This house receives our load after car-load of goods, and yet they are sold with such rapidity that there is always a demand for more. The stock is not all of a light or fragile character either, as some might suppose, for there are gold and silver watches of the best brands, clocks of the most reliable manufacture, silverware that is known to be standard, even tinware is included in this mammoth stock. Many household articles that are very useful and ornamental are also sold here for a trifling sum.

JIMMY ROBINSON is the well known west side grocer, and has a handsome, fresh stock of goods which, by reason of good patronage is always kept fresh. A very handsome and tasteful display of quonware and glassware is one of his specialties that has attracted much attention of late—in fact he has sold more of this class of goods than some of the larger or more pretentious stores because he exhibited uncommon taste in selection. He does a thriving business in choice country produce and in tea, coffee, sugars, etc., carrying a stock that is far above the ordinary. Don't forget to look at and price his chamber sets.

HEMP. WILSON gets the choicest as well as the freshest country produce, as his country customers are of the best class of people; hence the butter, cheese, apple butter, etc., he sells is always choice.

Harrodsburg is on the upgrade. It is rapidly increasing in population. The stone quarry recently opened north of the town gives employment to forty men, and the force will be increased as the business demands; they have an extensive washing machine factory, and a roller process mill will soon be in operation there. The town has a number of energetic business men, who will compare with any in the larger towns, and if there is any opening for a big town there, they are capable of managing it.

W. J. Allen was well satisfied with his trip to Washington City. Says the procession and decorations were beyond description. There was no lack of water—rain came down in torrents.

The consideration of the applications for license to sell liquor came up on Thursday, and Marian Knight's advertisement was decided to be insufficient. John Stockwell's case then came up and consumed the entire day. The remonstrants were on hand and made a good fight, and closed the day with speeches by the attorneys: Louden & Rogers, and Duncan & Bateman for the temperance people, and John R. East for the applicant. On Friday morning the Board decided that John Stockwell should have license. Wm. Stockwell's case next, but he was permitted to have license without opposition, as the attorneys for the remonstrants said they had a better case against John than they could make against Wm. Stockwell, and there was no use in wasting a day's work on it, under the circumstances. Commissioner Peterson goes on the record as dissenting to the decision of the majority. There are now four licensed saloons.

Another factory has been established in the city—that of Mike Seward. His cigars give general satisfaction.
