CARTER PERKINS, Agent at Bloomington, Indiana. Or to

MURRAY KELLAR, G. P. A., Louisville, Kentucky.

The New York merchants who have been interviewed by the New York Times unite in predicting a large fall trade in all lines, with every prospect of an increase over last year.

The chief advance in the immediate demand and in prospective orders is from the South and Southwest, Texas in particular, where a big and early cotton crop is stimulating trade, while the large food crop of the South is making an appreciable difference in its ready money.

The coming year, 1883, will complete the term of seventeen years since the last cholera epidemic of 1866. That was separated by a like space from 1849, and the visitation of 1849 was preceded by that of 1832. The fearful mortality at Yokohama and Manila, saying nothing of the reported appearance of the disease at Cairo, is not inspiring, but there is no known reason why cholera should be constantly expected once in seventeen years.

Its first known outbreak was in 1817, fifteen, and not seventeen years, before that of 1832. We need not, therefore, conclude that it is sure to come upon us in 1883, but its ravages among the Islands of the Pacific should lead to a timely abatement of those nuisances which provide it with food.

A story is told, says an exchange, of an Irish dragoon who was killed in the war of the Peninsula. "His arm was cut off and he was bleeding to death. When told he could not live he called for a large silver goblet, out of which he usually drank claret. He held it to the gushing artery and filled it to the brim with blood. Looking at it for a moment he turned it slowly to himself: 'If that had been for Ireland!' and expired." England will live to learn that the subjects of her vast Kingdom are not cemented by any national sentiments of love, and it will, in the end, prove her greatest misfortune to have ardent enemies in the rear.

In a recent speech, Jim Woods, the Irish miner, said:

"One thing I am proud of in the history of the Republican party, and that is, it has never made a mistake. Some Democrats ask me why I have only been two years a Republican in view of this grand history. It is because I have only recently begun to do my own thinking. There are thousands who do none of their own thinking, but let Hendricks and Voorhees and Landers and others do it for them. Just as soon as I began to do my own thinking, I ceased to be a Democrat."

Evidently Blaine and Senator Harrison were on an aggressive march in Maine. When Harrison spoke at Bangor, he quoted Blaine's

challenge to any one, "to name a bill or resolve which had been presented by the Democratic party in the Congress of the United States, for the amelioration of any human woe, or for the advancement of any human good, for the last twenty years." The Senator then said: "I carry the challenge further. I say there has not been a measure for the amelioration of human woe, or for the advancement of any good, but the Democratic party has opposed it." These challenges have an ugly look. If they are not true they ought to be answered. Will Senator Voorhees and ex-Senator McDonald attend to this affair? They have been challenged. There is no code in political warfare that will forbid them to accept.

CAMPAIGN SONG.

AIR: We've Got the "Fort" and Aim to Hold It.

Within a dark and dismal wood, In Indian Creek's worst hollow, A craven crowd of traitors stood, Waiting some one to follow.

The shades are falling fast and dark, A cautious step is nearing; Its owner comes and cries out "Hark, There is no use in fearing, Old Abe will never whip the South, Old Morton is a coward."

Let's stop some Abolition mouth And help the cause we favor, There's Alvin Moore, a Democrat, And others from this section, Has volunteered to help crush out Our glorious cause, Secession.

Let's up and do, and do it right, Let's beat the South Union boys, If we do fear Abe's sons of might, We dare old men and mothers' joys.

As this young Voorhees ends his speech, They hear the sentries running, When near the band they loudly screech, "See cavalrymen are coming."

They scatter, every mother's son, The hollow is deserted; Where now is our young Voorhees gone, He who such brave words blurted?

He runs, he falls, two Union boys Say come and go young John D. Where you will make your rebel noise To Lincoln's dog, "old O. P."

He went, came back, and settled down, He's here, he falls, two Union boys Say come and go young John D.

Where you will make your rebel noise To Lincoln's dog, "old O. P."

He went, came back, and settled down, He's here, he falls, two Union boys Say come and go young John D.

Where you will make your rebel noise To Lincoln's dog, "old O. P."

He went, came back, and settled down, He's here, he falls, two Union boys Say come and go young John D.

Where you will make your rebel noise To Lincoln's dog, "old O. P."

He went, came back, and settled down, He's here, he falls, two Union boys Say come and go young John D.

Where you will make your rebel noise To Lincoln's dog, "old O. P."

He went, came back, and settled down, He's here, he falls, two Union boys Say come and go young John D.

of land fenced, and 14,000 head of cattle. The price paid was \$310,000. This ranch is seventy-eight miles in circumference, thirty-two miles long, and twenty-eight miles wide. The new owners intend putting on 10,000 more cattle at once. —T. H. Courier.

Maj. J. W. Gordon.

Republican candidate for Clerk of the Supreme Court, will speak in Bloomington, on Saturday, Oct. 7th, 1882, at 1 o'clock p.m., on the issues of the present political campaign. All are invited to hear him. See posters.

Republican Speaking.

Col. Geo. W. Friedley will speak at Ellettsville, Saturday night, September 30, at 7 o'clock.

At Carter's school house, in Perry township, Wednesday night, Sept. 27th, by Senator W. B. F. Treat.

At South Union school house, in Van Buren township, Thursday night, Sept. 28th, by H. C. Duncan and Jos. E. Henley.

At Stanford school house, in Van Buren township, Friday night, Sept. 29th, Wm. P. Rogers and H. H. Friedley.

At Lee's school house, in Benton township, Friday night, Sept. 29th, Wm. R. Asher and Jos. E. Henley.

At Bloomington, Saturday, Oct. 7th, at 1 o'clock p.m., by Major Jonathan W. Gordon, Republican candidate for Clerk of Supreme Court.

The county candidates will be found at all the above meetings.

The Republican Central Committee will meet Saturday, Sept. 30th, at 1 o'clock in the grand jury room.

The Colt Show.

Clear Creek, Sept. 25, '82.

Mr. W. A. Gabe: It was impossible for me to get you up a complete list of the premiums awarded at the Colt Show on Saturday in time for this week's paper.

You can announce that it will appear in your next issue, as by that time I will have time to work it up. I think the show was quite a success, but I tell you I never worked as hard in my life to get a job through, as I did on Saturday; not getting the help I expected in selecting the awarding committees, left it all for me to do, and I tell you several times I felt like the man did who drew an elephant at a lottery: he had a big thing on his hands and did not know what in the smash to do with it.

There was quite a number of colts (some of the very best on exhibition) whose owners lived at a distance, that were taken away before more than half the premiums were awarded, which would have received premiums had they remained. This I very much regretted, as I wished the premiums to be distributed all over the county according to merit.

But I did the very best I could under the circumstances, and I think it could be said in truth, that there never was in the history of Monroe county as fine a collection of colts before, as were exhibited on Saturday.

I hereby return my thanks to the people of the county for their patronage in this, my first effort, in getting up a Colt Show, and I hope to live to see the day when Monroe county will be as noted for her fine horses as she has been for her inferior ones. Respectfully yours,

A. H. PERRIN.

The Niagara Falls hackman comes in for more than his usual share of blame this season. Ordinances have been passed fixing the rates that shall be charged by the hackmen, and forbidding them to solicit on the streets. The admission charges at the various points of interest are plainly posted up in many places. Yet, in spite of this, hackmen worry tourists by their vulgar importunity, and the keepers of curiosity shops demand a fee after assuring visitors that there is no charge.

Most of the vinegar bought of city dealers is made of vitriol and other poisonous drugs. Gather the apples that fall in your orchard, run them through the mill, and make your own cider vinegar.

Thought-Training.

The world is indebted for nine-tenths of its valuable knowledge, its improvements and progress generally, to men and women who have trained themselves to think in a systematic and consecutive manner. No man has ever become eminent in science, art, literature or farming, who was not a profound thinker, who did not well examine and compare all the items pertaining to the subject, to know whether in their various relations they sustain the principle which public opinion upholds as being true. It is not a very uncommon thing that a principle has been enunciated by men who have pet theories to support, and where it is plain to a thinking, unbiased mind that some of the important items of the theory are in direct antagonism to the principle, and therefore false—or otherwise the principle itself has no foundation in truth.

Do you see that crowd? Yes; where is it going? It is going to Kahn & Tenebaum's big "Boss" clothing house. Why do the people rush so frantically? Because they are anxious to buy some of the new style clothing. Do they sell cheaply? Yes; that is the great attraction at the "Boss."

A Life-Long Remembrance.

The Cincinnati Tenth Annual Industrial Exposition opens Sept. 26th and closes October 7th. This Exposition, long recognized a national reputation, as its exhibits have always been larger than those of any similar exhibition throughout the United States. The Board of Directors (of which Capt. W. W. Peabody, General Superintendent of the O. & M. R'y, is President), has fairly outstripped the efforts of all previous Boards, so that this year the Exposition will be grander in every respect than those of former years. Additions have been made to the permanent buildings, increasing the display space by about three acres of floor room. Among some of the prominent features of this year's Exposition, are the internal workings of a large Post Office. If you intend receiving correspondence while at Cincinnati, you can have it sent care of the Exposition Post Office. The manufacture of silk showing the process from the time the silkworm leaves the cocoon to the completion of the goods in the piece. The manufacture of ice by chemicals will also be a prominent and interesting feature. Lastly, we will mention the manufacture of tobacco, showing the different operations the leaf has to undergo before it is ready "to have the juice squeezed out of it." Any one of these exhibits will doubly repay you for a visit to the Cincinnati Exposition. The hotels of Cincinnati make special reductions for visitors. The Ohio & Mississippi Railway will sell excursion tickets at greatly reduced rates during continuance of the Exposition. For any particular information please call on or write to their nearest agent.

CRASH! BANG! SLAP!

Down go the prices at Dunn & Co's. big cash grocery store. Preparations have been going on for some time at the big cash store for an immense Fall trade, and the way goods are rolling in is a caution to small dealers. Car loads of Bone Dust, of Timothy, of Salt, of Flour—of everything that is sold in a grocery store are now being received. Go down and see it.

DISSOLUTION.—The firm of Geo. P. Ketcham & Son, Millers, Clear Creek, Indiana, was dissolved by mutual consent, on March 1st, 1882.

George P. Ketcham will hereafter conduct the business, and will pay all debts and collect accounts due the firm. GEO. P. KETCHAM. Sept. 20-82

Ground Raw Limestone as a Fertilizer.—The Cheapest and the Best.

The results of experiments made this season show that "Limestone" is not (as is commonly supposed) "a waste" (not excepted) and we challenge comparison of results with any fertilizer in the market. See statements in circular, which we vouch for the truth of. Farmers, give it a fair trial. Manufactured and sold by JAMES SMALL. Price only \$6 per ton. Sept. 13-82-3w

FOR SALE.—I desire to sell my property on Grant St. Also property consisting of 13 lots and improvements west of College. Property cheap and terms easy. All in city of Bloomington. J. R. EAST.

BIG THING.—Len. S. Field returned from Boston and New York last week, having bought largely of that constitutes a choice and general stock of goods, and now they are arriving by every train. It is estimated that he has bought \$20,000 worth of new goods, exclusive of the stock already in the store. Every one who has visited the new quarters of the store, and recalled the fact that a large amount of the stock is made up of half of the premiums were awarded, which would have received premiums had they remained. This I very much regretted, as I wished the premiums to be distributed all over the county according to merit.

But I did the very best I could under the circumstances, and I think it could be said in truth, that there never was in the history of Monroe county as fine a collection of colts before, as were exhibited on Saturday.

I hereby return my thanks to the people of the county for their patronage in this, my first effort, in getting up a Colt Show, and I hope to live to see the day when Monroe county will be as noted for her fine horses as she has been for her inferior ones. Respectfully yours,

A. H. PERRIN.

BALL'S HEALTH PRESERVING CORSET

A combination of CORSET and WHOLESALE, Whole and Corset, which is pronounced by our best Physicians as being the most perfect and perfect a greater variety of forms than any other.

Yield readily to every respiration and is equally comfortable in any position assumed by the wearer. It is made of the finest materials, and is guaranteed to retain its perfect shape till worn out. If you secure a more graceful figure than with any other corset, it is a single trial and you will wear no other.

What Eminent Chicago Physicians say of it.

Chicago, October 23, 1880. I have examined BALL'S HEALTH PRESERVING CORSET, and find it to be a most perfect and perfect a greater variety of forms than any other.

Chicago, October 26, 1880. I fully endorse what Dr. Hyde says in the above note.

Chicago, October 15, 1880. I have examined BALL'S HEALTH PRESERVING CORSET, and believe it to be the most perfect and perfect a greater variety of forms than any other.

Chicago, October 27, 1880. I have examined BALL'S HEALTH PRESERVING CORSET, and believe it to be the most perfect and perfect a greater variety of forms than any other.
