[For the Progress.]

Who is Responsible for It?

Ed. Progress—The re-appointment of two active Democratic partisans (McGinnis and Pittman) to \$2,400 positions as Pension Examiners, is being fully discussed, and freely "cussed" in this portion of the county. It was one of the most unfair and unjust proceedings ever heard of. All will remember with what unctious Congressman Matson and his henchmen, after the Cleveland administration fairly got into the saddle, that "not a single Republican was holding office in his district." This was his boast, and he was right; no Republican had a say in the office under the Cleveland administration. To what circumstances or train of circumstances is this due? People down in this section don't propose to let this matter pass without protest, and solid silence will not be accepted for an answer in VAN BUREN TP.

Buggies of all styles at Roe L Winslow's, North College Avenue, (See Block).

WALL PAPER! WALL PAPER! We have brought on the largest stock of Wall Paper ever seen in the town; it is also the finest. The proof of this is an examination.

—Car loads of groceries have been shipped by a firm in Chicago to farmers in this county, 'tis said. The goods are sold by agents and this is the delivery part of the transaction. The grocers complain that farmers who purchase these goods will peddle their vegetables through the town and bring the unsalable portions to them, and that they have been in the habit of helping the farmers out by giving better prices than they have realized for the goods; second, they are now carrying on their books and have been for (in some cases) months, men who can scrape up lots of money to patronize these strangers with; and third, they can and do sell at lower prices on the average than these men are selling at. They say special rates are given on a line of goods to induce purchasers and that on delivery 10 per cent. is added to these prices, which is never so much as mentioned on the day of purchase. They invite comparison lot for lot, and quality versus quality. In addition it is urged that they are helping to build up the town, that they pay taxes, rent, and aid in the general improvement, and that these strangers do not in any way aid the city or county. The Progress believes our grocers have the best of the argument.

His story didn't sound well, and Worley and he refused him. He secured a horse and buggy at Ross, Rogers' stable, and didn't come back Wednesday evening as he promised to do. Worley, Rogers and Ben. Smith took a two-horse buggy and started. They got the fellow's trail near John Gilman's; found that he had staid all night at El Decker's, and having no money, said he'd pay for lodging and meals when he got, but his book agent supplies at Smithville. He started to Smithville, and coming back went down to Bedford, where he tried to sell the horse, failing in this he went on to Brownstown, Md. Where, where he swapped the buggy and horse for a pony and cart, getting \$15 to boot. Going on to Greencastle, Indiana, he excited suspicion; he was arrested, two revolvers were found on him and he was slated for carrying concealed weapons. Soon after this the authorities heard of his theft of the horse and buggy. The officers at Seymour would not surrender the man till his sentence was served out, so Rogers swore out a warrant and securing his horse and buggy, he and Smith returned. The thief resided in Boone county, near the Bartholomew co. line, and his name is David Harrison. He is evidently a bad citizen.

—The Sunday papers contained the announcement of J. G. McPheters' appointment as Postmaster for Bloomington, and while it was not unexpected, it created considerable talk on the streets. His position was held generally by the business men and leading Republicans, and his appointment will give great satisfaction because of his unquestioned qualification for the position. It is doubtful if he can get his papers there in time to take charge of the office by August 1st, as his official appointment must be received, a bond returned to Washington and signed by the President (new at West Baden) and the P. M. General, and it must then be returned to McPheters as authority to take charge of the office. No change can be made except at the beginning of a month, or the close of a quarter.

—Acting under the provisions of a recent law the secretary of the state board of health has ordered samples of the vinegar sold in various cities, and has just completed a careful analysis. Of eight samples thoroughly tested but one proves to be pure cider vinegar, and the other seven are nothing more than a decoction of rain water and sulphuric acid. The largest vinegar manufacturer in Indiana, who claims to sell pure apple vinegar, furnished the worst stuff that was found among the samples. The secretary says that it will destroy this stomach even of an ostrich if used liberally. The law as enacted by the last legislature prohibits the manufacture and sale of any vinegar not the product of pure apple juice. It must not have any artificial coloring; must have an acidity equivalent to the presence of not less than 4 per cent. by weight of absolute acetic acid.
