always buys such as are the most
desirable for his customers. See

—It was an interesting and in-
structive sight, last Saturday night,
when crowds were pouring in and
out of Charles McPheeters' gro-
cery store and wagon load after
wagon load of goods was hauled
from the door to happy customers.

Names of the salesmen went to din-
ner or supper, and they worked on
the run all night, and till 10 o'clock
at night.

—Riley Smith, the tall popular
paper, who guides at the poor-
house, was chosen by the Demo-

be recognized by the President of

—Washington, Democrat: "A
law should be passed by the next legis-
lature creating an inspector of public build-
ings. Churches that are improperly
constructed, halls that have little support for
the floor, and that are provided with but
one exit, should be regulated and that
quickly. Should a cracking joint alarm
an audience in such a place, the horrid
crowd would crush, maim and kill
each other in their haste to get out. The
law now requires doors to swing out—there
should be more places at which to hang
doors."

—Mrs. Hanna Miller, mother
of Eli K. Miller of this city, died
at the family residence on North
College Avenue, last Thursday
morning. Mrs. Miller was born
in Chester Co., S. C. in 1802, and
so was in her 83rd year. She
came with her husband, James
Miller, to Bloomington in 1833,
and resided here till her death.

—"West Place" is the name
given by S. E. Carmichael to the
ground he purchased of Hartman
Bros. and laid out into lots, and
like all the property on the west
side is on a big bluff. There are
three houses now being built upon
it, and trades made for several
more. First thing you know the
Fair Ground will be surrounded
by dwelling houses.

—Mrs. Darrand has sold her busi-
ness house, corner of Walnut st.
and Kirkwood Avenue, to Mrs.
Emma B. Ryers and her mother
Mrs. Martha Brown. Price paid
\$8,750. Of this \$6,500 will be

—While in the northwestern
portion of the city last Wednesday
the Progress stopped at the bed-
stead and bureau factory of Show-
ers Bros. for a brief visit. This
immense establishment has been
described so often that it is useless
to go into many details, yet the
new improvements are so numerous
and so marked as to demand at
least a passing mention. The firm
has recently introduced a new pat-
ent dust carrier that takes the
blocks, saw dust and shavings from
each machine and carries them into
an immense pipe through which
they are conveyed to the furnace,
and fed into it in a never-ending
stream, making the labor of the en-
gineer comparatively light. The
buildings are piled full of bedsteads,
bureaus and washstands in various
stages of completion, and the ma-
chine rooms are crowded with hur-
rying busy men who work on the
pay roll. There are 137 men on the
pay roll. The engine, a Corlies, is
as handsome as a picture, and works
without noise or jar, while every-
thing about the buildings (of which
there are four or five) gives evidence
of the watchfulness of the careful
competent men who are at its head.

—Jan. D. and Wm. N. Showers.
While in the factory that day there
was a furniture dealer in the ware-

bought five car-loads of manufac-

One of the new machines recently
introduced takes the place of the
men who used to carve by hand—
this machine, by pressure, makes
any kind of an ornament on a panel
of wood, and the harder the wood
the sharper and clearer the impres-
sion, and it is done on a five
foot board while you could count
five. It will give the reader an
idea of the business done by this
firm when we state that during the

Bros. shipped from this station 727
car-loads of their manufactured
goods.

—Tobe East is the man who
ought to receive the Democratic
nomination for county clerk—he
is competent, affable and honest.
He was born and reared in Monroe
county; he was always a consistent

If the Democracy desire to show
their appreciation of a good man

—Special Easter services will
be held Sunday at the M. E.
church. The subject for the morn-

Both were powerful and effective
and had an electrical effect upon
