IN THE LINE of Geo. Benckart's new room, the store, south side of the square, stands alone. No one has kept such a stock, in quality, since this class of goods was made a specialty. The hats, muffs, gloves, cravats, ties, handkerchiefs, cuffs, collars and fine shirts, are very superior, and the most fashionable in cut and material. Don't forget to call at McGee's or you will fail to see something nice.

—Choice Coffee, Tea, Tobacco and Cigars, at Hemp. Wilson's grocery store. Try one of the new brands of cigars at this store.

IT WILL DO YOU GOOD to go in to Charley McPheters' dry goods store, on the south side of the square, and examine some of the reasonable goods placed on sale by him. He has a way of securing goods at lower figures than a majority of the buyers, and he sells them correspondingly low. He has an extensive trade among the ladies, and makes it a point to secure the "like" articles most frequently called for by them. His linen have a reputation in this and adjoining counties, and in gloves, mittens, scarfs, handkerchiefs, and all manner of hosiery, his stock is difficult to excel. He now has, in addition to the goods formerly carried, a complete line of boots, shoes and rubbers, and will fit you out for a very reasonable sum of money. He has also lately made his store the headquarters for umbrellas. The better quality grades of dress goods kept by him, and no one can leave Charley McPheters' store unsatisfied. If you don't see what you want ask for it, and he will be almost certain to produce the article.

You will find the best goods, in the grocery line at Hemp. Wilson's. He receives fresh goods every week, so that nothing in his line is stale. Call on him in "Progress Block."

CLIPPING out the stock of Overcoats at cost at McGee's clothing store, south side of the square. You cannot form an idea of how low that is till you have seen the goods and examined the quality. The suits that are kept in stock there are uncommonly well made, and the materials superior to any usually supplied. The prices are far below those of any former season. Ed. McGee has worked a revolution in the clothing trade.

A LIVE CITY.
Bloomington is the best town in South-west Indiana; in 1880 it had a population of 2,700—it now has 4,000. The city is growing steadily and rapidly: Indiana University is located here; also a distillery and bureau factory with an out-put of 1,600 per week; a stove and leading factory; a chair factory; extensive spoke and hub factory; two planing mills; two roller mills, etc., etc. Has turpentine, electric plant, and preparations are being made for water works and for a new opera house; has large, handsomely furnished and in many cases dry goods houses; three hardware and heavily stocked clothing houses; two fine hardware stores as are seen anywhere; several enormous stocks of furniture; grocery stores (some nine or ten in number) that are excelled in no town of 10,000 population. The business men are without exception courteous, enterprising and liberal, and all newcomers are welcomed, as they should be in a growing city.

A BARGAIN.—I have one Everett Piano in store that I will sell at a big reduction, if sold in the next 30 days.

C. C. TURNER.

—All manner of tin and sheet iron work done by Baker, Neel & Co., whose establishment is on the north side of the square. If you need any article kept in a hardware store go into this house before you buy. It is the old McPheters Hardware Co. store.

BREAD, cakes, crackers, pies and everything usually kept in a confectionery or restaurant, at George Benckart's.

IT IS THE WONDER OF THE AGE, the stock of goods on the shelves, counters, and in the drawers, at the Smith Jewelry Store and Bazar, south side. This house receives car-load after car-load of goods, and yet they are sold with such rapidity that there is always a demand for more. The stock is not all of a light or fragile character either, as some might suppose, for there are gold and silver watches of the best brands, clocks of the most reliable manufacture, silverware that is known to be standard, even tinware is included in this mammoth stock. Many household articles that are very useful and ornamental are also sold here for a trifling sum.

JIMMY ROBINSON is the well known west side grocer, and has a handsome, fresh stock of goods always kept fresh. A very handsome and useful display of cutlery, knives and glassware is one of his specialties that has attracted much attention of late—in fact he has sold more of this class of goods than some of the larger or more pretentious stores because he exhibited uncommonly keen selection. He does a thriving business in choice country produce and in tea, coffee, sugar, etc., carrying a stock that is far above the ordinary. Don't forget to look at and price his chamber sets.

HEMP. WILSON gets the choicest as well as the freshest country produce, as his country customers are of the best class of people; hence the butter, cheese, apple butter, etc., he sells is always choice.

STUDEBAKER WAGONS AT ALLEN'S.

—The best tinware and sheet iron ware in town can be secured at Baker, Neel & Co.'s hardware store, second door east of the National Bank. You ought not to make a purchase till you see the best ware displayed at this house.

—For any kind of general hardware, such as nails, hinges, locks, or cutlery, or fine razors, butchers knives, pocket knives, fine shears, etc., you should call at Baker, Neel & Co.'s hardware store, two doors east of the bank.

IF YOU WANT the neatest fitting garments you ever wore, go to Benj. McGee and get him to cut and make you a suit. He is superior to all.

NICEST STOCK of winter clothing and stylish Overcoats ever seen in Bloomington, are now on exhibition in McGee's well established and reliable tailoring establishment, south side of the square. Never was such a stock of Hats seen in Bloomington as are now exhibited by McGee to sell these tailor made suits for \$9 it is hard to understand, unless he steals them, and it doesn't make any difference to the purchaser so he gets a bargain.

—The students of Indiana University are the most orderly of any we read of. While other colleges have their factional fights, and their rebellious antics to answer for, our State institution is notably quiet.

He will be accompanied by his wife and her sister. They will remain in London till spring, summer at Versailles, and then go to Hyphiss, Syria, where Lord Oliphant had large interests and where he spent a large part of his time in writing and study. This visit abroad will give Mr. Zaring a splendid opportunity for travel and study in foreign lands, and he may remain abroad for several years. His many friends in Spencer, while regretting his departure, heartily wish him a pleasant voyage and a happy return.

—The Chicago News people know a good city when they see it, as the following extract from an editorial indicates. It of course refers to our place:

"Bloomington is a big, round word which completely fills the mouth. To properly pronounce it requires a balonful of breath. When one has cast it forth he instantly feels as if he had been making a bellows of himself to blow at or about something. This is as it should be, for Bloomington is a great city."

Winstandley, Pres. of the Bank of Bedford, and Miss Crim is the accomplished daughter of Isaac Crim, a former county official but now engaged extensively in the quarry business in Lawrence county. It will be done, too, because the Democracy have the power, and they are up to just such schemes.

—The Gentrys have arrived in town on Thursday, and was taken to the D. Eckley Hunter property in the southwestern portion of town, recently rented by the Gentry brothers. —The Mendelssohn Quintette Club concert, last Friday night, was listened to by a large and well satisfied audience, if one may judge by the frequent encores. The solo on the clarinet by the white haired veteran, Thomas Ryan, was a pleasing performance, as the tones were devoid of the "pig under the fence squeal," which is so often tortured from that versatile instrument. The viola solo by Herr Ohliger was uncommonly fine viewed from the standpoint of those who know how difficult the positions and bowings are, and as a matter of fact, like most of this class of music, had more of execution and less of music than is appreciated by the mass of listeners. Herr Hekking's fantasias upon that seemingly clumsy instrument, the violinello, were something wonderful, so easily and gracefully did he handle it, and his voice-like notes will haunt those musically inclined, many days after the concert is forgotten. Miss Alice Ryan is a talented vocalist, whose efforts to please were thoroughly appreciated, though the fear that the chilled atmosphere of the room might injuriously affect the young lady's unprotected chest tones, detracted somewhat from the pleasure of those of a sympathetic nature in the audience. Taken altogether, however, the concert was the most attractive number of the course, and the gentlemanly managers deserve the thanks of the public for securing for their patrons so rich a musical treat.
