

THE GREAT SOUTH AMERICAN NERVE TONIC

AND

Stomach & Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar.

It is Safe and Harmless as the Purest Milk.

This wonderful Nerve Tonic has only recently been introduced into this country by the Great South American Medicine Company, and yet its great value as a curative agent has long been known by the native inhabitants of South America, who rely wholly upon its great medicinal powers to cure every form of disease by which they are overtaken.

This new and valuable South American medicine possesses powers and qualities hitherto unknown to the medical profession. This medicine has completely solved the problem of the cure of Indigestion, Dyspepsia, Liver Complaint, and diseases of the general Nervous System. It also cures all forms of failing health from whatever cause. It performs this by the Great Nerve Tonic qualities which it possesses and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nerve Tonic as a builder and strengthener of the life forces of the human body and as a great renewer of a broken down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any ten consumption remedies ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nerve Tonic almost constantly for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nerve Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest man, and is a true medical wonder. Nine-tenths of all the ailments to which the human family is heir, are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied, and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power to the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This recent production of the South American Continent has been found, by analysis, to contain the essential elements out of which nerve tissue is formed. This accounts for its magic power to cure all forms of nervous disorders.

CRAWFORDSBURG, Ind., Aug. 20, '90.

To the Great South American Medicine Co.: Dear Friends—I desire to say to you that I have suffered for many years with a very serious disease of the stomach and nerves. I tried every remedy and every bottle did not cure me. I never appreciated your Great South American Medicine until I was advised to try your Great South American Nerve Tonic. I have used several bottles of it and I must say that I am surprised at its wonderful power to cure the most serious and dangerous diseases. I have never had the nerve tonic cure me so quickly and I feel like a young man again. I don't think there has ever been a medicine introduced into this country which is to be compared with this Nerve Tonic as a cure for the stomach.

A SWORD CURE FOR ST. VITUS DANCE OR CHOREA.

CRAWFORDSBURG, Ind., June 22, 1890.

My daughter, twelve years old, has been afflicted for several months with chorea or St. Vitus' Dance. She has been to many physicians and I could not find a cure, could not afford anything but a bottle. I had to handle her up, I commanded giving her the South American Nerve Tonic; the effects were very surprising. She has not had the chorea since we did the nerve tonic, and rapidly improved. I have cured her completely. I think the South American Nerve Tonic is the only ever discovered, and would recommend it to every one who has the chorea. I don't think there has ever been a medicine introduced into this country which is to be compared with this Nerve Tonic as a cure for the stomach.

Ex-Governor Edward F. Noyes, of Ohio, Falls Dead.

Ex-Gov. E. F. Noyes dropped dead in the Court House at Cincinnati. Apoplexy was the cause.

Ex-Governor Edwin Folger Noyes was a native of New England and came to Cincinnati after graduating at college. In the Queen City he read law and soon became a member of the bar. He studied history and legal learning. He served as Colonel of an Ohio regiment in the war and lost a log in battle with the Pintokey Indians. At the close of the rebellion he was elected Probate Judge and was re-elected, serving in all six years.

Gov. of Ohio, defeating Col. George W. Noyes, the Democratic candidate.

In 1873 he was defeated for re-election by less than 1,000 votes by Willian Allen, who had been in the United States Senate from 1847 to 1849.

In 1877 President Hayes appointed Mr. Noyes as Minister to France, which he held until the administration of President Arthur, when he gave way to the now Vice President Morton. Ex-Governor Noyes was a lovable man, a gallant Union soldier, and an orator with great equal in the land.

A BOAT HAD A BANDIT.

JOHN DILLON, a boatman, went down into a well which he had dug out to clean the property of his master, Mr. John Dillon, a boatman, about seven miles from Albany, N. Y. By short notice, and in the middle of the night, he was suddenly attacked by a bandit who had stopped him at the dock. The bandit, who had been following him, shot him in the back, and then cut him down. As he got out the train came down at a terrific speed and then for the first time the bandit saw him. He got out of the boat and ran to the side of the track, where he was shot again. The bandit then got into the boat and started to go down and rescue the two men. He edged his way down, but had only gone a little way when he gave a cry, threw up his hands and fell to the bottom. After some difficulty and no little danger ropes and hooks were secured and the dead bodies of the two men were pulled to the surface, all three having been suffocated to death by foul gases. The well is twenty feet deep.
