—Some papers find fault because of the large sums spent in burying congressmen who have the good taste to relieve their country and go to another and let us hope, a better one. Such complaints show very superficial observation. If the country could bury the whole lot at any reasonable figure and allow an entirely different body of legislators to come forward, the transaction would be advantageous. They would be cheap at almost any price and the new lot could not be worse.—Ventura (Calif.) Unit.

—It is wonderful how long it takes a Boston man to "drop to" a piece of news. The Transcript has just discovered that Adam and Eve were never married. It is to be hoped that this report will not reach the select and truly great Ward McAllister. Judge Jordan of Martinsville heard the Ensign Newton case last week—a case that has been on the records since the year one. The summer fights were inaugurated by an old-fashioned knock-down on the corner of 5th street and College Avenue on Wednesday. Two fellows came together and one of them got badly worsted. —The officers' car of the Monon was run over the new switch to the Hunter quarry, last Thursday morning. Gen. Manager McDowell and Supt. Collins being of the party who were in the car. An inspection is being made of the various quarries of the county by the officials for the purpose they state of ascertaining their needs in the way of transportation facilities. Several citizens accompanied the party on their trip to the Hunter quarry, and all concede that it is the most wonderful opening in the quarry line ever seen here. Already more stone has been sold than is channeled, the quality of the stone being such as to make it eagerly sought after. Matthews Bros. and the Roads (well known quarry owners) have each placed large orders with the Mort-C-C Hunter Quarry Co. Quarry owners never purchase inferior stone to ship, as they have a reputation and credit to maintain.

—The mercless manner in which some of the leading Democrats have been rawnishing the two county commissioners would not have the desired effect upon Republicans. Whenever Republicans get to "kicking over the traces" they cannot be whipped back in time for the next campaign—it has been tried and always fails. But Democrats, it is claimed, will invariably come up smiling when the voting hour approaches, and will put in a straight ballot every time. That is, they kiss the hand that smites them.
