

Republican Progress

Printed each Wednesday Morning, by
WILLIAM A. GARE, Editor and Publisher.
IN ADVANCE, \$1.50 a Year

It is not to the credit of our Democratic institutions that a popular Secretary of War. It is reported that Senator Callom recently spent a month in attempting to see Secretary Endicott on business and was finally obliged to take his papers to the President. Editor Watterson says: "If the War Department is insolent to Foreign Powers as it is to citizens of the United States we shall soon have a big war on our hands."

Several parties about here have invested in the St. Andrews Bay (Florida) fraud. Guy Weber, the chief of this swindling company, has been arrested for misusing the United States mails by sending out circulars and matter designed to defraud. If people will persist in biting at the bait of this concern they cannot expect any sympathy from any source should they get caught.

A Washington society woman made a call on the newly made wife of the secretary of the interior. The servant ushered her into a salon, where a stately person in somber raiment and of austere mien received her. After the usual exchange of amenities the visitor glanced around expectantly, as if looking for some one; then turning to the hostess she said: "I presume you are Mr. Lamar's mother, and I would like also to see the bride." "Madam," replied the stately dame, "I am Mr. Lamar's wife."

The radical spring hat is steeply crowned figuratively and literally. The latest Parisian absurdity is a high, round brimmed affair, faced with velvet and constructed of seven folds of cloth or silk to match the costume, producing a shingling effect which grotesquely matches the meeting-house steeple. This is trimmed with high bows or contrasting ribbons at the back. One can not get out of fashion if one only secures height and trimming enough.

Boston Transcript: When the Boston and Providence railroad was built, the opposition to railroads was so great that location for it was refused through the principal villages. They might have been made stations but refused to be. So the old road does not touch the old villages of Dedham, Canton, Stoughton, Foxborough or Attleborough. Rural villages have of course grown up around the stations in those towns, and branches have been run to the other villages.

Emperor William, hale and vigorous at 90, is a striking contrast to the ex-presidents of the United States, who have broken down, sickened and died while scarcely past the meridian of life. It may be accounted for by the German deliberation and conservatism, which tend to establish health and prolong life, as American rush, worry and excitement tend to shorten it. The emperor is a hard working man to this day, but he performs his duties systematically and deliberately.

Indianapolis News: According to the information reaching Indianapolis, Rev. C. C. Herriott, formerly of this city, but now of Westminster Presbyterian church, St. Paul, has been asked to resign by his flock. He is charged with having used the study connected with the church as an office for speculative purposes, during which he made \$9,000 by booming real estate, and with making no partition of his own profits while advising his parishioners to give one-tenth of their possessions to the Lord.

Indianapolis News: The danger of storing explosives in the residence portion of buildings was plainly shown at the fire on North Pennsylvania street this week by the explosion of a can of gasoline. The presence of such in a building proper not only endangers life, but practically violates the insurance at risk, as every policy of insurance plainly forbids its presence at all times.

A BAD WRECK.—The midnight express from the South on the Monon line was wrecked between the Junction and this city Saturday night a week, the accident occurring at the switch near McLean's springs. At this point is a large fill and the train was going at a good rate of speed. A switch was for some reason or other open—the train men claiming it had been pried open and a large stone placed between the rails to keep them out of place—and the engine and baggage car left the track. The engineer applied his brakes as quickly as possible, but after running about fifty feet the engine turned over and landed upside down about half way down the embankment. It was a complete wreck. The fireman was thrown down the bank and escaped, but the engineer was caught and held under some pieces of the engine for about an hour when he was released. He was injured about the lower limbs and was brought to the city and his wounds dressed at the Commercial hotel. The quick action of the engineer in applying the brakes arrested an awful disaster.—Greencastle Times.

GENERAL NOTES.

BY A CONTRIBUTOR.

Mrs. McKee failing to give last Sunday's lecture, Prof. Atwater gave his lecture on Garding. The attendance was small.

The lecture next Sunday will be given by Dr. St. John of Public Instruction, John W. Holcomb, now chief clerk of the Bureau of Education at Washington City. His topic is "The Pre-Raphaelite Poets."

It is rumored that the Mendelssohn Society of this city will in the near future entertain a Greencastle audience with their "Little Tycoon."

The Academy of Science will hold a meeting at the George of Deane, a romantic spot near Crawfordville, during the latter part of this week. Dr. Jordan will attend.

A Philosophical Club numbering thirteen, and conducted by Prof. Boone is the last.

The debate given in the Preparatory school last Friday afternoon by Misses Hanna, Miers, Demaree and Shields on the relative merits of Longfellow and Bryant as poets, was both interesting and creditable.

Among the student visitors of last week were Messrs. McIntosh, Fish, Baker, Dersy, Castle, Bower, Benedict, Wilcox, Murphy, Armstrong, Hower, McKee and Lane. These accompanied the De Pauw club to cheer them in their efforts to carry away the scalp of our boys.

The entertainment given in Mendelssohn Hall last Saturday night was excellent in the character of the dramatic performance, and the elite audience in attendance.

On last Saturday the base ball club from Greencastle crossed bats with the I.U. boys for the first time this season. As may be seen from the score they were beaten in a game that lasted for an hour and a half, when the I.U. boys knocked the ball all over the field for nine runs. In fact the game was a very tame affair. About 500 people witnessed the game, among whom was a liberal representation of De Pauw. Cornell pitched a wonderful game after having been sick for ten days or more, and much is due to his work that we gained the victory. He was well supported by McKee, who played ball in his usually brilliant style. The following is the score:

On Sunday a week Rev. Givler will preach the Memorial Address in the I. U. church to which all scholars and citizens are invited. On Monday a week Rev. Lyons will deliver the Decoration Day oration in the court house park, at 2 p. m. The Rev. J. P. Red Men, Old G. A. R., School Children and all the people will participate in the ceremonies. Program next week. A citizens' meeting will be held in the court house on Thursday night, to act in conjunction with the G. A. R. Post with reference to Decoration Day.

The following Bloomington ladies will attend the State W. C. T. U. convention held at Richmond, beginning Thursday, May 19, and continuing five days: Mrs. L. M. Beck as a Vice President of the State Association, Mrs. Miers, Mrs. Louder, Mrs. Orchard, Mrs. Pittman and Mrs. Braxton as delegates from our home association of the married ladies; also Misses, Frank Ferring, Frankie Ferring and Lucy Maxwell as delegates from the Bloomington "Y" association. They apprehend a pleasant and profitable time.

An "Adamless Eden" Co. will appear in the Opera House next Saturday night. This troupe exhibits in Greencastle Friday night, and if De Pauw College can wax fat and saucy in the face of sixteen licensed saloons and Adamless Eden companies, Bloomington ought to go through the ordeal and come out unscathed. See "the paper on the wall," and then secure a seat, for the show will be immense.

CHIPS AND SPLINTERS.

—Dr. J. D. Maxwell jr., has been visiting his old college friends in Cincinnati. The sheep killing dog is getting in his work. Ten head of sheep were killed on the old York farm, now owned by Mr. Tague, recently—Taylor Paul has come back from Kansas to a country where there is timber. It is trying on the eyes to ride for days over a flat, hot surface, without a tree or shrub in sight, and a man who has lived in a country where trees are abundant always longs to be among them again—Going out to "Fairview" this evening? Fairview is the new addition on the Whisnand and Williams land. There is not only a fair view but a splendid view of Bloomington from that location—The interstate oratorical contest in May next will be held in Greencastle. It is not unlikely that by the aforementioned date Indiana University will be ready to take part and will just as surely carry off the prize—Prof. Gilbert has been tendered the chair of Biology in Indiana University, and will probably accept. Prof. G. is now a member of the Faculty of the University of Cincinnati—The annual Senior vacation begins May 23—Squire Wm. Stephenson died at the residence of Frank Kinser, Harrodsburg, Thursday a week. He was one of the leading and successful farmers of the southern portion of Monroe county, and was celebrated for raising good stock, especially horses—Mr. Tague, who bought the old York farm, has purchased the little house and one-half acre of ground that belonged to the Covenant church, paying \$125—Lightning struck the barn of E. B. Farnham, near Stanford, recently, killing one of his horses and seriously injuring another—On Tuesday, May 24th, the Monroe county S. S. convention will hold its annual session in Smithville—Geo. Atkinson has been visiting the natural gas fields and says it is "wonderful!"—Rev. Minton preached in P. church last Sunday, and the Walnut St. church pulpit was filled by Rev. Scott Stevenson—McKee, the carpenter, has the contract for the improvements on Dr. Jordan's residence, North Railroad street—A new brick sidewalk is being put down on the south side of 6th street in front of Soddy Carmichael's lot—A new addition is to be platted on the east pike, and doubtless a new town will spring up, called Universityville—Business rooms and dwelling houses are very much in demand at present, and the demand is growing—W. W. Wicks is the first man to inaugurate the practice of taking traveling men out through the town to see the improvements and growth of the place. It is the right course—it will advertise the town and build it up as surely as these efforts are made—Davis is without doubt the most competent man who has ever had charge of the sprinkling department of the city streets—One hundred dwelling houses and ten good business rooms would find tenants now if they could be had—Young squirrels are said to be very plentiful in some localities—Painters and paper hangers are very busy just now, while all manner of repairs are being made on residences—The "Monon" made the round trip from Greencastle to this place, last Saturday \$1, good returning by the Sunday night's train—Alex. Hawkins and wife of Bartlettville were visiting relations in the Wichita of Southern Indiana (Bloomington) last week—Wm. Nicholl of the Harrodsburg stone quarry company was in town Thursday; came up to get a wheel for a derrick from our enterprising foundrymen, Seward & Co.—R. C. Greeves went to Bloomfield last Wednesday to bring home Mrs. G. and to gaze on the wonders of that sandy city—The bottoms of the 25c. strawberry boxes are rising higher each season. They are placed very near the middle of the boxes this spring—Strawberries will be served by the ladies of the Equal Suffrage Society. That is one thing the laws of this land of the free will permit them to do—Marion Hinkle is preparing to go back to his farm and will vacate the jail residence. Jno. D. Morjan will occupy the latter, and go into training for the office of Sheriff. By the way John would make a very acceptable Democratic Sheriff, but that kind of a Sheriff would be elected next time—it will be a Republican—Aaron Rose [Continued on 31 page.]

—The base ball match between the I. S. U. and De Pauw clubs last Saturday was a one-sided affair. I. S. U. fairly mopped the ground with the visiting innocents. Cornell, the I. S. U. pitcher, was taken from a sick bed to fill his position, and his curved balls made the De Pauw's so dizzy with watching them that several of the "players" grew sea-sick. Three of the visiting team were at one time standing behind trees pulling their fingers into place and trying vainly to suppress fast rising tears, while another got in Cornell's way as he was walking the bases and was rolled in the dust in the most undignified manner possible. When these lads learn to play marbles they ought to come down as Apollos, sing "Mary had a little lamb," and then play our boys a game of "purg," for the cigarettes. The Progress did not go to the grounds as the reckless and uncertain manner in which the De P.'s threw their balls made it dangerous to remain in the vicinity, but a fellow who used a mattress on his manly breast and peeped through the bungle of a convenient barrel, told us all about it.

—The ladies of the Baptist church will give an ice cream and strawberry festival Tuesday evening, May 24.

—A lady will be at Bowman's from Cleveland to show the people what the White Sewing Machine can do.

—Supt. Hazel will not be a candidate for re-election. This opens the door for several new ones.

—The ladies of the Equal Suffrage Club give a Strawberry Festival in the basement of the Walnut St. church, on Thursday evening, May 26th.

—Jos. N. Alexander has gone west on a prospecting trip, and will take in Wichita and other booming towns.

—On Wednesday night last Mrs. (Bicknell) Terry passed through Bloomington on the 8:26 train on her way from Nebraska to Stinesville, where she went to rejoin her husband, the Rev. Mr. Terry of the Baptist church.

—George Holler, a step-son of Harvey Baker, arrived in town last week from Ft. Bliss, Texas, near El Paso, where he is stationed with a portion of his regiment, the 16th U. S. Infantry. Holler, who is now a first sergeant, is on his second term of enlistment, and is well satisfied with army life. He has a two month's furlough. Holler was born and raised in Washington pt., this county.

—Craig Hunter and wife came from Chicago with Mrs. Hunter, on Friday week. Craig returned to Chicago on Saturday, but his wife will remain in Bloomington for a short time.

—Capt. Fields left Bloomington on Saturday morning for Huntingburg, Dubois co.

—The suit of the Exchange bank vs. Samuel L. Wallace et al., a cause taken by change of venue from Owen county, was decided in the circuit court at Martinsville Saturday afternoon. Judge Howland, of Indianapolis was on the bench. The case is one which involved the defalcations which were estimated by the jury by finding in favor of the plaintiffs and assessing damages at \$8,000. The defense immediately moved for a new trial, and were given one hundred days in which to prepare the points to be included in the motion.

—Heavy machinery is now run by artesian well power in many parts of France, and the experience of the French show that the deeper the well the greater the pressure and the higher the temperature. At Geunelle a well sunk to the depth of 1,802 feet, and flowing daily 500,000 gallons, has a pressure of sixty pounds to the square inch, and the water from this well is so hot that it is used for heating the hospitals in the vicinity.

—Martinsville Gazette: The judgment of the Circuit Court of this county, in the case of Benj. W. Tilford, has been affirmed by the Supreme Court. It was held: "The statute requiring that druggists shall not sell liquor, except on a written prescription, is imperative. The statute does not make any exception, and the court will not create any, except in clear cases and where there is an imperative necessity. The fact that the appellant was a physician, does not excuse him."

—A carefully prepared return shows that over 50,000 farms have been opened up in Kansas during the last three years. This explains much that is mysterious about the boom in Kansas towns, and is a record of growth and prosperity of which any State or country in the world might well be proud.

—Alexander & Miller have closed a successful fertilizer season. The fertilizers sold by them for corn and oats this spring have had a stiff run and scores of farmers have used fertilizer this season who have been opposed to it heretofore. The grocery trade, too, of this firm is steadily on the increase, and on Saturdays now it is difficult for the members of the firm to get time to go to their meals—they work on the run half the time. Their store is the old Dunn stand, so familiarly known, and every man who trades with Alexander & Miller once will go to see them again. Call at the grocery, if you are not already a customer, and learn what they can do for you.

—STINESVILLE ITEMS.
Wheat looks splendidly in some localities.

A lady from Gosport is visiting our people.

Mrs. Albert Hoadley is visiting her parents, Mr. and Mrs. Franklin, of Ellettsville.

A number of our men have left Stinesville and are now working in the stone business near Spencer.

Wm. Hoadley Jr., and wife, paid Mr. and Mrs. James Voss a visit in Bloomington recently.

B. L. Williams, an enterprising young business man, of the Bloomington Union Mills, stays with us part of the time, and is engaged in the stone business. Some of the stiles for the Durand building in Bloomington.

The youngest daughter of Terry Riley has moved her goods to Greencastle and will make that her future home.

A number of concord boys from Owen county came to Stinesville Sunday to see the old, Presnell preach in the Christian church.

There will be a supper at the Methodist church Saturday night. Come one and all, and join in the bean supper.

Some of our young people undertook to get up a surprise on Ollie Dunn, Tuesday night. They were soon silenced as Ollie concluded to go to Cleveland to see his

Two of our stone mills are running twelve hours a day.

Cleveland Welch is visiting his grandparents, Mr. and Mrs. J. S. Williams, of Bloomington.

Miss Terry Reynolds is now busy putting in the foundation for the Odd Fellows building, in Ellettsville.

Miss Cole Eppinghouse, manageress of the "Lorette and Apollo Club," played some fine music in the Opera House of Bloomington, Saturday night.

Miss Sallie Presnell, formerly of this place, is very sick with consumption at her home in Greene county.

The editor of these items paid the city of Bloomington a visit, and went to the Opera House Saturday night.

Some of our boys are shooting and fishing on Sunday; this must be stopped at once.

Everybody comes to the June meeting, the first Sunday in June, and bring baskets well filled, and we are sure we will have a good time.

CRAIG WORLEY has a lot of first-class Buggies, Carriages, Phaetons and Spring Wagons, at his livery stable, which he will sell for cash or will trade for mules or horses. Call on Craig before you sell your stock.

Ladies Wanted.—A lady agent is wanted in every city and village; also ladies to travel and solicit orders for MADAME WALKER'S CORSETS and CORSET SUPPORTERS, Ladies' Friends, etc. Agents are making from Twenty to Fifty Dollars a week.

Send for circulars and price-list to B. Wood, 64 South Salina Street, Syracuse, N. Y.

H. P. TOURNER'S IS THE PLACE TO BUY
