To Commercial Travelers AND OTHER TRAVELERS: The following will be of interest to commercial travelers, as it shows how easily a man may lose his overcoat if he's not posted in the city of Indianapolis. Last spring (1888) when Booth and Barrett were in Indianapolis, I went to the city and stopped at the Spencer House, near the depot. The weather had been warm, and I had been out in the street, took a cab for it, and went to the theater. Returning to the hotel after dark, I had a room and breakfast, and about to check traveling baggage, I went to the hotel and paid my bill, as I intended to go to the Stock Yards, and would be gone the greater part of the day. The day being warm, I did not take my overcoat. Between 10 and 11 o'clock that night I returned to the hotel and going to the check room presented check 18 and asked for my overcoat. The boy looked at the check and said he could not find it; he asked me to go in and see if I could discover it. I did, but it was not there. I called the clerk (a Mr. John Greenman), who obtained the key, and the latter said he could not find it, and he did not find it with a strap attached, lying on the floor of the check room. This boy said he was not on duty when the overcoat was left. It was now train time and I was compelled to leave on the Vandalia. The boy afterward told me (the next week) that an Irish lad was on duty when the coat was "ready," and that he had been checking it, that he had work early and couldn't read the checks, had the time coming on the other boys to read them for him. The coat has never been found for the purpose of the proprietor (Mr. Fisher) being that he is not liable for it because his boys had paid his bill early in the day. If this is the law, it is a sad point, and it should be understood by men who take hotel checks for their wearing apparel.
