Markson of this place was visiting the family of Perry Squire, and young Squire desired to examine young Markson's revolver; in handing it from one to the other the harmless weapon was discharged and made it, it is believed, a fatal wound on Squire. —Railroad men, said an Indianapolis manager recently, are no longer the saloon frequenters they were in former days, as many of the roads discharge any man who is known to have been drunk. Time was when it was common for engineers to be so much under the influence of liquor when their trains were ready to go out that they had to be helped on the engine, and they were spoken of as "fine workmen but would drink" when the fact is that no set can long be a decent workman. Now if some plan could be hit upon to prevent freight brakemen from making the air blue with oaths whenever they have to put on or leave off a car at a station (the very work they are hired to do) the millennium would seem to be near.

Mr. Stull is in the saw mill business at Clear Creek and is a first-class business man. His many friends sincerely regret his misfortune.

—Peter Martin, who took his little son to Terre Haute to have the "mad stone" applied, has returned, after being pretty well satisfied that the dog that bit the boy was not rabid. Mrs. Taylor, who owns the "mad stone," has a bonanza in it, as she charges \$25 if the stone adheres and \$5 if it does not. When it adheres she claims that the poison of hydrophobia is in the patient's veins, and the stone draws it out. The stone, which is about an inch broad by a half inch thick, is porous, and the skin above the bit is scratched as in vaccination, and the stone applied. After it is filled with the poison it is soaked in warm milk till the poison is out, and then applied again—two applications being regarded as sufficient. The stone has earned \$1,000 this season alone, so it has been applied over forty times.

—Some excitement was created last Thursday at noon by the escape of two prisoners from the county jail. Backman is the young desperado who so severely out-garred Reeves, and Harrison is the fellow who stole Bona Rogers' horse and buggy. As soon as the sheriff could get down he gaided his horse and followed the men, overtaking the horse thief at the intersection of the east pike, captured him and throwing him on his horse brought him back to jail. Backman, who is well acquainted with the topography of the country, got away, and although a number of men gave immediate chase he was not recaptured.
