Pres. Jordan of I. S. U. was
at Indianapolis last week in attendance

upon the State Board of Education. This is the first meeting

under the new system whereby

questions for the examination of

applicants for state teachers' licenses

are submitted three times a year,

instead of once, as heretofore, and

in the several counties of the state

instead of in one or two. The

board was engaged in preparing

these questions. On the last

Saturday in February applicants

will be examined in arithmetic,

grammar, physiology, geography,

physics, and United States history.

Examinations in other branches

will take place on the last Saturday

of March and of April. Ex-

amination papers come before the

superintendent of public instruction,

and applicants must make a

general average of seventy-five per

cent to be entitled to a certificate.

mand, and he is always equal to the

emergency.
