EVER KEPT IN Bloomington, and will sell you goods cheaper than any else. Come and see me before you buy. 100 SOUTH SIDE SQUARE, WEST OF CLARK'S GROCERY.

A LIVE CITY.

Bloomington is the best town in Southern Indiana; in 1890 it had a population of 17,000—it now has 4,000. The city is growing steadily and rapidly. Indiana University is located here; also a bedstead and bureau factory with an output of 1,000 per week; a stove and heating factory; a chair factory; extensive spoke and hub factory; two planing mills; two roller mills, etc., etc. Hay turpentine, electric plant, and preparations are being made for water works and for a new opera house; has large, handsomely furnished and immensely stocked dry goods houses; three handsome and heavily stocked clothing houses; two as fine hardware stores as are open anywhere; several enormous stocks of furniture; grocery stores (some nine or ten in number) that are excellent in no town of 10,000 population. The business men are without exception courteous, enterprising and liberal, and all newcomers are welcomed, as they should be in growing cities.

ROBINSON, on the west side, has a choice line of fresh produce always. Need go no farther for any article you may need in the grocery or provision line.

A BARGAIN.—I have one Everett Piano in store that I will sell at a big reduction, if sold in the next 30 days.

C. C. TURNER.

—All manner of tin and sheet iron work done by Baker, Neild & Co., whose establishment is on the south side of the square. If you need any article kept in a hardware store go into this house before you buy. It is the old McPheters Hardware Co. store.

BREAD, cakes, crackers, pies and everything usually kept in a confectionery or restaurant, at George Beckwith's.

IT IS THE WONDER OF THE AGE, the stock of goods on the shelves, counters, and in the drawers, at the Smith Jewelry Store and Bazar, south side. This house receives car-load after car-load of goods, and yet they are sold with such rapidity that there is always a demand for more. The stock is not all of a light or fragile character, either, as some might suppose, for there are gold and silver watches of the best brands, clocks of the most reliable manufacture, silverware that is known to be standard, even tinware is included in this mammoth stock. Many household articles that are very useful and ornamental are also sold here for a trifling sum.

JENNY ROBINSON is the well known west side grocer, and has a handsome, fresh stock of goods which, by reason of good patronage, is always kept fresh. A very handsome and tasteful display of queensware and glassware in one of his specialties that has attracted much attention of late—in fact he has sold more of this class of goods than any of the larger or more pretentious stores because he exhibited uncommon taste in selection. He does a thriving business in choice country produce and in tea, coffee, sugar, etc., carrying a stock that is far above the ordinary. Don't forget to look at and price his chamber stock.

HEMP, WILSON gets the choicest as well as the freshest country produce, as his country customers are of the best class of people; hence the butter, cheese, apple butter, etc., he sells is always choice.

STUDEBAKER WAGONS AT ALLEN.

—The best tire and sheet iron ware in town can be secured at Baker, Neild & Co.'s hardware store, second door east of the National Bank. You ought not to make a purchase till you see the hardware display at this place.

—For any kind of general hardware, such as nails, hinges, locks, or cutlery, or fine razors, butcher knives, pocket knives, fine shears, etc., you should call at Baker, Neild & Co.'s hardware store, two doors east of the bank.

IF YOU WANT the neatest fitting garments you ever wore, go to Ed. McGee and get him to cut and make you a suit. He is superior to all.

STUDEBAKER WAGONS AT ALLEN.

CRAIG WORLEY has a lot of first-class Buggies, Carriages, Phaetons and Spring Wagons, at his lively stable, which he will sell for cash or will trade for mules or horses. Call on Craig before you sell your stock.

—NIGHT STOCK of winter clothing and stylish Overcoats ever seen in Bloomington, are now on exhibition in McGee's well established and reliable tailoring establishment, south side of the square. Never was such a stock of Hats seen in Bloomington as are now exhibited by this firm. How it is possible for McGee to sell these tailor made suits for \$9 is hard to understand, unless he steals them, and it doesn't make any difference to the purchaser to be a thief.

Engine 15, now working in the Monon yards in this city, was built during the war, and it took some time to get her from the works of Danforth & Cook, in the East, on account of the Government pressing her into service. She then bore the name of Achilles. Engines 9, 10, 11 and 12 were called Quickstep, Traveler, Atilla and Racer. The 23 whopped up and down the rough track of that day under the name of Tennessee. The 24 was known as Black Hawk; 20, Northwind; 31, Southwind; 18, Pluto; 17, Tippecanoe. While way back of these, and long since consigned to the scrap pile, were the Sampson, Antelope, Dart, Busher, Reindeer, Tornado, Rocket, Gazelle, Vulcan, Hercules, Zebra, Comet and Rover. Whitaker) bought a house, and was offered, in less than three weeks, \$200 more than he had paid. The supposition is that the money was hidden there so well that the party who had made the deposit was unable to find it afterwards. Sam. is just ninety dollars ahead, as the money is not so badly mutilated by rats or mice that it cannot be redeemed at the U. S. Treasury.

—I don't intend to stay in the dry goods trade. All I want is to get the money for the stock I traded some Kansas property for. Now come to my store on the west side and get these goods at about half price.
