BUSINESS POLITICS.

Aside from the little sentiment there is in politics, there is little in it but true business. Any merchant, manufacturer or farmer, who allows his debts to accumulate without making provisions to liquidate, will sooner or later go to the wall. Nothing but his former good standing will prolong the work, but it must come. So with a State or municipality. Debts may be contracted, but unless provisions are made to liquidate them, the credit will be impaired and final failure follow. Our State debt has been increasing at a rapid rate and no provisions made to check the growth or even pay the interest. This state of affairs cannot exist forever. Sooner or later a day of settlement will come. Is it good business to continue this method? Is it not the duty of every voter in the State to see to it that legislators are sent to enact such laws that will put our State in line with good business principles? The vindictive spirit of the majority of the last Legislature in financing so that the Republican State officers are crippled in their duties, only proves the utter inefficiency and don't-care-a-dig-itiveness of the whole party.

IMPORTATIONS OF FARM PRODUCTS.

The American farmer's market is being usurped by foreign farm products. Importations of food have grown enormously under the tariff of 1883. Last year they amounted to more than \$65,000,000 as this table shows:

Imports of Farm Products into the United States during 1890.	Value.
Horses, sheep and cattle.....	\$3,917,061
Barley.....	7,099,753
Other grains.....	169,129
Potatoes.....	450,000
Eggs.....	2,410,004
Flax.....	2,090,004
Hemp.....	2,047,027
Hay.....	1,082,085
Hops.....	1,100,408
Meats and dairy products.....	1,704,802
Flaxseed and seeds.....	5,557,106
Tobacco.....	8,968,168
Potatoes, vegetables and fruits.....	2,245,469
Lumber.....	2,768,644
Wool.....	17,492,758
Total.....	\$65,132,511

Republican legislation has provided three efficacious remedies for this state of things:

First. It has increased the duties on foreign farm products so as to shut off foreign importations.
Second. It has opened the way for reciprocal trade relations with South American countries.
Third. It has restored our money use.

The importers of foreign merchandise in anticipation of the passage of the McKinley bill, have overrun their houses with foreign goods, and they now hope to make an enormous speculation on these importations by telling their customers the new tariff bill has made it necessary for them to mark their goods up. Our advice to all is not to buy of these dishonest scamps. In nine cases out of ten their pretense is shown to be false from the fact that the goods they are selling are on the free list. Let all who propose to buy anything wait a little while if an advanced price is demanded on account of the McKinley bill.

INDIANA.

A Column of Fresh News from Many Points.

The People's Party.

INDIANAPOLIS, Ind., Oct. 10.—The State Central Committee of the People's party met Wednesday morning and selected Martin B. Kindie, of Johnson County, as a candidate for Secretary of State in place of Leroy Templeton, of Benton County, who declined the nomination after he had been nominated for Congress by the Democrats and Independents of the Ninth district. Mr. Kindie is a farmer and an old school teacher. J. H. Allen, of Terre Haute, chairman of the committee, has filed with the State Board of Election Commissioners the party's petition for tickets under the new election law. The law requires that the petition be signed by only 500 voters, but Chairman Allen has secured 1,200 signatures to the document.

Momence Rock Doomed.

CHICAGO, Oct. 10.—Attorney-General Hunt sent a letter to the drainage trustees Wednesday in which he intimated that no action would be taken by the State to prevent the removal of Momence Rock. The drainage of the Kankakee marshes will probably be completed now in accordance with the plans adopted by the Indiana Legislature. Mr. Hunt stated in his letter, that at present he was not able to tell what line of action would be proper, nor was he satisfied as to the standing of the State of Illinois may have in the courts on account of possible complications suggested by Attorney Smith.

Last of a Bad Family.

LOUISVILLE, Ky., Oct. 10.—Sleeping in a cell at the Jeffersonville penitentiary Wednesday night was the only surviving member of the most notorious family in the criminal history of Indiana. It was Albert Archer, and he has just arrived at the institution to serve two years for attempting to murder an old farmer named William Elch in Orange County, near West Baden. His father, uncle and one brother were lynched by a mob, another was assassinated.

Strange Case of William Shumm.
MUNCIE, Ind., Oct. 10.—Wednesday William Shumm, a printer on the Muncie Times, laid down on the Big Four track near Salina, this county, and was decapitated by a freight train. He took off coat vest and hat, rolled up his sleeves, laid down outside the track with his neck on the rail, holding his head so it would pass under the pilot. He leaves a wife and eight children in destitute circumstances. He was driven insane by setting up the description of a murder case.

Deserted Her Babe on a Train.
LOGANSPORT, Ind., Oct. 10.—On the south-bound Vandalia passenger train Thursday afternoon was a woman about 25 years of age carrying a baby. She took the train at Logansport, and no one about the station seemed to know her. She left the train at Frankfort, and shortly after the train left there the babe was found in the water closet. A telegram was at once sent to Frankfort by Conductor McKee, but up to this time no trace of the woman has been found.

An Elopement Spoiled.
LOGANSPORT, Ind., Oct. 10.—Philip Bruck, mayor of Columbus, O., arrived in this city Thursday just in time to prevent the marriage of his son, J. P. Bruck, aged 20 years, and Miss Sara Olupansen, daughter of a justice of the peace of Columbus, who came here Wednesday. The young lady's father reached here and the four held a secret consultation. Miss Olupansen is also under age, and her father objects. The young couple absolutely refuse to return home.

Compromised the Verdict.
GOSHEN, Ind., Oct. 9.—The Mingo murder case at Lagrange, which ended in sending Mingo to the penitentiary for fifteen years, furnished a fair illustration of the work done in a jury room. The crime was the savage killing of an old woman, the mother-in-law of the prisoner. When the jury went out they stood eleven for life sentence and one for acquittal. The jury finally agreed upon a fifteen years' term of imprisonment.

Death of an Old Settler.
WABASH, Ind., Oct. 10.—Tuesday night Captain Newton H. Baker died at his home in this city, aged 74 years. He was one of the earliest settlers and one of the first captains on the Wabash and Erie canal, and afterward owned a line of packets. His health has been gradually failing during the past ten years.

Prof. Griffiths Succeeds Prof. Jacobs.
INDIANAPOLIS, Ind., Oct. 10.—Prof. Elmer E. Griffiths, of Frankfort, Ind., has been elected superintendent of the Indiana Institution for the Blind to succeed Prof. H. B. Jacobs, who has accepted the position of superintendent of the Western Pennsylvania Institute for the Education of the Blind.

High Price for Hogs.
LEBANON, Ind., Oct. 10.—A fine hog sale was held in the fair grounds here Thursday. Thirty-five hogs, whose average weight was sixty pounds, brought \$1.10. One hundred and forty dollars was the highest price a single pig brought.

Got \$6,500 for His Injuries.
GOSHEN, Ind., Oct. 10.—William Blanchard, of New Paris, who was injured on the Chicago & Atlantic road several months ago, has just received \$6,500 to compensate his case.

For Universal Suffrage.
LONDON, Oct. 10.—The movement for universal suffrage is attaining tremendous strength in Belgium, and much indignation has been aroused by the announcement that the Ministry did not intend to submit to the Belgian Parliament a proposition embodying the reform. It was as a result of this feeling that Minister of Public Works De Bruyn was mobbed and nearly killed at Malines while taking official part in a civic ceremony.

What do doctors know about corsets?

They know a good deal more sometimes than they dare give their patients the benefit of!

What are they afraid of? Losing their patients. Many a woman would throw her doctor overboard sooner than change her corset.

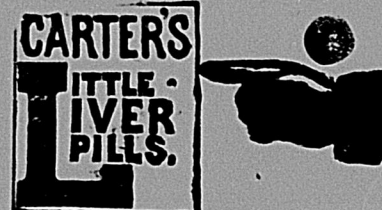

What do women know about corsets?

The doctors and women together know all there is to be known. They all agree that Ball's is the proper corset.

You can go to your store and get it and wear it two or three weeks and get your money again, every cent of it, if you want it.

The store has a primer on Corsets for you.

We Are After New Subscribers!

THE JOURNAL, both Daily and Weekly, excels all rivals in Montgomery county in circulation, but we are not satisfied. We must have a large number of new subscribers, and quickly, too. Therefore, we have arranged to make the following

2 Great Inducements.

GRAND PREMIUM OFFER!

A SET OF THE

WORKS OF CHARLES DICKENS,

In Twelve Large Volumes,

Which we Offer with a Year's Subscription to this Paper for a Trifle More than Our Regular Subscription Price.

Wishing to largely increase the circulation of this paper during the next six months, we have made arrangements with a New York publishing house, whereby we are enabled to offer a premium to our subscribers a Set of the Works of Charles Dickens, in Twelve Large and Handsome Volumes, with a year's subscription to this paper, for a trifle more than our regular subscription price. Our great offer to subscribers is even more popular to-day than during his lifetime. No author before or since his time has won the fame that he achieved, and his works are even more popular to-day than during his lifetime. They abound in wit, humor, pathos, masterly delineation of character, vivid descriptions of places and incidents, thrilling and skillfully wrought plots. Each book is intensely interesting. No home should be without a set of these great and remarkable works. Not to have read them is to be far behind the age in which we live. The set of Dickens' works which we offer as a premium to our subscribers is handsomely printed from entirely new plates, with new type, and is absolutely unabridged.

The twelve volumes contain the following world-famous works, each one of which is published complete, unchanged, and absolutely unabridged:

DAVID COPPERFIELD, MARTIN CHUZZLEWIT, NICHOLAS NICKLEBY, DOMBEY AND SON, BLEAK HOUSE, LITTLE DORRIT, OUR MUTUAL FRIEND, PICKWICK PAPERS.

BARNABY RUDGE AND CHRISTMAS STORIES, OLIVER TWIST AND GREAT EXPECTATIONS, THE OLD CURIOSITY SHOP AND THE UNCOMMERCIAL TRAVELER, A TALE OF TWO CITIES, HARD TIMES AND THE MYSTERY OF EDWIN DROOD.

The above are without question the most famous novels that were ever written. For a quarter of a century they have been celebrated in every nook and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens' works. The usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.
