Republican Progress

1,500 PUBLICATIONS.

WE ARE BORN AND PUBLISHED.

FOR PRESIDENT IN 1892.

THE MAN NOMINATED

BY THE REPUBLICAN CONVENTION.

—United States Marshal Dunlap

was in town last Thursday and Friday. His business here was to hear the condition of the crops. He thinks potatoes will be plentiful this fall.

—The St. Louis Globe-Democrat pays a well deserved compliment very nicely when it says: "The genuine statesman is the man who knows how to say the right thing at the right time, and to stop when he has done so. An instance of such wisdom, is the speech of President Harrison."

—The business men of the country are as usual with their various enterprises knowing that a free exchange law will not interfere with a good deal in the present condition of things.

—Wheat exports are nearly three times as great as they were last year at this time. In all probability the aggregate merchandise exports of the current fiscal year will largely exceed those of any year in the past.

—During the three months from April 1 to July 1 the people bought 222,000,000 pounds more sugar than during the corresponding period of last year, and yet the average price was no greater, than to-day.

—These big crops and high prices are ruining our chances for 1892. It looked at one time as though that able Democratic insect, the church bug, would help us out, but he went back on us, and now the cold霜 left us in an early frost. It must be d-d early, though, or it won't do as much good.—Leading Democrat.

—The Epsilon League is an organization of young people in the Methodist church and has a large membership in Kansas. Epsilon was the home of John Wesley and that fact is their consciousness. But the founder of Methodism, who was adverse to "gold and earthly apparel," would rest uneasy in his grave if he could hear the ravages of silk and see the flood of jewelry in the early morning prayer service at the Salina camp meeting.—Kansas Journal.

Reserves of over \$200,000 on hand.

CRAWFORDVILLE, Sept. 1.—Daniel H. Gilkey, of this city, has made an estimate of the last assessment for the State. By taking an average of all the counties it is ascertained that the increase per acre is \$6.20. In the State there is an average of 21,837,760 acres, from which deduct 137,760 acres occupied by cities and towns, leaving 21,600,000 acres, at an increased assessment of \$6.20 per acre would amount to \$137,265,000. This would indicate that the assessment on farms alone would be \$137,265,000 larger than it was last year.

—Fool Republians: The following named persons attended the State convention of the Epworth League at Bloomington from this county, last week: Will H. Talbott and Miss Martha Ered, Minnie Allen, Daisy Allen, Tillie King and Jessie Conder, of Ortonville, and Rev. and Mrs. W. S. Rader, Mrs. Anna Stoen, Misses Minnie Stoen, Flora Miller, Clara Steele, Lillie White, Minnie Stoen, Mabel Stoen, Celia Riley, Attie Pugnary, Nellie Rhodes and Mabel Burkhardt and A. W. Brainer, of Frank.

—Saturday last Ernest Wolf of Columbus, Ind., purchased of a man whom he supposed to be a swindler, eight head of fat cattle. They had been stolen from a Brown county farmer by the name of Carter, who this morning identified and took them. This is the third drove of cattle stolen in Brown county in thirty days and sold at Columbus.

—The next meeting of the Horticultural Society will occur on Aug. 26th, at G. P. Campbell's residence at 10 o'clock a.m., sharp.

Science in Bread Making.

At the recent annual meeting of the American Chemical Society, held in Washington D. C., the question of the value of carbonate of ammonia as a leavening agent in bread, or as used in baking powder, came up for discussion, in which Prof. Barker of the University of Pennsylvania, and President of the Society; Dr. Richardson, late of the United States Department of Agriculture in Washington; Dr. Wm. McMurry, late Prof. of Chemistry in the University of Illinois; Dr. E. H. Bartley, late Chemist of the Brooklyn, N. Y., Board of Health, and Prof. of Chemistry of the Long Island College, and others took part.

The consensus of opinion was overwhelming in favor of the employment of ammonia. It was stated as a fact that ammonia rendered the gluten of the flour more soluble than the original gluten, and that the bread in which this action was produced by carbonate of ammonia must be more digestible. —Henry C. Goldsmith, of carbonate of ammonia, and its complete expansion from the bread in the process of baking, is in one of the most useful, most healthful and most valuable leavening agents known.

The conclusions are borne out by the very elaborate and exhaustive experiments made by Prof. J. W. Maller, of the University of Virginia, which show conclusively that bread made with a baking powder in which one per cent. of carbonate of ammonia is used, in connection with cream of tartar and soda, is not only of uniformly better color and texture, but a product more wholesome, because the ammonia tends to neutralize any organic or acidic acids present in the flour.

—Next legislature will be asked for an appropriation of \$200,000 (or ought to be) for the purpose of erecting a main building for Indiana University. The street that leads from the public square to the University (Kirkwood Avenue) is now the most important thoroughfare in Bloomington, and it will in time be regarded as the most desirable location for residences, and for business locations. Just a square and a half from the postoffice on Kirkwood Avenue is located a neat store and a half house, (next to the new Christian church) which will for a short time be offered for sale. Persons looking for something desirable in this line should call on Nat. U. Hill, Prest. First National Bank for further particulars.

—Ingersoll gets after the matter about correctly, where he says: "If all the money in the United States were divided, and each man received before there would be existing the same state of things that exists now. Some would be riding in palace cars, some in buggies, some would be on foot, and some would be sitting on the corners waiting for the procession to go by; some men would be in congress and some in the penitentiary, and above all would be heard the irreproachable reformer, who obtains his livelihood by the working of his jaw rather than by the sweat of the brow.

—On the 27th of this month there were 1,106 loaded cars handled on the Louisville, New Albany & Chicago, being the largest number ever handled in any twenty-four hour in the history of the road. In speaking of the business that the road is doing General Superintendent Collins, who came of the Chicago, Milwaukee & St. Paul road, said the Monon, according to its mileage, handles more cars per mile than does the C. M. & St. P.

—Vevay Reville: Dr. P. C. Holland has purchased property in Bloomington, Ind. where he has removed for the purpose of educating his children. The household goods have been shipped, and he and his wife and son Kenneth went to Bloomington to locate the house in order. In the meantime Mrs. Holland and children are visiting relatives near Benzie, but will go to Bloomington in a few days. Dr. Holland is well and favorably known throughout the country, having resided here all his life, except when temporarily absent, in Indiana, Indiana, entering and a skillful physician, he is very valuable and useful citizen, and is regarded by our citizens generally as a good man.

—An admirable program and price list for this fair has been arranged, and committees are hard at work to secure its entire success. It is a safe assertion to make that the largest crowd of people ever seen at a Monroe County Fair will be there on September 16th.

—A mile in thirty-nine and four-fifths seconds, or at the rate of over ninety miles per hour, is the fastest run ever made by a railroad train. This unparalleled feat was accomplished yesterday on the Bound Brook railroad, between Neshaminy Falls and Langhorne, by engine 208, drawing two ordinary coaches and President McLeod's private car Reding, which is equal to two coaches in weight. The fastest five miles in three minutes and twenty-six and four-fifths seconds.

—The United States is now the wealthiest nation in the world, and it has been made so mainly by the laws passed and the policies enforced during the period of the Republican party's ascendancy.

—A connecting rod of an engine on the Clover Leaf broke near Wingate Tuesday night. It crushed through the cab killing the engineer.

—A connecting rod of an engine on the Clover Leaf broke near Wingate Tuesday night. It crushed through the cab killing the engineer.

—New suits filed since last report: City of Bloomington vs. Jas. Robinson; appeal from Maynard court; Dr. O. F. Gray vs. John Cona; appeal from Justice's court; John M. Stephenson Adm. vs. Thos. Fairley et al; petition to sell real estate, C. M. Henderson & Co. vs. John E. Steele et al; demand, Charles T. Robertson vs. Walter Robertson, et al; foreclosure; Hiram King vs. Wm. R. Duncan; demand.

—The Ohio & Mississippi Railway will run two excursions from points on its line to points in the South and Southeast at one fare for round trip, leaving Sept. 16th and 29th, 1891. Tickets will be good for return thirty days after date of sale. For rates and further information call on or address local agents G. & M. Ry. or C. G. Jones, Dist. Pass'g Agent, Vincennes, Ind.

—E. O. McCormick, general passenger agent of the Cincinnati, Hamilton & Dayton, and James Barker, general passenger and ticket agent of the Monroe line, permit their ticket agents to receive commissions, and the interchange for ready to use their influence for roads that will pay commissions.

—Sam. Gilmore is sick with bilious fever, and his little daughter is sick with scarlet fever.

—Two houses are going up on 14th street, in Dolan's addition to Maple Heights.

—Geo. Stipp bought thirty-two head of steers a year ago, paying \$37 each. He did not feed them an ear of corn, and this weight sold them for \$75 a head. What was it that said there was no profit in farming.

—On Saturday last Miss Ella and Emma Wilson left Bloomington for Paxton, Illino., on a visit. Miss Ella also left for Tarkin, Illino., in the college of which town she holds a position as Professor of Latin.

—Mrs. Alice Volpert has gone to Nashville on a visit to her sister, Mrs. Amy.

—Henry Axtell has gone to South Hero, Vermont, on a visit. There is only one "circumstance" that will induce a young man to travel from the wilds of Indiana to a distant point "on a visit."

—Prof. and Mrs. A. L. Foley, of Bloomington, are visiting the latter's friends, Mr. and Mrs. D. C. Hayworth, at Greenastle.

—Rev. Frank Eller has removed to Bloomington, and will occupy the residence on west 6th street known as the Pucci house.

—The "circumstance" Axstell's bond: T. H. Sudbury, J. M. Hinckle, N. R. Rogers, I. A. W. Walker, Chris. Walker, John Sherlock, Henry L. McCall, Samuel K. Rorher, John M. Stephenson, Jas. B. Clark.

—Transfers of Real Estate, Purchased by Jas. W. Jackson, Dealer. For Deeds and Mortgages, correctly executed, call at Recorder's Office.

Elizabeth Hunter to Fullers & Son, lot 22, Fullers & Waldron, lot 8125; Anna Webb to Lucinda Hardy, lot 22, Orchard add., 800.

Jonathan Treuler to Jas. Woods, lots 3 and 4, Smithville, 55.

Ors. Woods to Nancy Woods, lot 4, Smithville, 25.

Bloomington Imp. to Francis May, lots 16, 18, Maple Heights, 133.

Esther Jackson to C. Dolan, lot 31 and 32, South Park, 1,000.

J. C. Dolan to Estor L. Jackson, lot 77, South Park, 1,000.

B. W. Miers to Joseph Wampler, pt. 2 sqw. sec. 14, Bean Blossom, 725.

Joseph Wampler to H. G. Osgood, pt. 1 sqw. sec. 14, Bean Blossom, 775.

Thos. J. Rader to H. G. Osgood, pt. 1 sqw. sqw. sec. 14, Bean Blossom, 100.

C. W. Wampler to H. G. Osgood, 500.

—Don't send out any botched work in the way of bill heads, statements, envelopes or letter heads. It is always best for your reputation, and for the credit of the town that these things be done by a professional.

—Persons looking for something desirable in this line should call on Nat. U. Hill, Prest. First National Bank for further particulars.

—At Springfield, Mass., on Sept. 21, W. F. Murphy of the New York Athletic Club made a mile on a solid tire safety bicycle in 2:15, beating all records heretofore made.

—The Overland Monthly for September opens with a fine article on "Trout Fishing in California." There are a score of illustrations, pictures of the speckled beauties and of charming brookside spots where they are oftenest caught. "The Hoosier Indians visit Sitka" is the title of a good bit of descriptive work, with the impress of great fidelity to detail. And the same commendation may be given to "A Day in the Redwoods of Lassen Creek," equally good as description, and with more of the literary quality in the style.

—Sales News: "George Kondall, the young man who was given a verdict of \$5,000 against the Monon road at the last term of court here for the loss of a leg, and his father and three brothers are in jail at Georgetown, Kentucky, on a charge of murdering two men and mortally wounding a third in that town on last Thursday."

—Ellettsville Citizen: There has been considerable changing of residence property in Ellettsville. Tip Ritter has bought the property of J. A. May, paying \$1,200 to which he has added \$1,000, and will move in a short time. On the same day Mr. May bought the residence of Dr. R. C. Harris, paying \$1,400, to which he will soon move. Dr. Harris the next day bought the house and lot of F. M. Stephenson adjoining his store. The doctor will put up a handsome residence right away. Uncle Jack McNeely bought the residence of Wm. Simpson.

—A connecting rod of an engine on the Clover Leaf broke near Wingate Tuesday night. It crushed through the cab killing the engineer.

At Bee Hive Grocery, North Side of the Square.

Administrator's Sale of Personal Property.

The undersigned, Administrator of the estate of Robert Rose, deceased, late of Ellettsville, township, Monroe County, Indiana, will sell at Public Sale, on

THURSDAY, Sept. 24th, 1891, at the personal property belonging to said estate, not taken by the widow, Mrs. Rose. The Engineer has made final estimate of the cost of improving said street from Second street to Eighth street, in said city, and made assessments against property holders for said improvement, said assessment being now \$1,000.

On all sums of \$3 and over a month, or less, given by the person or persons named, or otherwise, to the City Engineer, has made final estimate of the cost of improving said street from Second street to Eighth street, in said city, and made assessments against property holders for said improvement, said assessment being now \$1,000.

On all sums of \$3 and over a month, or less, given by the person or persons named, or otherwise, to the City Engineer, has made final estimate of the cost of improving said street from Second street to Eighth street, in said city, and made assessments against property holders for said improvement, said assessment being now \$1,000.

On all sums of \$3 and over a month, or less, given by the person or persons named, or otherwise, to the City Engineer, has made final estimate of the cost of improving said street from Second street to Eighth street, in said city, and made assessments against property holders for said improvement, said assessment being now \$1,000.

On all sums of \$3 and over a month, or less, given by the person or persons named, or otherwise, to the City Engineer, has made final estimate of the cost of improving said street from Second street to Eighth street, in said city, and made assessments against property holders for said improvement, said assessment being now \$1,000.
