Republican Progress

UNIVERSITY ITEM.

Printed each Wednesday Morning, by WILLIAM A. HARRIS, Miner and Publisher.

IN ADVANCE, \$250 a Year.

—A new counterfeiter \$10 in circulation. It is on the German National Bank of New Orleans, series of 1882; brown back, check letter C, signed W. S. Rosecrans, Register of the Treasury. It is pale and poor, but good enough to deceive all but experts.

—Commissioner Baum says that applications for pensions are pouring into his office at the rate of 450 a day. During the past month he issued 16,373 pension certificates, 2,183 of them being original cases. This was the largest number ever issued since the war.

—An interesting item in the census return this year will be the number of horses, cows, swine, poultry and other live stock kept in the cities and villages and not on farms. This point has been omitted in former census returns and an immense amount of live stock property has thus been left out.

—Ind. Journal: Although the wheat crop of the State is in rather poor condition, still it is not quite so bad off as has been supposed. The southern counties have a shade the best of it, their acreage being about 94 per cent., and the condition of the crop 72 per cent. In the northern counties the average is about 50 per cent., and the condition 72 per cent., while the crops in the central counties are in the poorest shape of the entire State, the average being 26 per cent., and the condition only 65 per cent. The average for the entire State is 52 per cent., acreage, and a fraction over 70 per cent. condition.

—A Chicago man who has just returned from Southern California says to the Inter-Ocean: Los Angeles is a great place; the boosters have been there. They have laid out a city bigger than Chicago, New York, London and Pekin combined. For miles and miles out among the farms you find broad streets lined with eucalyptus and pepper trees and bordered with wide cement sidewalks. Every bit of ground as far as you can see is divided up into twenty-five foot lots. One man told me that he bought a lot for \$25,000 and then did not sleep for three days and nights wondering why he did it. The fourth day a man came along and gave him \$36,000 for it. That man, or his creditors, have, the lawyer, Why, they have started a million-dollar hotel; and the following offer holds good now to any one with capital: To him or them who will agree to finish the building will be given free gratis the land on which the hotel stands, the founders, the actual construction up to the first story, the plan, by, the architect, of Boston, the estimates—everything. In addition thirteen acres of land right across the street from the hotel. It would take \$500,000 to finish it. I don't know of any one anxious to take it up. These are to be found in Salt Lake City and Denver. Property and rents are higher in Denver than in Chicago.

—The Green Brook—Says a green corn dealer: "A few years ago all green corn was so blighted with aspergillus fumigatus that it was white that it nearly destroyed its pliability, and it sometimes broke to pieces much more rapidly than it should have done. Now the greenish-yellow has gone to the other extreme. They dry their green corn so green that housekeepers are afraid to break off one of the stalks to test a corn with, for fear they may be poisoned with Paris green."

"Why do they do so?" he was asked.

"Well, said he, "I don't know exactly, but I suppose they want change. They, again, the housekeepers may have found out that the white corn doesn't taste so well, and caused a demand for green corn."

"But are they really dry with Paris green?"

"I don't know as to that. It doesn't look like it to me, but I'd rather be on the safe side and not eat any of it."—New York Tribune.

How Money Cannot Be Used.

A Rigid Election Law That Applies to Boddlers in Whatever Way.

Then May Do.

The last legislature enacted a law, approved March 9, 1890, concerning elections and nominating conventions, to maintain political purity, and prescribing the punishment of any violation thereof. It covers nearly every offense possible, in connection with primaries, conventions and elections and to each attaches its punishment. The punishment prescribed in the first section is that the person convicted of the acts it makes unlawful shall be fined in any sum not more than five hundred dollars and disfranchised and rendered incapable of holding any office or trust within the state for any determinate period, and if none, then he shall be incapable of holding any office or trust within the state for three years.

This section also provides that if any person convicted of any of the acts it makes unlawful shall be fined in any sum not more than five hundred dollars and disfranchised and rendered incapable of holding any office or trust within the state for any determinate period, and if none, then he shall be incapable of holding any office or trust within the state for three years.

The annual contest in oratory between representatives of Indiana colleges to select a representative in the Inter-State contest was held Friday night. The orators, their colleges and their subjects were as follows: "The Plutocrat in Politics," by W. C. Stover, of Wabash; "The Race Problem," W. C. Wise, of DePauw; "The Philosophy of Reform," by A. Bradshaw of Franklin; "Union, not Unity," by T. C. Morris, of Hanover; and "Shall the Right of Suffrage be Restricted," by Robert Collins of Butler. Judges on composition, on thought and on oratory were selected; each grading the candidate on these points. The first place was given to W. C. Wise of DePauw University; and he will represent Indiana in the inter-state contest. Prior to the contest the State Oratorical Association held a business meeting and elected officers: President, A. E. Wiggin; Vice President, F. C. Brewer, Wabash; Recording Secretary, H. P. Davidson, Butler; Corresponding Secretary, C. L. Thomas, State University; Treasurer, E. L. Hendricks, Franklin; Inter-State delegate, W. G. Bassett, DePauw.

—The Bowen-Merrill fire at Indianapolis developed a scarcity of business rooms, and several firms sold their stocks and endowments to have the rent contract continue with the new tenant. Some of the landlords objected and litigation will follow. No tenancy has right to sell his property, and he is bound to make good his endowment.

The practice of whipping and beating horses and oxen to make them pull more than they are able to haul is a species of cruelty that ought to subject the party who indulges in it to the same sort of punishment. The practice of thrashing the patient ox to stop the nose when he is desired to stop, is certainly not the characteristic of a good teamster, any more than the yanking, twitting and whipping a horse is the indication of a good driver.

The Pennsylvania Railroad Company has issued orders forbidding the agents of the Union News Company to sell on its trains anything except newspapers, periodicals and books. This does away with the orange and banana basket.

It is intended to revive some of those dramas that appeal to men's thoughts and feelings in a forcible and entertaining manner. A pleasant evening is expected.

PROGRESSIVE EUCHRE.—A Judge at Marshall, Mo., recently called the attention of the grand jury to the fact that playing progressive euchre for prizes was a violation of the gambling law and deserved attention. The Kansas City Journal explains the situation by remarking: "The people of Marshall are gregarious. They are thankful for anything which brings them together in a social way, from a wedding to a funeral, and when progressive euchre was introduced two years ago by some of the young women of Marshall who had been sojourning in Kansas City it caught on at once. And it has never let go. As the months rolled by it has secured a firm grip. All the brio-a-brac in Marshall has changed hands so often that some of it has progressed back home again, and the old ladies have exchanged heirlooms until genealogies are badly mixed." Probably the Judge has been disturbed through the possession of the "hooly prize."

Then there is another section applying to those who induce electors to remain away from the polls, either directly or indirectly, by giving, offering or promising to give them money or other inducements, for that offense is a fine from \$25 to \$50, and disqualification to which may be added imprisonment for not less than six months. All these offenses are made grounds of challenge and the law provides with a section requiring that the trial be held before a petit jury.

Counseling or suggesting to any person to vote or refrain from voting for any candidate, or to remain away from the polls at any election, whether or not any such person shall act or attempt to act upon any such counsel, advice or suggestion.

Giving or offering to give, directly or indirectly, any money, property or other inducement to any elector to influence his vote at any regular election held in this state pursuant to law.

Counseling or suggesting to any person or persons generally, to use or procure any means, including the use of force, to induce, hire or pay any person or persons to vote or refrain from voting for any candidate, or to remain away from the polls at any election, whether or not any such person shall act or attempt to act upon any such counsel, advice or suggestion.

Soliciting, furnishing or receiving any money for the purpose detailed above.
