at our State and county fairs, and in the field, with all the best machines in use, and have invariably demonstrated their superiority over all others in speed in threshing and saving, and cleaning the grain, we feel that we are justified in drawing our conclusions. To show that our opinion is well founded we give the report in full of the Committee on Threshing Machines, at our State Fair.

Your Committee beg leave to report the following as the result of their labors: There were three entries, viz: "Robinson Machine Works," Richmond, Ind., A. Garr & Co., and L. Q. Sherwood, (Massillon Machine), of Indianapolis, Ind.

The trial was set for Thursday P. M. The wheat for all was taken from the same stack, and each machine was run five minutes, as timed by a member of the Awarding Committee, and with this result. While the Garr and Massillon Machines had threshed about five bushels each in the five minutes run, the Robinson Machine had ten bushels and two and one-half pounds, being more than double the amount threshed by the other machines. Upon this the committee were about to award the Premium to the Robinson Machine, but the owner of the others asked for another run. Granting another trial under such circumstances was hardly reasonable, but your committee wishing to give to all parties every opportunity desired, yielded, and asked the Robinson folks to do so, which they cheerfully consented to, they demanding, however, that the wheat for this trial should be divided about, to the different machines. This was done in our presence, and each machine threshed its load, when, on weighing up the wheat we found that the Massillon Machine had 380 pounds of wheat, the Garr Machine 400, and the Robinson Machine 4300 pounds. In this run the Robinson Machine threshed at the same speed per minute, as on the day before, and as it had saved and cleaned the grain better than either of the other Machines, your committee decided in its favor.

L. Q. BAYLESS, Chm'n of Com. Many undoubted testimonials, all leading to the same conclusion, might be added, but our space will not allow it. We are sorry that we have not space to enter into a fuller description of this truly excellent machine. We have given the report of the committee, thinking it would show just what the machine is, better than we can describe it. These works also make their own boilers. They are made of the best iron in use. It is sufficient to say that not one of them ever exploded. One of the oldest and most experienced boiler makers in the West, has charge of this department.

B. F. Haugh & Co.—Indianapolis.

Those who have ever visited any of our old fashioned jails, and have compared them with the improvements which B. F. Haugh & Co. have made in the construction of prisons, can hardly help being impressed with the great advancement we have made in this direction. These improvements, which embrace all the iron work about a jail, are so complete that if the jail were full of prisoners, a little child could unlock all the cell doors, both up and down stairs, and after feeding them together in the large and comfortable dining hall, could return them to their cells, locking them up again securely without incurring the slightest risk. Messrs. Haugh & Co., whose works are located at Indianapolis, are just introducing this improvement into a large number of jails in various parts of the country. The arrangement is very simple and yet completely accomplishes the desired effect. It is separated from the outer door of the prison. This door is so arranged with massive grating that the eye at a glance can take in the whole of the inner court, so that if anything is wrong it can be detected. By the side of this door are two levers, one for the upper and one for the lower apartments, which unlock the inner prison doors, so that the prison can be unlocked and locked up again without unbolting the outer door. These gentlemen have exhibited a spirit of enterprise in the introduction of their invention on which is highly commendable. Their patent is an Indiana invention, and as such deserves a first share among our reviews of the business of the State. Right here we will also speak briefly of the other branches of their business. Perhaps no house in the State is producing a greater variety of cast and wrought iron railing for fences, verandas, &c., than can be seen in the simple rooms which they have recently opened in the neighborhood of their works. The almost endless variety of railing and veranda work which is presented to the view in this beautifully arranged room, impresses one with the growing importance of this branch of trade. They are now prepared to make about three hundred styles of this kind of work. But we cannot go into detail. Their bank vaults, store fronts, stairs, doors, shutters and sash, bridge and other bolts, girders, beams, bedsteads, bat-racks, book-safes, awning irons, and all kinds of wrought and cast-iron works, plain and ornamental, present such an extended list that our space will not admit of more than a mere mention. We can only say that they are manufacturing all of these.

A man down in Evansville recently went to a lawyer and "took counsel" concerning a log that had been stolen. The lawyer advised that a "writ of replevin" be procured and the log replevined. It was done. This was all straight. The other party went to the same lawyer for "advice" as to how he might recover the log. He advised that it might be replevined. It was done, and that was all straight. At this point party No. 1 went for more advice. The same process was suggested. It was done, and that was all straight. At the last time we heard from it, that log was being replevined as fast as the several parties could get out the papers.

A REVEREND BIGAMIST.—Some weeks since, a Baptist preacher came to our neighboring village of Vermillion, Ill., and commenced holding a protracted meeting. Whether his persuasive words had any effect in the conversion of souls, we are not advised, but they did have upon a blooming young widow, the result of which was that they were married one week ago last Saturday, and immediately came to this city on a bridal tour. The widow was possessed of some money, left her by the late lamented husband No. 1, and kindly loaned her new husband one hundred dollars to defray the expenses of the trip. The honeymoon, however, was destined to be of short duration. The minister was a close communionist—kept all the wine to himself—in fact, remembering that "wine is a mocker," he indulged in stronger liquors, and got badly drunk, in which condition his new wife took him home on Monday, where he had an attack of delirium tremens. A few days after, she was horrified to learn that she was his tenth wife, and that several of his wives are now living. She immediately informed the authorities of Edgar county, and he is now in jail at Paris, Ills.—T.H. Express.

It is a noticeable fact that in some parts of the West a man can refuse to drink when invited, and still be considered respectable, which argues well for the success of the temperance cause. It was not so a short time since. A man that could not drink was watch-d.

A Democrat has introduced a bill into the Massachusetts Legislature, requiring every man to pay one cent when he deposits his vote at the polls, the object being to enable thousands of foreigners to vote Democratic without paying a poll tax.

Saulsbury, the drunken Democratic Senator from Delaware, is outspoken in his dislike for Kevels, the colored Senator. From the reports we heard of Saulsbury, we thought he always took a delight in midnight revels.

COLD PLAGUE.—In Daviess county, this State, fifteen or twenty persons die every week of cold plague, a new name for the dreaded spotted fever.

A gallant was lately sitting beside his beloved, and being unable to think of anything to say, asked her why she was like a tailor. "I don't know," said she, with a pouting lip, "unless it's because I'm sitting beside a goose."

Obituary.

Eld. JOHN C. WHARTON died in this city, on the morning of Feb. 28th, at the residence of his Bro. W. B. Wharton, of Consumption.

Eld. B. B. Tyler, Pastor of the Church of Christ, in this city, preached a funeral discourse on the 2d inst., in Christian Chapel, at Tuscola, Illinois, from these words of PAUL—"I have fought a good fight."

Young Mr. WHARTON was for a short time a Student of Indiana University, but more recently of the North Western Christian University, at Indianapolis.

He possessed rare abilities as a Pulpit Orator, and bid fair to make a useful and successful Minister of the Gospel. He has gone to his home, beyond the pearly gates.

DIED.—At the same place on the morning of the 12th of March, NEWTON WHARTON, a younger brother of the above, of the Measles, this disease having settled itself upon his lungs.

After appropriate services yesterday afternoon, at the residence of W. B. WHARTON, the remains of the last named brother were deposited temporarily in the vault of the City Cemetery.

"Requiescat in Pace."—Terre Haute Express.

Democratic papers are eager to pick up and ventilate any little stories of "Radical rascality," and for a man who sells a cadetship at West Point or Annapolis their wrath and virtuous indignation has no bounds. But when a Democratic Treasurer of the excessively Democratic county of Butler, State of Ohio, jinxifies \$100,000 of the people's money, we look in vain for an outpouring of Democratic rage and an exhibition of high-toned virtue. It is wonderful what a difference a man's politics makes in the degree of moral turpitude involved in the violation of the commandment "Thou shalt not steal."

DISTRESSING ACCIDENT.—We are deeply grieved to record an accident by which Eugene I. Holden has lost an arm. In company with several other gentlemen, on Wednesday morning, he went down the Evansville & Crawfordville R. R. on a duck hunting excursion. The party got off at Griswold station, some forty miles south of the city. The accident occurred about five o'clock in the evening. Mr. Holden was standing upon the railroad track over a cat's pit, when the gun slipped through, and by some manner the hammer was sprung. The entire charge of shot passed through his left arm above the elbow, lacerating the flesh, shattering the bone, and dividing the blood vessels and nerves. Intelligence was brought to this city, and Dr. Link went down on the train Thursday morning, returning with him on the evening train. Drs. Read and Ball were called to the assistance of Dr. Link, the wounded man put under the influence of chloroform, and after an examination, it was found necessary to amputate the arm, which was immediately done near the shoulder. Mr. Holden is quite low from the loss of blood, occasioned by being so long without surgical aid, but otherwise is in good spirits; in fact, more so than one would imagine under the circumstances.—Terre Haute Express.

Adam Forepaugh's Menagerie and Circus will start out from Connersville fully equipped, with twenty-five cages of animals, three camels and three elephants, including the troublesome Romeo. They first show in Cincinnati one week, commencing April 4.

Of the family of Mrs. EVANS, of Washington, Daviess county, consisting of nine persons, all have died but one, of the fatal disease now prevailing there, supposed to be the cold plague. This is a most frightful mortality.

PROHIBITION.—On one of the divisions of the Indianapolis and St. Louis Railroad, four miles north of Eagleville, Clay county, the contractors have instituted proceedings to abolish the numerous whisky shops that have sprung thickly up along the entire line.

In the Kentucky State Prison there are quite a number of persons for the crime of running off slaves, some of them having ten years to run. Governor Stevenson if he had soul enough, would pardon them. He might as well keep men there for being in the Union army.—N. A. Commercial.

A woman got even with her husband at Salt Lake, when he went and married a lot more women. She got the small-pox, and gave it to the whole family.

"The Fire Place" is the name of a drinking saloon in Chicago. Any one can get warm by it for ten cents, and red-hot for a quarter.

Van Amburg & Co's Menagerie and Circus will start out about May 1, and will take care of their own horses and men, independent of landlords.

Dr. John Radway, of "Ready Relief" fame, died at New York on Monday.

SULLIVAN county is to vote upon the East and West Railroad proposition, on the 2d of April, and the canvass is very bitter. The anti-railroad men stop the Sullivan Union, because that paper favors the tax, and the Union says:

"The citizens of Haddon township, have become so bitterly opposed to the proposed railroad, that they have even commenced a wholesale proscription of all in the county who favor the tax—refusing to associate, trade, eat or sleep with their opponents—and to our astonishment, a few Republicans have identified themselves with this rebellious movement. Had we complete history of Sullivan county from its organization, a more ridiculous and foolish act of her people could not be pointed out."

A son of WARREN WEAVER, about six years old, on Monday evening of last week was playing with a small piece of wire in the shape of the letter S, and swallowed it; but it lodged in the throat, and refused to go further or come back, and any efforts to dislodge it by our best physicians proved fruitless. The child was taken to the Surgical Institute at Indianapolis on the Tuesday evening train, but the Surgeons in charge were unable to extract the wire. The brave little fellow stood all the attempts to relieve him like a man. Those having him on the night train from Indianapolis, but he died on the train, near Clayton. The parents have the sympathy of the entire community in their bereavement.—Brazil Miner.

The last report is that BRIGHAM YERNE has ordered all the faithful—especially those possessing more than one wife—to make ready to depart for an island in the Pacific, which he had purchased. Mr. RICHARDS called on an influential Mormon and asked him if he believed this rumor to be founded in fact, and received for a reply that it was probably true.

Samuel Mahon has been arrested for burning a barn with the contents, including ten horses and a large amount of grain, belonging to Mrs. TEGGARD, eight miles west of Orleans, Orange county, last Saturday. The provocation is said to be refusal on the part of Mrs. T. to allow MAHON to pay his addresses to her daughter.

What a revolution in business the Pacific railroad has created! Our tea which formerly sailed half way around the world, and required months to reach us, now comes to us in thirty-five or forty days. A cargo of twelve thousand packages, valued at three hundred thousand dollars, and consigned to a Chicago and New York firm, arrived at San Francisco last week, thirty days from Yokohama. This too, by sailing vessel. With steam, the time would have been much less. The next thing to be done is to lay a cable from San Francisco to China and Japan.

SENATOR REVELS made his debut last Wednesday, in speech of two hours upon the Georgia question. He confined himself chiefly to a eulogy of his race and demanding power for the loyalists of the South. His speech, however, was a temperate one, and the impression it made was favorable, all the Republican Senators crowding around him at the close and congratulating him. Our own Senator Morton was of course among the number, boldly hazarding the opinion that in the exchange by which Mr. Revels occupied the place of Jefferson Davis, the Senate had lost nothing in intelligence, while it had gained much in loyalty.

The Terre Haute Express says: "The Indianapolis Journal will have the endorsement of every Republican in this Congressional District in the assertion that throughout the entire period of the war, whatever influence Mr. Voorhees possessed, personal or political, was cast against the Federal Government." So, so, Mr. Voorhees' "undisputed patriotism" is questioned at the very start by every Republican in the Sixth District. Probably Mr. Voorhees meant to say in his personal explanation, that his patriotism had never been questioned by the Democrats of Indiana. Wherefore we have no controversy with the arboreal Wabasher, even should he extend the remark so as to include Jeff. Davis himself, who never disputed it, or even disliked it.

An attorney, who lives in this county, recently charged a client ten dollars for his services in collecting a nine dollar pension, coolly telling him that he could pay the other dollar sometime when it was convenient.—Bedford News.

Your attorneys, at that rate, will never earn the reputation for honesty which the Bloomington lawyers enjoy. Come out of that Bon-Land, if you value your rep.

Treasurer's Report.

The Treasurer of the Board of School Trustees for the Town of Bloomington, submits the following report of his receipts and expenditures, for the year ending March, 1870:

SPECIAL SCHOOL FUND.	
RECEIPTS.	
On hand at last settlement \$126.38	
Amount received since 1.813.44	
Total.....	\$1,939.77
EXPENDITURES.	
For superintending.....	\$736.27
For repairs, and goods furnished.....	393.11

Repairing promptly and neatly done, FOR CASH.

All Work Warranted.

Finishing and Sale Rooms in W. O. Peck's Building.

SPECIAL NOTICES.

To Consumptives.

THE Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years from a severe lung affection, and that dread disease Consumption, is anxious to make known to his fellow sufferers the means of cure.

To all who desire it, he will send a copy of the prescription, free of charge, with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. The object of the advertisement in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription will please address: Dr. EDWARD A. WILSON, Williamsburg, Kings County, New York May 26—17.

Errors of Youth.

A GENTLEMAN who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will for the sake of suffering humanity, send free to all who need it, the receipt and directions for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing, in perfect confidence, JOHN B. GORDEN, No. 42 Cedar street, N. Y. May 26—17.

ALCOCK'S POROUS PLASTERS.

Step by step this commodity has attained its unprecedented fame. They are universally approved. They support, strengthen, and the growth of muscles. They appear to have a peculiar effect upon the nerves, allaying irritability, while supplying warmth. They seem to accumulate electricity, and aid the circulation of the blood through the part where applied, by which healthy actions are induced.

Even in paralysis where articulation was suspended, the use of the Porous Plaster to the spine restored the articulation, and materially reduced the paralysis. In fact the patient could help herself, while before the Porous Plaster was applied she was as helpless as a baby. We refer to Mrs. Sally Elliot, Springfield, Mass.

Sold by Druggists. Agency, Brantford House, New York.

What Every Horseman Wants.

A good, cheap, and reliable Liniment—Such an article is Dr. T. J. Van Vleet's Horse Liniment. Pint Bottles at One Dollar. For Lameness, Cuts, Galls, Colic, Sprains, &c., warranted better than any other. It is used by all the great horsemen on Long Island courses. It will not cure Ring Bone nor Spavin, as there is no Liniment in existence that will. What it is stated to cure it positively does.

No owner of horses will be without it after trying one bottle. One dose revives and often saves the life of an over-heated or driven horse. For Colic and Belly-ache it has never failed. Just as sure as the sun rises, just so sure is this valuable Liniment to be the Horse Embrocation of the day. Use it one and send it Sold by the Druggists and Storekeepers throughout the United States. Depot, 10 Park Place, New York.

Thirty Deadly Poisons, according to the "Journal of Chemistry," are sold in this market to change the color of the hair. The "Medical Gazette" says that they are worthless as dyes, and that their sale is a crime. The proprietors dare not submit them to chemical analysis.

Cristadoro's Excelsior Hair Dye, on the contrary, has been analyzed by Professor Clifton, the great analytical chemist, and pronounced also to be harmless, as well as efficient. See his written certificate, at Cristadoro's Astor House, New York.

Cristadoro's Hair Preservative, as a Dressing, acts like a charm on the Hair after Dyeing.

All the above goods for sale by R. H. CAMPBELL, Bloomington, Ind. 8-7-1869

R. H. CAMPBELL'S COLUMN. Six Great Remedies.

HURLEY'S STOMACH BITTERS.

FOR Debility, Loss of Appetite, Weakness, Indigestion, or Dyspepsia, Want of action of the Liver, or Disordered Stomach.

JAMES RIDDLE & CO., Proprietors, Louisville, Ky.

To Jas. Riddle & Co., Louisville, Ky. Gentlemen: This is to certify that I have been for years a sufferer, and tried all the common life and food or even covered with little or no relief from any of them. I heard Hurley's Bitters highly spoken of, and tried a bottle, with little relief in it before I commenced, and to my surprise, I finished one bottle, I felt a great deal better and firmly believe that on one or two common it was the means of saving and prolonging my life. I conscientiously recommend them to all sufferers as the best Bitters known, and advise them always to ask for Dr. Hurley's and have no other. Your, etc., JOHN W. DIXON, Louisville, Ky., December 14, 1868.

NOTICE TO MOTHERS.

DR. SEABROOK'S Infant Soothing Syrup.

Use in the future only Seabrook's, a combination quite up with the advancement of the age. Pleasant to take, harmless in its action, efficient and reliable in all cases. Invaluable in the following diseases: Summer Complaint, Irritability of the Bowels, Restlessness, Teething, &c.

Gives health to the child and rest to the mother.

TO PARENTS.—Louisville, Oct. 3, 1868.—Messrs Jas. Riddle & Co.—Gentlemen: We have for some time been using your Dr. Seabrook's Infant Soothing Syrup, and have given it a fair trial. For curing colic, relieving pain, quieting restlessness, and relieving sick stomach, we have found it more efficacious than all other remedies we have ever used. It is very pleasant to the taste, while most remedies for colic, &c., are very nauseous. Another great merit that we commend to all parents is the entire absence of the stupefying effects on the child, so common in the use of Doan's Mixture and other preparations we have used for similar diseases. We most cordially recommend it to all parents. J. W. DAVIS, Sheriff Jefferson Co.

Hurley's Age Tonic.

No Arsenic—No Mercury.

PERFECTLY RELIABLE.

The only remedy for Chills and Fever, or Ague and Fever, that is or can be depended upon is Hurley's Age Tonic. There have been thousands cured by using it who have tried the usual remedies without benefit.

NEW ALBANY, IND., May 23, 1868.

Messrs James Riddle & Co.—Gents: I was afflicted with Ague for months, perhaps for a year or more. Hurley's Age Tonic was recommended to me by a friend. I got a bottle immediately and commenced taking it according to directions, and have not been troubled with a chill since. I am satisfied that if it be taken according to directions it will cure any case of ague and cheerfully recommend it to all suffering with this disease. Yours truly, VINCENT KIRK.

Purify Your Blood.

Hurley's Sarsaparilla.

With Iodine of Potash.

Affections of the Bones, Habitual Constipation, Debility, Diseases of the Kidneys, Syphilis, Erysipelas, Female Irregularities, Scalding of the Head, Skin Diseases, Liver Complaint, Indigestion, Piles, Pulmonary Disease, Scrofula, or King's Evil, Syphilis.

Dr. Hurley—Sir: I wish to make known my case to the inhabitants of Louisville. I am a clerk in a large establishment, and have suffered beyond description, and for months have been unable to find employment. I have taken Cod Liver Oil, Iodine, Guggul and Bull's Sarsaparilla, and brother had been in Louisville, and of Dr. Hurley's Sarsaparilla, procured a dozen bottles of it. I have a few more, and am now finishing them. The which will leave me in possession of a credit to the city. I have been happy to answer any communication made to me on the subject, and am, your obliged, HAZARD TOWN, Cincinnati.

HURLEY'S Popular Worm Candy.

As this is really a specific for the best and most palatable for children, it is not surprising that it is taking the place of all preparations for Worms—it being perfectly tasteless and child will take it.

Portraits, Miss. April 17, 1869.

Dr. Thomas A. Hurley, Louisville, Ky. Dear Sir: I have recommended your Vegetable Worm Candy, and would endorse the assertion that it is the most safe and pleasant specific I have used. Your medicines are all the go in town. Very truly yours, F. P. BIBBY, M. D.

DR. SEABROOK'S Elixir of Pyrophosphate of Iron and Calicaya.

This elegant combination possesses all the tonic properties of Pyrophosphate of Iron, without its disagreeable taste and odour of either, separately or in other preparations of these valuable medicines. It should be taken in all cases when a gentle tonic is required after convalescence from fevers or debilitating diseases, or in those distressing irregularities peculiar to females. No female should be without it, it is such diseases, for nothing can well be placed.
