A Letter From Mrs. Graham. Friends, Bloomington, Ind., June 8, 1893.—To the Faris Bros. Druggists.—It has been some seven months since I visited your city and was so fortunate as to have my attention called to the South American Nerve. Had suffered intensely for a number of years with nervous and sick headache, had hot flashes, was sleepless and became despondent. Some of my Bloomington friends spoke so highly of South American Nerve that I was induced to buy a bottle—that purchased led to a number of others, and now I sleep soundly, feel buoyant, strong and vigorous, and seldom have headache. Those disagreeable "hot flashes" have disappeared, and I would not be back to the same condition I was in when I began to take the medicine for any sum you could name. I am respectfully, ISABELLA S. GRAHAM.

A Struggle with Hard Times.

But on top of this we are Cutting Prices to clear up our stock of Summer Goods. Especially suits.

PLENTY OF ODDS AND ENDS AT Odds and Ends Prices. EAGLE CLOTHING HOUSE J. W. SIMMONS & CO.

Letter from West Baden Springs.

West Baden, Ind., July 25, 1893.

My Dear Old Comrade: Whenever any of us "big game" can borrow money enough to go out of town we go somewhere and write letters to our home papers, describing our trip, etc., etc., so that the poor unfortunate people who have to remain there surrounded by the comfort of a home, may grow green with envy at us. The more fortunate ones who go away on money that our creditors ought to have, and live in little extra rooms full of everything but furniture, and drink nasty "blue mass" water and bathe in water red hot, and of the color of a hog wallow, and have an expert rubber work on us until the old scales, warts and corns are all boiled out; he then takes a piece of sandpaper—misnamed a towel—and rubs until we poor weakened mortals faint from exhaustion, and this is enjoyment. Well, we old soldiers are fast passing away—I might add also our pensions are passing away—and thus take every advantage of opportunities to adhere to the strict regimen of water—baths—more water, &c. ad libitum, so that we may continue to draw our pensions.

This is a great place. There are about 30 Americans here and 200 foreigners, and saloon keepers and their victims, etcetera. &c. You pay 15c for a "two-for" cigar and other things in proportion. I have met several very nice ladies, but am kept busy getting away from them, as all—well, most all—want to get away from me, and to dance with them and buy them chewing gum, &c., &c. I have wired my wife to come at once if she ever wanted to see me again. Later—she is coming. I'll write you every week I remain here. You can assure your readers they shall hear more of me, and next time I'll write some poetry, too. If I don't write any more it will be because I have to go away on account of my home bank refusing to honor any more of my over checks. Yours for more pensions, C. R. WORRALL.

The part of town lying west of Rogers street (6th and 7th) was known in former years as Taylorville, because a man named Taylor carried on a pottery there. It might with propriety now be named Squallville.

Jacob Miller, who now owns the Robertson farm on the rocky branch road, has harvested three acres of White Eye wheat. The entire yield was 117 bushels, and but 100 lbs. of fertilizer had been used to the acre. Miller has brought that farm out wonderfully.

Joseph Smith, proprietor of the well known Smith bazaar, south side of the square, has taken his family and gone to the cool shades of Putnamville. Smith is one of the most religiously conscientious hard workers among our business men and "city duds," and is rapidly growing gray in the service.

An Indianapolis base ball team came down to this place and played our local team on Friday with the usual result—got beaten. The score was 11 to 8 in favor of Bloomington's team. Looks like out of town people would give it up as a bad job and would leave the Bloomington club to fight it out alone. The Chicago club never comes near, and old Anson has been heard to say that he is afraid of our team because of their double back-action Mascot.

E. O. McCormick, who made himself so popular as the general passenger agent of the Monon, and then went to the C. H. & D., where he filled the same position with such benefit to the road and added honor to himself, has been secured by the Big Four. He will be known as Passenger Traffic Manager, and will have a clear field for the exercise of his ability in that specialty. Mr. McCormick is an Indiana product, having been born in Lafayette. Such men as McCormick cannot be kept down. The Progress, which all ways has been a warm admirer of Mr. McCormick, desires to extend congratulations.

Born to A. M. Cumming and wife of east 6th street, a daughter.

But seven applicants for teachers' license were successful last month out of a total of thirty-one.

The Kahn clothing store opened on Tuesday & has been advertised. He has a daisy of a room and a stock that is good to see.

Waterthey going to do this week if when they attempt to throw water there should be none in the mains? The water may remain in the reservoir, don't it?

Rev. Newman Manning of Bedford preached for the Baptist people of this place Sunday, while Rev. Clevenger performed a like service for the Baptists of Bedford.

The Showers factory whistle is heard each morning now. It is welcome music to those of the men who have jobs in that solid establishment.

G. W. Campbell & Co., the west side dry goods dealers, are in earnest about disposing of their stock, and give some figures that are real world beaters and no mistake.

Prof. Green is making preparations to leave for Palo Alto, Calif., in a week or so. The president of Leland Stanford Jr. college has been in Chicago during the past week.

Oh, it was no snap," said one of the militia boys who went along with Co. H to Terre Haute to fill up the ranks. Some of these fellows expected to be in town all the time and have a bushel of fun. But they didn't have it.

People got excited over in the spoke factory neighborhood because one of the belles of Vinegar Hill threw a match in a shaving pile after lighting her cigarette. "Gittin' mighty pertickler," aren't they?

The railroads are taking in sail—curtailing expense in the way of employing men to build new depots, switches, etc. It would doubtless pay a good many establishments to shut up till the middle of September.

During the past three days a large number of orders have been received for stone by the quarry operators of this county. This is a good healthy sign, and indicates that there will be considerable business in this line late in the fall.

Fires have been somewhat frequent among the school houses in the out-lying districts of Monroe county. In the past seven years two houses have been burned in Washington tp., one in Marion, one in Salt Creek, two in Polk, and one in Van Buren tp. Better to keep them fully insured.

The North Bedford stone quarry at Stinesville shuts down this week indefinitely. They have been employing a reduced force, about 20 men, but Supt. McGee called them to the office last Friday and told them that after the work already in hand was completed they would have to seek other employment.

It is claimed that at Logansport a young man was stung by one of those big fat bugs that are found about the electric street lights, and that amputation of the leg was found to be necessary. They are loathsome looking insects, and were never seen till the electric lights were placed in position.

Dr. J. W. Newland of Bedford was 66 years of age on Wednesday last, and a large number of his friends and relations made the occasion pleasant by gathering at his home, bringing with them their own well prepared dinners and suppers. Chas. Mobley, the veteran dry goods man of the south side, accompanied by Mrs. Mobley, was in Chicago last week doing the World's Fair.

Work on city improvements has been postponed for want of funds. There is a small amount of work being done on west Kirkwood Avenue, however.

Ernest Lindley was among those who last week started Chicagoward. There is a large colony of Bloomingtonites in the windy city.

Dr. Harris' new house will be quite an improvement to south College Avenue. With the old building, which has been removed further east, it will be an uncommonly large house.

The families of W. W. Wicks and Len. S. Field returned on Friday, after a month spent in Chicago. They visited the world's fair at their leisure, and had an enjoyable sojourn in the greatest city in the world—second only to Bloomington.

Houses are going up here and there all over the city, notwithstanding the depression. There is one thing to be remembered in Bloomington's favor: there has been no real estate boom here. Prices have been conservative, and are no lower now than they have been and they are not likely to run lower. Property in Bloomington is worth all it brings.

Harry Howard and wife, who have made quite a success of the theatrical business, will leave soon for New York to go on the road with a company that plays a Yankee piece of the "Farmer Stebbins" order. The principal point this season is to secure an engagement with a company that is financially responsible, and that can pay whether the receipts justify it or not.

In the procession that accompanied the last Democratic rally in November, W. A. Rogers carried a banner upon which was inscribed: "Vote the Democratic ticket and get a dollar per bushel for your wheat." Some of the farmers have been asking Mr. Rogers why he did not keep his promise and he says: "Why I meant two bushels for \$1.00."

Misses Josie and Eliza Millen are visiting relations in Ohio.
