INTELLIGENCE FROM ALL PARTS  
OF THE GLOBE.

The strikers at Farmersburg, Ind., make an attack upon the soldiers—Baker Haughey gets six long years—A novel legal decision.

### FILE OF TROOPS.

A lively skirmish with strikers at Farmersburg, Ind.

Indianapolis special: The miners have attacked the militia at Farmersburg in Sullivan County, and there is a battle raging. The militia are reported wounded, but how seriously cannot be learned. Adj. Parks has wired that his pickets were surprised by a body of miners who slipped down the mountain side and opened fire without warning. The outposts returned the fire and retreated on the camp, where the militia and a change was made on the assaulting party. The number of miners could not be learned. The first volley is said to have been at least fifty shots along the line. Word was sent to Shelbyville and two companies are now marching to reinforce the attacked militia under Col. John W. Ebel of Terre Haute. The troops in the fight are of Company B from Terre Haute.

Gov. Matthews has determined on declaring martial law in Sullivan County. The situation there should show that the local militia are unable to handle the rioting miners at Shelbyville, Farmersburg, and Alum Cave. He was most incensed at Judge Briggs in Sullivan County, who has issued orders of warrants, but has not seen that they were served on the rioters. Gov. Matthews says there are 500 troops at Shelbyville, and he has thirty companies in reserve, which he will send there if necessary to quell the outbreak and restore order.

The situation in Ohio. Cambridge (Ohio) special: Adj. Gen. Howe, with 1,000 to 1,200 men has arrived here. The regiments are in the front of the militia. The militia are reported wounded, but how seriously cannot be learned. Adj. Parks has wired that his pickets were surprised by a body of miners who slipped down the mountain side and opened fire without warning. The outposts returned the fire and retreated on the camp, where the militia and a change was made on the assaulting party. The number of miners could not be learned. Ebel of Terre Haute. The troops in the fight are of Company B from Terre Haute.

Indianapolis special: Judge Winter, of the Superior Court, has ordered Receiver Falley, of the Iron Hill, to deliver a second dividend of 10 percent. This will require \$250,000. The receiver was opposed to a dividend on account of litigation claims not determined, but the court said he must pay. The dividend is to be paid in vaults when its owners needed it so badly. He said the securities held by the order would pay the claims. Mr. Haughey is expected to be sent to the penitentiary for his part in the wrecking of that institution. Mr. Haughey is expected to be sent to the penitentiary for his part in the wrecking of that institution. Mr. Haughey is expected to be sent to the penitentiary for his part in the wrecking of that institution.

The Old Banker Gets Six Years. Theodore P. Haughey, President of the National Bank, was sentenced to six years in the penitentiary for his part in the wrecking of that institution. Mr. Haughey is expected to be sent to the penitentiary for his part in the wrecking of that institution. Mr. Haughey is expected to be sent to the penitentiary for his part in the wrecking of that institution.

A Novel Decision. Judge Ewing decided at Chicago that a citizen of the United States cannot acquire title to real estate by inheritance, when the inheritance has to be traced back through alien ancestry, for the reason that such alien ancestry is without inheritance rights in the United States. The decision is the first rendered upon this point under the present statute of the State. It is doubtful if the decision has been rendered in any State.

Closed Its Doors. Denver (Col.) special: The German National Bank did not open its doors Saturday morning. Cashier Kunz-miller says the institution is compelled to go out of business. The German National Bank is one of the oldest banks in the city. The president is J. J. Rithman, who was considered very wealthy at one time. The bank stock was sold at a 25 percent discount, and during the panic last summer but subsequently reopened on an agreement with the stockholders.

Four Badly Hurt in a Collision. The New York Pennsylvania and Ohio passenger train No. 11 collided with a special Cincinnati, Hamilton and Dayton freight train seven miles from Dayton, Ohio, near Mansfield. Those seriously injured are Harry Kemp, engineer of the freight; William Morgan, conductor; K. Sherlock, fireman of the passenger.

Visible Supply of Grains. The visible supply of grains, as compiled by the New York Produce Exchange, is as follows: Wheat, 50,305,000 bushels; corn, 1,935,000 bushels; oats, 7,400,000 bushels; barley, 125,000 bushels; rye, 1,500,000 bushels; clover, 241,000 bushels.

Seven Injured in an Explosion. A peculiar explosion at the Erie Company, near Jersey, Pa., caused the severe burning of seven men, and their fatal fall. One of them carried a keg of powder on his shoulder as they were entering the mine when it exploded.

Tom Killed, Fifteen Hurt. Advice from Tuxpan, Mexico, state that a terrible windstorm passed over the village of Yahualica, about seventy miles back in the country, last week, destroying a number of stone buildings and killing and wounding many people.

## THIEF AND ASSASSIN.

Statement of a Dying Railroad Detective Shows Up a Villainous Plot.

George B. Newcomb, assistant special agent of the Western Indiana Railroad, who was shot in Chicago the other night on an incoming Grand Trunk train, made an ante-mortem statement, and from the strength of it Special Agent J. A. Maxwell, of the Grand Trunk Road, was locked up at the Harrison Street Police Station. Before the police get through with the case they expect to prove that there was a huge conspiracy, but on detectives employed by the Grand Trunk Road and a gang of confidence men to divide the plunder from the people robbed on the trains of the company. For some time confidence men have been boarding the trains of the Grand Trunk Road, and robbing the passengers. So serious have these outrages become that Newcomb and Maxwell were detailed to board incoming passenger trains, catch the thieves at their work if possible and arrest them. Newcomb charges that while on route to Archer avenue station, he and Maxwell were taken into a building and a conspiracy to "protect" the highwaymen in their operations and general robbery was planned. Newcomb was the dying man of the party and his villainy of his brother officer that he firmly believed that the suspicious characters who slipped down the mountain side and opened fire without warning. The outposts returned the fire and retreated on the camp, where the militia and a change was made on the assaulting party. The number of miners could not be learned. The first volley is said to have been at least fifty shots along the line. Word was sent to Shelbyville and two companies are now marching to reinforce the attacked militia under Col. John W. Ebel of Terre Haute. The troops in the fight are of Company B from Terre Haute.

### OIL TAKES PLACE OF COAL.

Hundreds of Manufacturers in Chicago Are Using It.

Since the beginning of the great coal strike, Chicago leading manufacturers claim that there has been a marked increase in the sale of crude oil to manufacturers for use in place of coal. Even before the price of coal was boosted by the contract with the United Mine Workers, the use of oil was steadily increasing. The trouble is the result of a strike that occurred at the mills, May 14, against a 15 percent reduction in wages.

### DOCTORS IN CONVENTION.

Annual Meeting of the American Medical Association at St. Paul, Minn.

The forty-fifth annual convention of the American Medical Association opened in Old Fellows' Building in San Francisco last night. Delegates had been arriving in the city for several days. Dr. James S. Hildner, of Indiana, President of the association, mounted the platform to call the meeting to order and read the report of the previous year's session. The report was a long and interesting one, and was well received by the assembly. The report was a long and interesting one, and was well received by the assembly.

### STRIKE AN IMPEDIMENT.

Trade and Industries Interfered With by a Lack of Fuel.

R. G. Dan & Co.'s Weekly Review of Trade says: It is a sign of cheering import that in the business, represented by clearings and railway tonnage, there has been less decrease since the strike began than might have been expected. The reason is, the orders which start the wheels, to result in tonnage and payment weeks or months later, are not so much affected by the strike. The result is a decrease in the amount of business, but not a complete stoppage. The result is a decrease in the amount of business, but not a complete stoppage.

### WILL CROSS THE SEA ALONE.

Capt. Fretsch of Milwaukee, Arrives in Buffalo with His Old Craft.

Capt. Fretsch of Milwaukee, who proposes to cross the Atlantic in a small boat, has arrived in Buffalo, N. Y., with his little craft, the Nina, Sunday. He will remain there several days, and then go through the canal to New York. Capt. Fretsch is bound for Sincere, a small boat, which he will take with him. ### Escaping Murderer Retaken.

The Montreal police have just succeeded in capturing an escaped American murderer named Samuel Alexander. On July 28, 1901, Alexander leveled his revolver at James Reibelt on the street in Chicago, and shot him dead without the slightest provocation. Tried for his life, Alexander was declared insane and sentenced to perpetual commitment to the lunatic asylum at Worcester, Mass. About a year ago he succeeded in escaping from that institution.

### Charles Louis Dies of Lockjaw.

Charles Louis, a German, at Hammond, Ind., 46 years of age, died Friday morning of lockjaw. Two weeks ago a dog bit him on the leg. He paid no attention to it except to procure some hair from the dog's back and bind it over the wound. In about a week he noticed a stiffness in his jaw, and on Monday lockjaw set in. His jaws were firmly set and his head bowed back, and he suffered great agony.

### Murdered by Bandits.

An American, T. H. Pritchard, of Michigan, on route to the hacienda of Francisco Lopez, Mexico, was waylaid and robbed by bandits. Mr. Pritchard is said to have had a large amount of money in his possession.

### Of Interest to the Northwest.

In all probability a sale of the forty-eight elevators in Minnesota and North Dakota belonging to the Red River Valley Elevator Company will be virtually made. A good deal of surprise followed the failure of the company last year and also the failure of the Northern Pacific Elevator Company, as they were the first large failures of the kind since the grain interests in the northwest. The prospects of the Northern Pacific Elevator Company are less flattering. The liabilities at the time of the failure were \$1,000,000. A sale of the elevators would be a relief to the stockholders as well as creditors. The elevators in Idaho and Washington belonging to the company were sold a short time ago for \$60,000, leaving the elevators in Oregon, Minnesota and North Dakota, undivided. They will be sold this year. It is expected, but there will remain a large deficit to be arranged for or left unsettled as the court and creditors may determine.

### CITY HELD BY A MOB.

Homeless' Horror May Be Re-enacted at McKeesport, Pa.

The immense plant of the National Tube Works at McKeesport, Pa., sixteen miles from Pittsburgh, on the Monacaqua River, was the scene of a mob of 4,000 strikers Tuesday, who declared their intention to battle with new workmen and officers. The city at night was in a state of chaos and anarchy was rampant on every street. The bloody scenes of McKeesport, on the other side of the river, were enacted, and in all probability they will be repeated. The men are just as wild as the mob at McKeesport. The police officers to disperse the strikers resulted in failure. The company has, apparently, thrown all responsibility on the city officials and strikers. The trouble is the result of a strike that occurred at the mills, May 14, against a 15 percent reduction in wages.

### FIVE CHILDREN DIED.

They Eat of a Poisonous Vegetable at Tarrytown, N. Y.

At Tarrytown, N. Y., as a result of eating a poisonous vegetable, which they had obtained from a garden, five little children of the Sisters of Mercy Home died in great agony. The dead are: John Eberstadt, aged 10 years; John Callahan, aged 10 years; Thomas Eberstadt, aged 12 years; Augustus Powers, aged 12 years; John Donnelly, aged 12 years. Even others of the inmates are seriously ill. The home is situated in Tarrytown, N. Y. There are about 30 children in the home. The boys were out playing in the park in the afternoon when one of them discovered a pungent root which he had dug up. The root was called "wild radish," and was found to be poisonous. The children were called to the root, and they ate of it. The children were called to the root, and they ate of it.

### PREMIER CRISP OUT.

Italian Cabinet Ministers Tender Their Resignations to the King.

The Italian crisis has come to a head with the resignation of Sig. Crispi and his Cabinet, announced in the Chamber of Deputies at Rome. King Humbert reserves the right to accept or reject the resignation. The action of the Premier is the result of a Cabinet meeting held after the debate on Crispi's proposal that the Chamber should elect a committee of inquiry to make up of members of the several political sections, with the task of preparing and presenting on June 30 a measure for reforming the expenses of the public service. In order to introduce the greatest possible economy, the House, in the meanwhile, abstaining from any discussion of financial matters.

### May Call for Federal Troops.

Denver army officers believe that it will be necessary to call out the Federal troops to quell the insurrection at Cripple Creek. They believe the strikers cannot be dislodged from Bull Hill by charges upon the militia, but that it will be necessary to shell their strong hold. Mining attorneys have advised the mine-owners to call upon President Roosevelt to call out the Federal troops for regular control under the statute giving the president power to protect the people in their rights when the State authorities refuse or fail to do so. The Cripple Creek strike, fearing a riot, has been called to the Colorado Springs and stored in safety \$100,000.
