1777—Battle of Saratoga.

1849—Edgar A. Poe, American poet and writer, died; born 1811.
1870—Battle of Muret: The French defeated the forces of the German emperor.
1880—Major E. A. Burke, ex-treasurer of Louisiana, indicted for misappropriation of state funds, announced his intention of returning to America to defend himself, but left for New Orleans on a steamer and returned to Louisiana.

In the article on beet sugar yesterday an error occurred which conveys a different impression from that intended. It should have been 300 barrels instead of 300 pounds that the factory turned out at Grand Island.

The Democratic papers call Mr. Mills, of Texas, a Jeffersonian Democrat and yet Mr. Jefferson repeatedly said that we should manufacture for ourselves every article we could, even if it did cost more, than in no other way could we make our country independent of foreign nations.

The yield of grain this year is estimated to be about 20 per cent. smaller than usual. From this cause, the passage of the silver bill and the good prospects of the tariff bill, prices have advanced over those of a year ago from 84 cents to \$1.11 on wheat, or about 32 per cent.; from 43 cents to 55 cents on corn, or 28 per cent.; and from 26 to 44 cents on oats, or 69 per cent.

The New Orleans Times-Democrat knows how to extract philosophy from failure. It tells us that the Louisiana orange crop is short this year one-half, that the Delaware peaches are destroyed, and finally that New Orleans herself is importing oranges from Egypt and potatoes from Great Britain, and then remarks: "The failure, however, is merely a temporary incident. We shall probably have a larger acreage and a larger crop next year than ever."

A recount of the census may or may not increase the list of New York's inhabitants by a hundred thousand. But there is one thing that those who were disappointed that the city showed up no larger forgot. Old cities do not grow as fast as young ones. New York has possibly reached that period in her existence when her growth will be steady, indeed, and sufficient, but no longer phenomenal. Besides there are now other cities than New York on the continent.

Once in a while a free trade advocate makes a fatal admission. The New York Herald, speaking of reciprocity with American nations, says the benefit to our farmers will not be "by new markets for their grain and other products," but by the greater prosperity of the manufacturing operations which will result from a wider market for American manufactures. That is to say, the more people we employ in manufacturing, the better market for our farm products. How, then, can it benefit our farmers to import from Europe goods we can make here?

In the celebrated suit of Ohio against James M. Lane and his bondsmen to recover \$49,043.29 for defalcations committed by the ex-treasurer, a compromise has been effected by the bondsmen and the case taken out of Court. By the terms of the compromise the bondsmen confess judgment in favor of Pickaway county for \$37,164.06 and costs less \$3,600 which has already been collected from Lane's estate and paid into the County Treasury. They agree to pay this judgment by liquidating \$25,000 worth of Pickaway County Infirmary bonds that mature in March and September, 1891, and applying the balance on the same series of bonds that mature in 1793.

THE HOOSIER STATE.

Interesting Information from Indiana Cities and Towns.

Blown Up by Dynamite.
INDIANAPOLIS, Ind., Oct. 7.—Morgan town, a little hamlet in Morgan County, has been enjoying a variegated taste of border life ever since last Friday morning, when a dozen "toughs" undertook to "clean out" the saloon of Rodney Huff at that place. Huff was informed of the proposed attack and rallied a number of his friends at his saloon. When the attacking party appeared a pitched battle was begun, in which clubs, knives and even revolvers played a part. The attacking party were beaten off after a long fight, which resulted in a number of broken heads and knife wounds, none of which were dangerous. Since the first engagement the fight has broken out in spots at various times and culminated at 4 o'clock Monday morning in the explosion of an immense charge of dynamite under Huff's saloon, completely wrecking the building and destroying its contents. Suspicion falls upon the men who attacked the saloon Friday, but it is believed by many that the anti-saloon element seized this opportunity to rid themselves of the nuisance. It is said that the only other saloon in the place, which is run by William Musselman, would not doubt have suffered the same fate but for the fact that he and his family live over the place.

Charged with Arson.
HUNTINGTON, Ind., Oct. 7.—Joseph Ratterman, sheriff of Shelby County, O., has arrested Charles Shearer on a charge of arson. Shearer went with him without a requisition. About a year ago a private bridge over a canal in Shelby County was burned. The structure, which was a wooden one, was built for the accommodation of some farmers, and when the grand jury investigated the affair it returned an indictment against Shearer, who lived there at the time of the fire. It is charged that Shearer had a spite at the farmers and chose this method of settling the score.

Wheat in Southern Indiana.
COLUMBIUS, Ind., Oct. 7.—For several years past the farmers in Southern Indiana have sown much less than half the wheat of former years. This year an unusually large crop is being put out, which will aggregate considerably more than half the tillable land. That sown early looks fine, but there are thousands of acres yet unsown on account of the continued wet weather, which will make the crop a late one.

Census Figures.
WASHINGTON, Oct. 7.—The Census Bureau announces the population of Indiana to be 2,189,040; increase, 210,729. The population of towns and cities in Indiana is given as follows: Brazil, 5,902; increase, 2,481; Crawfordsville, 6,088; increase, 885; Frankfort, 5,018; increase, 3,115; Lafayette, 16,497; increase, 1,457; Terre Haute, 30,287; increase, 4,215.

Notable Church Gathering.
MADISON, Ind., Oct. 7.—The Christian Conference of the United States and Canada meets in quadrennial service in this city today and continues for one week. Delegates are arriving by every train. Between 400 and 500 are expected. This will probably be the most notable church gathering ever held in the State.

May Be Post-Office Thieves.
BLOOMINGTON, Ind., Oct. 7.—At a late hour Monday evening two young men were arrested who were peddling four, five and ten-cent stamps on the streets. They were believed to belong to a band who are robbing so many post-offices in this section. They gave their names as George Bender and Charles Wolf.

Boat on Air for Awhile.
SHELBYVILLE, Ind., Oct. 7.—Sunday evening while Turner Castetter and his wife were out riding their horse backed over the abutment of the Blue river bridge, taking the buggy and occupants with it. Mrs. Castetter's leg was broken below the knee.

Vice-Consul at London.
INDIANAPOLIS, Ind., Oct. 7.—Consul-General New has appointed as Vice-Consul at London George C. Hitt, business manager of the Indianapolis Journal. Mr. Hitt succeeds Romeo Johnson, a former Indianapolis journalist.

Accidentally Killed.
HUNTINGTON, Ind., Oct. 7.—Jonathan Paul, 20 years old, of this place, was accidentally killed Monday by a companion who was shooting at a mark.

Europeans Favor Retaliation.
LONDON, Oct. 7.—Retaliation against America is fast becoming the policy of Europe. It has been practically agreed upon by the triple alliance, although no formal step has yet been taken to levy now duties on American goods, and Holland, Denmark and other countries show a disposition to join the crusade. Austria has taken the lead in this movement from the beginning, and the tone of the articles in the Vienna press on the McKinley bill is bitter in the extreme.

Fears the Assassin.
ST. PETERSBURG, Oct. 7.—The czar is taking new precautions for the protection of his person. None, except Cabinet Ministers, are admitted to an audience without the presence of an officer of the guard, and the Eastern custom of tasting food before it is placed on the sovereign's table has been revived, after having been in disuse since the days of the Emperor Paul. The Russian autocrat seems suspicious of every one around him.

During a fire in a St. Louis grocery store Monday night a twenty-five gallon tank of coal-oil exploded, blowing an entire wall into the street and injuring six firemen and five spectators. Two of the wounded will die.

The Gun Was Loaded.
ATHONA, Ill., Oct. 7.—Ernest Gould, aged 19 years, shot and instantly killed his brother Fred, aged 15 years, Saturday afternoon at their home west of Geneva. He thought the gun was not loaded.

SPECIFICS.

We Are After New Subscribers!

THE JOURNAL, both Daily and Weekly, excels all rivals in Montgomery county in circulation, but we are not satisfied. We must have a large number of new subscribers, and quickly, too. Therefore, we have arranged to make the following

2 Great Inducements.

GRAND PREMIUM OFFER! A SET OF THE

WORKS OF CHARLES DICKENS,

In Twelve Large Volumes,

Which We Offer with a Year's Subscription to this Paper for a Trifle More than Our Regular Subscription Price.

Wishing to largely increase the circulation of this paper during the next six months, we have made arrangements with a New York publishing house whereby we are enabled to offer as a premium to our subscribers a set of the Works of Charles Dickens, in Twelve Large and Handsome Volumes, with a year's subscription to this paper, for a trifle more than our regular subscription price. Our great offer to subscribers eclipses any ever heretofore made. Charles Dickens was the greatest novelist who ever lived. No author before or since his time has won the fame he achieved, and his works are even more popular today than during his lifetime. They abound in wit, humor, pathos, masterly delineation of character, vivid descriptions of places and incidents, thrilling and skillfully wrought plots. Each book is intensely interesting. No household should be without a set of these great and remarkable works. Not to have read them is to be far behind the age in which we live. The set of Dickens' works which we offer as a premium is printed from entirely new plates, with new type, and is absolutely unaltered.

The twelve volumes contain the following world-famous works, each one of which is published complete, unchanged, and absolutely unaltered:

DAVID COPPERFIELD, MARTIN CHUZZLEWIT, NICHOLAS NICKELBY, DOMBEY AND SON, BLEAK HOUSE, LITTLE DORRIT, OUR MUTUAL FRIEND, PICKWICK PAPERS, BARNABY RUDGE AND CHRISTMAS STORIES, OLIVER TWIST AND GREAT EXPECTATIONS, THE OLD CURIOSITY SHOP AND THE UNCOMMERCIAL TRAVELER, A TALE OF TWO CITIES, HARD TIMES AND THE MYSTERY OF EDWIN DROOD.

The above are without question the most famous novels that were ever written. For a quarter of a century they have been celebrated in every nook and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.

Weekly Journal, one year, with a set of Dickens' Works, \$2.00
Daily Journal, by mail or delivered, 6 months, and set of Dickens' Works, 3.25
Daily Journal, by mail or delivered, 3 months, and set of Dickens' Works, 2.00
