WINTER and the Holiday season are at hand, and in anticipation of this, Charles Mobley, of the "Golden Rule" dry goods house, south side of the square (off door east of Eph. Hughes' barber shop), has secured a very handsome, entirely new and desirable stock of every article usually kept in a store of this character. He has always made a specialty of Ribbons, Hosiery, Dress Trimmings, Fine Fans, Gloves, Corsets, and all the various and varied articles that constitute the stock of a "Ladies' Bazar," and he is better supplied than ever. Boots, Shoes and Rubbers in general variety. Remember the location and call.

Joe Smith Crazy? Not a bit of it, though many people wonder why he is buying such enormous quantities of goods. It is the people who are crazy to get them. He gets a car load of glassware, a car load of toys, a car load of clocks, and buys them so low that he can sell them correspondingly cheap. There is a method in Joe Smith's madness, and he makes it interesting both for himself and his numerous customers. All the standard movements in fine watches are sold by Smith; all the best makes in clocks are to be seen in his store. Sterling silverware can be had there by the wagon load; in fact you have so many styles to select from, and so much to examine that you can be suited if you wish to be. His Christmas and New Year goods are coming in daily now.

PAY UP.—I have a large amount of fine new goods from persons who have had recording done. I need the money and MUST have it. If you don't want a fee bill issued come up and settle at once. DILLON TAILBUTT.

University Scholarships.

The committee on legal affairs, appointed by the Board of Trustees of Indiana University, have rendered a very important decision bearing on scholarships, a number of which are in existence. The point to their decision is as follows: 1st. Students being gratuitously educated by the original purchaser, and then only by presenting a certificate from such original purchaser as required in the 7th paragraph of said scholarship. 2d. Such original purchaser himself, or his children or grandchildren. 3d. In case the original purchaser died leaving a will, then such person who can trace their right to the scholarship through the will of said purchaser, and in order to trace through the will, the will must in effect bequeath the scholarship to the person so claiming. 4th. In case the original purchaser died without a will then the lineal descendants (that is children, grandchildren, &c.) of said original purchaser. Under no circumstances can any purchaser be entitled to admission to the University upon a scholarship unless he or she belongs to one of the four classes above enumerated.

Your committee is informed that a large number of students are now attending the University upon such scholarships who are not entitled, and your committee therefore recommends that after the present term said scholarships be recognized and honored only when presented by persons entitled to their benefits as hereinabove set forth; and that the Secretary of the Board so inform the Treasurer of the University and all students now in the University, and also that the Secretary report to the Board at its next regular meeting the names of all the scholarship students, upon what scholarship they are entitled, and by what persons.
