DEATH OF REV. JOHN BRYAN.

Saturday night a week, at 11 o'clock, Rev. John Bryan died at his home on East Second street.

In many respects Mr. Bryan was a remarkable man, and at the hour of his death, I think his life was more than a passing notice by the people of Bloomington, among whom he lived for more than a generation.

Rev. Bryan was born in Beaver county, Pennsylvania, 1811. He was thus 76 years old last August. He graduated from Jefferson College, Pennsylvania, in 1839, studied theology in the seminary at Canonsburg, Pa., and was licensed to preach in 1843. He married Jane Phillips at Jefferson, O., in 1844; this talented woman was his children predestined to the grave by seven years. He and one Mr. Bryan, under the appointment of the New York Synod, organized Associate Churches in New York City. He declined a call to one of the strongest churches there to accept a call to the Associate, or "Seceder," congregation in Bloomington, coming to a poor congregation at one-third the salary he had been offered elsewhere. Thirty-five years ago what is now the United Presbyterian congregation was divided into three parts: The Associate Reformed, Rev. W. Turner, pastor, their church being one mile west of town; the Associate, or "Seceder," church, Rev. Bryan pastor; and the Reformed Presbyterian, Professor T. A. Wyllie, pastor. I quote from a late history of the United Presbyterian Congregation in Bloomington. In 1838 it was reorganized by Rev. Jas. Henderson, with twenty-four members of whom four were ruling elders. Rev. Bryan came as stated supply in 1855, received a call to the pastorate and was installed the same year. They first worshipped in a small log church, four miles southeast of Bloomington, but in 1859 they built a neat frame church three squares east of the old college building. In the house since remodeled in which Rev. Bryan's family are still living. Mr. Bryan was his pastor till 1861, when he resigned, that his congregation might form a union with the Associate Reformed church. In these few years, he labored earnestly, diligently and faithfully in enlarging his church. In this short time his membership increased by 100 per cent., and to his planning and watching we are considerably indebted for our harvest today.

From 1861 to 1881 Mr. Bryan was a Home Missionary in the U. P. church. Since 1881, he has been an invalid at home with his children.

About a year ago he received a check for \$1,031.71 back pay, and last week he was again the recipient of a check amounting to \$2,400.55, and will draw \$24 per month regularly hereafter. These little "incidents" have much to do with making business good in this country.

—Chas. J. Butler of Prescott, Arizona, cousin of Mrs. J. B. Buskirk, was in Bloomington on a short visit, last Friday, accompanied by his wife. Mr. Butler left Bedford 39 years ago for California, and afterwards worked in the mines with Ewing Batterton. Prof. Hawley of Vincennes University was visiting home folks last Saturday and Sunday.

The Natural History Society met at the residence of Dr. Jordan on last Wednesday evening.

The work of the boys in the foot-ball game on last Saturday was splendid. Had our boys had the practice that the Franklin team has had, the result would have been far different. As it was the game was very close and the boys have no cause to feel sore over their defeat.

A game of foot-ball with Wabash, on her own grounds is talked of, the probable date being a week from next Saturday.

U. nine was composed of those members of the regular nine who were going to Indianapolis and the rest were chosen from the foot-ball team. The positions were as follows: Catcher, C. H. Thompson; P. Springer, 1st base; Post, 2d base; Wiley, 3d base; Bonan, S. S.; Kiplinger, K. P.; Butterworth, O. F.; Shea, L. F. The boys did not have their regular spears and were in no shape to play, and therefore played a poor game. The game was called at 4 o'clock, the score being 13 to 14 in favor of I. U.

A large audience of students and citizens attended the University Literary Performance last Thursday evening. All seemed well pleased with the exercises. The piano trio of Messrs. Warthin, Owen and Golden won deserved and hearty applause. Mr. Mutes is always a fine singer, and the audience was not disappointed in his "Broken Pitcher." The singing of Misses Manley and Orbach, whether in duet or quartette is always a welcome feature in any entertainment. The political speeches were good natured, and each speech was a good representation of its cause. Messrs. Dresslar and Hubbard made quite a success in the difficult dialogue of "Believe and Disbelieve." Mr. Harrison's essay was an account of a camping expedition in which some Bloomington people were engaged last summer.

Miss Myrtle Logan's father paid her a visit last week.

The boys are now busy selling tickets for the lecture course. This season of lectures promises to be good ones. Every student should patronize the lecture association by purchasing at least one ticket.

Mr. Bert Foster has resigned his membership in the Phi Delta Theta fraternity. Pres. Parsons of the State Normal delivered the lecture Sunday afternoon on "The Value of the Shakespeare." His lecture was highly entertaining and pronounced by all as one of the best. Shakespeare evidently believed in the freedom of the individual to act, and was not a fatalist.

The classes in Physics and English Literature had examinations Monday.

Prof. Woodford was at Indianapolis last week.

The lecture course is as follows: Henry George, Col. J. P. Sanford, Alfred H. Garrison, the Union Contract Company, George B. K. Bruce, Dr. J. H. Vincent, Gen. Geo. H. Sheridan.

—On Tuesday next Miss Libbie Small and Mrs. Norman will leave for Bloomington for Southern California, where they expect to spend the winter. Miss Mattie Buskirk and Miss Hettie Armfield will also go to California soon.

—A brother of Emery Voss, from Springfield, Lawrence Co., is in town this week.

—Every trustee in the county to whom Trustee Craven has spoken has agreed to give the teachers Friday following Thanksgiving in order that they might attend the Teachers' Association. This is right as it gives the teachers an opportunity to better post themselves in their school work. The time for old fogies in the school room, like in every other profession, has long ago passed.

—The "Monon" has been in bad luck during the past week. On Thursday night the north bound night mail train was thrown from the track by a broken rail, only the engine remaining on; Friday night a freight wreck occurred at Clear Creek, and Saturday night two of the north bound freight trains attempted to pass each other on the same track. Now this has been tried before, and it can't be done. Five cars were demolished, and a baggage master and a brakeman are reported to have been seriously injured during the week.

—A small smoke in Mrs. Olive Hunter's corner building gave rise to a fire alarm last Saturday. A fire had been built in a stove for the first time, the pipe to which led into a blind flue. The smoke filled the attic. No damage except the tearing off of a lot of shingles.

A Visit to Polk Township.
Last week Supt. Craven visited the schools in Polk township, and to a Progress reporter he gave the following interesting account:

"There are in Monroe county one hundred and seventeen teachers, who require for the accommodation of themselves and their pupils ninety-four buildings. Polk tp. has eight school houses, with an equal number of teachers. The first school visited was at Allen's Creek. Hiram Jeffers is teacher, and has an enrollment of 33. The next school was Chapel Hill, Miss Mary E. Kinser teacher, who has an enrollment of 43. The next was the Blackwell or Todd school, Samuel Smallwood teacher, who has an enrollment of 31. The next was the Tan Yard school, Frank Norman, teacher, who has an enrollment of 28. The next was the Hunter's Creek school, Miss Nannie Norman teacher, who has an enrollment of 33. The next was the Robinson school, Miss Jennie Hanson teacher, who has an enrollment of 12. The next was the Saddle Creek school, Miss Pollie B. Arnbruster teacher, who has an enrollment of 16. The next is last is the Burgoon school, E. C. Gilstrap teacher, who has an enrollment of 23. This attendance is considered larger than it ever has been before at this time of the year. The people of Polk were very pitiable, and are well pleased with their teachers. They talk of putting in patent seats in all their school buildings. This is a move in the right direction—a dollar thus spent is always worth one hundred cents. The teachers of Polk held their Institute last Saturday, and had an interesting time.

—White river is fast filling up with German carp. They have been caught by the hundreds in the river this year, some of them weighing at least five pounds. If the naughty boys would let them alone, in a year or two there would be millions of them large enough to eat. The cat-fish in the river are becoming nearly extinct, and very few have been caught this year.—Muncie Times.

—A new swindling scheme has made its appearance. It is called the "spectacle racket." Two men take in the country towns, one styles himself a partner of some well known city oculist. They tell the people that they need glasses, and examine the eyes and "prescribe" a pair of spectacles for \$3. The glasses are worth less than 25 cents.

—Nearly all the northern papers have had something to say about "a comfortable summer costume for men." It has remained for some young men in America, Ga., to say what the costume should be. They recently petitioned the City Council that, on account of the heat, they might be allowed to wear "Mother Hubbards."

Mrs. Mollie Baker of this city is now in Bedford. Her husband, Thos. Baker, was terribly mutilated in the quarries, and is crippled for life. This is sad news to his many friends in Indianapolis as well as here in Stinesville.

I must say a little in regard to education. Education, my friends, is the source of happiness and the foundation of all human affairs. Grasp knowledge now, while you are young, and the days, as the future appears, will brighten up with brighter sunshine and which will surely last until the judgment day.
