

# A Big Establishment.

WHILE OUR BUSINESS IN BLOOMINGTON HAS BEEN VERY SATISFACTORY, we desire of course to increase it, and a few words concerning our plant, and our facilities for doing good work, may enable us to attain the desired increase.

IN THE LAUNDRY DEPARTMENT,  
Our work is marked by superior gloss and finish, the goods are washed clean, and we take more pains to keep the linen and underwear in repair than is attempted by any other laundry in the entire country. We do this free of charge, and it has made us many friends and patrons. There are many reasons why our work should be first class; we use none but the latest and most improved machinery, and our operatives have the advantage of years of experience. If you will give us a trial we think you will be pleased with the result.

IN THE DYEING DEPARTMENT  
We have one of the most expert and artistic dyers in the profession, the advantage of all the latest methods in the coloring of garments, and the work we turn out cannot be beaten. In the dry cleansing of Ladies and Gentlemen's Garments, a dyeing of ladies' clothing to sample, the cleaning and dyeing of Kid Gloves and Slippers, Feathers, etc., we have given much better satisfaction than can be attained by patronizing any of the celebrated dye houses of the east. Our plant is large and complete in all details, and you are throwing away your opportunities if you want anything in this line and fail to give us a trial. In addition we have in our tailoring department a competent corps of assistants, who do all kinds of repair work, such as re-lining, re-binding, etc., in the most satisfactory manner, at moderate cost, and on the shortest notice.

AXTELL BROS., the popular clothing and gents' furnisiers, are our agents in Bloomington, and work for either laundry or dyeing department left with them will receive prompt and careful attention.

THERE is a great difference between butter and grease. Some people never learn to make butter. When a good butter maker is found the product is always in demand. Charley McPheeters has the "knack" of finding these people, and as a consequence always has the best butter in the town.

His store has grown with his patronage, till he now carries everything that is called for in a grocery stock. Never before has there been so handsome and attractive a display of china, ware and fine queensware. The fine china is especially attractive to the ladies of the city. Robinson carries a full supply of corn, bran, and feed of all kinds. Go and see him—he will treat you well.

DON'T FORGET Winslow, when you want any implements for the farm.

CALL and see those barber chairs for sale at Kreuger's shop. A bargain for you.

## Parlor Lamps at Lindley's Sons for cost.

—Miss Lottie Helton left on Monday for Topeka, Kas., to visit the family of Geo. Seward.

—Friendship school house, Salt Creek tp., burned on the night of Jan. 16th. There was no insurance.

—A man named Tatem, residing about a mile west of Harrodsburg, had a terrible experience recently. He was out in the woods alone, and a half-mile from home, and by some mischance fell and broke one of his legs. He dragged himself over the frozen ground and snow that distance before he was seen.

—Thomas N. Mathers and family will leave for Colorado some time next month. Owing to exposure while engaged in his business, that of a stock buyer, his health is very much impaired.

—The county clerk has carefully tabulated the marriage returns as made to his office, and finds that in the past year 328 people were married, and that 69 ministers and magistrates officiated. The greatest number married by one person having authority to do so was eight married by "Squire T. J. Loudon; the others ranged from seven down to one.

—While the 7-year old son of Mrs. Perry Butcher of west 7th street was coasting on a sled last Wednesday, he attempted to avoid a wagon that was coming up the road and steered his sled against a tree, striking with such force as to break his left leg between the hip and knee.

—It is quite probable that Dr. Coulter will accept the Presidency of Lake Forest University, near Chicago. The salary paid there is much greater than that paid at U. I., and then the advantages connected with residing in a suburb of Chicago are beyond question. It is merely a matter of business, and if the position and salary are as represented, it would be remarkable if he should decline so tempting an offer.

—The Ohio Valley cut stone contractors' association held its annual meeting at Indianapolis last week. The meeting was called to order by President B. A. McGee and was welcomed by Mayor Sullivan. The first paper read was by Maj. H. F. Perry of Bloomington, Ind., his subject being "Stone, Its Uses and Advantages." The paper was followed by a lively discussion, in which many things of interest to stone men were developed. The annual election of officers was also held. Dr. McGee was chosen one of the executive committee. The whole closed with a banquet at the Columbus club and a carriage ride about the city. The association is in a flourishing condition and has a membership of about 100, with prospects of a large increase during the coming year.

—Paoli Republican: "Presiding Elder Zaring, of Bloomington, held quarterly meeting services at Ames Saturday and Sunday. Sunday evening he preached a magnificent sermon at this place from the text, 'Ye are the salt of the earth.'"

—Speaking of the saddle and harness factory for Bloomington, the Paoli Republican says:

"The new firm will consist of B. F. Lingle and his sons, J. E. and Charles Lingle. The enterprise will be managed by B. M. Lingle who will divide his time between the Bloomington business and the business at this place. Their stores at Paoli and Salem will continue to run, full blast, as of old. We are pleased to note the prosperity which enables these gentlemen to so extend their business operations."

—The postoffice war is waxing hot even among the hundred dollar offices. There are four aspirants at Stanford for the position, viz: Marion Burch, Thos. Sparks, Thos. Burch and Marion Whaley.

—Mrs. Wilson, Brazil, who thought her husband dead, applied for a widow's pension. She received word from the department that her husband was still living and was drawing a pension. This is a good way to find whether a delinquent husband is on the ground, or under it—if he's been in the army.

—The road-master of the "Monroe," Mr. Cornwall, has removed his office from the Howe block to the depot. It will look real city-like down there when all the improvements and ornamentalizations are completed.

—Samuel Strong preferred to live in Monroe county, and so has removed from Morgan, and will lease a farm here for the season, as his place has been leased to other parties.

—Smithville is growing rapidly. Houses are springing up in all directions—good ones, too. This has all been brought about by quarry development.

—Bargains in Parlor Lamps at Lindley's Sons.

—We have sold our stock of Groceries, and all parties whose accounts are due must call and settle, as we do not wish to give any one trouble.

## Words of Cheer.

From the many letters received since the burning of the Progress office the following are selected, to show the sentiment that animates newspaper patrons of the latter class. The writers are well known former residents of this city or county:

W. A. Gabe—Dear Sir: Enclosed find draft for \$3. for subscription till February 4th. Sorry to read in today's papers of your loss by fire on yesterday morning, but hope you will continue your Progress just the same.

Your friend,  
S. D. NOEL.  
Los Angeles, Calif., Jan. 17, '93.  
Friend Gabe: We are just in receipt of the Progress informing us of your misfortune, of which we indeed were sorry to hear. I enclose draft to pay subscription (\$1.50) till February, 1894. Hoping that you may soon recover from your loss, and with best wishes for the future.

I remain yours truly,  
VAN BUREN, ARK., Dec. 29, 1892.  
Mr. W. A. Gabe—Dear Sir: Have just read in the St. Louis papers of the loss you have sustained, by the total destruction of your office, but trust that it will not interfere any great while with your issuing of the paper. You will please find draft for subscription till April 13th, '93. Yours truly,  
C. DODD.

Fairmont, Nebraska, Jan. 9, 1893.  
Enclosed I enclose \$1.50 pay for Progress till January 1, 1894. Of course you intend to print it notwithstanding the fire. Reading the Progress has become so settled a habit with us that we are not inclined to quit. Our sympathy and our money both go out to you. Truly yours,  
J. R. AMERMAN.

John Fodderill, of east 7th street, is dangerously sick with lung fever.

—Nellie Fodder was taken to the Woman's Reformatory at Indianapolis last week, by Sheriff Adams.

—H. S. Bates, the efficient deputy postmaster, was sick a portion of last week, and unable to attend to his duties in the office.

—Summers, the photographer, will for the present find quarters in W. J. Allen's building over Jimmy Robinson's grocery store, west side.

ELEGANT HANGING LAMPS, the largest assortment in the city, at Lindley's. Also Stand Lamps.

—John Edmondson's little boy is convalescing after a serious attack of lung fever.

—The man Evans, who was arrested for robbing Bourke at Bedford of a watch and money, had a hearing in Lawrence circuit court last week and has accepted a 3-year position in the Jeffersonville penitentiary.

—No firm in Southern Indiana ever made such a large purchase of Carpets, Rugs and Curtains as reached Bloomington this week, and are now on sale at Wicks' Bee Hive. This firm anticipates the largest carpet sale in its history, and certainly will not be disappointed, as they have the quantity, the quality, exclusive designs and the lowest prices.

—The son of Peter Ballenger, who was taken to Terre Haute to have the madstone applied is not believed to have been bitten by a rabid dog, as the madstone did not adhere. Now if the boy does develop hydrophobia, it will do much to unsettle faith in the madstone theory.

—A Glee Club has been organized by twelve young men of I. U. The following is a list of singers with parts assigned: first tenors, Uline, McDowell and Nuckolls; second tenors, Shaeger; Bray and Tetor; first bass, Stephens, Giles and Moenkhaus; second bass, Kelsey Kahn and Miers.

—A new house on east Kirkwood Avenue, occupied by Oscar Strother, and owned by Cal. Worral, was burned on Tuesday night of last week at about 9 o'clock. The fire began in an outhouse, and as there was no one at home at the time the building was soon destroyed. The household goods, most of them, were removed, but as usual in a damaged condition. The house and contents were insured.

—If the new judicial circuit bill becomes a law it will work quite a hardship upon litigants and witnesses who in many cases may be compelled to go overland to Nashville, as the bill throws Brown, Monroe and Owen into one circuit. It will also leave out John Edmondson, the recently elected Republican prosecutor. The result will be to make the judicial district hopelessly Democratic, with Brown county's 800 majority, and two or three hundred in "sweet" Owen.

—Mitchell Commercial: J. D. Moore and W. O. Tunkley returned from Enterprise, Florida, the latter part of last week. It was unusually cold down there, so that the climate was of no special benefit to them. The heavy frosts are expected to do much damage to vegetation and fruits. The people are not prepared to have comfortable life, and suffer much from the cold. Mr. Tunkley has had hemorrhages of the lungs for some time. His health is now greatly broken and grave complications are feared.

In addition to the new deal in judicial matters the Senate introduced and passed a bill making the term of city officers four years. If it passes the House we will have no city election, and all of that fun will be spoiled. It is also proposed to elect township officers at the regular State elections instead of in April.

"The Esquimaux lives in a high tree, and there is a man or a boy goes up in the top of the tree and robs the Esquimaux nests and then the Esquimaux picks the feathers out of its nest to line its nest with so that they won't get cold at night, and so that their little ones won't get cold when they have any."
