The suit against a politician in Morgan county by a person who claimed to have been privy to the payment of \$10 and a bottle of whisky came to naught, the jury refusing to believe the prosecuting witness.

The Monroe folks have purchased several acres of ground at Cedar Lake and will at once put up a large fine depot, boat pier, and arrange a beautiful picnic ground. Through the influence of Judge Higginbotham a postoffice has been established at Paisley, the station on the west side of the lake. Heretofore there has been a hitch between the railroad company and some of the land owners, and there was no certainty about trains stopping at the station, "but every obstacle has now been removed" and Cedar Lake will become a greater resort than ever.

The following sentence contains all the letters of the alphabet: "John P. Brady gave me a black walnut box of quite small size." The following sentence is much shorter, and it likewise contains all the letters of the alphabet: "Pack my box with five dozen liquor jugs."

Says Ed Perkins in a letter from Europe: In London they are just beginning to use heroines a little. They call it perfume, but it has the same old Oil City smell. One snif convinced me that I had struck oil. The smell was pleasant to me than the perfume of flowers. It was a real good old home smell. It was the first time that I ever thoroughly enjoyed the smell of coal oil. The dealer told me that he sold it at sixteen and twenty-four cents per gallon. They have no splendid lamps to burn it in yet, but that will come in time. They are now burning it in small lamps without chimneys in many instances. There is a field for some enterprising Americans to come over here and introduce some good lamps. Candles are sold here at from eight to ten cents per pound—very cheap indeed, if you want a flame without light, but dear enough if you have to stand eight in a row to write a letter by. They tell me the French are burning our heroines very generally, and that they have beautiful lamps.

WHO GETS THE MONEY.—A steer weighing 1,000 is worth \$20 to \$30 in Chicago before he is killed. After he is killed his killer sells him—beef, hide, horns, tallow, etc.—for \$62. The farmer gets half as much for the steer as he did eight or ten years ago. The butcher charges to the customer now as much as he did eight or ten years ago, and claims that he makes no more money. There is somebody standing between the man who raises beef to sell and the man who buys meat to eat that is making an inordinate profit—Standard.

In the corner stone of a Protestant Episcopal church, whose erection was begun last week in Brooklyn, there was placed a photographic cylinder, inscribed in tin, upon which a member had spoken in the name of the congregation, a message to those who shall at some time uncover the stone.

The F. M. B. A. desired the merchants of Warren to enter into a contract to let their members have goods at certain specified rates. The merchants refused to do this. The F. M. B. A. should remember the experience of the grangers with contract stores. If the merchant agrees to let the farmers' society have goods at rates below those which he gives other customers, he does an injustice to the other customers which they will not endure. They would quickly leave a merchant who should thus discriminate against them. Moreover, farmers would never have any certainty that the merchant was only making a given per cent. off them. There is such a thing known among merchants and others as double invoicing. Some wholesale men who sell to the retailer furnish such really double sheets when desired.

The New Election Precincts.

As all the precincts and voting places in the county have been blundered, the following prepared by Co. Auditor Blair, is secured that our readers may know just what has been done:

In accordance with the Acts of 1889 the Commissioners were required at their June term to divide all townships that cast more than 250 votes for the electors in 1888, into precincts of 200 votes each as near as practical. Under this act the Commissioners of Monroe county made the following precincts in Bean Blossom, Washington, Bloomington, Richland, Van Buren, Perry and Clear Creek townships, these being the only townships in the county it was necessary to divide.

BEAN BLOSSOM TOWNSHIP was divided into a west precinct to be known as No. 1, with a polling place at Stinesville; also an east precinct to be known as No. 2, with a polling place at Mount Taylor.

WASHINGTON TOWNSHIP was divided into an east precinct known as No. 1, and a west precinct known as No. 2. The polling place in No. 1 will be at the Valley School House, with the Trustee, Robertson, as Inspector; and the polling place in No. 2 will have to be located between now and the election. The Inspector for precinct No. 2 is Wm. H. Matting.

BLOOMINGTON TOWNSHIP was divided into precincts 1, 2, 3, 4 and 5. Precinct 1 will contain all the southeast part of the city, north of the Perry tp. line; Precinct 2, all the southwest part of the city north of the township line; Precinct 3, all that northeast of the city of Bloomington; Precinct 4, all the northwest part of the city of Bloomington, and precinct 5, all that part of the city lying south of the court house and between College Avenue and Walnut Street, together with all of the township outside of the city limits. The voting places in precincts 1, 2 and 3 will be at the Court House, and in 4 and 5 at some point close to the public square, and in 5 at Seward's tin shop.

The Inspector for 1 will be Joseph Kirby; for 2, H. J. Brannock; for 3, Trustee Matting; for 4, Geo. D. Thornton; for 5, Jeff Ward.

RICHLAND TOWNSHIP was divided into an east precinct known as No. 1, and a west precinct known as No. 2. The east precinct will vote at the Grand Army Hall in Elizabethtown, with Trustee F. F. Corder as Inspector, and the west precinct at the public school building, with W. C. Draper as Inspector.

VAN BUREN TOWNSHIP was divided into a north precinct known as No. 1, and a south precinct known as No. 2. The north precinct will vote at the Kirby school house, with Wm. M. Kirby as Inspector; the south precinct at Harmony, with Jason H. Thrasher as Inspector.

PERRY TOWNSHIP was divided into a west precinct and an east precinct. The west precinct will be known as No. 1, and the east precinct as No. 2, with Wm. Corder as Inspector. The place of voting in Perry tp. will be about the old college building, and as Ezra Porring Jr. is a relative to some of the persons on the Republican ticket, the people of the said township will have to elect an Inspector for the west precinct.

CLEAR CREEK TOWNSHIP was divided into an east and a west precinct. The west precinct will be at Harrodsburg, with Wm. P. Kiser, Trustee, as Inspector, and the east precinct will be at Smithville with J. T. Mitchell as Inspector.

The above information is simply printed to give the people throughout the county a knowledge of the changes made in such of the townships. The law requires that the Auditor shall make a complete transcript of the actions of the commissioners with reference to the election, and have the same published in at least two newspapers in the county, so that all the people will fully understand in what precinct they reside. Auditor Blair has notified us that the manuscript will be ready in due season and that everything will be submitted in good style to the people of the county as required by law.

The following is the Chinese remedy for croup: "Collect from old walls several nests of large sized spiders, two of which, at least, should contain live spiders. Make them into a paste with thirty grains of alum previously dissolved. Then, after it is well mixed, reduce the paste to ashes and apply it hot to the throat." This, it is said, will effect an instantaneous cure of the disease, however severe the attack.

—Here is a chance for the women of Bloomington: "The beautiful women of the world" are requested, in a circular, to send their photographs to the Baroness Clara von der Decken at Tiffin. These will be examined by a committee of artists, and those selected will be put in an album, with the title "Types of Female Beauty of the Last Years of the Nineteenth Century." Then the album will be sent to the Moscow Museum.

WASHINGTON TP.—Eld. Harvey Hazel preached at Hindostan, Sunday June 8th, and baptized three persons and three more joined the church to be baptized next meeting.—Rev. Mr. Allen is away on business.—Mrs. P. M. Carroll fell out of a small cherry tree, striking the ground with her head and shoulders, and is said to be seriously injured.—Death claimed three of the most worthy and excellent men in this township last week: H. V. Foy died Monday, June 9th, aged nearly 25 years; Rev. Thomas Gaskins died Wednesday, June 11th, aged about 50 years; Malachi Collier died June 11th, aged about 70 years. There are six old ladies near Hindostan over 70 years of age: Louisa Robison, 84; Maria Campbell, 88; Mary Brown, 84; Cynthia Brown, 73; Mary Godsey, 75; Mrs. Wandt, 78. Martha Payne, Lucinda Payne and Mrs. Griffith are old ladies. M. S. B.

KILLED HIM IN THIRTY MINUTES.—BEDFORD, June 14.—[Special.]—Will C. Dunlap, of the firm of Dunlap Bros., railroad contractors, (who graded the S. & B. switch at Stinesville) took a swallow of carbolic acid at 10 o'clock this afternoon, thinking it was peppermint, and died in half an hour. His home is in Valparaiso, Ind. He was quite a society gentleman and a great favorite here. They were grading a switch to the Peerless quarry, six miles north of this place, where he died. His remains were brought here to-night and taken to his home for burial.

—Mrs. Doug. Field has been quite sick during the past week.

—The Auditor of the County has published a good report, setting forth the financial condition of the county, and the public will doubtless soon see a similar publication made by the city clerk.

—Mrs. Coffin left Bloomington on Tuesday of last week for Pittsburg, Pa., to spend a few weeks with her daughter, Mrs. Flora Grubbe; and after making a short visit to her son Charles at Indianapolis will go to Minneapolis, Minn., to spend the summer with her daughter, Mrs. Wallingford.

—Chas. Robertson and Bro. have again become proprietors of the grocery store on the northeastern corner of the square, and they begin business on the "strictly cash" plan. They say this is not merely talk, but that they mean it, and no man, woman or child can get credit in their store. They'd rather do less business and do it for cash. They will increase the stock, and make it a very desirable place for cash customers to trade. Remember the old stand, and everything "cheap for cash."

—The people in the northwest part of the county are anxious to have a bridge constructed across Bean Blossom, the Delap Ford, so that they can cross the stream when high waters come. Let the good work go on, and let the commissioners respond to the wishes of good citizens who pay all their taxes promptly.

—S. S. Woodward, Train Master, has sent his resignation to headquarters. It is stated that the new management require too much work of the limited train dispatcher's force, and that it is both dangerous and annoying to take so much responsibility. Some thirty or forty section men were on a strike last week owing to a reduction of wages.
