FALL STYLES in gents' piece goods have been received by Ben. McGee, the artist tailor, on the south side of the square. A MUSEUM of wonders is the store of Tobe Smith, on the south side of the square. There is no article in notions, toys or fancy goods, that cannot be found on his shelves or piled up in his central counters. He buys these goods in car-load lots, and by this means gets them so cheap that he can afford almost to give them away, and he does it. He has the leading staples in fine watches and jewelry, and you need not go further than Tobe Smith's for any article in his line.

FRESH supplies of groceries are received each week by WILSON, the corner grocer. Among the latest is the "Magic Yeast Cakes," and the "Empire Baking Powder." All the novelties in groceries can be found in this house. All goods delivered free of charge.

His Law was Her Gain. "Well, madam," said a fashionable physician to a wealthy lady patient, "if you don't like my prescriptions, perhaps you had better try Parker's Kidney Pills, or some other 'quick stuff.'" "You don't mean it, Doctor," she answered, "but your advice may be good for all that. Sometimes what you call 'quick stuff' is the best and most scientific medicine after all." She got a bottle of Parker's Kidney Pills and cured her of neuralgia arising from disordered stomach and nerves. She told her friends, and now they all keep a doctor at home in the form of Parker's Kidney Pills.

My hair has not only stopped falling out, but the bald spots are all covered, and all my hair has grown thicker, softer and more lively than it was before my wife a year ago. Thank you again, and again." Extract from letters of Mr. R. W. T. West, Fifty-third street, New York.

—The Bedford Bar passed some highly complimentary and richly deserved resolutions recently with reference to Judge R. W. Miers. The Judge is a genial gentleman by nature, and his popularity can only be measured by his opportunities, and the Progress hopes to publish an announcement in the near future of his nomination as successor to the present Democratic Congressman in this District.

—Wm. J. King is going to try Kansas as an abiding place.

—Mrs. Kate Lockwood, of Gibson, Ill., died on November 1st. Deceased was a former resident of this county, a daughter of Samuel Moffet, and a cousin of Dr. Weir of this city.

—New Albany is a healthful locality. Dr. Elijah Newland, who resides there, is seventy-eight years old, never met with an accident in his life, never engaged in a fight or a serious quarrel, and never witnessed a regular fight. He came to Indiana in 1825, and has been a continuous resident of the State, therefore, for sixty years. Quail hunting is his diversion. Dr. W. A. Clapp is a bachelor of uncertain age, but has been in Indiana more than sixty years and has never been confined to his bed a single day by sickness and never took a dose of purgative medicine.

—The new law on fish ladders is now in force and it becomes the duty of dam owners to erect such, or they will be erected by the township trustee and charged up to the owners. The law provides that they must be erected on all streams and maintained by said owners, within six months from the passage of the act of March 5, 1885. A failure on the part of dam owners to comply with the provisions of the act necessitates the intervention of the trustee whether in or out of incorporated towns and to charge up the expense of such constructions against the dam owners or authorities.

—The local newspaper is closely connected and identified with every legitimate business interest in your city or town. It is conducted by those with whom you are acquainted. You can contribute to its prosperity by giving it your patronage and support. This you should do without regard to its political views. The local newspaper is poised in regard to your wants. It does all it can to aid those wants.—Your interest is its interest. It is your friend and neighbor. You owe it a duty in preference to all other papers. No outsider or foreign paper can possibly have any claim upon you until you have discharged your duty to your home paper. No outsider or foreign paper can have the same interest in your business affairs as the local paper. The local paper aims to build up home trade and encourage home industry. You can contribute to this end by supporting the home paper.

After a supper such as Presbyterian ladies know how to give, and such an exhibit as promised, what more can be asked? Thursday, Nov. 12th, is the time—supper from 5 to 7 o'clock, in the Sabbath School room—Stereopticon in the audience room at 7 o'clock. Supper 25c. SLICK SCOUNDRELS! THEY USE THE GOOD REPUTATION OF THE BLOOMINGTON BANK TO FURTHER THEIR ENDS.

Barford's Cool Customer.

On last Friday, when Walter Woodburn, Cashier of the First National Bank of this place, opened his noon mail, he found in it a bogus certificate of deposit from the National Exchange Bank, Lexington, Ky., purporting to have been drawn by this bank to the order of Charles Marshall for \$1,800. Mr. Woodburn immediately telegraphed the Lexington Bank, that the certificate was a fraud, and also sent word to the Louisville, Cincinnati and other Kentucky banks to look out for similar frauds. On Saturday he received a telegram from the Fayette National Bank of Lexington, Ky., asking if a certificate of deposit for \$1,500, payable to Jas. D. Morgan, was genuine. That bank was immediately informed that this was also bogus, and was asked, if possible, to catch the forger. On Monday morning a third certificate for \$1,500 also payable to Jas. D. Morgan, came in from the Louisville Banking Co., having been received by them from the Lexington City National Bank, making three certificates amounting to \$4,800, that had been passed on the three Lexington banks. Mr. Woodburn noticed that the certificates bore the imprint of W. B. Barford, Indianapolis. He immediately wrote there to get a description of the party ordering the certificates printed, but received nothing that would lead to identification of the parties. It seems that the person ordering them was in Indianapolis about two weeks ago, and selected the styles wanted, saying that he would call again in a short time to see about them. He called about the time they were finished and got a few of them, ordering the rest forwarded to Bloomington when finished. The style of the certificate is nothing like the one used by this bank, and the forger made no attempt to imitate Mr. Woodburn's signature, which, by the way, would be very hard to do. Correspondence between the bank here and the Lexington bank developed the fact that the forgers had evidently been here on the 3d inst., as they had mailed a forged letter of identification from this place which reached Lexington the day before the certificates were presented. The bank here has received one of these bogus letters, and the Cashier says that nine out of ten banks would be taken in by such an identification. It is a regularly printed blank, used for such purposes, and with the names of the officers of the bank printed on the heading, and with a bogus seal of the bank attached—everything a fraud from first to last.

Correspondence also revealed the fact that there were two parties working together in Lexington, and that they only asked the banks to advance part of the amounts which the certificates called for, leaving the balance on deposit with them. They received from the first bank \$800, and from the others \$500 and \$750 respectively, making \$2,050 which they raised in a short time.

Immediately on receipt of the telegram from here last Friday, the Lexington bank began a search for the parties, but up to the present writing they have not been found.

This is one of the boldest, best laid schemes, that has ever been worked on any bank. The Bloomington bank loses nothing whatever in the transaction. It is a satisfaction for them to know that it is always a good article that is counterfeited.

—The Trustees of Indiana University were present on Monday morning, at the opening exercises, and upon invitation of Dr. Jordan remarks were made by Messrs. —The law for the election of Township Assessors has not been changed, as many believe, but the election of those officers will occur in April, as heretofore. The Assessors elected next spring will appraise the real estate, and as their appraisal is to stand during the next five years the people of each township should select men of the soundest judgment for these positions.

—On Sunday evening last Will, Houston of Bedford, well known to many here, died in great agony, after being confined to his bed but two days. On the 11th of February Mr. Houston was on the express train that was wrecked near the hoop factory, and he was thrown violently across the back of a seat. He has not been in his former health since then. Drs. Newland and Baridan say that his death was due to the injuries received on the train—that the spine, and the large nerve leading from the heart to the stomach were injured, and that nothing that human skill could do would have saved his life. Deceased was a brother-in-law of Col. Friedley, and was a very popular and universally respected young business man.

—Mr. Frank R. Whipple, one of the oldest and most esteemed citizens of Rockville, died Nov. 2d, 1885, aged 74 years.

He had not been quite as well as usual for some weeks, and was in rather feeble health. It appears he had gone into the barn loft to throw down some hay, as there was none in the manger, when he fell through an opening between the planks, until caught by his arms, in which position he was found by his friends. Every means was tried to restore animation, but life was extinct. Physicians think the shock of falling stopped the action of the heart, and he was too weak to recover from it. The Whipple family is well known in Bloomington.

—Mr. Dunlap, who graduated at the University last year, and Miss Minnie Davis, were married by the Rev. H. V. Givler, at the residence of the bride's parents, on last Tuesday morning. The wedding was very quiet, only the relations and intimate friends being present.

—Cal. R. Worrall, the successful pension lawyer, went over into the Greene county marshes last week after ducks, and brought back thirty-six as fine birds as ever dropped at the crack of the sportsman's gun. Cal. is a "mighty hunter," he is also a mighty clever fellow, and has a correct idea of the proper thing on such occasions; as a consequence one of the finest "Mallards" in the collection was forwarded to the Progress.

—The cotton crop still promises handsomely. A large portion of it has been harvested and sent to market in good condition. It is expected that heavy exports during the present month will turn the balance of trade in favor of the United States.

—Surely this is an age of religious progress. Rev. Henry Ward Beecher eulogized Cardinal McClosky from his pulpit, and the Baptist Association of New York offered up prayers for the dying Cardinal. This was right, but how impossible such a thing would have been fifty years ago, many now living could testify.

—The public may gather some idea of the magnitude of the society of Free-masons when it is stated that the legitimate expenses of the last session of the Grand Lodge of Illinois, which is nothing more than a convention consisting of one delegate from each of the 800 lodges, was nearly \$20,000.

—The north part of Alabama, say from the foot of the Mussel Shoal of the Tennessee river, up to and beyond Huntsville, and from the same point to Tuscaloosa, offers now more inducements to new men than any other part of the country, for it is full of iron and coal, and perhaps other minerals, with railroads finished or finishing, to move all to market. Birmingham, at the southeastern edge of this great belt, a city built up within the last four years, is a marvel and is growing with great rapidity. The mate will be built at the foot of the Shoals mentioned, and will have two railroads and the river to discharge itself of the concentration of valuable there. The name of the place has been fixed upon as Sheffield; and we notice in a late Alabama paper that the town is growing right up. It is only a few miles from Tusculumbia and Florence. It is going to be a big town, it is believed.

—A little miss of three years, who lives under the shadows of Indiana University, was playing with the neighbor's children one morning, when the latter were called in for prayers. She accompanied them, and, when seated in the sitting room, she observed that she was the only one without a book. So she jumped down and helped herself from the book case in the room, returned to her chair and opened her book like the others, and endeavored to read unrequested. After reading she shut her book and waited till they had all kneeled, then she assumed a like position, putting her hand to her face, but keeping a look out between her fingers all the while to observe what was taking place. When the others rose from their knees, she ran over to one of the little girls, and calling her by name, said: "I like this game first rate. What is the name of it?"

—A gentleman who was several years younger than his wife, and who was, beside, small and rather boyish in appearance, entered a dry-goods store in Bloomington with his wife and requested to be shown some carpets. The proprietor himself, to whom, as it happened, they were unknown, waited on them. He showed them very politely his extensive stock of carpets, and exhibited with great pains their beauty and excellence of quality. The gentleman and his wife both seemed undecided as to what suited them, among the various patterns displayed, and the proprietor, with the laudable desire of assisting them to decide, remarked to the gentleman, pointing to one of the carpets: "I think this is the carpet your mother likes." The gentleman looked a little surprised, but quietly said: "She is not my mother, sir, but my wife." The lady said nothing, but it is needless to add that she did not find any carpet to suit her.
