Better leave your pencil at home on election day (unless it is fastened in the flap of your ear) because a pencil mark will invalidate your ballot. Stamps are provided for the purpose of marking tickets, and they must be used.

If you are hunting for a farmer's ticket the Republican nominees ought to suit you. Anderson, Smith, Dinamore, Peterson, Farr, are all farmers. And if you want to vote for soldiers there are Duncan, Peterson, Dinamore, Farr, Fuller, what's the matter with the Republican ticket? Nothing.

Wm. Peterson, be it remembered, is the Republican candidate for County Commissioner. He is a No. 1 man and should be elected.

For seven long, dreary months Tom Farr was shut up in Libby Prison. It was a dreary fate for a young man, after the privations of a common soldier's life, but then as now he was uncomplicated and unobtrusive, and he suffered in silence. His opponents for the office of Sheriff were more fortunate and now they can look back to the jolly times they had during the war with pleasure. Tom deserves to be re-elected on general principles, and he will be.

It will be interesting, after the election is over, to figure up the cost to the people of its intricate workings. As a law it is a daisy.

Tom Farr will continue to do business at the old stand, south of the Masonic Hall, next year, if his friends remember him as kindly as they should.

The Democrats of Indian Creek township, it is stated, are somewhat undecided how to vote for County Clerk this fall. This condition of affairs is favorable for Mr. John Craven, late of Hendricks county, for now all he has to do is to go down there and tell the voters he is the person who should be voted for. Mr. Craven went down to Indian Creek tp. two years ago to tell the old gray headed farmers who they ought to vote for for the office of Trustee, and they didn't do it. They thought Craven was too new a man in the county to give them advice.

A County Treasurer is expected to do his duty, but he is not required to be crucified to jerk the bed from a poor man's house to make a few dollars in fees. Ed. Anderson will not oppress the poor man—he has been a poor man himself, and feels sympathy for and with them. When you vote for Ed, you vote for a good Treasurer, and a kind hearted, humane man.

Charley Carr has a good position in the New York store at Indianapolis.

Edgar Fuller is practically a people's candidate for Clerk. He was always a hard worker. He has made a living by the hardest work on a farm, and in a saw-mill. He does not feel himself above the toilers, the teamsters and laborers; they all know Enoch, and he has always known them. He was as clever and familiar with them before he thought of being a candidate as he is now. Nothing stuck up about Enoch Fuller.

Indianapolis Journal: The coming of Commissioner of Pensions Baum into this State to speak suggested to the over-ambitious and presumptuous Cooper of the Fifth congressional district, that he could obtain some notoriety from the event. Cooper is not much more than a fledgling in politics, but he rushes in where men of greater experience and wisdom dare not tread. Therefore, through the Chairman of the State central committee, he sought an opportunity to get some distinction in the shadow of General Baum. Cooper will have to look elsewhere for greatness.

Don't forget that Judge Dunbar is the Republican candidate. He is a competent officer, has given general and entire satisfaction as Judge of the circuit court, and should receive a large majority in this county. Lawrence county will see that he comes up all right, as the Republicans down there are awake to the necessity of electing a satisfactory man for this very important position. He has done well in the Lawrence circuit court, as he did here, and deserves well at the hands of the people of this judicial district.

Jas. W. Jackson, Republican candidate for Recorder, arrived in Bloomington on Friday, and rode up to his home, sitting erect in Pauley's hack. He had left here four weeks previous for Indianapolis on a cot, but after his leg was amputated he recovered rapidly. The wound made by the surgeon's knife has healed rapidly and kindly, and with the exception of a spot at each side is entirely well—a testimony to the skill of latter-day surgeons. Jackson is in fine spirits, is encouraged by the attention of his friends and acquaintances, and feels confident of his election, as does every one else.

FROM CLEAR CREEK TP.

Harrodsburg, Ind. Oct. 17, '90. Editor Progress: Having had some business transactions with the Board of County Commissioners, I want to say in behalf of Wm. Peterson that a more safe, careful and judicious man cannot be found in Monroe county for Commissioner. He is the right man in the right place, and the Republicans of this county ought to see that he is elected by a hand-on majority. Joseph Dinamore is another man that can be relied on in every respect, and should receive the vote of every Republican in the county. Peterson has been tried and found true, and Dinamore will stand the test. Stand by them boys. Put us down for the straight ticket.

Mrs. Harrison Wright of Spencer was visiting relations in Bloomington the first of the week.

Dr. Jas. Ward of Brown, Mo. was in town Saturday, shaking hands with his many friends.

The community was shocked last Saturday, when it was learned that John Cole had died a few minutes after one o'clock in the morning. Cole had been complaining for several weeks, but did not take his bed till Tuesday, and was not thought to be seriously sick till Friday evening, when he became worse so rapidly that he was marked by death before his friends could fully realize it. Mr. Cole had been married but seven weeks, and judging by his splendid physique and ruddy appearance of health, was destined for long life. He owned a farm of 600 acres west of town, had recently built a lively stable 68 by 132 feet on College Avenue, had it well stocked, and was a prosperous, energetic young business man. The funeral which occurred on Sunday afternoon, was the largest one ever seen here—some sixty vehicles being in line. The burial took place on the farm, five miles west of town and was conducted by the Rev. Mrs. Ross was the officiating minister.

As an illustration that the people though sometimes slow to recognize merit will eventually do so, it is only necessary to call attention to the business built up by the young firm of Wetzel & Flood, whose place of business is opposite the Seward Foundry. These gentlemen opened their store in a modest, quiet way, with an entire fresh stock, and many persons prophesied ultimate failure. And it was somewhat discouraging, as other firms had failed to "make it go" in the same place; but these men had no intention of failing, but went cheerfully to work to build up a trade. They bought only the best goods, and sold them at a living profit—they were satisfied with that. Their manner of doing business gradually attracted a desirable class of customers; the best butter makers in the county began to drop in; the choicest produce was offered to them, and this people learned that if they wanted to buy the best with their money they should come to Wetzel & Flood's grocery store. And so it is that to-day no firm enjoys a more desirable trade or a better reputation. These men have worked hard and untiringly to build up their business, and so long as they do not deviate from their present plan all will be well with them; it will pay to call and see them, and decide for yourself whether the Progress is not the most honest in the state.
