A rancher from a backwoods district engaged a room at a hotel in Seattle, Washington. The house is lighted by electricity, and the bell boy turned on the light in the newcomer's room. The farmer didn't know how to extinguish the light, and, after exhausting his ideas, uncoiled the length of wire by which the light hung and stuck the lamp in the bureau drawer, smothering it under his clothing. The next day the lamp was found stowed away there and still burning.

—An attaché of the Internal Revenue Department drops this warning hint: "The enactments of the last Congress in regard to the sale of cigars appear to be very imperfectly understood by tobaccoists and others engaged in their sale and those who are interested in the matter ought to study some new features of the law on this subject. For example, a dealer who takes out a handful of cigars and lays them before a customer to choose from, or a saloon keeper who brings a cigar on a plate or in a tumbler, as most of them do, makes himself liable to a fine of \$100 and other disagreeable consequences besides. The Government law says 'Cigars must be sold to the customer direct from the properly stamped box.'"

—Rev. Mr. Lucock of Walnut St. Presbyterian church was installed Pastor, last Tuesday night, in the presence of a large audience. Rev. Mr. Marshall of Franklin, Ind., acted as moderator, and Rev. R. V. Hunter of Indianapolis delivered the inaugural sermon. Dr. Rondthaler of Indianapolis gave the charge to the pastor, while Rev. Cory of Greencastle delivered the charge to the people.

The present church edifice was dedicated 20 years ago—in October, 1869. About that time the first and second churches united under the name of Walnut street Presbyterian church, with Rev. A. Y. Moore as pastor.

The history of the Presbyterian church of Bloomington dates as far back as 1819, when it was organized by the Rev. Isaac Reed, with nine members, as follows: Henry Kirkham, Mary Kirkham, Dr. David H. Maxwell, Mary D. Maxwell, John Keckham, Elizabeth Keckham, Elizabeth Anderson, Elizabeth Lucas, and Patsy Baugh. Their house of worship then was a log cabin, which stood on the site of our present county jail. At the organization, three children of Dr. David and Mary Maxwell were baptized—Martha, Jacob D., and Samuel F.

The first regular minister of the church was Rev. C. Proctor, who preached at Indianapolis three Sundays in the month, and at Bloomington on the remaining Sunday.

Since the organization, there have gone forth from the membership of the church thirteen ministers of the gospel, viz: Geo. Porter, Josiah Porter, John Dale, Levi Hughes, W. A. F. Martin (who became President of the Royal College at Fakin, China), Orlando B. Clark, R. M. Overstreet, John D. Perry, Robert C. McKinney, Henry W. Ballentine, Wm. G. Ballentine, Chas. M. Campbell, and Benson E. Hawley.

The present membership of the church is about 200.

—Orleans Examiner: The editor made a trip to Bloomington Monday and went through the mammoth furniture establishment of Showers Bros. Considering the fact that this firm only manufactures chairs, bedsteads and drawers, it is one of the greatest enterprises in this part of the State. They are running on full time and working 180 men. Just think of the amount of goods it turns out, and the fact that they do not keep a great deal of manufactured goods on hand, and ready market for it as soon as made. We have everything here that is necessary for such an enterprise as a little machinery and the nerve to make an attempt. And we are far ahead of Bloomington in one particular score, and that is water. Not many years ago these men started on a very small scale and their rafting enterprises have been crowned to such an extent that today they are among, if not the most wealthy people in Monroe county. We were treated courteously by the proprietors and employees, and our impression is they are gentlemen of the truest type, and influence those around them to be the same. Bloomington is a good solid town and appears to be a great trade center.

—James Hunter has sold his furniture and undertaking business to Bona Rogers and Reu. C. Smith.

—Any one who will take a walk down to the new yards of the Monon company will be satisfied that that corporation is getting ready to "stay." Seven long side tracks diverge from the main line, and the rails, ties and ballasting are of the best character. Heavy steel rail is used, the ties are new, the trucks are first ballasted with broken stones and then covered with coal cinders. The turntable pit is an admirable piece of work: the masonry heavy and laid in cement, while the bottom is also laid in stone and heavily coated with cement. Foundation trenches have been dug for the round house, which is to have twelve stalls, and the stone is on the ground for the foundation. The heavy timbers are being framed for the stalls, and work is being pushed with commendable vigor. As a rule it is not best to speculate on what a railroad company will do till they begin work, as changes are constantly going on in the management, and each new set of managers entertains different views on the question of improvements. But it is hard to understand how the company can go back now, since they have put so much money and labor into the new railroad yards. It will pay any one to go down and look at the tracks and turntable, though there should be nothing close to see.

—At 1 o'clock Sunday morning the Hep rest house, south of town, was found to be on fire, and before anything could be done to stay the progress of the flames the building was burned out, nothing remaining but the brick walls. The property belonged to Hedrick Wylie, and he had recently built an addition to it, and was preparing the building for a railroad building house, as it is located near the new yards of the Monon company. Painters and paper hangers had been at work in the building on Saturday, and they say that the house was recently locked before it was left Saturday evening. The fire was burning in one of the middle rooms, and no theory except that pointing to incendiarism is entertained. Mr. Wylie held a policy of insurance for \$1,500 on the building, in one of Rogers & Woolley's companies.
