## CIRCLING THE GLOBE

### CONCISE HISTORY OF SEVEN DAYS' DOINGS.

Intelligence by Electric Wire from Every Quarter of the Civilized World, Embracing Foreign Affairs and Home Happenings.

#### An Extra Session.

The President has conveyed assurance to some of the party leaders in Congress that he will certainly call Congress together in extra session if it fails to pass the army reorganization bill. In answer to repeated inquiries the Administration has been obliged to decline all propositions looking to the postponement of the session by passing a joint resolution, simply extending the appropriations on the basis of the present appropriation act, pending that this bill would be able to meet the necessities of the case.

The status of the volunteers would, it is said, be extremely unsatisfactory and there would be absolutely no assurance that the President could retain them in the service, even when the emergency is past.

#### For a New Maine.

A year ago Wednesday the battleship Maine went down in the Havana harbor. Wednesday the last of the new battleship Maine was laid by Cramp's Ship Yards, Philadelphia. There was no ceremony. It is expected it will be ready for launching by the time the Maine goes to the Ohio and Missouri, the contract price for each of which is \$2,385,000. She is to have a speed of eighteen knots with a length on load water line of 383 feet and a beam of seventy-two feet two and one-half inches. She will have a normal displacement of 12,000 tons and a draught of twenty-three feet, six inches. Her boilers will be large enough to carry 2,000 tons of coal and her complement will be 600 men.

#### France and England May War.

The London correspondent of the London Daily Mail, remarking upon the extraordinary activity of the French navy, says: "It is believed that Mr. Lockroy, Minister of Marine, expects war with Great Britain within two years, and it is notorious that a war with France is being prepared in official circles and that the French fleet will sweep the British fleet out of the Mediterranean."

#### President Faure Dead.

Felix Faure, President of the Republic of France, died at 10 o'clock Thursday night, after an illness of three hours of apoplexy.

#### It has been known for some time that President Faure's heart was weak, but the first intimation that he was ill was given at half past six in the afternoon, when a message was dispatched by the family to the Ministry of War, announcing that he was ill. M. Dupuy immediately repaired to the Elysee. All medical effort proved futile, and the President died at the stroke of ten.

#### Extradition Treaty.

The Department of State has received a report from a Mexican official that the City of Mexico showing that the Government of the United States and Mexico were just agreed upon a treaty for extradition to replace that which lapsed about a fortnight ago. Fugitives from justice in either country will be disappointed in the hope that they will be able to escape, for the treaty will be retroactive so as to cover crimes committed since the expiration of the former treaty.

#### Big Fire in Akron.

A fire destroyed the immense plants and office buildings of the Akron Building and Lumber Company, Akron, Ohio. The loss will amount to \$100,000, more or less. The entire business portion of the city was threatened for a time. Sparks and burning embers were carried for several miles. Several small fires were started but quickly extinguished. Millions of feet of lumber were destroyed.

#### Missionaries Murdered.

Advices from Shanghai say that Chinese insurgents captured the city of Chang Lo, January 10, murdered several officials, and then proceeded to massacre missionaries. Many native Christians have been killed. A Chinese recruit soldier is reported to have murdered a foreign-drilled regiment to the scene.

#### Firemen Injured.

Eight firemen were injured by falling walls in the Baltimore Barrel Company's building, which was on fire. B. F. Patel and Louis Barstetter may die. Small financial loss.

#### To Be Court-Martialed.

It is announced at Madrid that all commanders of Spanish war vessels destroyed at Manila and Santiago are to be court-martialed.

#### Medal for Anna Gould.

The Senate has adopted a joint resolution admitting Osborne Deigan, the Merit medal, to the American Academy of Arts and Letters. It also adopted a resolution presenting a medal to Anna Gould as an acknowledgment of services to the soldiers during the war.

#### Killed by Gas Explosion.

By an explosion of natural gas in the home of Charles A. Pumphrey, Marion, Ind., both Pumphrey and his wife were fatally injured. The three-room cottage was totally destroyed.

#### Seven Years for Murder.

J. B. Atkinson, who stood in British Columbia last summer and shot William Patterson, who was on the American side at Blaine, has been sentenced to seven years at hard labor in the State penitentiary. The Canadian authorities gave Atkinson up to the American officers after the tragedy.

#### Another Great Fire in Chicago.

More than \$1,000,000 worth of property was destroyed by the seven-story brick warehouse at 12 to 24 West Water street, Chicago, owned by E. B. Butler of Butler Bros. and occupied by the Traders Storage Company and the Merchants and Manufacturers' Company.

#### One Man Killed and Five Injured.

One man was killed and five seriously injured in a powder explosion at Meigs, Pa. The victims were members of a construction gang and were blasting rocks near Meigs.

#### Night Watchman Burns to Death.

The Delaware and Hudson depot, Sweet's Hotel, the Saratoga Springs Hotel and Schaeffer's cafe, in Saratoga, N. Y., were burned. James V. Snyder, a night watchman, burned to death. The loss is \$80,000, partly covered by insurance.

## FAVORABLE EFFECTS TO FOLLOW.

Indicated by Improved Distribution at Retail of Heavy Winter Goods. The following report is made by Bradstreet: "That some favorable effects are likely to follow the atmospheric changes of the week is evidenced by reports of improved distribution at retail of heavy winter goods, while the effect on spring goods is chiefly regarded as one of retardation rather than of positive injury. In leading staples the strength of prices is still a feature, all the galus made in January being sustained, if not further improved. Some reflection of the cold wave is found in the advance in wheat, showing an inclination to concede some damage to the winter wheat crop. In view of the reports of the crop, it is lacking in many sections. The strength of cotton, while to some extent based on smaller receipts and a reduction of the usual winter crop, appears mainly due to the cheerful tone of the cotton goods market and the strength of demand and price manifested by those staples both at home and abroad. Wheat, including flour, shipments for the week aggregate 5,870,000 bushels, against 5,885,418 bushels last week. Corn exports for the week aggregate 3,965,022 bushels, against 3,697,731 bushels last week."

## NEW USE FOR CORNSTALKS.

5th Better than Cotton for Manufacture of Smokeless Powder. At the big powder works of the DuPonts at Carney's Point, N. J., interesting experiments in smokeless powder are being made by experts in the employ of the government. One of the difficulties that has attended the manufacture so far is the fact that the powder is not smokeless and that it apparently loses strength through storage. The experiments, it is said, led to the discovery that cotton could not be ground so fine as the powder is not smokeless and that the powdered pith of cornstalks gave somewhat better results. This fact is only partly authenticated. It should be noted that the use of cornstalks for revenue is opened up for farmers, since thousands of acres of cornstalks annually go to waste in the field, although much is being used in the manufacture of cellulose.

## MAY BE MISSING CREW.

Story of Prisoners in Siberia Recalls Disappearance of a Schooner. A late report to the effect that a number of American prisoners, whose names are unknown, are confined in a certain Siberian prison, undergoing penal punishment, has aroused a hope that among these may be the crew of the schooner lost sailing schooner E. E. Webster, which was last heard from in Bering Sea waters in April, 1890. It has been thought that the Webster either drifted into the Asiatic waters or was purposely sailed to the straits by her captain, I. Liebes, of San Francisco, the owner of the Webster, however, says that there is no doubt that the crew were sent down during a severe storm, and that all on board were lost.

## Killed After Violent Struggle.

Jacob Gerbrandt, night fireman at the Hunt Stamping works, on Hickox street, near Euclid avenue, Cleveland, was found dead in his home, having been stabbed through the heart. The case is shrouded in mystery. The motive for the crime was, evidently, not burglary, for Gerbrandt's money and valuables were found on his person. Appearances indicated that the murdered man made a violent struggle for life. The only clue found was a woman's knit fascinator, which was lying on the floor. The theory is advanced by the police that Gerbrandt may have been holding a clandestine meeting with the woman and that a jealous husband or lover had been watching him. The murdered man was 40 years old and had a wife and three children.

## News of Andrew's Fate.

A gold mine owner named Monastyrski has received a letter saying that a Russian prisoner, named Andrew, is in the hands of the Russian police chief of the district that between Komo and Pit, in the province of Yenisek, that the prisoner is being treated with kindness and apparently being brought to a balloon. Close by were the bodies of three men, the head of one badly crushed. Around them were a number of bones and a few articles of clothing, but no other remains were to be seen. It is believed that the bodies are those of the prisoner, Herr Andrew, and his companions.

## Cleveland Block Burned Out.

The Kelly block, on Superior street, Cleveland, marked by Mrs. J. W. Kelly, occupied entirely by the Kelly clothing store, owned by Simon Fox & Co. The stock of the Kelly store was valued at \$20,000. The damage to the Kelly block adjacent was damaged to the extent of \$10,000, while the block west of the Kelly store suffered to the extent of \$5,000. Samuel Barker & Sons, printers and stationers in the Crittenton block, lost \$10,000. Total losses are \$150,000.

## Two Killed by Black Bomb.

John R. Russell and E. L. Wright were killed by black bomb in the Diamondville mine, at Diamondville, Wyo. Ten others were injured and were rescued in time to save their lives.

## Indiana Forces Almost Destroyed.

The business portion of the village of Pleasant Mills, Ind., was almost totally destroyed by fire. The loss is about \$10,000.

## Find Dellenbaugh Gully.

At Cleveland, the Circuit Court charged Judge Dellenbaugh guilty as charged in the third specification.

## Americans Win at Calocan.

The American forces made a combined attack upon Calocan, Philippines, and reduced it in short order.

## Spanish Government Will Not Sell.

The Spanish Government has decided not to sell the Caroline Islands.

house full of smoke and in a room off the kitchen four persons lying on a mattress which had been placed on the floor, all dead, and in the kitchen three other persons in a state of insensibility. The policeman, on entering the house, found a woman sitting in a chair beside the stove. The officer threw open the windows to clear the smoke. Then he perceived an elderly man lying on a lounge and a woman sitting in a chair beside the stove. The old man was aroused, but as he could not talk intelligently, the officer went into the next room. On the floor, covered with a mattress, were three persons, and the officer found as he stooped over them that they were all dead. All were partially undressed. In the kitchen was a small wood stove in which a fire was burning, but there was little wood in it. The unconscious persons were taken to the police station and physicians summoned, who gave treatment to save the lives of the unfortunate.

## HALF A MILLION IN ASHES.

Flames Destroy Two Large Establishments at Cincinnati.

A fire causing a loss of \$500,000 started mysteriously in the upper stories of the hat manufacturing establishment of the Feltman & Co., at Cincinnati, and before the engines could get to work the fire had communicated to the clothing house of H. A. Reinheimer & Co. Next to the street the corner building, occupied by Sanford, Varner & Storrs, containing a valuable stock of clothing and material. The first-named buildings were entirely burned out, but the second, by the saving of the corner building at the expense of practically ruining the contents. The entire fire department was called out, and a perfect deluge of water was thrown. Nevertheless the fire found its way into the rear of buildings fronting on Race street, occupied by S. L. Weller & Co., Louis Wald & Co. and Reins & Meins. Washington's residence, a corner building, although it was checked before the buildings were destroyed.
