Road Receipts will not be received except on first half, or April installment of Taxes.

County Orders will not be paid to any one owing Delinquent Taxes. All parties are warned against buying them.

The owner of Property on the first of April in any year shall be liable for the Taxes of that year. The purchaser of property on the first day of April is considered, under the statute, as the owner on that day. (Sec. 103.)

DUTY OF TAXPAYERS:

It is the duty of each Tax Payer to state what he is taxed on, and where situated, and if in more than one township, to state the different townships, and gravel roads upon which he pays. I would urge upon Tax Payers the importance of paying early and avoiding the rush of the last few days, and especially those who have their taxes complicated, such as undivided estates, are requested to call when we are at leisure, as it requires time to make the divisions and write separate receipts. Examine your tax receipts before leaving the office, and see that there is no mistake in your change. Persons owing Delinquent Taxes will save cost and trouble by settling immediately. The late law is of such a character that there is no option left the Treasurer but to enforce the collection of delinquent taxes, however much he may regret to do so.

The Annual Sale of Delinquent Lands and Lots will take place on the Second Monday in February, 1892.

TOLBERT H. SUDBURY, Treasurer Monroe Co.

—Not all men who engage in business make a success of it. Of men who engage in mercantile business ninety-five out of every hundred fail. In manufacturing the road to success is a rocky one, and there are more wrecks than successes. On the farm a greater percent succeed than anywhere else, but even here it is no path of roses. The road is a long one, and the grade has an upward tendency. The man who grumbles most of the time about not succeeding, generally fails because he does not put forth the proper effort. His fruit trees are untrimmed, he has no garden fruits, his stock is not properly sheltered, his farming implements are scattered over the farm exposed to sun and the rain.

—An advertisement for the Indianapolis Journal will be found in to-day's paper. It is unnecessary to say that the daily Journal has no superior in the State as a newspaper and a staunch Republican newspaper. The great political struggle that is approaching should induce many new subscribers to send for the Journal.

—Prof. R. L. Garner will shortly make an extended trip to Africa for the purpose of adding to his gorilla vocabulary. Prof. Garner is the scientist of the National Museum, who for some time past has been devoting himself to the study of the simian tribes and their forms of speech. Years ago he became possessed of the idea that monkeys talk among themselves and hold councils very much resembling the higher animal, man. Until the invention of the phonograph, Professor Garner made but little progress, as he found difficulty in acquiring the accent.

After the invention of the phonograph Prof. Garner found little difficulty in proving that there are a number of elemental sounds and syllables used by monkeys that have a definite and fixed meaning. By running the phonograph opposite the chattering mouth of a gorilla and then grinding out the gibberish to another similar, Prof. Garner secured results that proved conclusively, to him, that monkeys can converse among themselves. Garner's latest scheme is to go to Africa, build himself a cage in the forest, and establish a modus vivendi with his arboreal friends. He will ensconce himself in the cage, surrounded by phonographs, and provided with a gross of cylinders, and will get enough monkey talk to keep him busy at his simian dictionary for years to come.

—Frank Brodix was down from Chicago over Sunday.

—On Jan. 3, Mrs. Willard entered upon her 88th year in good health and spirits. Many friends remembered the occasion with gifts of flowers, pictures, etc. Mrs. Willard is true to her name of "Saint Courageous" and her motto, "It is better further on."

A LUCID DESCRIPTION.—Wife.—It was a nice party you say, John. I'm sorry I couldn't go, but I'm really glad that you enjoyed yourself. How was Mrs. Gadabout dressed.

Husband.—Well, she had on one of those dresses made of what-you-call-it stuff, of a kind of a mixed shade and trimmed with what-his-name. I don't remember now whether it was out low or not, or whether it had sleeves, but I know it was one or the other. Her hair was done up in the style like you see in pictures—you know what she mean. I don't know whether she had any ornaments or not, but I guess she had. That's about all, I think, that I noticed about her, but you can tell from that how she looked.

CORN! CORN! At W. J. Allen's.

—Immigration now is at the highest figures of recent years. This is not a matter, however, on which we can congratulate ourselves, for a large proportion of the immigrants are of an undesirable class.

—I order the best oysters that money will buy and will accept no other kind. That is the reason everybody is pleased with them. They are fresh large and sweet flavored.

CHAS. H. MCPHEETERS.

—Ask for Charley Robertson when you come to town for groceries. He is in a new room north of the Progress office. Got a nice stock at groceries.

—To-night (Tuesday) that excellent local organization, the Mechanics' Band will give a concert for the purpose of raising money to pay for their new instruments. The young men who compose this organization always respond cheerfully and promptly to all reasonable requests from people who desire their music, and now that they need a little financial aid, it is not right to treat their modest request with indifference.

—As stated by the Progress a month ago, Len. Whetzell, the handsome traveling man for Brigham's shoes will open his shoe store at Washington, Ind., in February.

—Wm. M. Andrews, a former student, and when here an active Prohibition Party worker, was recently married in Varners, Mo. He is now residing in Vicksburg, Miss.

—The largest line of Pant goods ever seen in Bloomington, at Henry Axtells.

—Rev. VanCleave has begun his work in this city as Pastor of the Christian Church. The Christian people are well pleased with him.

—"Dad" Henderson, the veteran engineer and hero of the late Monon wreck, is able to be out and was down at the Monon station Dec. 11. In speaking of the late wreck he said in answer to questions as to what he thought in the moment of his peril. "I didn't have time to think. I have heard people say that in moments of great danger, their whole life and trivial incidents long since forgotten, pass in rapid but in perfect view and sequence before their minds. It was not that way with me, nor has it been in times past. I fully realized my danger and on half a dozen other occasions in my career I have been in peril just as great, and was always fully alive to it, but never yet have I had the pleasure of seeing my past spread out before me like an open book as the saying is. In the first place a record of my life would fill a pretty big book, but even if it was an uneventful one, should not have had time to have reviewed it in the season of my danger. I merely know that I grasped the lever, threw my lame foot forward, and felt my engine rise in air at the moment of the crash. I remember nothing more, but presume I was thrown through the cab window. I didn't have time to get off but I reckon I did get off mighty easy. No, sir; if time had been given me for reviewing my past life, I should have spent it jumping off the engine at the curve."—Crawfordsville Journal.

—For a year or two Charles H. Stone of this place has been engaged in establishing subscription book agencies, and has met with flattering success. He sells an outfit to an agent, and by the terms of the contract agrees to pay the agent \$75 per month provided he can dispose of a certain number of books—in other words he demands a sufficient consideration for the salary. All this is plainly set forth in the printed contracts. Some Louisville man who couldn't make the business go as lively as he anticipated got out of humor and tried to make it appear that the whole transaction was a swindle. But he seems to have failed, as Mr. Stone returned to his home on Friday.

—One of those "unloaded gun" accidents occurred on the 4th inst., near Stanford. David Minks, an unmarried man of 21 years, had purchased a new shot gun, and left it at his home. Several days afterwards a brother took the gun and used it, and returned the gun with a load still in it. On the fatal day David was telling his cousin about his handsome new shot gun, and taking it from the regular place of keeping, gave it to her to examine. In the examination she raised the hammer, and was afraid to let it down again. So she said her cousin to lower it. He told her the gun was new, had not been loaded, and that there was no danger. She made the effort, the hammer fell, and a deafening report followed. Her cousin's head was literally torn away.

—Bert McGee, the cutter, has accepted the position of cutter for Henry Axtell, and would be pleased to see his old customers.

—Now is the time to trim fruit trees, while the sap is down, and the brush is easily handled.

—Remember the Band concert this (Tuesday) evening. The Band boys have placed the price at the modest sum of 25c, so that anybody can afford to go. It is for a worthy cause.

Divorces? Surprises? Anything that's new the Progress wants. Send a postal. Please give the facts. It don't make any difference where you live—in town or country—in a palace or a cabin, don't be prompted by a false modesty, but speak out. It hurts no one to be spoken of in a complimentary way in a local newspaper.
